The Proposition is: Shall Schools Remain Open?

ENDORSED IN NINTH WARD.

Meeting Addressed by Superintendent Cooper, Frank B. Stephens and J. 6. McAllister.

The special school election will be held tomorrow from 7 o'clock in the morning to 7 o'clock in the evening. The election will decide whether the schools shall remain open until the end of the year, or whether they will be closed on April 26th, and thereby preventing over 100 pupils from graduating. The results of the latter condition

can easily be seen. The meeting held in the Ninth ward on Saturday evening to consider that preposition was fairly well attended. J. G. McAllister was chairman of the meeting and E. W. Wilson acted as

Mr. McAllister called the gathering Mr. McAinster cannot the gathering to order and in doing so took occasion to give his reasons why the school board should be authorized to borrow the \$30,000 to keep the schools open. He acquitted the board of any undue ex-travagance asserting that the deficit travagance asserting that the deficit travagance asserting that the exwas the inevitable result under the existing conditions. He read a letter from Clerk J. B. Moreton of the school board, showing the rapid increase in the school population, and that the president of the board in his last report had anticipated the situation in which the board now finds itself. Mr. Moreton's letter went on to ascribe the reason's for the version of the strategie in the funds, citing present shortage in the funds, citing the fact that the schools had increased abers to the amount of 960 in 1900 done, but the taxes had not been in-

alone, but the taxes had not been increased. It was also pointed out that the schools would be demoralized if they had to be closed early.

Frank B. Stephens was called on to speak. But he said he would not discuss the situation as Superintendent Cooper was present and could present it much more clearly. Before sitting down much more clearly. Before sitting down, however, he said that he wanted the schools to remain open for the rest of the year, and would vote to give the poard authority to borrow money

enough to keep them open.
Superintendent Cooper then delivered an address, setting forth in a succinct manner the reasons why the hard should be allowed to borrow. He said that he could run the schools for \$50,000 less per year than the present cost of running them, but to do so, he would have to cut the teacher's salaries down about 15 per cent and cut the teaching orce down. This would, however, break lown the schools, drive the best teachers out of the city and Sait Lake could boast of her schools no more. Mr. Cooper said that there was no ground on which the voting down of the propo-

on which the voting down of the proposition could be justified. His speech was heartily applauded.

Blood Poison 2007

THE MOST DESTRUCTIVE OF ALL HUMAN DISEASES.

The poison ejected from the fangs of the rattlesnake is not more surely fatal than the virus of Contagious Blood Poison, which pollutes and vitiatas the blood, destroys the tissues and bones and eats like a canker sore into the flesh.

This horrible disease appears first in the form of a little sore or blister; soon the glands begin to swell, pimples break out on the body, the mouth and throat become sore, making it painful to eat or swallow; dreadful ulcers appear on the tongue, copper colored splotches and other characteristic signs of Blood Poison come as the disease progresses, and the destructive virus takes deeper hold upon the system. The medical men are as sorely perpiexed over the character of this blood poison as ever; they tell you to take mercury and potash alternately for three years, but the stomach of no human being can stand this treatment long; besides, they do not cure the disease of the stomach of the stom not cure the disease permanently, as thousands who have tried it know,

WELLINGTON, KAS., Sept., 1900.

I contracted Blood Poison two years ago this fall, and was persuaded to try a medicine widely advertised by a remedy company in Chicago. I was required to pay a large amount in advance, and can truthfully say that I was worse when the treatment was left off than when I began. Reddish pimples would break out and fill with yellowish matter; copper-colored spiotches of all sizes would appear on my body; my throat was so sore I could scarcely swallow, and my mouth and tongue were seldom free from ulcers; tonsils were swollen, and my hair was coming out rapidly. This was my condition when I began and finally disty your S. S. OPENING OF THE BASEBALL SEASON

Salt Lakes Manage to Defeat the Railways 10 to 5.

ATTENDANCE NEARLY 2,000.

All Things Considered the Contest Was Very Good - Park City Wins from Ogden.

It was a good game played by the Salt Lakes and Railways Saturday afternoon, and gave a fair idea of the kind of baseball Salt Lake fans can expect during the season. The event was witnessed by close onto 2,000 persons, and judging from their manifestations of approval, they enjoyed it to the fullest extent.

The usual army of rooters were on hand, and they made two hours hide-ous with their howls of delight and witticisms. The somewhat chilly atmosphere had no effect upon them whatever, unless it was to enhance their ardor.

It was pleasing to note that hostilities began almost on the dot of 3:30 o'clock Mayor Thompson pitching the first bal and taking great pains to send it careening over the plate. Considering the early morning shower, the dia-mond was in excellent condition, and even little Asbury trod the field with-out fear of suddenly disappearing from

Of the two teams it must be said that it is too early in the season for comparison; although the Sait Lakes played a more even and steady game and withall a bit less rusty than did their competitor, the Railways. But as before stated, it is too early to fix

an opinion in this particular, Individually some of the players made good impressions. McCausiand showed that he was an old hand behind the bat. He takes everything without being surprised and looks happy Pace of the Railways also made a good showing, but was slightly bashful in negotiating with second base, on one or two occasions. Both pitchers did well, and in allowing hits were about even, Beville having the better of it by one point. That gentleman sends 'em in with a vengeance and creates some really naughty curves. calculated to inspire the timid ones with awe. Webster is undoubtedly good timber, and it is safe to predict a record for him ere the season closes. a record for him ere the season closes. He was perfectly cool throughout and uses good judgment. The Margetts boys played spiendidly on first base, both making builliant stops. All the other boys held up their part of the contract to the general satisfaction of the fans assembled. A feature of the contest was a nhenomenal left-handed catch of Capt. Dud Risley of the Salt Lakes.

The new rules seemed to suit every April 4th, when \$6.17% marked the top price of the season, but buyers have succeeded under pressure of heavy receipts in forcing concessions bod but Umpire Hugh Smith, who was compelled once in a while to conwas compelled once in a while to consult his book and "read up."

Most of those present were surprised at the result of the game, for they expected the Railways to scoop the erel leaf. Up to the fifth inning they kept the Salt Lakes down to zero, while they had two runs to their credit. Af-ter that fortune smiled on the other fellows, and they won out, 10 to 5.

BASKETBALL GAME. Danville Team Again Defeated by L. D. S. Boys.

The Danvile Y. M. C. A. basketball team ought to feel satisfied now. A week ago the team was defeated by the L. D. S. College boys, but the visitors were anything but satisfied and insisted on another game. They said they were not used to the hall. The L. D. S. team agreed to meet them again, and accordingly, the teams met Satur lay night in the Armory Hall, One of th ers was ill and it necessita in the line-up in the team, whi urally weakened it somewhat, which nat. Capt. Bassett played played well. He made five center and goals from foul line, which is a remarkable rec-ord. The contest consisted of 20 minute

SOCIAL AND PERSONAL The P. E. O.'s entertained their

friends very delightfully on Friday af-Steiner on R street. The guessing contests created much amusement, the prizes being won by Mrs. Bentz and prizes being won by Mrs. Bentz and Miss Goddard. Mrs. Christy, Mrs. Ganz, and Mrs. Kate B. Anderson furnished the music of the afternoon. Mrs. Hugh Park read an excellent paper, and Mrs. Jno Reed gave several selections in her usual happy manner. Very dainty refreshments were served in the dining room, which was beautifully decorated in yellow and white, the society colors. HUNT FOR A BRIDEGROOM. A Tooele County Sheepherder is Married by a Deputy Sheriff.

After a gearch of nearly three hours in the southern part of the city on Saturday evening Assistant County Attorney Loofbourow and Deputy Sheriff Cummings located Annie Eastlen at the house of one Jameson, in Waterloo where she had been staying and carried her off in a hack to the house of County. Clerk James to get a marriage license, Her flance, John Lamont, was in the carriage, and after the license had been issued the marriage ceremony was celebrated, the knot being tied by Deputy Cummings. Mr. James refused to unite the couple, probably consider-ing that he had fulfilled the duties inumbent on him as county clerk in 'All's well that ends well." and this

was certainly a better ending than might have been to the business on which Dep. y Cummings left the sher-iff's office. He left armed with a warrant for the arrest of Lamont, which was sworn out by Miss Eastlen, who accuses Lamont of being the father of her unborn child. The young man, who is 25 years old, his bride being six years older, is a shepherd in Toole county, and the sheriff was on his way ther take his man, when he was saved take his man, when he was saved trip by running into the object of hi search on East Temple street. RIG AND SAIL PLAN OF THE BOSTON CUP DEFENDER INDEPENDENCE.

The above picture gives an idea of the manner of rigging the big racing machine which Designer Crownin-hield is rilding for Thomas W. Lawson of Boston and which will contest the right of defending the America's cup with the new York Yacht club's boat, Constitution. The Lawson yacht will carry the enormous sail spread of 14,611 square feet of univas. Part of this will consist of a monster club topsail, the head of which will be 172 feet 7 inches above the deck. There are some other interesting dimensions about the rig of the Independence, as will be seen by the accompanying dia-
