Cold Snap—Railroad Travel—Dull Times—Bad Accidents.

OGDEN CITY, Utah, September 3rd, 1874.

Yesterday afternoon we experienced a sudden change in the weather, from heat to cold, the wind having shifted from the south to the north, and in the evening the northern mountains were capped with snow. A kind which are the sure forerunners of rough winds, which last night culminated in a rude gale.

The U. P. train, due here at 5.40 a.m. yesterday, travelled all night, and arrived here at 11.30 a.m. The delay was caused by a washout in the road east of Green River. For several days past travel on each road, east and west, has been considerably increasing.

Trade in this place is almost fearfully dull. Scarcely any business is doing, and the merchants, who complain sadly of these adverse times, with no prospect of the times and trade becoming much better at present.

Between five and six o'clock yesterday, p.m., as Lorin Wheeler, a young man about twenty years of age, son of Mr. Wheeler, was working at the saw mill, edging up some lumber, met with a terrible accident. The saw got fast between the cutting and the young man's left hand in a fearful manner. This morning he arrived in this city, being unable to walk, and his right hand being in a dangerous condition.

No sooner had the doctor got through with Mr. Wheeler, than he was called upon to attend to a child about four months old—of Mr. Geo. Perry, who resides in this city. It appears that the child was left on a table in an exposed position, and that the child got possession of the box and drank about two table-spoons of the liquid, which burned the mouth and intestines of the child in a fearful manner.

In a habeas corpus case before Judge Donahue of the Supreme Court, a police officer, who admitted that he had signed a warrant without knowing its contents, trusting to the assurance of his clerk, and of his clerk, that it was all right; it proved all wrong, and his offense is to be laid before the grand jury.

The commissioners of accounts have made an examination of the books of the Charity Commission, and make a report, which is full of irregularities in distributing supplies, deceit in making returns, fraud in letting contracts, altering of books, and everything in a general middle.

CLEVELAND, 4.—Professor Kings' balloon, "Buffalo," ascended from the public square at eleven this morning. In addition to the professor, it contained L. E. Hagen, of Boston, D. E. O'Connell, of Cleveland, and the representatives of the Herald, Leader, and Free Dealer.

The Greenville Fire.—MEXICO, 4.—Further notices from the Greenville Miss. state that the origin was doubtless incendiary. Nearly all the business houses, in all 77, were burned, and about a million dollars' worth of property destroyed.

CASH AND LIBERTY.—Eternal vigilance and constant cash appear to be the price of liberty in Italy. Unification and independence cost money, and the Italians
