TRUTH AND LIBERTY.

## The Stockade Has Been Wiped Out.

There is no stockade in Salt Lake. Fulfilling to the letter his oath of office in the enforcement of the law, Sheriff Joseph Sharp, ably a ded by members of the Central Betterment committee and supported with an efficient force of deputies, has closed the infamous walled city. A visit to the place last night revealed all entrance effectually closed. Deputies were posted to prevent the swarming hordes entering the place. No women, except a few carctakers permitted to watch over property there and to pack up ready for moving day, were in the resorts. That the stockade will remain closed is the assurance of Sheriff Sharp. In addition to closing the stockade the sheriff's office will next turn its attention to the streets of the city which the police department allows to be injested with negro pickpockets and street walkers. To clean up the city is the sheriff's plan, even though obstacles are set in his way by the police. department. Although the council amended the ordinances to comply with the new state law covering the cases, no surprising activity may be expected from the city peace officials in the light of their past record. The admission was made by councilman Martin in the council session last night that the sheriff had done the work that the police had left undone.

The "stockade" is closed. That infamous institution, conceived and established in violation of law, and against all principles of morality and right; projected by a notorious woman of the underworld whose business it is to drag men's souls to the deepest depths, fostersouls to the deepest depths, foster-ed and encouraged by certain busi-ness men who saw in the establish-ment of the infamous place naught but the glitter of gold; the place which has flaunted openly and flagrantly its object, without fear of police interference, and spread its crime-stained tentacles over the space of a block, walled in from observation—a city of crime, with-in a city of good order. The "stockade" is closed. Sheriff Joseph Sharp, when he found the police department of Salt Lake City indifferent, even flurnishing protection to the inmates of the hell-hole and issuing warnings to them of the approach of the sheriff's deputies, determined to oblitester the spectrose mereth

sherlff's deputies, determined to sheriff's deputies, determined to obliterate the cancerous growth from the city. He ordered his de-futies to enter the place and ar-rest the lawbreaking women with-in. They were openly violating the laws of the commonwealth, under the protection, as they thought, of

the police. Sheriff Sharp declared that the sink of inluity should not exist, And it is closed. First, about 30 women, innates of the place, were arrested and charged with vagrancy. There was ample evidence produced against them, and the women pleaded guilty. They were given "floaters" with the understanding that they would leave the city. Some of them did leave, but some of them re-turned to the "stockade." Others were arrested, and permitted to go, under suspended sentence. The early arrests included only women who were occupants of the "cribs." The impression spread among the

who were occupants of the "cribs." The impression spread among the immates of the larger houses that they would not be molested. Finally the raid of Sunday morning came, and the "parlor" houses were includ-ed. The women were taken en-tirely unawares. Even the vigilance of the police department to keep them posted as to the approach of the sheriff's officers were unavail-ing, and their note of warning came too late. Forty-two women, including several "landladies" were taken to the county jall, and in default of \$750 bonds, remained in "durance vile" for two days and mights. The "landladies"

furnished bail, and left the women in jail. The vaunted promise made by Belle London, in bringing the unfortunate women to this city that should they be arrested she would bail them out if it took \$10,-000 each, was not maintained, and the women were compelled to rewould ban them out if if not \$10, \$10, 000 each, was not maintained, and the women were compelled to re-main in the cells. Yesterday after-noon, notwithstanding the boasts made by a Mr. Newton that they would "fight the case" and take it to the supreme court, the wo-men meekly pleaded guity to vagrancy, and were given the per-mission to appear Thursday morn-ing for sentence, providing they are still in the city. The women declared they were sick of Sait Lake, and that they would never show their faces in Sait Lake again. And so the "stockade" is closed. Sunday night a force of deputies was at the entrances to the place, and saw that no one went in or out, All day Monday and all night the officers were on guard. No one

the officers were on guard. No one went in to the "stockade." And had they gone in, they would have found all the houses locked tight, and unoccupied. The efforts of the Clizens' Betterment League have borne fruit, and Sheriff Sharp has kept his word, and the "stockade" is closed.

Washington, June 29 .- Many people defied the torrid weather and went to the Capitol today to see started the first senatorial battle for an income tax. The heat, if possible, wa even more intolerable than that of yesterday, yet a larger number of senators entered the chamber and all were clad in the coolest garments obtainable. Senator Brown endeavored to obtain unanimous consent to take up the in-come tax resolution. Demuring to this suggestion, Senator Balley pointed out that such a course would be in contra-vention of a unanimous consent pre-vlously recorded for the consideration of his income tax amendment. Remarking that he thought it would be well at once to get out of the way the question of the constitutionality of the income tax, Senator Brown did not press his request and no action was taken to interfere with the course agreed upon for disposing of the Balley annumber.

To give force to that pur-pose he said he would move to lay on the table any other amendments that might be offered at this time.

Senitor Tillman lost no time in re-newing his effort to have a duty of 10 cents a pound placed on tea in the interest of the tea grown in South Caro-lina. The South Carolina senator told of the superior quality of the Ameri-can-grown tea and of the enormous profits made in the imported article. Has Been Provoked by Real Abuses.

Paris, June 29.-Signor Gugielino Ferrero, the Italian historian, who visited the United States last year, continued the publication in the Figaro today of his comments on the anti-plutocratic

movement in America. He calls attention again to the lack of organized resistance on the part of the rich, which he explains by a general recognition on their part that the movement has been provoked by real abuses which

must be corrected. Many wealthy people sympathize with this movement openly and some sons of rich men have thrown themselves into the fight. This fact, the writer considers to be an-other proof of endurance of idealism in America, where the basis of every-thing is the theoretical rule of the maat jority. The infiltration of anti-pluto-cratic ideas among the masses is recog-

lized and the Republican party, al though allied to the interests of the rich, has realized that it could not adopt too hostile an attitude without provoking revolt. Signor Ferrero is of the opinion that the picture painted by Maxam Gorky and others of the vicious Maxam Gorky and others of the vicious rich American oligarchy cringing before the masses is erroneous and says the belief is held in some quarters in Europe that the masses in America are organizing a revolution to despoil the

wealthy. Signor Ferrero, in promising the final installment of his articles, explains the grounds for his conviction that the fee-ble defense which the rich men of America are making against this antiplutecratic movement will not result in a social catastrophy.

serious side of the two days' traffic disturbance lies in the loss of the car companies in tariff fares, tha loss of wages to the union men, the oss of department store trade, salaries for extra police and the general de-moralization of business conditions throughout the city. It has been esti-mated that Monday alone brought the total cost of the strike close to \$250,000
