

## INCREASE MAY BE DEFEATED.

Four Principals Object Because They Will Not Receive Maximum Salary.

IS LAID OVER FOR ONE WEEK.

A Number of New Teachers Engaged—Clerks' Salary Fixed at \$2,000 Per Annum.

At the regular monthly meeting of the city board of education last night, the report of the committee on teachers and school work, recommending an increase in the salaries of all of the principals of the schools in proportion to the number of teachers under them, was laid over for one month. Principals J. L. Cross of the Wasatch, W. S. Wallace of the Union, E. S. Hallcock of the Franklin and H. B. Folsom of the Washington school entered a written protest against the proposed increase, because they will not receive the maximum salary, as they do now under the present system. Each of these principals has 17 teachers in his building, and receives the present maximum salary of \$400 per month. Under the proposed change they would receive \$50 per month and \$425 additional for each teacher under them, making their total salary \$102.25 per month, or \$7.75 less than the maximum salary. It is probable that the objections to the proposed scheme may defeat any increase in the salaries of the principals whatever.

**NEW TEACHERS ENGAGED.**  
Upon the recommendation of the committee on teachers and school work, the following were employed at the salaries stated: Misses Nellie Hann at \$70 per month; Ethel McDonald, \$35 per month; Eleanor McAllister, \$50 per month; Leola Shook, \$40 per month; Mrs. E. Shepard, \$75.00 per month; Mrs. Minnie Hahn, \$45; Miss Clara Larson, \$35; Miss Bertha Martin, \$45; Miss Louise Raymond, \$60; Miss Jennie Brecken, Miss Adelaide Joyce and Miss Charlotte Stewart at \$35 per month. Increases in salaries were decided upon as follows: Miss Eugenia Mott, from \$65 to \$75; Miss Theresa Goble, from \$75 to \$85; Miss Jennie Canfield, from \$75 to \$85; Miss Elizabeth Bond, from \$75 to \$85; Miss Nettie Meyers, from \$75 to \$85; Miss Emma Mitchell, from \$75 to \$85; Miss Susie Wilton, from \$60 to \$70.

### CHILDREN'S DAY AT FAIR.

Friday will be children's day at the state fair, so the board decided to close all of the schools in the city on that day so as to allow the teachers and pupils an opportunity to visit the fair. A communication was received from the trustees of school district No. 35, stating that 16 pupils residing inside the city limits attended school in that district. The board was asked to pay the city's proportion of the expense of maintaining the school or pay for the attendance of the 16 pupils. It is said the pupils attend that school because it is so much nearer than any city school. The matter was referred to the committee on teachers and school work for consideration.

### CLERK'S SALARY FIXED.

The board decided by a unanimous vote to fix the salary of Clerk L. P. Judd at \$2,000 per year. The salary of W. J. Topplin, janitor of the science building, was increased from \$45 to \$75 per month. Appropriations for equipment for the laboratories for the two high schools were made. The sum of \$500 was appropriated for the West Side High school and \$288.62 for the Bryant High school.

### ORGAN RECITAL SEASON.

It ended at the Tabernacle yesterday With Fine Program.

The great throng at the state fair did not seem to have much effect on the attendance at the closing organ recital of the season in the Tabernacle yesterday, for the galleries were nearly filled. The program was well selected, as follows: Overture to Pretty Galatea; Supper; Barcarolle; Fantaisie; Cantata Nuptiale; Dubois; Elsie's Bridal; Overture to Oberon; Wagner's Lohengrin; Overture to Oberon; Weber's performance was one of the best yet given by Prof. McClellan, and he fairly shone in the Oberon overture. This is one of the most technically difficult compositions in the concert repertory, requiring the closest attention to the score, while the pedaling is Bach-like in intricacy. The entire overture was handsomely played, and the organist was afterwards warmly complimented on his achievement. The Wagner number was also a favorite in which the performer was most felicitous in his registration. The suppers were well received by the audience, and appreciated. It was announced that while this was the last regular recital of the season, there would be a special recital Friday evening next in the Tabernacle for the benefit of conference visitors, and that musically inclined people, whether in attendance on the conference or not, were cordially invited.

### WARD REUNION.

Saints of Wilford Celebrate Their Fourth Anniversary.

The people of Wilford ward, in the Granite Stake, met in their meeting-house Friday evening and celebrated the fourth anniversary of their organization as a ward in a very fitting manner, it being their custom to celebrate that date each year. There were quite a number of visitors present from neighboring wards besides President Frank Y. Taylor and Mrs. S. H. and wife, Mr. Morris Young, wife and daughter, and Mr. and Mrs. Fred C. Sanford. The evening's enjoyment began with a program of appropriate numbers, one of which was the unveiling of two life-sized portraits, one of President Lorenson and the other of President Frank Y. Taylor, which were placed on

Your money returns you money if you don't like Kallings' book.

## Correct Clothes for Men

Man or woman cannot resist an engaging exterior; it will please, it will make its way.

—Lord Chesterfield to his son.

An engaging exterior is assured by the clothes that bear this label

Alfred Benjamin & Co. MAKERS \* NEW YORK

Equal to fine custom-made in all but price. The makers' guarantee, and ours, with every garment. We are Exclusive Agents in this city.

Gray Bros. & Co. 154 Main Street

### KINDLY TAKE NOTICE THAT ELY'S

Liquid Cream Balm is of great benefit to those sufferers from nasal catarrh who cannot inhale freely through the nose, but must treat themselves by spraying. Liquid Cream Balm differs in form, but not medicinally from the Cream Balm that has stood for years at the head of remedies for catarrh. It may be used in any nasal atomizer. The price, including a spraying tube, is 75 cts. Sold by druggists and mailed by Ely Brothers, 56 Warren St., New York.

### DIED IN HIS WIFE'S ARMS.

Sudden Demise of Dr. W. H. Chapman, A Civil War Veteran.

Dr. W. H. Chapman died suddenly at his home last night of neuralgia of the heart. He had been ill only a few hours and his death came as a great shock to his immediate family. Yesterday he was able to attend to his duties as usual, but on returning in the evening was taken violently ill. Dr. S. Ewing was hurriedly summoned, but before his arrival the patient had expired in the arms of his wife.

Dr. Chapman was 59 years of age, and served through the civil war in the Sixteenth Maine volunteers. At one time he was a prisoner in the famous Libby prison. He came to Utah in 1890 from Colorado and since then has lived here with his family, consisting of a wife and six children—two sons and four daughters. Dr. Chapman is well known in mining circles as an expert on that subject.

### BOOM IN WEDDINGS.

County Clerk's Office Working Full Blast Issuing Licenses.

The conference rush is on in full blast at the county clerk's office and the marriage license deputies are kept busy issuing licenses to applicants from all parts of the northwestern territory. Fifty persons or 25 couples were granted licenses to wed yesterday. Some of them came from Idaho, Arizona, Wyoming, Colorado and even as far as Canada. Salt Lake was represented by only two couples, so it will be seen that a very large majority were conference visitors. Two of the couples were married in the clerk's office, but the others were married elsewhere, most of them probably in the Temple. It is expected that the remainder of this week will be as strenuous in the marriage license business as was yesterday.

### LIBERTY LOOKS WELL.

But Typhoid Fever is Causing Some Trouble at That Place.

Among friends from the outside who called on the "News" today were Bishop E. N. Austin of Liberty, Ida, and George E. Gardner of Montpelier, the same state. Both gave interesting reports concerning their particular sections. Regarding Liberty, Mr. Austin said that conditions were all that could be desired, except as to an apparent epidemic of typhoid fever at that place. At Sharon on Monday morning a well known farmer in the person of John Prescott died suddenly from appendicitis, an affliction that he had suffered from considerably. He leaves a large family of young children, and his wife was prostrated with grief over the bereavement. In fact she has been suffering with heart disease for a long time, and her condition was looked upon as being very grave.

### PARDON FOR ABE MAJORS.

Another Attempt to Secure Freedom For Notorious Criminal.

A petition is being circulated for signatures of the citizens who are put in the position of asking for official clemency for Abe Majors, the notorious young criminal who was condemned to die for the murder of Capt. Brown of Ogden, but whose sentence was commuted to life imprisonment. In view of Majors' whole career and his connection with the late prison break it is difficult to understand how a pardon can be asked for. However, it is being done and in a manner that can hardly meet with public approval.

## SOCIAL AND PERSONAL.

At noon today the marriage of Mrs. Henrietta McLaughlin and Dr. W. A. McEnery of London took place in Washington, D. C., and afterward the pair left for St. Louis. It is expected that Dr. and Mrs. McEnery will arrive in Salt Lake within the next two or three weeks to make their home.

### Miss McGrath entertained at luncheon today.

Mrs. W. G. Sharp and Mrs. Thomas Lewis leave tomorrow for New York.

Mrs. Frank J. Cannon is visiting her daughter, Mrs. Hyde, for a few days.

Mrs. James Adams entertained at an elaborate luncheon at the Alta club yesterday in honor of Mrs. Truman of Michigan, covers being laid for 15.

Mrs. Samuel Adams of Denver is visiting her parents, Mr. and Mrs. H. G. McMillan.

Mrs. J. A. Grossbeck entertained the members of her Sewing club informally at her home yesterday.

The wedding of Miss Hazel Shuebridge will take place today in San Francisco at the home of her sister, Mrs. E. L. Sheets.

## PEACE HYMNS.

The churches of the country have been stirred to unusual interest and activity in the cause of peace by the coming of the first week in October. In Boston itself a large committee of ministers has been formed, representing all the leading denominations to arrange meetings in the various churches on the Sunday preceding the congress, to emphasize the special duties of the churches and religious men in the peace cause. They have appealed to churches throughout the country for similar observance, and wide interest in religious circles has resulted. To meet this interest and demand, the committee of the peace congress has prepared a special sheet of "Hymns for the Peace Crusade," which is supplied at trifling cost by the American Peace society in Boston. There are 18 hymns altogether in the little sheet, and the following table of the first lines and writers will indicate their character and variety.

"God, the All-terrible King, who ordainest"—Chorley.  
"While sounds of war are heard abroad"—Arnold.  
"Come, kingdom of our God"—Johns.  
"Thy kingdom come, on benedict knee"—Hosmer.  
"The Lord will come, and not be slow"—Milton.  
"Watchman, tell us of the night"—Bowling.  
"Send down Thy truth, O God"—Edward L. Sill.  
"The morning light is breaking"—Samuel F. Smith.  
"Thy kingdom come, O God"—Hensley.  
"Angel of Peace, thou hast wandered too long"—Holmes.  
"Hush the loud cannon's roar"—Johns.  
"How beautiful are their feet"—Vail.  
"All men are equal in their birth"—Harriet Martineau.  
"O beautiful, my country"—Hosmer.  
"These things shall be a lotter race"—Symonds.  
"I came upon the midnight clear"—Edmund H. Sears.  
"Blue, crowned with light, imperial Salem, rise"—Pope.  
"Red blood, our native land"—Brooks and Dwight.

Many of these are old and familiar hymns, and all the better on that account for effective popular use. Others are not so well known, but hymns like the following by John Addington Symonds, out to be known and sung everywhere:

These things shall be! A lotter race  
Than e'er the world hath known shall be.  
With flame of freedom in their souls  
And light of knowledge in their eyes.  
They shall be gentle, brave, and strong,  
Not to spill human blood, but dare  
All that may plant man's lordship firm  
On earth and sea and air.

Nation with nation, land with land,  
Unarmed shall live as comrades free;  
In every heart and brain shall throb  
The pulse of one fraternity.  
Now arts shall bloom, of loftier mould,  
And mightier muscle thrill the skies;  
All every life shall be a song,  
When all the earth is paradise.

There shall be no more sin, nor shame,  
And warth and wrong shall fettered lie;  
For man shall be at one with God  
In bonds of firm necessity.

A man is prosperous in his business for a number of years and grows rich. Then Nature sets the "leveling influence" at work on him. Some of his investments lose. Perhaps it is whiskey, tobacco, coffee, wine, gambling, or some other form. The intent and purpose is to level him. Keep him from evolving too far ahead of the masses.

Here we see the leveling influence at work. A man is prosperous in his business for a number of years and grows rich. Then Nature sets the "leveling influence" at work on him. Some of his investments lose. Perhaps it is whiskey, tobacco, coffee, wine, gambling, or some other form. The intent and purpose is to level him. Keep him from evolving too far ahead of the masses.

Robert Linsey of Boston has just enlisted with the Twenty-ninth Infantry band. He was formerly with the Thirtieth cavalry in the Philippines.

Color Sergeant F. E. Barnum was discharged yesterday, having served his term of enlistment. He re-enlisted. Sergt. William Still of H company has returned from a two months' furlough.

Robert Linsey of Boston has just enlisted with the Twenty-ninth Infantry band. He was formerly with the Thirtieth cavalry in the Philippines.

The new Lincoln monument which has been erected at Barker hill to the memory of Abraham Lincoln by Captain Charles Clinton of Cincinnati, O. It is a notable work of art and has attracted much favorable comment from those who understand such matters. The base upon which the statue

is erected is six feet in height. It is surmounted by the erect figure of the great emancipator seven feet two inches in height. This statue is of bronze and the pedestal of granite bears the simple inscription "Lincoln, 1881-1885." This rests on a series of three steps, upon which is the figure of a woman writing the legend, "With malice toward none."

An albatross has been known to follow a ship for two months without ever having been seen to alight.

NOTE.—The following article has been widely published and is one of the most remarkable illustrations of the value of careful handling and analysis of facts in presenting a subject to the public.

### LEVELERS

The Mission of Whiskey, Tobacco and Coffee.

The Creator made all things, we believe. If so, He must have made these. We know what He made food and water, for air and sunshine, but why Whiskey, Tobacco and Coffee? They are here sure enough and each performing its work.

There must be some great plan behind it all; the thoughtful man seeks to understand something of that plan and thereby to judge these articles for their true worth.

Let us not say "bad" or "good" without taking testimony. There are times and conditions when it certainly seems to the casual observer that these stimulant narcotics are real blessings.

Right there is the ambush that conceals a "killing" enemy. One can slip into the habit of either whiskey, tobacco or coffee easily enough, but to "untangle" is often a fearful struggle.

It seems plain that there are circumstances when the narcotic effect of these poisons is for the moment beneficial but the fearful argument against them is that seldom ever does one find a steady user of either whiskey, coffee or tobacco free from disease of some kind.

Certainly powerful elements in their effect on the human race. It is a matter of daily history testified to by literally millions of people that Whiskey, Tobacco and Coffee are smiling, promising, beguiling friends on the start, but always false as hell itself in the end. Once they get firm hold enough to show their strength,

they insist upon governing and drive the victim steadily toward ill health in some form; if permitted to continue to rule, they will not let up until physical and mental ruin sets in.

A man under that spell (and "under the spell" is correct), of any one of these drugs, frequently assures himself and his friends, "Why I can leave any time I want to, I did not quit a week just to show I could." It is a sure mark of the slave when one gets to that stage. He wiggled through a week fighting every day to break the spell, was finally whipped, and began his slavery all over again.

The slave (Coffee slave as well as Tobacco and Whiskey) daily reviews his condition, sees perfectly plain the steady encroachments of disease, how the nerves get weaker by day and demand the drug that seems to smile and offer relief for a few minutes and then leave the diseased condition plainer to view than ever and growing worse. Many times the Coffee slave realizes that he is between two fires. He feels bad if he leaves off and a little worse if he drinks and allows the effect to wear off.

So it goes on from day to day. Every fight in the struggling victim promises himself that he will break the habit and next day when he feels a little bad (as he is quite sure to) breaks, not the habit, but his own resolution. It is nearly always a tough fight, with disaster about sure if the habit wins. There have been hundreds of thousands of people driven to their graves through disease brought on by coffee drinking alone, and it is quite certain that more human misery is caused by coffee and tobacco than by whiskey, for the two first are more widely used, and more hidden and insidious in the effect on nerves, heart and other vital organs, and are thus unsuspected until much of the disease work is done.

Now, Reader, what is your opinion as to the real use of the Creator has for these things? Take a look at the question from this point of view. "There is a Nature and of Nature's God that things slowly evolve from lower planes to higher, a sturdy, steady and dignified advance toward more perfect things in both the physical and spiritual world. The ponderous tread of evolution developed, is fixed by the Infinite and will not be quakened out of natural law by any of man's methods. Therefore we see many illustrations showing the Creator's two great laws of advance. Illinois raises phenomenal crops of corn for two or three years. If she continued to do so every year her farmers would advance in wealth beyond the dreams of other sections or countries. So Nature interposes a bar every three or four years and brings on a "bad year." Here we see the leveling influence at work. A man is prosperous in his business for a number of years and grows rich. Then Nature sets the "leveling influence" at work on him. Some of his investments lose. Perhaps it is whiskey, tobacco, coffee, wine, gambling, or some other form. The intent and purpose is to level him. Keep him from evolving too far ahead of the masses.

## Amusements

Florence Roberts gave her powerful performance of "Tess of the D'Urbervilles" last night and at the matinee this afternoon. Tonight we are to see the first production of her new Spanish play "Marta of the Lowlands."

"Arizona" runs the remainder of the week at the Grand.

The final performance of the operetta "The Countess" will be given in the Eighteenth ward hall this evening.

The law of the unit is the law of the mass. It goes through the same process. Weakness in childhood, gradual growth of strength, energy, thrift, probity, prosperity, wealth, comfort, ease, relaxation, self-indulgence, luxury, idleness, waste, debauchery, disease, and the wreck follows. The "levelers" are in the bushes along the pathway of every successful man and woman and they bag the majority.

Only now and then can a man stand out against these "levelers" and hold his fortune, fame and health to the end. So the Creator has use for Whiskey, Tobacco and Coffee to level down the successful ones and those who show signs of being successful, and keep them back in the race, so that the great "field" (the masses) may not be left too far behind.

And yet we must admit that same all-wise Creator has placed it in the power of man to stand upright, clothed in the armor of a clean cut steady mind and say unto himself, "I decline to exchange my birthright for a mess of pottage."

"I will not weaken my senses, weaken my grip on affairs and keep myself cheap, common and behind in fortune and fame by drinking with whiskey, tobacco or coffee. Life is too short. It is hard enough to win the good things, without any sort of handicap, so a man is certainly a 'fool trader' when he trades strength, health, money, and the good things that come with power, for the half-asleep condition of the 'drugged' with the certainty of sickness and disease ahead."

It is a matter each individual must decide for himself. He can be a hero or semi-hero if he will, or he can go along through life a drugged clown, a cheap "heaver of wood or carter of water."

Certain it is that while the Great Father of us all does not seem to "mind" if some of his children are foolish and stupid, he seems to select others (perhaps those he intends for some special mission) and allows them to be lashed and castigated most fearfully by these "levelers."

If a man tries flirting with these levelers awhile, and gets a few slaps as a hint, he had better take the hint or a good deal of howl will follow.

When a man tries to live upright, clean, thrifty, sober, and undrugged, manifesting as near as he knows what the Creator intends he should, happiness, health and peace seem to come to him. Does it pay?

This article was written to set people thinking to rouse the "God within" for every highly organized man and woman who feels when they feel a something calling from within for them to press to the front and "be about the Father's business" don't mistake it; the spark of the Infinite is there and it pays in the way of happiness, peace, and even worldly prosperity, to break off the habits and strip clean for the work cut out for us.

It has been the business of the writer to provide a practical and easy way for people to break away from the coffee habit and be assured of a return to health and all of the good things that bringings, provided the abuse has not gone too far, and even then the cases where the body has been rebuilt on a basis of strength and health run into the thousands.

It is an easy and comfortable step to stop coffee instantly by having well-made Postum Food Coffee served rich and hot with good cream, for the color and flavor is there, but none of the caffeine or other nerve destroying elements of ordinary coffee.

On the contrary the most powerful restorative elements furnished by Nature are in Postum and they quickly set about repairing the damage. Seldom is it more than 2 days after the change is made before the old stomach or bowel troubles or complaints of kidneys, heart, head or nerves show unmistakable evidence of getting better and ten days time changes things wonderfully.

Literally millions of brain-working Americans today use Postum, having found the value and common sense in the change.

C. W. POST.

Get the famous little book, "The Road to Wellville," in each package.

## DANGERS TO BE AVOIDED IN OCTOBER.

DURING the warm summer months the skin has been freely throwing off the impurities of the body in the form of perspiration.

THE cool days and cooler nights of October, in a measure, stop the action of the skin.

IMPURITIES which heretofore were thrown off by the skin, must find some outlet. They should be excreted by the kidneys.

A GREAT STRAIN is thus thrown upon the kidneys. They are not always prepared for this increased labor. They break down.

THE POISONS passing through the kidneys serve to irritate them, and this condition soon develops into serious ailments, among them Bright's Disease.

THE LIVER, too, acts in sympathy with the kidneys. It becomes deranged, causing sallow skins, depression of spirits and lassitude.

AN ABNORMAL CONDITION of the bowels also presents itself. Constipation and other bowel troubles result.

THE blood becomes poisoned by the retained excretions. Pimples, blotches, muddy complexions are the first result and finally the whole system becomes deranged.

COLDS are very easily caught during this depleted condition of the system.

AT THIS TIME the kidneys, liver and bowels need a little encouragement, a little assistance—that is all.

PERUNA gives just this assistance. It gently stimulates these organs to increased function. Thus Peruna guards against the possibilities of disease.

PEOPLE INCLINED TO WEAKNESS of these organs ought to be especially careful during this month.

AT THE FIRST SIGN of disease, such as puffiness under the eyes
