Wright will arrive in the city today and will conduct services each evening up to Saturday at 8 o'clock in Volunteer hall, 51 East Second and South street.

In Bad Condition.—Deputy Sheriff Steele yesterday afternoon brought E. L. Bird in from Murray and put him in jail on charges of investigation as to his mental condition. Mr. Bird is about 50 years of age and has been employed in the smelters for some time and it is believed that his mental condition is caused by arsenic poisoning from inhaling smelter smoke.

New Warehouse Plans.—Architect L. S. Hodgson of Ogden, formerly of this city, is in town today and reports work booming in Ogden. His firm is completing plans for Scowcroft's warehouse. Its dimensions will be 118x236 feet, and which will contain four floors, 125,000 square feet more, than 150,000, than any other warehouse in the state.

Inspector Clark Returns.—Sanitary Inspector F. E. Clark of the state board of health has returned from Salt Lake City, where he investigated the sanitary conditions in that locality. He was called there on account of the reports of typhoid fever, but he found that there are not as many cases this year as last, and that the general health in that county is better than last year. PROCLAMATION NOT REQUIRED BY LAW.

Because Gov. Cutler did not issue a Labor day proclamation, the downtown organ of hatred, has taken another look at its customary fits, and is endeavoring to stir up the labor unions to the point of bringing censure upon the chief executive for his alleged neglect for the expense of the nation, and political capital out of the master. There is no reason why Gov. Cutler should be reproached any more than any of his predecessors, like the rest of the pro-slavery men for this occasion has been customary in this state and there is no law on the statute books requiring it. What is now necessary to Gov. Cutler, explains that the law is not sufficient to provide for anything of the sort for any holiday except one—Arbor day. However, in compliance with a time honored custom, the Labor day proclamations have been issued; but not because of any legal requirement.

CHEERFULLY RECOMMENDED FOR RHEUMATISM.

O. G. Hibbs, Danville, Ills., writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I then took a Snow Liniment, one bottle cured me."

I can cheerfully recommend it to all suffering from like affliction. \$c. 50c and 2.00. Sold by Z. C. & L. Drug Dept., 112 and 114 South Main St. B.

CAR TRACK IMPROVEMENT.

Third Avenue Line Extended to V, or West Street.

The regeneration of the Third avenue street car track has begun. A construction gang, under Roadmaster Bong, has extended the terminus at S street through to V or West street, and Fort Douglas avenue, where a curve has been put in, the overhead connections completed, and there is nothing now to prevent the Third avenue cars from running through to Fort Douglas. Excavation is in progress for a double track through from the O street switch to V street. The new and heavier steel rail is being laid in place of the old light iron that was put down after the mule car rails were taken up, and the much to be desired improvement will be continued through to V street thus doing away with the shaking up caused by heavy electric cars running over the old light tracks.

The first avenue cars are now running only as far as T street, as the connections east of that point have been taken out preparatory to second avenue's new macadamization. The cement guttering has been laid to the end of the avenue at V street, and the rock is down to R street.

INDICTMENT O. K.

Judge Marshall Renders Important Decision in Coal Case Demurrs.

In the United States court yesterday Judge Marshall overruled the demurrer interposed in the case of Don C. Robbins, and held that the indictment held good. Mr. Robbins was indicted by the federal grand jury for irregularity in the surveying of certain Utah coal lands. Other persons were indicted with him, and the court held that the indictment of a similar character will now go to trial as the case decided by Judge Marshall today covers the points made against the other defendants.

It was contended by John Walden, of Denver, that the laws regarding the acquisition of coal lands were insufficient to support the indictments brought against the persons named. The decision rendered by Judge Marshall is to the contrary, and the cases will go to trial on their merits.

BABIES THE CAUSE OF MUCH TROUBLE

Brave Men Secured to Judge Show of Infants at Lagoon.

MADE NOISES OF EVERY KIND.

Baseball Game and Boxing Exhibition Among the Athletic Features—Races for Men and Women.

The Lagoon closed the season yesterday with about 15,000 in attendance, most of whom were said to have been babies, judging by the din of vocal demonstrations during the afternoon.

A large program was carried out, among the last events, the baby show, being the very best from every stand-point. Babies of every description were entered for a large list of prizes principally cups, which were appropriate prizes for the "Infant Terrible." It is also said that long before the infant demonstration was ended, the judges of the judges were full to running over of the joys that go to make up a happy life. While there were but four judges, there were babies by the score, and such little ones never heard before, for the babies were born in the course of the mothers. The judges had passed through several noisy strikes, and had become steeled to almost any emergency, but here their hearts weakened, for awhile yesterday. There were babies born in the Lagoon, babies to the left of them, babies in front, babies to the right, in the walks, crowds in the shadowy risk, crowds in the dancing pavilion, crowds in the lunch pavilion, crowds in the restaurant, crowds in the arbors, crowds on the grass and crowds among the flowers, every one—excepting possibly a few hundred mothers—had the time of the season.
