SUGAR FACTORY CLOSED.

After a Successful Ninety-Day Run, Sugar Works are Shut Down for the Season.

Output, 55,000 Sacks of Sugar, About Same as Last Year—Funeral of Mrs. Jane Hastings.

The Ogden Sugar factory run the last beets through for this year Saturday evening, but today and tomorrow the employees are busy cleaning up the machinery and building, which will be closed up till next season. The factory has had a very successful run of just ninety days, and during that time 55,000 tons of beets have been used, the most of these were received during the month of October. The greater part of the beets were raised in Weber county, about 6,000 tons only being shipped in from other counties. About \$119,500 has been paid for beets, and about \$18,000 for labor, the pay roll was about \$4,000 per month. The farmers received \$4.25 per ton for their beets delivered at the factory this year.

The output of sugar which is about the same amount as was manufactured last year, but 2,000 tons more beets were used in last year's run than were used in this.

The benefits of the sugar beet industry in Weber county have been felt by both farmers and merchant, and it is expected that more beets will be planted in Weber county next year than were planted this.

FUNERAL OF MRS. HASTINGS.

The funeral services over the remains of Grandma Jane Hastings were held at the Third ward meeting house Sunday at 12 o'clock, Bishop White presiding. The singing was furnished by the ward choir, the opening prayer was by Elder Thomas Dickett. Elders John V. Buith and Gilbert Torgeson, President L. W. Shurtliff and C. F. Middleton took very feelingly of the noble life of the deceased who came to Utah in 1856. She was one of the honored mothers in Israel and a faithful Church worker.

Elder Charles Welch offered the closing prayer, after which a large company of relatives and friends followed the remains to the city cemetery where they were laid beside those of her husband. The grave was dedicated by Counselor James Wetherston.

The man giving his name as Frank Sparks, who was arrested by the police for forging checks, was given a hearing before Justice Hall and found guilty and bound over to the district court in the sum of \$500, which he was unable to furnish and he was therefore turned over to the sheriff for safe keeping.

Henry Fradgar, or Walger, who was arrested for stealing jewelry at Carlin, Nevada, was released yesterday, the authorities of that city not desiring to prosecute.

LIVELY RUNAWAY.

A lively runaway occurred yesterday on Twenty-third street, a team hitched to a surrey came dashing down the hill and turned to go along Washington avenue when the surrey struck against a telegraph pole and was badly demolished, and the team continued on the run.

Prof. George Eaton, of Salt Lake, was an Ogden visitor yesterday.

PROVO.

BATES MURDER TRIAL.

Prosecution Closes—Defendant on the Stand—Divorce and Other Cases.

Special Correspondence.

Provo, Utah Co., Dec. 10.—Charles Anderson, the young man who was working for Mr. Nordquist at the time of the trouble between Nordquist and Bates, was the last witness for the prosecution in the Bates homicide case. He testified practically as the other witnesses in regard to the scuffle between Nordquist and Bates and the striking of Nordquist by the defendant.

On cross-examination he testified that he did not hear Bates say to Nordquist, after he had thrown Nordquist the first time: "That is a starter; next time you will get a lick you will remember for life, you — — —". This closed the evidence for the prosecution.

THE DEFENSE.

The evidence of former Deputy Sheriff J. F. Bradley, of Tooele, given at the first trial was read by the defense from the transcript of the case. This evidence was in regard to the appearance of the ground where the encounter took place, and the appearance of the clubs that were used.

Defendant was next placed on the stand. He stated that his age was 30 years, and that he had a wife and two children at the time of the homicide. He had been acquainted with Mr. Nordquist about eight years before the time of the trouble and had lived near him for two years and frequently visited the Nordquists, with whom he was on friendly terms. On the day of the homicide he went to the Nordquist place in the forenoon and remained with Mr. Nordquist after Mrs. Nordquist had gone to the grocery store. He saw the son to the yard and passed some time in the house talking in a friendly manner. They had several drinks of alcohol together, and towards evening were under the influence of liquor. He denied throwing a tin pan at one of the girls or calling her a "bitch" before she ran to the corral. After going to the corral with Mr. Nordquist they talked about the cows. Witness made some remark about a certain cow being the best in the corral. Mr. Nordquist said some other cow was better, and invited witness to milk the cow. Witness thought was best, and asked Minnie to milk the other cow. While witness was milking the cow kicked and some of the milk was spilt. Mr. Nordquist asked witness if he spilt the milk, and witness replied that he did not. Witness said the cow had spilt it. Mr. Nordquist asked if witness meant to call him a — — —. Witness replied that he was too much of a gentleman to do that, he had referred to the cow. Mr. Nordquist took at witness and they clinched and fell to the ground, and wrestled several times. Witness did not know what time he was first struck. "This is a beginning, next time you will get something you will remember for life, you — — —" and did not boast about throwing a fence or kicking a man, nor had he used the expression, so far as he could remember, "I'll fight for my man." When they were on the ground

the fourth time they wrestled Mr. Lindberg tried to separate them but was prevented by Anderson. That was the first time witness thought Mr. Nordquist was angry. Mr. Nordquist tried to strike witness and tear his clothes. They were finally separated and Mr. Nordquist tried to strike witness, and struck at Lindberg, and picked up a stick and started after defendant. Defendant believed he was in danger, and picked up the club and struck at Mr. Nordquist, or threw the club at him. He did not leave the corral to pick up the club.

After striking Mr. Nordquist he went home, and came back to the Nordquist place to look for Mr. Lindberg, who he thought was still there. He remained about a hundred yards away from the house, and when Mr. Lee came out and told him that Lindberg was not there he went home, being accompanied by Mr. Lee, part of the way. He had told Mr. Lee that his brother was at the house to defend himself with.

The cross-examination of witness was not concluded when this report closed so far as it went it did not bring out anything new.

SENTENCES IMPOSED.

Bruce Dallin was fined \$50, or in default of payment sixty days imprisonment in the county jail, and Kittie Groesbeck was fined \$50, or in case of failure to pay the fine, fifty days imprisonment in the county jail. They were sentenced to pay the fine, and Mr. Dallin was ordered to appear in court for sentence on January 1st, and Mr. Dallin was ordered to appear in court for sentence on January 1st, and Mr. Dallin was ordered to appear in court for sentence on January 1st.

DIVORCE AND PROBATE.

Mrs. Annie Gudmundson, of Springville, was granted a divorce from Samuel T. Gudmundson by default, on the grounds of failure to provide. Attorney John E. White was granted \$15 and costs were allowed plaintiff.

Emma E. White vs Joseph E. White, defendant's demurrer submitted without argument and overruled.

Estate of Niels P. Madsen, deceased, petition to terminate life estate granted.

Estate of Vm. B. Dougal, deceased, final account approved and decree of distribution ordered.

Annie Marie Sanderson has commenced suit for divorce against Samuel Sanderson on the grounds of cruelty consisting of throwing an ax at plaintiff, and other acts of violence, and saying to plaintiff "I would like to fix you same way, you — — —" calling her vile names and threatening to blow her up with giant powder. Plaintiff asks to be awarded the custody of five minor children.

Defendant has entered voluntary appearance.

The parties were married at Santaquin, April 18, 1872.

LOGAN.

FUNERAL OF MRS. J. M. NIEL.

A Prominent and Respected Pioneer of Cache Valley—Election Contest.

Special Correspondence.

Logan, Cache Co., Utah, Dec. 9.—Funeral services over the remains of the late Mrs. J. M. Niel were held at the Tabernacle at 12 o'clock today, and were attended by a large number of friends and relatives of the deceased. Sister Niel was a well known character in this region, having always been prominent in her steadfastness and devotion to the Gospel, of which she died a faithful believer. She was near 80 years of age, and had been living more or less for seven or eight years, but for two years past had been bedridden. She was the mother of a fine family, among the daughters one being the widow of Bishop Davidson and another the wife of Bishop Ballard. She was among the pioneers of this region, besides having gone through the hardships of frontier life in the East before crossing the plateau for Utah. She died at the residence of Mrs. Davidson on Thursday.

The speakers at the service were Elders Hugh Adams, James McNeil (son of deceased), Melvin J. Ballard and President Joseph Morrell. Last night the friends of the deceased, and the county commissioners today with a complaint that the carcasses had not yet been removed. The matter will be investigated at once.

ELECTION CONTEST DECIDED.

The board of education last evening disposed of the contest in the Fifth ward, by adopting a motion to issue a certificate of election to Barrett, the Republican candidate. As will be remembered, the vote in that ward stood, 165 for Barrett, and 164 for Calne, with one ballot containing a Calne ticket, and also one for Cardon, candidate in the Fourth ward. The friends of Calne held that Cardon being also a Democrat, the voter's intent was to vote for Calne, the Democratic candidate in the Fifth ward, and insisted on the counting of the defective ballot. Last night, however, the matter was settled as we have reported, Calne (who is a member of the present board) declining to vote.

"SMALLPOX" CLOSES SCHOOLS.

An Epidemic of Chicken Pox—A Good Missionary Movement.

Special Correspondence.

Beaver, Beaver Co., Dec. 8.—A few days ago it was suspected that the "smallpox" had made its appearance in this city, and an investigation was made by the board of health, with the result that the public gatherings have been suspended until further orders from that body. How far the infection has spread is not possible to determine,

as one of the district school teachers is the subject of a very bad attack, and our Sunday school superintendent is another victim. There are three well developed cases known at present. There is also an epidemic of what is said to be chicken pox, as well as a number of cases of a mild skin eruption. As soon as the first suspected cases were reported, orders were issued by the school trustees to close the schools.

DEATH OF JOHN ROBINSON.

Elder John Robinson of this city died a few days ago from an affection of the lungs, after great suffering, and a long illness. His remains were held in full manifestation at the funeral obsequies, which were held in the meeting house, an immense concourse of friends being present.

His children have also recently died, Mrs. and Mrs. C. C. Cadden and Mr. and Mrs. Gene Baldwin lost little ones. Quite a number of cases of sickness are reported.

A GOOD MOVE.

A valuable acquisition to the religious work in this city has been brought about by the organization of the "Returned Missionary Society," with Elder Charles Woolfenden as president. The returned missionaries are assigned to duty in the same line, whether in the mission field, to hold Sunday evening meetings, cottage meetings in various districts in and out of the city, and are expected to be at the disposition of the president in whatever labor, and duties he may require of them. By this means it is hoped that not only will the spirit which animates the Elder while abroad be retained by him at home, but also that the precepts and example prompted by the Holy Spirit will be appreciated by those among whom they may be called to labor. Already the movement is bearing good fruit.

The Relief Society and the Y. L. M. I. A. have taken up the matter of securing road for the poor for the coming winter. Arrangements for coal and supper are perfecting, to be given at the earliest opportunity, when we can meet again. It will be an excellent chance to get up wood while there is no school.

Special Correspondence.

Vernal, Uintah Co., Dec. 6.—The Park Live Stock Co. lost several hundred head of sheep this week on Bush creek, thirteen miles from here. The sheep had been several days without water, and as soon as they came in sight of the water, made a stampede for the creek, and plunged over a high bank, piling one above another. One of the ranchers in the neighborhood appeared before the county commissioners today with a complaint that the carcasses had not yet been removed. The matter will be investigated at once.

HEBER.

THE "SMALLPOX" SITUATION.

Epidemic of Measles at Midway—Victim of Diphtheria.

Special Correspondence.

Heber, Wasatch Co., Utah, Dec. 9.—The sun has just dispersed the dense fog which has enveloped the town for the past forty-eight hours, and their sudden reappearance through the gloomy fog, with the attendant joy at seeing them again, tells how dear to the hearts of the dwellers here, are the mountains that surround them.

John Crook and Sons, owners of the famous red sandstone quarry, have lately sent down to Provo city two carloads of flagging stone, for laying street crossings. The paving blocks, now being used in connection with the flagging stone, with which they are building such fine street crossings at Provo, are from Snyderville, Summit county.

A year-old child of Alfred Shelton, residing at Buysville, near here, died of diphtheria, and a child of President A. Hatch, is suffering with an affection of the throat.

DEATH OF MRS. MARY McMILLAN.

ECZEMA'S ITCH IS TORTURE.

Eczeema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczeema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

BAD FORM OF TETTER.

"For three years I had Tetters on my hands, which caused me to swell to such a degree that I was unable to do any work. I tried many remedies, but all failed. I was cured by Dr. King's New Discovery. It is a guaranteed cure for Tetters, Erysipelas, Psoriasis, Salt Rheum and all skin diseases due to a poisoned condition of the blood. Send for our book and write us about your case. Our physicians have made these diseases a life study, and can help you by their advice; we make no charge for this service. All correspondence is conducted in strictest confidence.

present and followed the remains to their last resting place.

"SMALLPOX" SCARE.

Quite a scare exists over the presence of "smallpox" at Heber. It is located at present in the home of William Ellerton. The trustees and teachers of the district school are out with a card exonerating Mr. Attewall Wooten, Jr., a district school teacher, who was under suspicion of having introduced the malady.

In order to quiet the nerves of the citizens and prevent its possible spread the town board, has issued a proclamation discontinuing all public gatherings, schools, funerals, etc.

Another case just broken out. Wall Wickard is down and rumor is that some of his children are sick. Mr. Wickard is janitor of the public school, and it is supposed he got the disease from cleaning out the school house.

One of the male teachers has been laid up with what he supposed was measles and has been teaching school since he got better. The case had been proven since to be "smallpox," therefore the whole school has been exposed. There is no knowing where it will breakout next.

The valley is full of the young cattle, a good chance for stock buyers just now, although a sufficient amount of hay has been put up to winter them through with proper care. The absence of snow in the fields is all in favor of the cattle men.

Some ten children were blessed at their last fast meeting, so Heber is doing her duty in replenishing the earth. SHOOTING SCRAPE AT CHARLESTON.
