CON. MERCUR IN FINE CONDITION

President Dern and Other Officials Return From Mine.

ALL ARE WELL PLEASED.

Experimental Tests of the Moore Slimes Process Have Resulted Very Satisfactory.

President John Dern, Manager George H. Dern and Director E. H. Airis of the Con. Mercur, returned to the city last night from making a two days' inspection trip to the big bonanza.

President Dern said this morning that the physical condition of the mine was found to be very satisfactory, indeed, and at no time in its history has the property looked better. Development work is kept steady in progress all the time, with the result that new and important ore bodies have been opened up and explored. The aim of the management is to keep this part of the program in advance of the extraction and in this particular has been signally successful.

The experiments being carried on by George Moore at the Mercur mill slimes plant, President Dern states, so far, has been decidedly gratifying and it will now be but a matter of a few days until Mr. Moore's process will be fully demonstrated. Mr. Dern believes that it will be a big success and will probably be adopted by the Con. Mercur company.

DALY-WEST STRONGER.

Brokers Bid $42.12½ for it This Forenoon—Exchange Sales.

Some heavy trading was done in May Day stock this forenoon at strong prices. Little credence is placed in the report of a "new strike" now in circulation. The real cause story the lively interest taken of late is attributed to the fact that there is a contest on for a control at the forthcoming stockholders' meeting. During regular call 11,100 shares were transferred. Lower Mammoth was traded in some, but at lower prices. The Daly stocks all appeared in the pit stronger, but none of them tallied sales during regular call. Brokers bid up to $42.12½ for Daly-West, but could not bring out any of the stock. Offerings were made at $42.75. It is confidently believed that the shares will be selling at $45 before many days. Sacramento held firm, as did Wabash and New York. Utah sold at 75 cents when brought to the front, but closed lower.

It is very evident from the actions of the fraternity that no faith is put in the Century mill burning story. Hardly anyone believes that the mill has been destroyed, but the brokers who went short on the stock are making good the opportunity to fill while the doubt exists. The sales and quotations posted were as follows:

NEW STAMP MILL FOR CHERRY CREEK

A 20-Stamp Plant May be Built For Cannon Properties.

AFTER THE OLD EXCHEQUER

Acquisition of Famous Producer About to be Accomplished—Sylvester Cannon in Camp.

There are indications of better times for the old camp of Cherry Creek, Nev., unless present plans fail, and that is quite improbable. Peter H. Cannon and associates will soon begin the construction of a 20-stamp mill for the treatment of the ores of their several properties of the camp. For some time past Mr. Cannon has used his efforts towards the acquisition of the famous old Exchequer mine, owned at one time by a California syndicate, and which has a producing record running away up into the thousands of dollars. This is about to be accomplished and it is not unlikely that immediate steps will be taken to open up the old property and place it in shape again to produce ore upon an extensive scale. The mine was never operated below the water level, but it is known that some very rich ore exists at that point. After the property was abandoned by the Californin concern, two or three miners sunk a shaft on the vein, near the mouth of the tunnel which comprises the principal workings. They extracted a good many tons of rich ore and made themselves well off, but when water came into the bottom of the shaft they pulled up stakes and left. This property is located near the Star mine, owned by the Glasgow & Western Exploration company.

Sylvester Cannon, of this city, who has an interest in the Cannon properties at Cherry Creek, departed for camp several days ago and upon his return, arrangements will probably have been completed for a very vigorous campaign.

Pete H. Cannon has great faith in the future of Cherry Creek and he has demonstrated his confidence by staying in the camp and spending his money there. He believes that Cherry Creek should become one of the most important mining camps in Nevada. It is distinctively a gold camp, the ores containing but a small per centage of the other metals.

ANOTHER FIRE REPORTED.

This Time the Hoist of the Galena Mine Goes Up in Smoke.

Pete Reed, superintendent of the Galena mine, at Fish Springs, came in from camp last evening and conveyed the information that the hoisting works at that property was destroyed by fire last Monday, at noon. According to his version of the disaster, the blaze started in the ore house and from there was communicated to the hoist within a very short time and while all the men, excepting the watchman were in the boarding house at dinner.

Manager Harry Joseph says that the loss is fully covered by insurance. He will leave for the mine with the adjusters in a day or so. After the adjustment steps will be taken for the immediate rebuilding of the plant.

NEW OIL COMPANY FORMED.

Will Operate on Lands Located Near Colton—Deeds Filed.

Special Correspondence.

Provo, March 19.—Articles of incorporation of the Colton Wax Mines & Oil company, with its principal office at Milwaukee, organized under the laws of Wisconsin, have been filed with the county recorder. The capital stock is $100,000, divided into one million shares of the par value of ten cents each. The incorporators are Bernhard Hauser, Peter Auschuetz and Joseph C. Grieb, and the object of the incorporation is to transact a general mining business including sinking and boring for oil and refining petroleum and oil. The company owns wax claims near Colton, Utah.

The above company has also filed for record resolutions of the board signed T. J. Pringle, president and J. C. Grieb, secretary, accepting the provisions of the Constitution of the State of Utah, and appointing David B. Higgins of Utah county, as the agent of the company on whom process may be served.

A warranty mining deed from Levi E. Riter, of Silver City, to John Burraston, of Goshen, conveying for a consideration of $200, an undivided one-fourth interest in the Queen of the West and the Lucky Boy mining claims, situated in the Mono mining district, has been filed with the county recorder.

John Bestlemeyer and Catherine Bestlemeyer, of Provo, have conveyed by quit-claim deed to John Burrastor of Goshen, an undivided one-half interest in the Old Dead Man No. 2 mining claim and the Gold Hill mining claim, in Tintic mining district. The consideration is $1,000.

Wm. B. Jones et al., has filed notices of location of the Isaacs and the Murphy mining claims in the Eldorado mining district, situated about five miles east of Payson in Dixon canyon.

The following notices of petroleum locations have been filed:

Mispah Nos. 1, 2, 3 and 4, situated south and west of Colton, by W. L. Richardson, et al., each of the claims except Mispah No. 2, which contains 80 acres, contain 160 acres each.

J. W. Farrell et al. have filed notice of location of F. and R. Nos. 1 to 8, both inclusive, petroleum mining claims situated south and west of Colton, each claim contains 160 acres.

Annie Laurie Dividend.

On last Tuesday the Annie Laurie Mining company posted a dividend of $1 per share or $50,000. Local shareholders received their checks from Kimberly yesterday. This is the first payment since the company's capital stock was changed from 20,000 to 50,000 shares.

To-day's Metals:

LAWRENCE BILL IS NOW A LAW

Governor Wells Has Given Measure His Approval.

POWER TO SELL PROPERTY

Of Estates Upon Order of Court—Also To Lease Mining Properties—Regarding Titles.

Governor Wells has approved Senate Bill No. 5, passed by the late Legislature, and it is now a law. The measure was introduced by Senator G. N. Lawrence of this county and is an act to authorize administrators, executors and guardians to lease mining claims and give an option to purchase the same, and authorizing the court to require bonds and prescribing conditions under which title may be obtained.

The wording of the new law is as follows:

Be it enacted by the Legislature of the State of Utah:

Section 1. When all or any portion of the estate of any person deceased, or of any ward under guardianship, consists of mining claims whether patented or unpatented, or of interests in mining claims, the administrator or executor of such deceased person or the guardian of the property of the ward may petition the court having jurisdiction of the estate for leave to lease mining claims, or interests in mining claims, belonging to the estate of the deceased, or to the ward, with an option to the lessee to purchase the same; and if upon the hearing it appears to the court that it is for the interest of the estate, the court may make an order authorizing the administrator, executor or guardian to lease all, or such mining claims or interest therein belonging to the estate as he shall designate in the order, and to give an option to the lessee to purchase the same within a specified time at a stipulated price, and when such order has been made the executor, administrator or guardian may lease the mining claims specified in the order and give the lessee an option to purchase the same within the time and at the price specified in the order.

Upon making such order the court may require the administrator, executor or guardian to give a bond with sureties to be approved by the clerk of said court, and upon the option being accepted may require additional bond with sureties before the sale is confirmed, as in the case of other sales by an administrator, executor or guardian.

If the lessee complies with the terms of the lease and accepts the option and tenders the stipulated price he shall be entitled to a deed for the mining claims upon which the option was given, but no title shall pass under such option until the acceptance of the option and the deed executed pursuant thereto have been reported to and approved by the court.

Sec. 2. This act shall take effect upon its approval.

PHENOMINAL BODY OF ORE.

Alleged Discovery Made at Parral, Mexico.

Elpaso, Texas, March 20.—Much excitement has been caused at Parral, Mexico, by the discovery of a phenomenally rich body of ore. The vein is five feet in width and of unknown depth and assays 200 ounces of gold and 2,000 ounces of silver to the ton. The Hidalo mine, where the body of ore was discovered, belongs to a company composed of Texans and had not been considered of any great value until the rich strike was made.

THE CACTUS TUNNEL.

Excellent Progress is Being Made With It.

Manager M. M. Johnson of the Cactus mine in Copper Gulch, Beaver county, returned home this morning from one of his regular inspection trips.

He states that work on the long tunnel, which is to be the avenue of exit for the ores of the mine in the future, is progressing very satisfactory. The air compressor plant has been installed and the power drills are in operation. The tunnel has been driven into the mountain a distance of 330 feet. At the bottom of the 616-foot shaft a large station has been cut, machinery installed and preparations made to put on a force to drive the tunnel from that end. With forces working from both ways, it will not take many months to complete the big undertakking.

CENTURY MILL MYSTERY.

Another Message Received Discrediting Fire Story.

Another message was received in the city this morning which goes still further to confirm the belief that the story of the burning of the Century mill is a fake. It was sent to R. W. Madsen, signed by the agent at Kelton. The message stated that the Century mine teamster had been seen, and that he knew nothing about a conflagration.

Mr. Madsen is confident that the mill is still standing. He received a gold brick from the mill, which was shipped out of Kelton last night.

Further information is expected later in the day or early tomorrow morning.

The governing board of the stock exchange is at work and if it is found out that the mill was not destroyed every effort will be put forth to bring about the arrest and conviction of the sender of the fake message. The agent at Kelton claims that the person who filed the telegram were a full beard. Mining

Columbus Con. Still Improves.

Manager Tony Jacobson returned from the Columbus Con. mine at Alta last evening. He states that conditions continue to improve and that the ore bodies are opening into great proportions. A force of men have begun upraising in the west drift, while the tunnel is being driven further ahead and drifting is in progress, east and west on the vein.

MINING CONCENTRATES.

E. L. Sheets returned yesterday from California.

Six cars of Tintic ores were reported received by Taylor & Brunton, samplers.

The Golconda Mining company, operating near Sumpter, Ore., has declared its initial dividend.

An assessment of one cent per share was levied on the capital stock of the Burlington Mining company yesterday.

On the St. Louis stock exchange last Tuesday, 1.65 was bid for Con. Mercur stock and 1,000 shares of [illegible] sold at 29 cents.

The initial dividend levied on the stock of the Golconda mine, near Sumpter, Ore., is reported to amount to $30,000.

The ore and bullion settlements reported at the close of business hours yesterday by McCornick & Co., were as follows: Base bullion, $38,100; gold, copper, silver and lead ores, $24,700.

A Hailey boy, says a correspondent of the Boise Statesman, who recently left here for Tonopah, Nev., writes that great excitement prevails in that mining camp over the jumping of the California-Tonopah mine by Jack Davis, better known as "Diamondfield Jack," who was under death sentence in Idaho, until the last pardon board gave him a full pardon. He jumped the mine while the owners were at dinner and has notified the owners to remove the hoist and all machinery within 30 days. It is expected that there will be bloodshed over the affair yet.

LIQUIDATION IN SO. PACIFIC

New York, March 20.—Prices at the outset tended upward and there were some gains in various international stocks despite the renewed liquidation in Southern Pacific. That stock sold down 1½ while Union Pacific, on the other hand, was ½ better. Trading sentiment became confused when Southern Pacific rallied to 66 and Sugar dropped from 127¼ to 125⅝. The appearance of large buying orders in some specialties soon turned the course of prices strongly upward and trading became quite active. Minneapolis & St. Louis advanced 4, General Electric 2½, Metropolitan Street railway 2¼, Canadian Pacific 2 and Lead preferred 1¾. At 11 o'clock Southern Pacific was forced below 65 again and the general list eased off in sympathy.

The marking up of call loans to 6 per cent had a temporary restrictive effect on the demand, but stocks were generally well supported and but few reactions of importance occurred. Consolidated Gas was unusually active and gained 3¾. St. Louis & San Francisco stocks were the most prominent features of the market, large purchases lifting the common 4¼, the first preferred 4 and the second preferred. Toward noon the general market hardened and St. Paul and Rock Island rose 1 and 1½ respectively.

The bond market was steady but very quiet at noon.

Best Meals On Wheels.
There is where the Rock Island shines—in its dining car service.
Not even the swellest of New York's swell hotels offers anything finer. Their prices are higher, of course, but the food, and cooking and the service are no better.
Try the Rock Island next time you go to Kansas City, Chicago or St. Louis and get new ideas of how a dining car should be run.
Mid-day luncheon, 50 cents.
