MINING, BUSINESS AND STOCKS.

TRADING LIGHT ON EXCHANGE

Mining Shares Sold This Forenoon Only Brought $7,610.

WORST DAY IN LONG TIME.

Daly Appeared Fairly Active With Prices Stronger—Martha Washington Closed Some Weaker.

This was indeed a dull day for the brokers down on Second South street. The trading was limited and the totals only reached 15,900 shares sold, which brought in the coin of the realm $7,610.

Daly, which has indulged in many acrobatic feats of late, was found going up hill again, probably to take another descent, yet there are elements at work which may hold the stock up, but it is hardly believed this will be accomplished soon. There are some who contend that the stock is actually worth twice as much money as it sold for during this forenoon's call, but that is a matter in which there is a wide difference of opinion. Altogether this morning, 900 shares were transferred; it was started out at $5 even, then advanced to $5.12½ and closed at $5.07½. Two board lots of Ajax found takers at 30½ and 30¾ cents; May Day held about steady at yesterday's quotations, while Martha Washington came in stronger but weakened before the gavel dropped. New York failed to revive and dropped several points. On the open board Wabash was brought out, but at no better figures than those quoted yesterday.

The sales were much lighter this forenoon than they have been for some time.

The closing quotations and sales were:

PRODUCERS' MEET TONIGHT.

A Large Attendance of Tintic Mine Owners is Anticipated.

Mr. P. J. Daly, secretary of the preliminary organization of the Tintic ore producers, said today that the committee appointed at last Friday's meeting would be ready to report to the adjourned session to be held at the Commercial club this evening.

A well known producer states that the committee does not advise the making of any overatures to the railroad companies with a view of getting a more liberal tariff rate on low grade ores until first a permanent organization is effected. This done, the next thing in order will be the appointment of a committee competent to act; one that is able to gather facts not only as regards the cost of producing the ores from the mines, but to also ascertain the expense the railroads are put to in transporting them.

Secy. Daly urges upon every Tintic producer the importance of being present at tonight's meeting.

Thunder Mountain Mine Sold.

Special Correspondence.

Butte, Mont., Feb. 19.—Advices received from Hamilton, Mont., say that H. L. Hollister, acting for a syndicate composed of Chicago capitalists, has completed a deal for the Homestake and Idaho group of claims, seventeen in number, for $125,000. The properties are located on Beaver creek, in the Thunder Mountain district, and are among the richest in that section.

INDUSTRIALS TO BE CALLED

Will Probably be Introduced on 'Change Next Week.

CARDS ORDERED PAINTED.

These Will be Assigned to Places on Blackboard—Names of New Traders.

As has been expected and as the governing board of the mining exchange declared it would do, the industrial and bank stocks are to be assigned a place upon the exchange blackboard. Just what day they will be called first has not been fully decided, but it is quite probable that they will make their appearance next Tuesday morning.

Secy. James A. Shorten received some instructions regarding them this morning, by being ordered to have the cards painted which are to be hung up in front of Caller Jones' station, bearing the names of the new candidates. The listing committee has passed upon the following list of stocks, and they will be called. They are: Utah National bank, Ogden State bank, Commercial National bank, Zion's Savings bank, Thatcher Brothers' bank, First National bank of Ogden, Ogden Savings bank, Z. C. M. I., Consolidated Wagon & Machine Co., (preferred and common); Rocky Mountain Bell Telephone Co., Consolidated Railway & Power Co., (bonds) and Salt Lake City Railway Co., (bonds.)

COL. WEBBER HERE.

Nevada Politician Comes on Mining Business.

Col. P. C. Webber of Ely, Nev., is in the city to attend a meeting of the directors of the Sapho Mining company this afternoon. At this meeting the matter of changing the articles of incorporation so as to increase the present capitalization of the company will be considered. Of the recent strike made in that property, the colonel states that nothing has been published that would tend to overestimate its importance. The mine shows an improvement as development goes on and he considers that it is only a matter of a little time until it will turn out to be one of the best propositions in the camp.

Speaking of the camp in general, Col. Webber states, that the outlook is exceedingly bright. The New York & Nevada Copper company is pushing work on its new smelter, and is working a large force; the McKinley Mining & Smelting company, under the management of W. N. McGill, is working 30 men.

The Ruth mine, recently bonded to M. L. Requa for a consideration of $150,000, is being opened up rapidly, and the results being obtained are very gratifying to those in control.

Col. Webber has been in Carson City for several weeks "doing politics." He is one of the leaders of the Democratic party over in his state, and is known throughout the sage brush domain as "Boss," and is always called into the important counsels of the party.

Col. Webber believes indications are favorable for the extension of the Eureka & Palisade railway to Ely this summer, a distance of 90 miles.

UNDER THE HAMMER.

Salt Lake's Famous Mineral Collection to be Sold Tomorrow.

Immediately after the regular call of the mining exchange tomorrow forenoon, Louie Bamberger will mount the station usually occupied by Caller Jones to play the role of auctioneer. He has been selected to perform this function by the governing board and will proceed to sell the mineral exhibit belonging to the exchange to the highest bidder. The collection has long been the admiration of members of the exchange regardless of the fact that it has been relegated to a dark corner in the exchange room.

The specimens will not be sold in a bulk, but separately, hence it will be an opportunity of a life time, for the "specimen fiend" to acquire ores from the various camps of Utah.

The collection, at one time, belonged to the old board of trade of Salt Lake and has been viewed by thusands of visitors to this city.

NEVADA'S APPROPRIATION.

Tonopah Citizens Want State Represented Right at St. Louis.

The Nevada state legislature has authorized an appropriation of 20,000 for an exhibit at the St. Louis world's fair next year. The citizens of Tonopah believe this is a too little amount to properly display and advertise the resources of the sagebrush state and it is very probable that they will see to it that the amount is increased in some manner.

United States Exchange:

A private telephone exchange is being installed in the offices of the United States Mining company today. The office will be connected with lines leading to all the mines of that corporation, the various departments of the smelter in the valley and to the different offices of members of the local staff.

Second Payment Made.

The second payment upon the purchase price of the North Pole Extension mine, located near Baker City, Ore., was made day before yesterday. Prof. W. H. Tibbals of this city is president of the company.

No Call on Monday.

There will be no session of the Salt Lake mining exchange next Monday. The brokers will observe Washington's birthday.

Martha Washington Shipment.

Manager Alviras E. Snow, of the Martha Washington mine, of Tintic, has received returns from the first of a five car shipment which are very gratifying to him. The controls showed the presence of 66 ounces silver, 2.3 per cent copper and $1.60 gold. Mr. Snow maintains that the other shipments to follow will record still better returns.

Uintah Oil Directors Meet.

At a meeting of the directors of the Uintah Oil company, held last night, a contract was awarded to J. A. Beverly, of Omaha, who will sink a deep well on the company's property near Colton. The well will be put down at least 1,500 feet, but the rig to be installed is capable of boring a hole in the earth to a depth of 3,500 feet. The specifications call for a 12-inch hole to start with, decreasing as it is driven down.

MINING CONCENTRATES.

Taylor & Brunton posted the arrival of seven cars of ore from Tintic today.

The Gemini mine of Tintic contributed seven cars of ore to today's market.

The Wabash assessment of 5 cents per share becomes delinquent tomorrow.

Broker E. G. Wolley, Jr., is expected home from New York and Boston early next week.

Secy. L. B. Brown, of the Erie Copper company, is expected home from the east next week.

Capt. Duncan McVichie, manager of the Bingham Con., is expected home from Denver tomorrow.

Manager John Rhodin, of the American Flag mine, of Park City, returned to camp again today.

Tony Jacobson, manager of the Columbus Con. mine of Alta, will depart tomorrow morning for that property.

C. R. Miller, vice president of the Tonopah Mining company, passed through Utah last week en route to the great Nevada camp.

H. B. Westover is in the iron fields of Iron county, for the purpose of gathering up some options for his eastern clients.

After conferring with the management of the Creole mine, Supt. C. F. Mixer returned to Park City again this morning.

Treasurer A. A. Ball of the Annie Laurie Mining company arirved in the city last evening. He was in consultation with Messrs. Kimberly and Buhl this forenoon.

Today was the time set for the delinquent sale of stock in the Copper Ranch mine. Manager Ben T. Lloyd states that all assessments are paid; consequently there will be no sale.

Capt. Henry Stern, one of the promoters of the Tintic Mining and Development company, has arrived in the state for the purpose of looking over the company's properties in the camps of Tintic and Bingham.

Of the Montana-Tonopah, the Boraza says: Good progress is being made in sinking the shaft. High grade ore continues to be extracted from the crosscuts and drifts on the different levels. The first shipment of ore will be made inside of 10 days.

The Dr. P. A. H. Franklin company is inaugurating an extensive mining campaign on Gold mountain. During the past week options were secured on several promising properties on both the Marysvale and Kimberly sides of the mountain, The Elephant, Wedge Extension and others are included in these transactions.—Richfield Advocate.

A wonderfully rich strike of sylvanite ore is reported from the Riverside group of claims on Snake river, below Huntington. Word was received here through a mining man who is interested in the property. The ledge is several feet wide, with the rich streak running through the center. One assay of the best portion gave returns of $5,000 to the ton. The group is owned by James Baisley, at one time owner of the Baisley-Elkhorn mine, near this city.—Baker City Herald.

Another vein, three feet wide, has been struck in the Gold mountain Keystone property which is composed of the blue quartz which always carries big values on the mountain. Samples of the ore gave very satisfactory assays. Work is now being crowded with seven men, working two shifts, and as soon as elbow room can be made the number will be increased. The management is now negotiating with an eastern concern for the erection of a mill in the spring, and there is little or no doubt that it will go up.—Richfield Advocate.

MARKET IS QUIET.

Butter Scarce as Outside Sections Are Making Big Demand.

The retail markets are quiet, and likely to remain so until a pronounced change in the weather comes. Butter is scarce, as outside markets, noticeably the California market, are taking all the supply in sight. Wheat keeps firm, and the quantity available is limited owing to the demand for feeding stock.

Spring chickens are selling at 20 cents, hens at 17½ cents, ducks and geese at 15 cents. Best creamery butter is retailing at 30 cents as usual; fresh ranch eggs bring 30 and 35 cents; eastern case eggs, 30 cents, ranch butter may be had at from 15 to 25 cents a pound.

In green groceries: Grape fruit, 10 cents, and three for two bits; California radishes 5 cents. Utah rheubarb sells at 20 cents; cauliflower at 15 cents. Brussels sprouts at 15 cents, cabbage 4 cents; lettuce, two heads for 15 cents; celery, 5 cents a stalk; beans, 15 cents a pound; potatoes, $1.60 a bushel; sweet potatoes, five pounds for a quarter; radishes and onions, 5 cents a bunch.

Fresh and cured meats are retailing at the following prices: Prime ribs of roast, 17½ cents; porterhouse steak, 20 cents; fall lamb, 15 to 20 cents; mutton chops, 12½ to 15 cents; veal, 15 to 20 cents; pork, 15 to 17½ cents; lard, 15 cents a pound.

In the fish markets, shrimps are selling at 20 cents a quart; prawns are 40 cents a pound; crabs at 25 and 30 cents apiece; lobsters, 15 cents a pound; oysters, 50 and 60 cents a quart; blue points, 25 cents a dozen. Salmon, mackinac trout, white fish, 17½, and sturgeon are selling at 15 cents a pound; striped bass, 20 cents; pompona, 40 cents; red snappers, 20 cents; fresh mackerel, 30 cents; shad, 15 cents; fresh sea bass, tom cod, rock cod, soles, flounders, halibut, herring, two pounds for a quarter. Fish continue scarce.

In the fruit markets, oranges are retailing at from 20 to 50 cents a dozen; bananas at 25 cents; apples at from $1 to $1.75 a bushel; figs, 5 to 25 cents a package; dates 15 cents a pound.

In the flour and grain markets, prices remain as follows: High patent flour, $2.50 a hundredweight; straight grade, $2.30; baker's grade, $2.20. Whole and cracked corn retailed at $1.40 a hundredweight; oats, $1.65; wheat, $1 a bushel; lucern, 60 cents a hundredweight, timothy, 80 cents.

There is an improved demand for mill stuffs, and wheat continues dear in San Francisco.

STOCKS BETTER BUT IRREGULAR

Those Down Yesterday Led the Rally.

SOME SUBSTANTIAL GAINS.

In Later Dealings Buying Orders Predominated—Obscure Properties Dealt In, Registering Sharp Changes.

New York, Feb. 20.—There was an irregular recovery in prices at the opening today, with a few prominent stocks lagging with small declines. Stocks which were most depressed yesterday led the rally, Metropolitan, Copper and St. Paul showing large fractional gains. St. Louis & San Francisco moved up strongly nearly 3 points. Buying orders predominated in the later dealings and the support extended to yesterday's weak features aroused a better feeling. St. Louis & San Francisco met realizing orders and lost a point of its opening gain but was pushed up again to 84¾, a rise of 4 points since the opening. Hocking Valley rose 7¾. Substantial advances were also made in St. Paul, Atchison, New York Central, Amalgamated, Smelter preferred, Metropolitan Street railway and Metropolitan Securities which ruled between 1 and 2 points higher. There was little life in the market outside of a few strong stocks but prices were well maintained. The St. Louis & San Francisco group was the feature. The first preferred rose 5¼, the second preferred 4⅞ and Kansas City, Fort Scott and Memphis preferred 2¼. The United States Pipe stocks and St. Louis-Southwestern preferred rose 1 and 1T respectively.

Bonds were steady at noon.

Prices of the St. Louis & San Francisco stocks were shaded on profit taking but the market otherwise was firmer with some demand for the transcontinental group. Obscure stocks were more generally dealt in and registered some sharp changes. American Beet Sugar advanced 4 points, the preferred 12, Maryland Coal preferred 5, Minneapolis, St. Paul and Sault Ste Marie 2½, New York Central 1¾ and Kanawha & Michigan, Anaconda, Erie second preferred 1. Metropolitan Street railway and Amalgamated rose a fraction higher than before.

GREELEY'S STRICT RULE.

As an editor Horace Greeley had become weary of the constant repetition of the word "the" in opening sentences. One issue of his paper in particular exasperated him. Almost every item had its opening paragraph begin with "the." This lack of judgment on the part of his writers in the choice of words received attention. Greeley wrote a note. This notice he requested to be posted in the editorial room, and caused copies of it to be sent to correspondents. The order read:

"Under no circumstances must the word 'the' be used in the opening or subsequent paragraphs of a news article. In sentences within a paragraph it will be tolerated if used with moderation. If you cannot write a paragraph without 'the' to open it, omit."

One day, shortly after the issuance of his new rule, Greeley entered the editorial room in a fury.

"How is it that we have nothing in today's paper regarding Holland's attitude toward the policy of the north?" he asked of his editor who had charge of the foreign news.

This editor was aware that he had omitted an important news item which at the time he considered as unimportant. But he was resourceful.

"Your rules and orders are positive, Mr. Greeley, are they not?" asked the editor.

"Certainly," shouted the famous scribbler.

"Then tell me how I could have used 'The Hague' for the date line in the Holland dispatch without violating your positive order."

Mr. Greeley was beaten, but he muttered, "If you fellows could use judgment there would be no need for rules."—Detroit Free Press.

Burlington Route

What Constitutes Good Service.

What makes a train popular? Good service.

What constitutes good service? Good cars, good track, good meals, fast time, and civil employes.

The Burlington's Chicago Special is a striking illustration of the results of good service. It is far the most popular train between Denver and Chicago—which is simply another way of saying that its service is better than of any other train.

Leaves Denver 4:15 p. m.; arrives Omaha 6:45 a. m., Chicago 8:30 p. m. next day.

To St. Louis at 2:30 p. m. and 10 p. m.

R. F. NESLEN, Gen. Agent, 97 W. Second South Street, Salt Lake City.

P. S.—Thro' sleeper for Chicago leaves Salt Lake City 3:15 p. m daily.
