

INDIAN DEPREDACTIONS.

The fair reader shudders when she thinks of the settler's wife watching, from the door of her rude hut, the retreating form of her husband going out to his daily labor—going out perhaps to return not again, for before nightfall a savage hand may have laid him low among the prairie grasses. Or it may be a child, a bright-eyed daughter, is snatched away in an unguarded moment, to grace the next war dance. When we read the heartrending details of these savage degradations, we are apt to blame the government for not taking more strict precautions to insure the settler's protection. But we daily read of the depredations of that arch-fiend, consumption, with scarcely a thought of the terrible inroads it is making in human life. Tens of thousands of homes are annually desolated by consumption to one by Indian outrage. Like the Indian, consumption oftenest comes stealthily, and no danger is apprehended until the victim suddenly finds himself hopelessly ensnared, and death's fatal arrow ends the scene. Dr. Pierce's Golden Medical Discovery, a powerful alterative, or blood purifier, and tonic, has restored thousands of consumptives who had tried every other remedy recommended to them, without obtaining any relief, and are ready to testify to its remedial powers. s w
