ANTI-"MORMON" DEVELOP-MENTS IN THE NORTH.

Saturday, . April 18, 1885

In this issue is a communication bearing somewhat upon the situation in Idaho. Chief Justice J. T. Morgan has, in effect, as we understand it; ruled that the acts of the last Legislature of that Territory which define the qualifications of officers, jurors and electors are valid. Should his action be sustained by even one of his Associate Justices in the event of a test case being carried to the Supreme Court of the Territory, the effect will be revolutionary. The laws referred to exclude all members of the Church of Jesus Christ of Latter-day Saint from the privilege of sitting as jurers, holding any office in any county or precinct or voting at any election.

As a refresher to the memories o our readers we here reproduce the test oath incorporated in the election law, and as the one which forms a part of the law in relation to the qualification of officers and jurors is similar in character, it will be seen how sweeping and tyrannical the measures are. The bath forms a portion of Sec. 46 of the

"You do solemnly swear (or affirm) that you are a male citizen of the Unfted States over the age of twenty one years. That you have actually resided in this Territory for four months, last past, and in this consty thirty days. That you are not a bigamist or poly gamist. That you are not a member of any order, organization or association which teaches, advises, counsels, or encourages its members, devotees of any other persons to commit the crime of bigamy or polygany or any other crime defined by law as a duty arising or resulting from membership in such order, organization or association, or which practices bigamy or polygamy, which practices bigamy or polygamy, or plural or celestial marriage, as a doctrinal rite of such organization. That you do not either publicly or privately, or in anymainer whatever, teach, advise, counsel or encourage any person to commit the crime of bigamy or polygamy or any other crime defined by law, either as a religious duty or otherwise. That you regard the Conotherwise. That you regard the Con-stitution of the United States and the laws thereof and of this Territory as interpreted by the courts as the su-preme law of the land, the teachings of any order, organization or associa-tion to the contrary notwithstanding; and that you have not previously voted at this election. So help you God.".
The penalties for violations of the law are defined in the following sec-

"SEC. 44. If any person offering to vote at any election in this Territory shall wilfully, corruptly, and faisely swear, or affirm, touching his quality cations as a voter, he shall be deemed Sec. 45. If any person, not a legal

voter, and possessing all the qualifica-tions prescribed for voters in this act, or who is laboring under any of the disabilities mentioned in Section 2 of this act, shall vote at any election in this Territory, or shall hold or exercise any office, or position of public trust, he shall be deemed guilty of a misde-meanor, and shall, upon conviction, be punished by a line not less than one hundred nor more than one thousand dollars, or by imprisonment in the county jail not less than thirty days nor more than one year, or both so fined and imprisoned, in the discretion In the event of the moustrous en-

actments being finally upheld by the courts, in accordance with the initiatory proceedings of Chief Justice Morgan, it is not difficult to picture the condition that would ensue, in the present state of feeling against the Saints. They will, in that case, be at the mercy of a host of conspirators of the most unscrupulous kind. They would be under the heel of a lot of conscienceless "traders in public office," as they have been defined by an Idaho official who has had ample opportunity to weigh them in the balance. The better part of the population-the "Mormons"-who are admitted to be ahead of all others in business and official integrity and all the virtues, will be subject to every species of indignity from those who are inferior to them in every substantial quality. They will be subject to be robbed, plundered and abused, without any means of redress, by the villainous class of the population, as they are already robbed of their rights as citizens.

The judicial districts of Idaho each comprise several counties. The sessions of the court are held in the several counties by turns. In that of Bear Lake, where the population are almost exclusively "Mormons," a jury could not be found within its limits. unless resort was had perhaps to somitransient residents along the Oregon Short Line Railroad. And for what reason has this gloomy

prospect been shaped for the Saints of our sister ferritory? Not for any overtacts that they have committed or intend to perpetrate. The Infamous outrage is framed and applied solely on account of the religious belief. Only that and nothing more. For any man to attempt to claim that the sale left unmolested in the engious belieft unmolested in the engious belief unmolested in the e Hel now and an egregious departure from truth. They are disfranchised, robbed of their rights, precious to every properly constituted man, and laid liable to be the hapless victims of a crowd of the blackest villalns that ever walked the earth, for the terrible crime of believing something. They are thus trampled under foot of the mean and mercenary on secount of something over which they have no control. Belief is the result of evidence No matter how unsubstantial that evidence may be esteemed by others, to them it is sufficient upon which to base their hopes in relation to the future life, or any other subject; they have an inslicuable right to retain it, and in fact cannot rid themselves of it. if they would, except by the presentation of contra-evidence to them stronger than that which induces them to assume their present position.

Bellef being a matter beyond the control of the persons in whose minds it commonest rights of men, and hang exists: laws which rob them of rights upon the limbs of freedom and Ameriand privileges because of it, are both senseless and tyrannical. It would be equally consistent to pass enactments making a specified color of the hair, the stature or rotundity of the physique, or the tone of the voice a qualification for holding office, sitting on juries or voting at elections.

There is a point that can be reached when human endurance is liable to fly the track. It is to be hoped that the present attack will not stretch so far as that, because of the consequences that

that, because of the consequences that would ensue from such a climax. commentary upon this great nation.

Wk are not at war with the government of the United States, nor do we propose to be placed, in reality or by misrepresentation, in a position of antagonism to the nation of which we form a part. We reverence the Constitution, which we believe was inspired of God; we cherish the memory of the patriots who framed It; we accept their enunciation of the inalienable rights of man, and, in common with all freemen who love this glorious and and desire to see its noble institutions perpetuated, we claim the right to life, the right to liberty and the right to pursue happiness, as our own consciences dietate, so long as we do not infringe upon the rights of others.

Ours is a history replete with strange lief, as most of us were, that these blessings were ours by a dual birthright-first from Him who created all men equal, finally from sires and matrons who shed their blood and sacrificed their all, to preserve inviolate and bequeath them as a sacred heritage to posterity-we have seen with sorrow a disposition manifested by some to deny and even deprive us of those rights to which our claim is equal with and our title no less valid than their own.

What is there, we ask, in our religious belief, strange and peculiar though it may seem, or in its free and peaceable exercise under the Constitution, to provoke or justify the wide-spread feeling of enmity and distrust, of which advantage has been taken by some of its chief authors and promoters in our midst-adventurers, having nothing to ose but everything to gain from the fruition of their fell designs -to have inaugurated the reign of terror now prevailing within our once peaceful and happy borders?

We believe that, in fulfilment of prophecy, as recorded in the Holy Scriptures, the God of heaven, in pursnance of His design to redeem the earth and regenerate the human race, has restored in the nineteenth century the fulness of the Everlasting Gospel, bitherto absent for ages on account of transgression and apostacy.

We believe in immediate revelation from heaven, whereby the Crestor and Ruler of the universe makes known His will to his creatures upon the earth, in accordance with the numerous needs and ever-varying circumstances of mortal life.

We believe in the administration of living prophets and apostles, inspired men; in the spiritual gifts and graces of the Gospel; in the power and authority of the Holy Priesthood; and in every doctrine and ordinance enunciated by authority from God, whether revealed through living oracles or inculcated by the Christian Bible, a record confirming in every respect the tenets, Fites and doctrines of this Church, as made known and communical by modern revelation. Among the principles thus newly re-

vested is the revelation on the eternity of the marriage covenant, including guilty of a felony, and, apon convic-tion thereof, be punished by imprison-ment in the Territorial prison for a peachable virtue and integrity, may pouse, under sacred regulations and by their mutual consent, more than one wife: covenanting to support, care for, protect, acknowledge and maintain them and their children, in holy matrimonial and paternal relationtaking upon himself these added responsibilities, with wives and mothers sacrificing for his family on earth, may possess them eternally in heaven, wherein, it is held, is the assurance of | mist? celestial exaltation. To confirm his belief in this sacred

principle, and justify to others his acceptance of it as a direct, divine injunction, the "Mormon" polygamist | gamy? points to the practice of the self-same doctrine in the days of the ancient patriarchs and prophets. Says he: "Our faith and practice for which we

Father whom He worshipped, and whom we are commanded to worship, the God of Abraham, Isaac and Jacob, showing that the God of heaven himself attached no condemnation to these manded it, provided laws for its arrangement, and called those who practised it His friends and men after His own heart. And, what is still more worthy of remark, that in choosing ineage distinguished in the earth among all nations, as polygamic. The most renowned ancestors of the Savior of the world, and to whom he most frequently alluded, were polygamists,"

In reply to the oft-repeated assertion from unfriendly sources, that "polygainy"Is no part of the "Mormon"religon, we need only present the following, which ought to satisfy the most incredulous. It is an excerpt from the report of the Utah (anti-"Mormon") commission, to the Secretary of the Interior, November, 1884.

"This article of their faith polyg-imy as much an essential and sub-cantial part of their creed as their be-tantial part of their creed for the forilef in baptism, repentance for the foriveness of sins and the like. All orthodox Mormons believe polygamy to be right, and that it is an es-sential part of their creed."

This, is the head and front of our offending. For the sake of these views, we have borne, without retaliation, wrongs that would "stir a fever | 58%. in the blood of age, and make the infant's sinews strong as steel." The cries of "treason," "rebellion," "immorality," "priestly despotism" and other infamous falsehoods flung broadcast in relation to the "Mormon" people, all take their rise in these and gauses equally innocent of any such intention or effect. Our "treason," is the treason of the Bible, which predicts the coming of the King of kings, to reign on earth a thousand years, and establish a Sabbatic era of universal peace and righteousness. Our "rebelifors" is of tout character which "rebellion" is of that character which dares to think and protest against the unjust acts of a horde of petty tyrants, who are seeking to deprive us of the

As for "Mormon immorality," it is of that kind which encourages men to marry, and makes it possible for all women to do likewise; which would give every helpless, unprotected female, desiring it, a husband and a home, thus enabling both seves to honorably fulfil the measure of their creation; keeping pure the springs of life, forbidding and

Such in brief is the "Mormon Problem," which, correctly interpreted, means simply this: What shall be done with a little handful of peaceable, honest, industrious, loyal, God-fearing American citizens, who, driven repeatedly from their homes by religious bigotry and sectional intolerance, sought out a refuge in the savage desert, built up and beautified an Eden in the milist of its barrenness, where they had hoped to remain unmolested by further acts of oppression and be permitted to worship God and practice the teachings of the Christian Bible, according to the dictates of their consciences and the revelations of the Divine will?

THE PRIVILEGE OF LEGAL WIVES.

WE have heard of legal wives having been subposnaed recently to appear before the Grand Jury, presumably for the object of obtaining testimony to convict their husbands of having or cohabiting with other wives. We would again remind all such that they cannot be compelled to answer a single onestion propounded to them by that body or by the Prosecuting Attorney in attendance. When such a wife is brought before the Grand Jury, or before the Court, it will be quite proper for her to ask before submitting to the catechising process if the object is to criminate her husband, in which case she can refuse to reply to any of their interrogatories, whether relevant or not, and she will be sustained in so doing, and paid the usual witness fee the same as if she had testified. We have good reason to believe that advantage has been taken in some instances heretofore of the ignorance of wives in regard to their privileges in this respect, and we hope for the future that they will not only understand but firmly claim their rights under the law.
