CITY IAX LETY.

The fitness committee of the City Council appears in presty good form this year on the recommendation for inecity tax lawy for 1807. Last year the Council had in take the matter in in a special meeting, the e-mutties making no recommendation. Face was a proposition in increase the 18x rates on her mills, but the C uncil reaching the matter in the seven mills with our only be sufficient to need the go eral exposed at the city for the party and, and when will include a mechanic until the devices of a public florary. Hence seven to public florary. Hence

The fluence committee of the City Council appears in postly good form this year on the recommendation to the city are level to the council has to have a more than a post of a many post of a council has the hard to the council to the council has the hard to the council has been council to the council has been council to the council has been true to the council has been council to the council has been true to the council has been

stration will start out with a balance of such on mand it continued care is executed.

There is no death but that a perfect administration would have been still more tensoriers; that extravagates has not been similarised entirely; that some residualizations agreed upon early in 1996 have not been made. But considering the warring interests that have appeared, and the many and strong attempts to make the city in large amounts introduced the warring interests that have appeared, and the many and strong attempts to make the cly in large amounts introduced until the city in large amounts introduced until the control deserter mode resid for what it has no compalished in this line. While the Nawa has had conservably entire the committee of the control has the control of the control of the control of the interest of the committee of the majority which has followed a generally wise fanancial policy. Resides residenting the landshideness without it-resident of the same money than was given two years ago, to reversit reports. And the stanceyers was have to large with the case will be same money than was given two years ago, to reversit reports. And the stanceyers was have to large and the stanceyers was have to large with the case will feel granified that there is no could for an increased tax rate, but that virtually there is a slight decrease in this cannel large, opening a prospect for further reduction in the interes.

HEAT AND BEAUTIL

Gine, A. W. Greely, chief signal offices of the U. R. Army, in the current number at Novicel Record, discovered the control of the Company in the Company of the Company of

of 200 prestrations, 40 were immediately fatal.
This hole was, it is pointed out, was suppressently fatal, but every year hower a nativitie forerase in fee quality rate in certain local local as a result witness, Among the most remarkable for nevery years are, soording to Gen. On the years are as a control of the contro

ins to the their Rightest repaired per-mitted.

The control of the diseast testifies from a displaced very statements, note that a is desired in a Levide in Descripte, and a displaced in Levide in Descripte, and a displaced in the displaced in the con-trol of the displaced in the displaced in the control of the displaced in t

insignated, when two will held septement in the state.

And y, 1850, while the citile and Minmonth value is suppressive desired Scaline.

And y, 1850, while the citile and Minmonth value is suppressive desired Scaline.

An the prestitute feature desired state of the cipart has prestitute from the state of the citile of the citile

WIND, MAIL.

The central westers slates again have here treet receiving a big shere of devastating secrets, and wind, rain and shift have conspired to die a vasi amount of daining. The aprefacts of half larger than here's eggs coming down with such terrific rary as to become have been been a supersection of the succession of the succe

THE CLYNSTING ANG.

These bot days those was reside outside of the sprinking district inclusion
in the Griffia contract lead greatly the
need of a little water to lay the dasand improve the condition of the
streets. Especially does this attuation
axist where there is considerable
traffic, which is the case in those leadtiles that have applied for service
under the offsicon known as extra
sprinkling. As the public is ware; the
carra sprinkling is held up, by a joint
from proceedings (III Joy) is at the
serfact. But seen that a conveminuse will not convect the
public to paying the price which
has been declared excellent. In the
meanlims the sivest committee is have been declared excellent. In the been declared excellent, in the breathing was for the committee fluiding a way for mast the convenient of the purple. We understand the hard of the purple was the control of the purple, who to be a law read to repair, has offered terms and against the second of the control of all controls where uses the control of the control of all controls of the control where tage rity a late, and likely wit do so, that is dong the adjacinsting of a logar dispute the public with not b among and it inconvenience.

STARLIN DINGS ON HAWAIL.

cits. The point is with reach to Hawaii, and indicates Backan incline in the shalled. Hence the incline of the states of the to zone a general European suspensions to the United States againing sky more periody, and the samine of Cuta is all in westering the specialists. That Rassa's designs on the Hawaiiin shalls is a part of a well cidned painty one to mode quite clear by reference to Rassan error firms atout a nearly cidned painty one to the Coule of th oughed at the United States. As It is a because the soles inderred to requires that when the trans-Shierran raisers is complained, a training to example of the second states of the American Pacific coart. And it wommanded that siter January I, 1000, nowe have vessely drying the Edward fag shall be subswed in our extrain-
