

Have you ever thought that your only voice in the national government lies in the election of members to Congress once in two years.

WASHINGTON, 7.—The impression is very prevalent among republicans to-day that the President intends to sign the bill which the House passed yesterday to prevent military interference at elections. The disposition to make speeches upon it in the Senate has correspondingly diminished, and it will probably reach the President this week.

ATLANTA, Ga., 7.—The jury in the Cox-Alston case, after being out all night, came in this afternoon, having found Cox guilty, and fixed the penalty at imprisonment for life. Cox was calm but his wife was wild with grief, and attempted to throw herself from the window, but was caught by Cox, when throwing her arms about his neck, she cried, "Oh my God! Oh my poor darling!" After the sentence was passed Cox's counsel gave notice of a motion for a trial and superseded.

WILKESBARRE, 7.—Last night an explosion of gas in the Stanton shaft of the Lehigh and Wilkesbarre Coal Co., severely burned Martin Kerrigan. At midnight, while the men were brushing out the accumulation of gas in the lower vein, it came in contact with a "blower," causing a terrific explosion. A large force of men were driving a tunnel at the time, and eight of them were badly burned, the majority, it is thought, fatally. The mine was set on fire, and soon 600 feet of solid coal was burning furiously. To extinguish the flames it had to be flooded.

SAN FRANCISCO, 7.—The election in the city has been conducted with the greatest vigor by both parties. There was an almost total suspension of business, and the best men in the city have been in constant attendance at the polls. The vote is very heavy, probably over 40,000. Opponents of the new constitution are confident it has been defeated in the city by from 10,000 to 12,000 majority. While something must probably be allowed for sanguine feeling, there is no doubt that the majority against its adoption is heavy. Advice from the country indicate large majorities against it in the populous counties of Alameda, Santa Clara, Sacramento and others, but not enough has been received to warrant any estimate as to the general result.

NEW YORK, 8.—The Public, to-day, in a review for the month says: Exchanges for April are decidedly more encouraging than those of any preceding month for a long time. The increase is so general, and at the chief cities so large, there can be no doubt as to the general improvement in the volume of business. San Francisco, New Orleans and Milwaukee are exceptions, for reasons which do not at all affect the statement. The aggregate exchange at twenty-two cities is 128 per cent, larger than in April last year, and a comparison of the sale of stocks shows that no considerable part of the increase is due to any excess of speculative transactions this year. Outside of New York an increase of 6 to 7 per cent is large enough, considered in connection with the decline in prices, to show that a general and important increase in the quality of exchange has commenced, and that the volume of business, even if measured in prices, is enlarging very satisfactorily.

The cricket match between England and America was resumed to-day, with the Englishmen at the bat, and when all were retired, their total was 253, the last six men making only 14 runs. The Americans then went in and after scoring 40 for six wickets, recess was taken for dinner.

After dinner the cricket match was continued and closed at three o'clock, the Americans being defeated by an innings and 114 runs.

Ezra S. Hoyt, present commissioner of Indian affairs at Washington, was yesterday indicted by the grand jury of Hudson County, New Jersey, for conspiracy to defraud. He was president of the International Trust Company, which collapsed last year owing depositors over \$177,000.

CHICAGO, 8.—In the custom house cases this morning Judge Dyer overruled the motion to quash the indictments and also the motion for a bill of particulars, and a jury is now being impaneled to try the cases.

Socialist leaders here assert that they, with the trades unions, are organizing a strike to begin on July

5th, and to be general throughout the country. They will demand the universal adoption of the eight hour system and will settle the matter of wages after their demands on that point are acceded to. This strike has been decided on in their privy councils, but is no secret. Their purpose is political in its nature, and the purpose of the workmen is to secure better wages.

COLUMBUS, 8.—Sec'y. Sherman was serenaded last night and made a speech reviewing the financial progress of the country in the past two years. The finances were improved by no hocus pocus but by a simple common sense plan and everything was benefited. He then examined the status of the colored man and the attempt to repeal the national election laws. He disclaimed political personal schemes for himself. He expressed confidence in the four per cents to reduce the debt, claiming that if the present policy prevails the government would yet borrow all the money needed at less than that interest. He hoped yet to see a reconciliation between capital and labor.

ST. LOUIS, 8.—The National Woman's Suffrage Association convened last night, with large delegations present from the whole country. Phebe Couzen delivered the welcoming address. Mrs. M. I. Gage, the president, responded. Mrs. Elizabeth Cady Stanton was elected president, and Mrs. S. A. Spencer, of Washington, corresponding secretary.

WASHINGTON, 8.—The President regards with great solicitude the situation of affairs in Indian territory. High army officers, however, agreeing with Gen. Sherman, anticipate no difficulty in executing the orders of the War Department. The military force for service has been increased.

SAN FRANCISCO, 8.—The returns of the election as the count has progressed is a complete surprise. The city instead of giving 10,000 or thereabouts against the new constitution gives a majority less than 2,000 with the returns nearly complete. Returns from the country are incomplete, but indicate that while Alameda, Sacramento, Santa Clara and most of the mining counties have gone against, nearly all the other agricultural counties have gone heavily for it. As far as heard from, the city and State now stand 5,300 in favor of the adoption with chances of that majority being materially increased. A disturbance was feared in the city early in the evening, but soon quieted down, merely a few fights occurring. Workingmen are jubilant over what they consider their own particular victory.

The total vote of the city is 37,934, majority against the new constitution 1,238. No further returns from the interior.

FOREIGN.

LONDON, 8.—A Capetown dispatch says: A white prisoner who escaped from Zulu's reports that Umbelina and his brother were both killed in the attack on Col. Wood's camp.

The Sportsman says: No excuse is made for Parol's defeat day before yesterday. As the horses came streaming round Castlepole turn Parole came with such a dash that the race seemed quite at his mercy, but to the astonishment of all, especially his rider, he stopped suddenly as though shot, and began to reel all over the course like a drunken man.

Parole has retrieved his loss of the race for the Chester trades cup day before yesterday by winning that for the great Chester handicap stakes, which took place to-day, the last of the Cheshire meeting. Lord Dupplin's four-year old chestnut gelding, Reefer, which won the Chester trades cup, got the second place, and Lord Leigh's four-year old bay colt, Sir Joseph, third. There were eight starters. The distance of the course is nearly one mile and a quarter, and the race was for three-year olds and upwards.

A Simla dispatch says: The Ameer of Afghanistan arrived at Gendarmuk to-day. He was met at the frontier by Major Cavagnari and a detachment of the 100th hussars and guides. The British troops of all arms lined the route to the camp two and a half miles. Gen. Brown and staff received the Ameer at the end of the line and a salute of 21 guns was fired. The Ameer has announced his official (resignation?) to the Viceroy of In-

dia, and expressed a desire for the establishment of friendly relations between India and Afghanistan.

Private accounts from Russia represent the situation all over that country as beyond description, and that the tendency of so-called repressive measures is towards revolution rather than peace, as the present annoyances and outrageous oppression of all classes of the population is rapidly spreading, and there is a feeling that anything is preferable to the existing state of affairs. It is asserted that the government is really playing the game of the nihilists instead of crushing out the spirit of discontent in the empire.

Russia has apparently abandoned the proposal of the partial continuance of the occupation of Eastern Roumelia after the third of August next. This is attributed to the decided attitude of England, Austria and perhaps Germany.

It is reported that Russia contemplates the establishment of a new Pacific naval station at Stolgi, opposite Jesso, and that the cruisers ordered in America have been ordered thither.

In the House of Commons, to-day, Lord Geo. F. Hamilton, vice-president of the council, stated that swine from Philadelphia having been discovered suffering from the trichina worm, an order in council would be issued, enacting that swine from the United States must be slaughtered at the port of landing. The order will take effect on the first of June.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and serious and frequently fatal affections of the lungs follow, in many instances, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

It can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, incrustated matter that has lodged in the nasal passages is removed with a few applications; the ulceration and inflammation subside and healed; the entire membranous linings of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the acid poison, the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen,—My case is briefly as follows: I have had Catarrh for ten years, each year with increasing severity. For nine years I had not breathed through one nostril. I had droppings in the throat, a very bad cough, asthma so bad as to be obliged to take a remedy for it at night before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored. I have no asthmatic symptoms, no cough, no droppings in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the CURE on my appetite, on my kidneys, and, in fact, every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE. Very respectfully,
FITCHBURG, Oct. 14. C. H. LAWRENCE.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made me familiar with his case. I believe his statement to be true in every particular.
FITCHBURG, Oct. 14. JAS. P. DERBY.

Each package contains Dr. Sanford's Improved Inhalant Tube, and full directions for its use in all cases. Price, \$1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.
