That is all I ask of you. That is all I ask of you. I will then mail you an order on your druggist for six bottles of Dr. Shoop's Restorative. You may take it a month on trial. If it succeeds, the cost is \$5.50. If it fails, I will pay the druggist myself. And your mere word shall decide it. I have the records of nearly 550,000 sick ones who have accepted that offer. They were all difficult cases—some of them desperate. People don't write me about mild attacks. They buy one or two bottles, get well, and I never hear from them. Yet 39 out of each 40 who secured those six bottles paid for them gladly, because they were cured.

paid for them gladly, because they were cured. On Jan. 11, 1903, I published in the Chicago papers the names and addresses of one thousand people in that city alone whom I had cured of chronic diseases in just the past

six months. I need not tell you that no other remedy ever made a record like that. And no other remedy for chronic diseases could be supplied on an offer like mine, without ruining the

man who made it. The reason for it all is that my Restorative strengthens the inside nerves. It brings back the power that operates the vital organs. It is the result of my lifetime's work. Common treatments fall because they aim to doctor the organ that is weak, and such results at best are but temporary. A weak organ must have more nerve power, just as a weak engine must have more steam. And that is all that is needed-all that medicine can do.

CUT OUT THIS COUPON. For we all resolve to send for something, but forget. Mark the book desired and mall this with your name and ad-dress to Dr. Shoop, Box 713 Racine, Wis Book No. 1 on Dyspensia. Book No. 2 on the Heart. Book No. 3 on the Educy. Book No. 6 on the Educy. Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

STANDING OF TEAMS. W. L. P.C.

After a long and bitter struggle the After a long and officer stragge the Brunswick team of the city bowling league has finally managed to pull down the championship for the season of 1902-03, and the team now possesses the handsome trophy offered at the beginning of the season by the Eruns-wick-Balke-Collender company. The team will hold the trophy until next season when there will be another com-petition for it. The victorious aggrethat they managed to crawl out at the top of the heap. Several times during the contests the Harmonie crowd have tied them for first honors, and on two or three occasions have secured the lead. But the lower East Temple street men have played doggedly on never losing faith in their ability to win. The games have been in progress for the last three months and came to a close last night when the two teams lined up for the final struggle. The propo-sition before them was this: If the Brunswick crowd won two out of the five games the championship belonged to them. If the Harmonie's won four out of the five games they would the to them. If the Harmonie's won four out of the five games they would the the leaders and another contest would have to be played to decide the ques-tion. It was a slim chance for the State street erowd, but they made the most of it and did their very best to win. Although they lost two of the games they played with determination and beat the champions out on the total number of points. But for two bad breaks at critical moments they bad breaks at critical moments they might have tied the leaders. Individual and team records were smashed to smithereens. Heretofore the Brunsto smithereens. Heretofore the Bruns-wicks held the team record for points which was 3,349. The Harmonie last night msde 3,496. Bauer's individual score of 962 was broken by Spitz mak-ing 973 and giving him an average of 1943-5 for the games. Every man on the State street team bowled over 800, but in the third and fourth games they did ragged work during which the champions obtained the lead. From the showing they made in the first two games it was freely predicted that games, it was freely predicted that their playing streak would carry them

through winners. In the third game the Brunswicks managed to sneak in the lead by five points, and the fourth went to them by a margin of 14 points.

New York, March 13 .- Jack Munroe the miner pugilist of Butte, Mont., to-night, at Madison Square Garden, won a handicap catch-as-catch-can wrest ling match from Tom Jenkins of Cleve-land. The conditions governing the match were that Jenkins must throw Munroe four times in one hour. He succeeded in downing the miner only three times.

Munroe proved to be clever in defens ive work, but knew little of the art of attack. The advantage Munroe had of the height and reach also stood him in good stead, Jenkins secured his inst fall in 19 minutes 51 seconds; the sec-ond in 20 minutes 3 seconds, and the third in 17 minutes and 1 second. The first and last falls were obtained through waist lock and half Nelsons and the second through the crushing down of a bridge. Jenkins weighed 200 pounds and Munroe 190.

DONOVAN ON JEFFRIES.

Says the Big Fellow is Greatest of All Fighters.

"In the coming heavyweight championship battle Jeffries has every natur al advantage over Corbett. Jeffries is stronger as well as being a clever man for his proportions," says Mike Dono-van. "Corbett, I belleve, is the clever-est big man in the ring. But as for Jeffries, he is a physical marvel. Never before has the ring had such a worth; champion as the present holder of the title. I have seen a good many cham pions and great fighters in the pas years, but not one ever possessed the physique equal to that of Jeffries, Mike McCool was probably the biggest man we ever had in the ring. He was h an inch tailer than Jeffries, but his tuild was not so systematical as Jeffr.es. His muscular development marvelous and can only be appreciate by those who know the results of hard by those who know the results of hard corscientious training. I have look-Jeffries over carefully and I am satis-fied he is as near a perfect man as a human being can be. I don't thir there is a weak spot in the champler from his skull to his feet. For the reason I have taken great interest Jeffries. He is always interesting study from a physical standpoint. Un like other great fighters, Jeffries' mus-cles have been developed proportion stely.
