A few days ago a gang of sub-contractors were put to work on the vessel and it is expected that she will be able to start work again. The missing man was one of the Swiss Germans who have been cut off by Hailey's circus under one of the usual show contracts. They arrived in the United States Saturday on the 1st day on their way home to Switzerland. They were to be paid and were consigned to the care of George Eberhard & Co., 14 Union street. They were booked for the steamer for Africa, but the Australian government would not let them go because it was necessary to secure a permit for them. Arrangements were made for the care of the consignment at a place in Second avenue, and it was while they were being taken out that Simmler got away.

News reached San Francisco yesterday, says the San Francisco Chronicle, November 7, that several seafarers are stranded at the Cuyler harbor, Isla de las Miguelas, to discover that the mouth of the island has gone into the sea. The island is about thirty miles from Santa Barbara, and there were signs of great disturbance there a few months ago. Captain Waters, who over the years has had the sole exclusive consequent on the earth quake had slipped into the Santa Barbara channel. The people who live on the Miguelas are at a loss to know whether a few million tons of earth still lie beneath the sea or whether some submarine volcano has choked the channel. A ship is the only available craft at the island now, and a party of experts will soon make a sounding to see what these experts have been at work to accomplish.

"He reader and student in all things" was one of the old masters taught long ago. The last is not forgotten, but the British source remembers, as irregular in the life of most people.
