EXCHANGE LISTS MAJESTIC MINES

Another Beaver County Property Added to Local Mining Exchange List.

TAKES IN OLD HICKORY MINE.

Property Consists of 120 Claims Which Have Shipped Half Million in Ore in Five Years.

Another stock was added to the already long stock exchange list today and the last space on the big black board was filled. When the Majestic Mines company was placed on the list it did not leave room for another one.

The application of the company states that it was organized in May, 1908, with W. D. Elwell, president; John M. Dick, vice president, and D. J. Flanders, secretary and treasurer. The company is capitalized for 1,000,000 shares at $1 each. Of the number of shares of treasury stock, 198,152 now remain in the treasury. The company has $30,000 in cash on hand and no debts.

The holdings of the company take in 120 claims, 20 of which are patented. The claims taken over by the Beaver county property were the following groups, O. K., Hickory, Harrington-Hickory, Vicksburg, Hoosier Boy and Apex. On the groups are 18 shafts and 20,000 feet of tunnels.

The ore secured is copper, lead, silver and gold.

During the past five years the property has shipped in the neighborhood of $500,000 worth of ore. The company is really a holding company for the Majestic Copper Mining & Smelting company. It owns 580,000 of the 600,000 shares of the company stock and also 75 per cent of its bonds. The company also owns the Milford Smelter on which a lease was given to F. Augustus Heinze.

MINING STOCKS ARE STRONGER.

Columbus Consolidated Continues to Climb Higher on Local Market.

Columbus Consolidated continued to be the star performer on the local mining exchange market today and succeeded in reaching the $3 mark. While Colorado developed a decided weakness Columbus Consolidated continued to move higher. On the regular board it went up 25 cents in a few minutes. On the open board the stock was lower but managed to remain strong at $2.90 at the close.

The physical condition of the mine at Alta is said to be the best in its history. The extent of the big ore body that was broken into on the drift which is 1,500 feet long and off the 400 foot level below the tunnel, has not been ascertained. The upraise sent into the ore has now attained a vertical height of 100 feet and is still in ore. Other places where the ore has been broken into shows that it is from 10 to 30 feet wide and over 80 feet in length.

Shipping from the property is now limited on account of the bad roads. There is about a mile of impassable roads. As soon as this part of the way is cleaned up, an enormous quantity of ore will be sent out from the mine. At present all the ore bins are filled to overflowing and a large amount of ore is being stored in the mine.

Iron Blossom was weaker again this morning and sold as low as $2.32½. Mason Valley was fairly strong, although prices were somewhat shorter. The smaller stocks did not show marked activity. Mineral Flat was sold in small lots and at a price lower than usual. Central Mammoth was sold at 8 cents and 10,000 shares went at this price. Tintic Central went down to 12 cents this morning. Sioux Consolidated developed a little more strength today.

On the curb market Bingham Central Standard sold for 20 cents and East Tintic El Rey was disposed of at one cent. Whirlwind was on the market at 22½ cents and the bid was 17 cents.

BULLOCK VEIN IS GROWING LARGER

Foreman Duncan Reports Drift Toward Railroad Vein in Mineral Country.

WILL SOON MAKE SHIPMENT

Ore is Being Stored in Bin Ready for Shipment to the Knight Smelter At Silver City.

(Special to the "News.")

Provo, April 6.—Foreman Elmer Duncan of the Bullock mine at Tintic telephoned Manager B. H. Bullock this morning that the west drift on the 210-foot level has broken into a highly mineralized territory and that almost any round of holes will open up the large Railroad vein which was opened up in the old workings on the property. From present indications this vein will be larger and richer than ever. In the old workings it was the largest vein and measured three feet across. This is 15 feet to the west of the Bullock vein. The drift is now within a few feet of where it should strike the vein. Already considerable copper and iron is making in the face of the drift and but a short distance more and the drift will be in the ore body. This vein was not as rich in the upper workings as some of the others, but with the depth reached at present, it is believed that the ore will be much better.

Drifting has been started to the south on the Bullock vein which was crosscut a week or more ago. This vein, it is declared, is broadening out and now measures six feet across. When the body was crosscut it measured but one foot. Some excellent ore is being taken from this vein and is being placed in the bin close to the railroad tracks for shipment to the Knight smelter.

It is believed that by drifting along the vein a contact will shortly be discovered that will open up a large body of ore in the property. The drift on the 210-foot level of the mine has now gone 118 feet to the west.

SECOND BULLION SHIPMENT.

The second shipment of bullion from the United States assay office was made today to Denver, amounting to $77,278.22, gold being $75,649.71 and silver $1,628.62. The troy weight was 7,522.39 ounces, or slightly over 500 pounds avoirdupois. The assay office, with its present equipment, is said to be inadequate to accommodate the demands made upon it and further appropriations, it is understood, will be sought by Senator Sutherland to supply amplified facilities. The Carson City assay office is also limited with the constantly increasing demands from Nevada mining properties and shipments to this city in preference to the San Francisco assay office are being made daily, thus increasing the pressure locally. With the present outlook, the business for April will amount to in excess of $200,000.

MAKES BULLION SHIPMENT.

Chafey Mines Send Ore to United States Assay Office in S. L. City.

The Chafey Mines company of Chafey, of which E. S. Chafey is president, has deposited with the local United States assay office 459 ounces of bullion as the result of the clean up at the Chafey mill after a run of seven and a half days. The total value of the bar of metal is something in the neighborhood of $5,000.

The Chafey Mines company has filed articles of incorporation in Nevada and is now a full fledged corporation with a capital stock of $1,000,000, divided into shares of a par value of $1 each. E. S. Chafey is president and Harry Ostler, secretary. Most of the stock of the company is being disposed of among San Francisco and Utah people.

Plans are now being made by the company for the erection of a 100-ton mill at the property. Besides this it is the intention of the company to construction a tramway for the more economical care of the ores.

REPORT ON MAY DAY.

Financial Statement Shows Company In Excellent Shape for Production.

In spite of the fact that the May Day Mining & Milling company paid dividends of $44,000 during the fiscal year, and paid for all the development work, which has been specially devoted to the sinking of the shaft beyond the 800-foot level, the company was able to show at the annual meeting yesterday that there was a cash balance at the close of business on March 31, of $5,974.72. While extensive development work has been going on at the property the mill has only been working one eight-hour shift a day.

The company's financial statement shows:

RECEIPTS.

Cash on hand April 1, 1908	$ 9,084.11
Ore sales, 5,217.846 tons	83,192.35
Concentrates, 1,767.996 tons	44,026.58

	$136,385.63

DISBURSEMENTS.

General expenses	$ 85,410.91
Dividends Nos 1 to 10, inclusive	44,000.00
Balance on hand March 31, 1909	5,974.72
	$136,385.63

Members of the old board of directors were re-elected. These include: John Dern, president; James Chipman, vice president; W. S. McCornick, treasurer; M. F. Braffet, N. S. Neilson of Mt. Pleasant. A. Reeves was re-elected secretary.

PURCHASES MORE COPPER.

The following dispatch was received from Boston today over the private wire of James A. Pollock & Co.:

The Anaconda Brass company has bought 500,000 pounds of electrolytic for June at 12⅞ cents, delivery in Naugatuck valley.

For the first quarter of this year, the American Brass company, the world's combination of copper and brass mill s, reports a gain of 50 per cent over the corresponding period of last year. This corporation is consuming 12,500,000 pounds of copper per month.

CONCENTRATES.

It is reported that the Boston Sunshine property is working in splendid shape and some good results are promised shortly.

David Lemmon, a well known mining man from Nevada, has returned to his home at Battle Mountain after spending several days in Salt Lake City.

The contract for the excavation work for the International Smelter at Pine canyon has been let to Clarence Conrad, representing the Ely Construction company.

The Grand Central Mining company filed amended articles of incorporation today with the secretary of state. It increases the capital stock from $250,000 to $500,000 at $1 a share.

The annual meeting of the Combination Fraction Mining company will take place within a few days at Goldfield. Henry C. Frick, the Pittsburg steel man, and others from the east will be in Nevada to inspect the mine.

From Park City comes the report that some rich ore is now being encountered at a depth of 150 feet on the Keystone. Low grade ore was encountered on the 150-foot level below the tunnel some days ago. It is said that samples taken Saturday gave returns of 135 ounces silver and 24 per cent lead.

According to John Cleghorn, manager of the Deer Creek Mining company, operating in American Fork, the tunnel should within the next 10 feet encounter the strong vein that outcrops on the surface. The tunnel is now in 400 feet. This will give the company an approximate depth of 200 feet on the vein.

Capt. Duncan MacVichie has returned from the east with the assurance that the Western Utah Copper company will get busy immediately. He declared that at least 150,000 tons more will be added to the ore reserves before reduction works are decided upon. The work means a decided revival of interest in the Deep Creek region.

L. J. Ross has purchased a first class steam hoisting engine, a compressor, boilers, Ingersoll power drills, a 50-gallon pump and other paraphernalia for the equipping of the old Holt mine in Iron county, now known as the Escalante company. The property was once as rich as any in the state. As soon as the water line was reached work was abandoned.

The East Tintic El Rey Mining company of Salt Lake filed its articles of incorporation yesterday with the county clerk. It is capitalized for $50,000, divided into shares of $1 each. The company has several mining claims in the Tintic Mining district. The officers of the company are: Paul T. Brockmann, president; Emanuel Rydberg, vice president; T. W. Bussard, treasurer, and B. G. Bussard, secretary.

Work was started today for the placing in readiness of the back rooms of the Atlas block for the new stock exchange, which will be known as the Utah Stock & Mining exchange. C. W. Hartley, temporary secretary, announces that 150 of the new exchange seats have been subscribed for and half the money placed in the bank. He expects Provo people will take at least 20 additional seats and that the remainder will soon be closed out.

The Utah Construction company has started work on extensive improvements on the ore hauling line from Garfield Junction to a point three miles west. The work to be done involves the handling of more than 200,000 cubic yards of material, and includes the enlarging of the yards, filling in bridges and double-tracking the ore hauling line for a portion of the distance. The work will require in the neighborhood of four months in its completion.

Sheep—Receipts, estimated at 12,000; market steady. Native, 5.65@6.35; western, 5.65@6.45; yearlings, 6.25@7.50; native, lambs, 8.00@8.15; western, 6.00@8.25.

KANSAS CITY.

Kansas City, April 6.—Cattle—Receipts, 10,000; market steady. Native steers, 5.00@6.85; native cows and heifers, 3.75@6.10; stockers and feeders, 2.75@6.60; bulls, 3.25@5.60; calves, 3.75@7.50; western steers, 4.80@6.50; western cows, 3.50@5.50.

Hogs—Receipts, 16,000; market steady to strong. Bulk of sales, 6.65@6.95; heavy, 6.90@7.12½; packers and butchers, 6.85@7.00; lights, 6.60@6.85; pigs, 5.25@6.60.

Sheep—Receipts, 8,000; market steady. Muttons, 5.25@6.35; lambs, 6.50@8.00; range wethers, 4.50@7.40; fed ewes, 3.50@5.00.

OMAHA.

South Omaha, April 6.—Cattle—Receipts, 3,800; market steady to easier. Western steers, 3.50@5.75; Texas steers, 3.00@5.15; range cows and heifers, 2.80@4.85; canners, 2.25@3.25; stockers and feeders, 3.00@5.50; calves, 3.50@7.50; bulls and stags, 3.00@5.00.

Hogs—Receipts, 6,500; market 10c higher. Heavy, 6.90@7.10; mixed, 6.80@6.90; lights, 6.60@6.85; pigs, 4.75@6.25; bulk of sales, 6.75@6.95.

Sheep—Receipts, 5,000; market steady to easier. Yearlings, 6.75@7.50; wethers, 5.75@6.50; ewes, 5.25@6.25; lambs, 7.25@8.00.

WOOL.

ST. LOUIS.

St. Louis, April 6.—Wool, unchanged. Territory and western mediums, 18@23; fine mediums, 17@20; fine, 11@17.

BOSTON.

Boston, April 6.—There has been but little change in the local wool situation during the last week. Business continues quiet, fresh transfers are few and for small lots and operations in foreign wool have fallen off. Values hold firm in all lines, fine staple territory being worth 25c and clothing territory 60c cleansed. Trading in fleece wools is slow, while scoured wools are in demand with prices holding firm.

PRODUCE.

BUTTER AND EGGS.

Chicago, April 6.—Butter — Steady. Creameries, 22@28; dairies, 20@25.

Eggs—Steady, at mark, cases included, firsts, 19; prime firsts, 20.

Cheese—Strong. Daisies, 17; twins, 16; young Americas, 17; long horns, 17.

EVAPORATED FRUITS.

New York, April 6.—The market for evaporated apples was very quiet, with fancy quoted at 8¼@9¼; choice, 7¼@7¾; prime, 6@6½; common to fancy, 5@6.

Prunes are in light supply, particularly for the larger sizes, but demand is not urgent. Quotations range from 3¼ to 11¼ for new crop California fruit and from 6½ to 9 for Oregons ranging from 40-50s to 20-30s.

Apricots are quiet, with choice quoted at 8½@10; extra, choice, at 10@10½; fancy at 11@13.

Peaches are firm, with choice quoted at 6@6½; extra choice at 6½@6¾; fancy at 7@8½.

Raisins remain dull and unsettled, with loose muscatel quoted at 3½@4½; choice to fancy, 4¾@6; seedless, at 3½@6, and London layers at 1.20@1.30.

SUGAR AND COFFEE.

New York, April 6.—Sugar, raw, quiet. Fair refining, 3.48½; centrifugal, .96 test, 3.98½; molasses sugar, 3.23½.

Refined—Steady. Crushed, 5.65; powdered, 5.05; granulated, 4.95.

Coffee—Steady. No. 7 Rio, 8¾; No. 4 Santos, 9¼@9¾.

TODAY'S MONEY MARKET.

New York, April 6.—Close:

Prime mercantile aper, 3½@4 per cent.

Sterling exchange steady, with actual business in bankers; bills at 4.86.10@4.86.20 for 60-day bills, and at 4.87.80 for demand.

Commercial bills, 4.85½@4.85¾.

Bar silver, 50¾ cents.

Mexican dollars, 44 cents.

Government bonds steady; railroad bonds irregular.

Money on call easy, 1¾@2 per cent; ruling rate, and closing bid, 1¾ per cent; offered at 2 per cent.

Time loans easy and dull; for 60 days, 2½@2¾ per cent; for 90 days, 2½ per cent; for six months, 2¾@3 per cent.

CROWDS THRONG PROSPERITY FAIR

Continued from page one.

display of flour is pleasing. Hewlett's teas and coffees, extracts and baking powders are shown up to advantage by two ladies demonstrating their excellence; Z. C. M. I. display of manufactured shoes and boots is a surprise to the uninitiated, some of the finest things in the way of shoes being exhibited that can be found anywhere. The Inland Crystal Salt company has a display also; and the display of pen manufacturing by the Held Pen company of this city is something entirely novel in the way of exhibits. The pens are actually made while you wait, and show that Mr. Held has established an industry which will make him, as well as Salt Lake famous. Frank Martyn, expert pen manufacturer, is the man behind the lathe, and he grinds out the pens in short order. The exhibit of the Robinson Plaster company, consisting of panel decorations, etc., is artistic and instructive; the uses to which plaster can be put are a source of wonder and admiration. The Burton Lumber company has a fine exhibit. The Utah Fuel company has a miniature coal mine representing its output of coal, and the Skelton Publishing company has a press in operation, showing how printed material is turned out. The Skelton people also publish the Fair Advocate, a daily folder devoted to the fair interests. The facile pen of "Lon" Haddock is much in evidence in the "Advocate."

INVENTORS IN LINE.

An exhibit of the Miskin spring wheel is novel and surprising. The wheel is so manufactured as to take up the spring of a jolting wagon or conveyance without the use of rubber tires, and demonstrations are made daily. Arthur R. Miskin of Idaho Falls is the inventor of the wheel.

The Whitmore Electric Iron, manufactured entirely in Salt Lake, is shown in a booth by itself. Experts have pronounced this iron the equal, if not superior to any article on the market. It is a Salt Lake product.

A mammoth oil painting by J. B. Fairbanks, of this city, representing the Rubens holy family, and valued at $1,500, is on display at the fair. This beautiful painting will be presented by the painter to the Utah Art institute. The late C. R. Savage gave the frame and his sons are presenting the institute with a substantial sum, by way of getting the matter started.

The work of decorating the booths was done by the Utah Decorative & Botanical company, of which Z. C. Salin, of Salt Lake City, is the proprietor. The work is artistic to a high degree and reflects credit upon the men engaged on the job.

MUSIC AND PRIZES.

The fair goes all the week. Every evening 45 prizes are given away to attendants at the fair. The ladies' G. A. R. Band parades the street daily for the fair, and this evening the Twenty-second ward orchestra, under the direction of Fred Beesley, will furnish music. Tomorrow evening the Helvetia orchestra will be in the band stand.

Wednesday evening the retail merchants and clerks have their day at the fair. Thursday evening is Comercial club night, and the governor and his staff, the mayor and city officials, the board of governors and members of the Commercial club and the members of the Real Estate and Manufacturers' associations have been extended invitations to be present. The following are the committees of the Manufacturers' association who have had charge of the affair, and to whom the success of the undertaking belongs:

Executive—Geo. S. McAllister, James G. McDonald, Orson H. Hewlett, John R. Bruff, treasurer; Lon J. Haddock, manager.

Exhibits, Space and Decorations—H. S. Ensign, J. L. Perkes, J. Edward Taylor, Geo. A. Whitaker, Frank Erath, Bayard Mendenhall, W. L. Wetherbee, H. E. Jones, A. D. Boxrud.

Program—A. A. Beesley, L. N. Stohl, F. J. Lucas, A. A. Smith, Judge E. F. Colborn.

Publicity—Robert Skelton, W. G. Lambert, W. P. Silver, H. H. Huntze, Benjamin Goddard.

Window Display—O. R. Meredith, W. F. Jensen, H. L. Herrington, Ruben Miller, Leon A. Sweet.

Prize Drawings—J. H. Denhalter, Bird Murphy, F. J. Alexander, C. W. Mount, W. M. Williams.

The exhibit of the Utah Gas & Coke company consists of a completely equipped modern kitchen, in which gas is used for cooking. Demonstrations are given every evening and biscuits made of Hustler's flour, raised by Hewlett's baking powder, buttered with Blanchard butter and spread with honey from the Utah Honey company's stock and distributed for the benefit of the crowd.

THE NEW EDISON.

Talking machines play the new Amberol records with remarkable clearness and sweetness of tone. Hearing is free.
