The press, both of Europe and America, is considerably exercised at this time as regards the return of the Jews to the land of Palestine, as if the time had already come, spoken of in Isaiah, 40 chapter, 1 and 2 verses, "Comfort ye, comfort ye my people, saith your God. Speak ye comfortably to Jerusalem, and cry unto her, that her waffare a is accomplished, that her injouity is accomplished, that her iniquity is pardoned; for she hath received at the Lord's hand double for al her sins.²¹ It is well understoo that the land of Palestine was give to Father Abraham and his poste rity after him for an everlasting in heritance, and that they pos the land and prospered until after the rejection of their Saviour, when they said; "Crucify him! Crucify him! Let his blood be upon us and our children after us." The Saviour our children after us." The Saviou in his mercy exclaimed, "Oh, Jer usalem, that killest the Prophets how often would I have gathered you as a hen gathereth her chick

you as a nell gathereth her chica-ens under her wings, but you would not. Henceforth your land is left desolate unto you." The Prophet Nahum, 2nd chap-ter, 1st verse, says, "He that dash-eth in pieces is come up before thy face. For the Lord hath turned away the excellency of Jacob, as

the excellency of Israel; for the emp-tiers have emptied them out, and marred their vine branches." Since that time they have wandered in strange lands without homes and lands and despised. The signs of the times very much

indicate that the time has come to speak comfortably to Jerusalem and for the fulfillment of the man prophecies concerning her. S.

The weather is so delightfully yarm that we might almost say Warm spring has come again. Last Sunday Jacob Hamblin, a pioneer of this southern country, addressed the Saints, he having just returned from a trip to the settlements on the Little Colorado settlements on the Little Colorado, having explored the route from the new ferry on the Colorado river south of St. George to that point. He reports the road good, one of the best natural roads he ever saw, and said, "There is only one patch of grass, and that is all the way."
