DEMISE OF MRS. F. L. WOODS.

Falls a Victim of Typhoid—Damage Suits—Reckless Driving—Funeral of Mrs. Cardon.

Ogden, Aug. 29.—Tomorrow evening at 8 o'clock the choir will give a grand musical program in the Ogden tabernacle which will be held at a premium when the choir will be heard in McClellan's "Irrigation Ode," which is revised and grand. The choir has been doing some hard work preparing the ode, and those who fail to hear it sung will surely have something to regret.

Friends throughout Ogden, where she was born and has lived all her life, Mrs. Woods was taken ill a month ago with typhoid fever which gradually weakened her until her life was despaired of a few days ago, when she seemed to take a change for the better but it was only of temporary duration, her heart had become weakened from the disease and could not survive the strain. The deceased was the daughter of Mr. and Mrs. Thomas Gibbons, was born June 25, 1878. A husband and three little children survive her. She was a faithful member of the Latter-day Saint church. The date and place of funeral will be announced later.

RECKLESS DRIVING. A complaint was made to the police this morning of the fast and reckless driving of a man named Lowder from Harrisville, and a complaint may be issued for fast driving. While driving northward on Washington avenue, Lowder it is claimed, drove his spring wagon against a single buggy being driven by Mrs. Alfred of Staville. The buggy was overturned and the lady thrown but with considerable force, badly spraining her wrists and otherwise severely bruising her. Lowder did not stop to see whether the woman was hurt or not, but drove on as though nothing had happened.

SUES FOR \$5,000 FOR LOSS OF EYE. The Southern Pacific has been made defendant in a damage suit filed in the second district court by Joseph Cameron to recover \$5,000 alleged to be due for bodily injuries. The complaint sets forth that Cameron was employed by the railroad company as machinist at Montello, Nevada, that he was set to work by the foreman of the shops to repair a broken cylinder on an engine which was in full steam; that while he was engaged at the work the cylinder suddenly broke, through permitting the steam to escape, scalding plaintiff's face and body terribly and ruining the right eye; that the accident it is alleged was caused through the carelessness of the railroad company. It happened Aug. 17, 1907.

SUIT TO RECOVER FIRE LOSS. As a result of the recent disastrous grass and brush fire that occurred last month on the bench between Ogden and South Weber, destroying a large amount of property, grain and pasture land belonging to Walter G. Lindsay, he has commenced suit in the district court against the Union Pacific Railroad company to recover \$3,000 damages. It is alleged the fire was started by sparks flying from a locomotive which ignited the grass on the bench land, and from the grass the fire spread in a large field, sweeping everything before it.

FUNERAL OF MRS. CARDON. Mrs. Anna Cardon, wife of John Cardon, who died Sunday evening of paralysis, aged 81 years, one of the pioneers of Ogden City, was laid to rest yesterday afternoon in the Ogden City cemetery. A wealth of beautiful floral tributes covered her grave, silently bespeaking the love and high esteem in which the deceased was held in the community, in which she had lived for more than half a century.

The sum of \$1,625 has been appropriated by the association to be divided among the winners. Already a large number of local horses have been entered and 11 good racers from outside of Weber county. LANDER, WYO. FIERCE LABOR RIOT. Two Austrians Killed and Many Wounded—Purse Badly Used. Special Correspondence. Lander, Wyo., Aug. 24.—A fierce riot raged for several hours at Windfield, a small station on the Chicago & Northwestern, east of Lander, yesterday. Two Austrian laborers were killed and a large number wounded. Deputy Sheriff Morrison, who, with three deputies, attempted to quell the riot, was badly wounded and driven off by the rioters, who stopped fighting among themselves long enough to attack the posse. Morrison has called upon Gov. Brooks to call out company B, Wyoming national guards, stationed here, to assist in quelling the riot.

The telegraph operator at Windfield, where about 15 laborers are employed in three gangs on track work, telegraphed to Sheriff Stough here shortly before noon that the Austrians were rioting and to send officers. Sheriff Stough is absent, but his office deputy telegraphed to Deputy Sheriff Morrison at Shoshoni. The latter deputized three men, and jumping on an engine, made a quick run to Windfield, arriving there in half an hour.

The Austrians were still fighting, but they were almost exhausted. They had no guns, but used sticks and stones. When Morrison attempted to preserve order, the combatants turned upon him and his small force, and a fierce battle raged for several minutes, or until Morrison could withdraw. The posse used their guns, and aside from killing one Austrian, wounded a number of others.

TABERNACLE AT VERNAL DEDICATED

Beautiful House of Worship. Eight Years Under Construction. Now Completed.

VISIT OF PREST. JOS. F. SMITH.

Meeting With Sunday School Children—Many Changes in Stake Officers Made in Conference.

Vernal, Utah Co., Aug. 26.—The most important quarterly conference thus far held in Utah stake of Zion, has just closed. It was the eighty-first quarterly conference and the services were commemorative of the completion of the splendid new tabernacle, which has been under course of construction for eight years at a cost of nearly \$40,000, so the services were dedicatory.

It was also the occasion of President Joseph F. Smith's first visit to this stake, which was much appreciated by the people.

On Thursday the 22nd, President Joseph F. Smith and party arrived Friday afternoon at a special meeting of the priesthood of the report of the Tabernacle committee was heard and accepted and the keys of the completed tabernacle turned over to the presidency of the stake. Let it be said here that the most interesting feature of the conference was the completion of the tabernacle, which has been under course of construction for eight years at a cost of nearly \$40,000, so the services were dedicatory.

Special Correspondence. Heber city, Wasatch Co., Aug. 27.—A movement was set on foot yesterday for the purpose of erecting and maintaining a power plant for hydroelectric power purposes, at a meeting of the principal business men of Heber city and vicinity yesterday afternoon, when the organization of a company, fifty thousand dollars worth of stock was subscribed by the citizens of this county. The company is to be backed by Mr. Jesse Knight of Provo, who has some mining interests on Snake creek, and two power sites on that creek, where it is estimated 2,500 horsepower can be developed.

A number of residences are going up, all helping to build up this already beautiful valley. Meetings have been held with the intention of getting some coal in from the nearby coal mines, but nothing definite has yet been done. There are a number of obstacles in the way and among these are that a road will have to be built for a considerable distance around a large mountain. It is thought, however, that all difficulties will be overcome and that coal will be hauled from these hills.

S.S.S. CURES CATARRH

Catarrh is not merely a disease of the mucous membranes and inner linings of the body as some of the symptoms would seem to indicate; it is a deep-seated blood disease, in which the entire circulation and the greater part of the system are involved. Like all other blood diseases, Catarrh comes from poisons and impurities accumulating in the circulation which irritate and inflame the tissues and mucous surfaces, and then the unpleasant symptoms of the disease are manifested. There is a ringing noise in the ears, a thin, watery discharge from the nostrils, filthy matter drops back into the throat, the breath has an offensive odor, and many other annoying and unpleasant symptoms are characteristic of the trouble. Sprays, washes, inhalations, etc., cannot reach the blood, and are therefore valuable only for the temporary relief they afford. To cure Catarrh the blood must be purified. Nothing equals S. S. S. for this purpose; it goes down into the circulation, removes the catarrhal matter, purifies the blood and makes a lasting cure. When S. S. S. has removed the cause, the blood being pure and healthy, it cleans the membranes and tissues instead of irritating them with noxious poisons, and the symptoms all pass away. Book on Catarrh and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.
