MUST GO TO INFIRMARY.

Pauper Fund Receiving Too Much
Strain Under Old Rule.

In future persons asking aid from the county will have to go to the infirmary for relief, unless they have families or family connections here. The drain upon the pauper fund has become so heavy that the commission-ers feel that the present system of dispensing charity must undergo a change. Elderly people living alone, who have been receiving an allowance will be required to go to the institution on State street, and notices to this effect have been issued by the superintendent, Clark Anton, and the board of directors, including Lundberg. The new rule has already received protests, as most persons provided for at the county's expense have strong disinclinations against going to the infirmary.

INTERESTS DOG FANCIERS.

Efforts are being made by the dog fanciers of the city to make the bench show at the state fair this fall more interesting than ever before. In addition to the regular premiums there will be a number of special prizes awarded.

SPEEDERS MUST SLOW UP.

Determined to put a stop to the practice of driving automobiles at a speed beyond the lawful limit on streets outside the city limits, Sheriff Emery stationed a number of deputies on low-main street and State street last night, whose duty it was to take cognizance of the actions of drivers. For hours at least three officers stood with watch in hand keeping time on passing machines, and with a few words to make it is probable that no arrests were made. It is probable that in some instances complaints may be issued against offenders.

PAINTER BADLY BEATEN.

Wm. A. Westness, a painter employed on the Newhouse building, was beaten almost to death about 10:30 last night by two unknown men. He was found lying unconscious in the gutter in front of the Salt Lake Livery and Transfer company on West Temple street. The police were summoned and while waiting for the patrol wagon to convey the man to the emergency hospital, Mrs. Dan Polson of 26 north

West Temple street pushed through the crowd and stated that the man was her brother Lwo Leslie. The injured man was taken to the home of Mrs. Polson where the mistake was discovered.

Westness had been drinking and said that two men stopped him on the street and demanded money from him. He said he told them he had no money and one of the fellows hit him on the head two or three times with a club. Westness received an ugly gash on top of the head and another over the eye. Dr. E. S. Wright dressed the wounds.

The injured man was first seen by a number of boys who reported to Officer Eddy that they had seen a drunken man wandering along the car tracks, and that a street car had to be stopped to avoid running over the man. Eddy investigated and found Westness lying in the gutter covered with blood. It is not believed that the man is seriously injured.

WILL CONSIDER SALT LAKE.

Chairman Hitchcock May Locate
Western Headquarters Here.

Several days ago Governor Cutler sent a telegram to Frank H. Hitchcock, chairman of the Republican campaign committee, inviting the committee to make its western headquarters at Salt Lake City. The committee is also in receipt of an invitation from the Taft Notification Committee to be present at the notification exercises at Cincinnati on July 28. The governor has acknowledged the invitation and expressed his regret at his inability to be present on that occasion.

IT IS FIRST LIEUTENANT.

Chief Pitt Settles Discussion in Police
Department.

There was quite a discussion at police headquarters this morning as to which officer would be head of the department in the absence of the chief. Hereafter, the captain has been acting chief and in the absence of both the chief and captain, the first sergeant assumed the duties of acting chief.

Recently the council passed an ordinance practically abolishing the office of captain and creating three new offices, namely: First lieutenant, second lieutenant, and also chief of detectives.

Sergeant John Hempel was appointed by Chief Pitt and confirmed by the council as first lieutenant, and Detective "Dick" Shannon was named as second lieutenant, each to receive a salary of \$150 per month. Detective George A. Sheets, former chief of police, was made chief of the detective force at a salary of \$150 per month. Because Sheets receives a greater salary than the lieutenants, some of the policemen were of the opinion that he is the next ranking officer to the chief, while others hold that the amount of salary has nothing to do with the matter at all. They say that Sheets is chief of merely the detective force, seven men in all, while the lieutenants will have general jurisdiction and command over all the men; therefore, First Lieut. John Hempel, formerly first sergeant, is the next ranking officer.

The discussion was settled this morning by Chief Pitt when he was asked the question. He said: "The ranking officer in the absence of the chief will, of course, be the first lieutenant."

There is now a vacancy among the sergeants, but who will be appointed is not known at this time. Chief Pitt stated this morning that he did not know who would land the plum. He has not decided as yet, and said that he did not know who would be appointed.

COURT NEWS.

ANSWERS IN HILTON CASE.

Defendants Claim Plaintiff is Estopped
By Law.

Answers were filed in the district court yesterday afternoon by Mae C. Beamer, Sophia McCreedy, J. S. Cunningham and Louise Cunningham in the case brought against them by Mrs. Annie Hilton. The cause is in line with suits instituted by Mrs. Hilton in the past to secure and as to which as possible of the estate of the late Dr. John R. Park.

Defendants allege in their answer that Beamer was never married to Dr. Park, and that she never claimed to be his wife until after his death. The property now held by them, they claim, was purchased in good faith and the declaration is made that Mrs. Hilton is estopped in any claims that she may make for one-third interest in the same.

TURNER IS COMMITTED.

John Turner was sent to the state mental hospital yesterday afternoon, after a hearing before Judge Ritchie in the district court. Turner was arrested at the office of the Independent Telephone company, Wednesday, while wandering aimlessly about and talking incoherently. The man imagines that he is going to be killed, and says he hears from angels, devils, and all about him the words, "Turner is going to be shot." He was taken to Provo late in the afternoon.

TOPPLED HIM OVER.

M. J. O'Brien, an old time Park City miner, got a little too much aboard yesterday afternoon and while sitting on a railing on Third South between Main and State street, toppled over and struck on his head on the pavement. He was hauled to police headquarters where Chief Pitt closed up an ugly gash in the man's head.

GYPSY DISCHARGED.

Stana Adams, the gypsy fortune teller, charged with robbing Miss McCall of \$55, was discharged from custody yesterday afternoon by Justice of the Peace Dana T. Smith. The complainant was not present and the authorities were unable to make a case against the woman.

STRAWBERRIES AND BEER.

A mixture of strawberries and beer was the cause of much suffering on the part of Sam Hunn, a foreigner, at the Montana rooming house yesterday afternoon. Occupants of the place became alarmed when Hunn had some kind of a fit and then became so violent that he tried to throw all the furniture in his room out of the window. Officers C. A. Carlson was called and took the man to the county jail where he was attended to by Dr. C. M. Benedict. The latter soon determined that Hunn had eaten great quantities of berries and washed the same down with beer. This combination is alleged to have accounted for the man's peculiar actions.

INFORMATION WANTED.

Mr. James Lester of 84 Wash. Lane, Bury, Lancs., England, would like to find his relative, Henry Walsch, or any of his relatives. Mr. Walsch left England, and afterwards filled a mission to England, or went there on a number of visits.

His home was in Salt Lake when last heard of. Address any information to Elwyn D. H. Clayton, 230 Church street, Seefield, Bury, Lancs., England.

BREEDEN IN THE FIELD.

Attorney General Announces His
Candidates for the Supreme Bench.

Attorney General M. A. Breeden has entered the race for the nomination at the hands of the Republican party for the supreme bench. Today he is sending out to his friends the following letter, asking their support in his candidacy:

"Upon the suggestion of a number of my personal and political friends, I have concluded to have my name presented to the next Republican state convention as a candidate for the supreme bench."

"I have been in the active practice of the law for 25 years, the last seven of which I have been the attorney general of this state, and if you approve of my acts as such attorney general, and can see your way clear, I would be pleased to receive your valued support in my candidacy."

"I am, very truly,
"M. A. BREEDEN."

HAD HIS FEET BURNED.

Man Meets Unpleasant Experience in
Emigration Canyon.

A few days ago a man by the name of Clark was walking up through Emigration canyon looking for work, and had a painful experience as a result. He arrived at the works and laid down and went to sleep, but before going to sleep he removed his shoes and stockings and covered his feet with a newspaper. About noon some men working near by thought it would be great sport to set fire to the newspaper covering Clark's feet, and they did so, with the result that his feet were badly burned. The man made his way to Salt Lake and went to the Volunteer hospital, where Mrs. Florence Kohler, the trained nurse, took care of him. Mr. Clark is now getting along all right, and will soon be able to use his feet again.

RETURN FROM CONFERENCE.

Marshal Spry and Committeeman
Wolton Optimistic for Victory.

William Spry and Wesley K. Walton returned yesterday from Colorado Springs, where they were in attendance upon the sessions of the Republican national committee with Chairman Frank Hitchcock. The conference with Mr. Hitchcock was attended by chairman and committeemen from 16 states. The returning committeemen reported that the sessions were most harmonious and they are confident of a Republican victory. The result of the conference with regard to campaign headquarters is not yet complete, Chicago or New York may either be selected as the main headquarters for the contest and Denver and Salt Lake are in the field for the western headquarters. A canvass of the committee indicated that the western headquarters is desired, and Marshal Spry is confident that this city may secure the coveted honor at the hands of the national committee.

Marshal Spry and Committeeman Walton invited the national committee to meet for its next session in this city and promises were made by the Salt Lakeers that nothing will be left undone to make their stay to this city a pleasure, if they decide to come.

SOCIAL AND PERSONAL.

Mr. and Mrs. Geo. T. Odell, W. W. Ritter, Heber J. Grant and H. G. Whitney left for Brighton per automobile this morning to spend the 24th.

Mr. and Mrs. Hugh W. Douglass leave for Brighton today.

Mrs. J. D. Sullivan and family have gone to Ogden canyon for six weeks.

INDEPENDENTS IN SALT LAKE TODAY

Western Delegates to Chicago
Convention Stop Over to
See This City.

HEARST NOT A CANDIDATE.

Secretary Rainey of the Pacific Coast
Delegation Talks of the Out-
look for the League.

With flags and banners flying, a delegation of independence party workers is stopping over in this city today, en route to the first national convention of the party to be held in Chicago. In the party this morning there were delegates from Oregon, California, Washington and Nevada, including National Committeeman, Hugh J. McLean, of San Francisco, J. D. McLaughlin, editor of the News-Advance of Stockton, Cal., and also secretary of the Industrial Peace association, Gessner Williams of Los Angeles; E. W. Stone and J. C. Hagerman of Nevada, and F. L. Hooper, committeeman from Washington. The party comprises 32 members in all and arrived this morning in two special cars over the Oregon Short Line and left at 3:10 this afternoon over the Rio Grande western lines for Denver, where they will meet the delegates from New Mexico and Arizona.

J. A. Rainey, secretary of the Pacific coast headquarters of the independence party was also in the party, and in speaking of possible candidates for the presidential nomination he said:

"William R. Hearst is not a candidate for the nomination and does not want it. Whether or not the convention will stampede and nominate Mr. Hearst we do not know, but do not think it likely. This, of course, remains to be seen. The most prominent candidate for the presidential nomination is Thomas L. Halsey of Massachusetts and who was candidate for governor on the ticket last fall. For the vice president there are several candidates, in fact the field is wide open. John Temple Graves of Georgia has been talked for the place and possibly for president. The delegates are not in any case pledged to anyone and are all going to the convention free and unbound to any person or persons. We will nominate a straight independence party ticket and one which we believe will bring a heavy vote. Our platform stands for the most liberal principles and does away with all controlled party conventions. We advocate the election of United States senators and judges by the popular vote of the people and are in favor of the income tax."

PUBLIC OWNERSHIP.

"Our party stands for the public ownership of all public utilities and for the government ownership of telegraph lines. The party denounces the evil of over-capitalization as harmful and criminal. We declare that the right to issue money is inherent in the government and demands that any further issue of currency shall be made by the government and loaned to the banks upon securities approved by the secretary of the treasury."

We are in favor of an eight-hour law and good wages for public employees, and that the government should set a good example of a model employer. We want the workman protected against the use of force and safety appliances, and hygienic conditions in mines, mills and factories, and for a rigid prohibition of child labor."

"Another plank in our platform is the establishment of a parcels post and government savings banks, where the people's money and savings will be secure. We want a navy sufficient to protect both the Atlantic and Pacific coasts and believe that an adequate navy is the best protection in time of war as well as the best preventive of war."

Mr. Rainey declares that the party is greatly increasing in numbers daily and will poll a big vote at the fall election. The party was entertained at a special organ recital at noon at the tabernacle and after lunch at the Kenyon lot for the east. It is the aim and one of the principles of the party that in selecting delegates to the national convention, they were to be men of California's most representative business and newspaper men."

MET DEATH IN A TUNNEL.

While Drilling Inside the Lochburg
Workmen Strike Water and Twenty-
Five of Them Are Drowned.

Berne, Switzerland, July 24.—There was a frightful accident early this morning in the Lochburg tunnel in the Bernese Alps, which resulted in the death of 25 workmen.

The men were drilling inside the tunnel. Without warning their tools pierced the wall that separated them from a subterranean river or lake, the existence of which was not known. The wall gave way with a crash and a torrent of water and mud rushed into the tunnel and filled it. All of the workmen were drowned. They were Italians. Fortunately, owing to the early hour, only comparatively few men had entered the tunnel. The disaster occurred 2,400 yards from the northern entrance. It is believed that the men tapped the Kander river which flows through the mountains above the tunnel. The water now chokes the tunnel within 1,000 yards of the entrance.

**WILL CHOOSE DEMOCRATIC
CAMPAIGN MANAGER**

Chicago, July 24.—Thomas Taggart and Nathan Cole, members of the sub-committee of the Democratic national committee, arrived here today from their respective homes in the west and California to attend the meeting of the committee which tomorrow will choose a campaign manager. Other members of the sub-committee which numbers 11 are expected late in the day while W. J. Bryan and his running mate, J. W. Kern, will arrive tomorrow morning.

Mr. Taggart declared today that he had no idea as to who would be the new chairman of the national committee. That, he said, was a matter which could not be canvassed until tomorrow's meeting was formally called to order.

STEAMERS COLLIDE.

The Bakkelaget Cut in Twain and
Sunk.

Christiansburg, July 24.—The steamer Bakkelaget, engaged in local passenger trade, was in collision yesterday with

the steamer Goetberg. She was cut through amidships and sank in a few moments. From 10 to 20 of the Bakkelaget's passengers are believed to have drowned. Twenty-three of them were rescued by the Goetberg.

**FEDERATION ADOPTS
WORKING AGREEMENT**

Denver, July 24.—The Western Federation of Miners in convention here today adopted the working agreement with the United Mine Workers of America, substantially as recommended yesterday by the committee appointed to consider this question. This action was strongly urged by President Charles H. Moyer.

The agreement, as adopted, provides that the federation shall grant no more charters to coal miners but that the locals of coal miners already organized shall be maintained and organized shall be continued in camps where such locals exist, and that all questions of jurisdiction that may arise

between the two organizations shall be referred to the executive boards of the organizations for settlement.

**NERVY ROBBER TRIES
TO HOLD UP A TRAIN**

Appleton, Wis., July 24.—A nervy robber tried to hold up the Ashland-St. Paul northbound train on the Chicago & Northwestern railroad yesterday near Appleton Junction, a mile and a half north of here.

The train had just passed the junction when a masked man climbed over the tender into the cab of the engine from the platform of the blind baggage car, where he had been hiding. Revolver in hand, he commanded Louis Wandell, driver of the locomotive, to stop the train, uncouple his engine and run up the track a short distance.

Wandell, covered as he was by the man's revolver, was about to comply when Gustave Paul, his fireman, hit the highwayman a heavy blow with

his coal scoop, knocking the revolver from his hands. Paul was swinging the scoop for another blow when the man jumped from the doorway of the cab while the train was running 20 miles an hour.

It is the theory of trainmen here that there was a large shipment of gold on the train from Chicago to St. Paul and that it was the treasure the man was after. A posse is searching for the highwayman.

LURLINE CUP.

Commodore Sinclair Will Offer it as a
Perpetual Trophy.

Honolulu, July 24.—Commodore Sinclair, commander of the ocean-going yacht Lurline which won the trans-Pacific race from San Pedro, California, to this port, at a banquet here last night announced that he would offer the cup he has just won as a perpetual trophy challenge for the trans-Pacific race unless Sir Thomas Lipton made an offer of a cup for the race.
