

FLOATING FRAGMENTS.

A Prisoner's Excursion to Cache has been arranged for.

The Park City Chinese murder case is under examination, before Commissioner Pearson.

A reward is offered for a lost dog, which the finder is requested to take to the Valley House. See advt.

The finder of a black silk sack, made in a box, is requested to leave the article at this office and be rewarded.

President George Q. Cannon delivered a highly interesting discourse in the Tabernacle yesterday afternoon.

Army officers say there is danger of a blow up. It would be too bad to have to rig up the United States army as a scarecrow.

On Saturday "Tommy" Harris, of Ogden, a habitual inebriate, came ending his earthly career by an overdose of laudanum.

There are messages at the Western Union Telegraph Office for Samuel Tucker, J. T. Forevener, J. R. Russell, W. J. Salkeld.

Attitudes were once paid \$20,000 for a single lecture. The money does not say whether he had killed himself or whether his popularity was merely due to the fact that he had a murderer in his family.

The law prohibiting the selling of liquor within 400 feet of a school house has been found to work well in States where it has been tried. Here is a hint for the prohibitionists. They should get such a law passed and then, instead of spending a lot of money on political campaigns, use the funds to build school houses. —E.E.

It is stated that Indian Agent Berry, formerly of the Uncompahgre Agency, now at the Utah Agency in Utah, has been placed under arrest. The nature of the charges against him could not be learned. The arrest was made on the 10th inst. by Inspector Pollock, who was accompanied by Lieutenant Gurley and a squad of men. His orders were sealed.

An engineer in the Pennsylvania railroad claims to have "invented" a whistle that can run the whistle of the scale. People in Peoria remember the Peoria whistle, which was used to play a tune in my little bell. "Old whistles," and all the national airs of the musical whistles down at Peoria machine shops ten years ago, are now whistles. Bob was a gifted musician. —Burlington Hawkeye.

LOCAL AND OTHER MATTERS.

A Fall.—The other day a couple of young men at work on the big dam, at Hilliard, fell from the foot-ladder to the ground, a distance of over twenty feet, but neither were very seriously hurt.

Transfers Attention.—Trains with the excursionists will arrive at 10:50 a.m. and 6:30 and 7:50 p.m. to-morrow, come everybody with your vehicles and take them comfortably to your homes. Some teams are also wanted to-day.

H. K. K. Hira.—If Hans Kottel Hira, of Dileador, and now supposed to be somewhere in the United States, or any of his heirs, will communicate with this office, he will hear of something to his advantage. See advt.

From the North.—President Wm. Budge, of Bear Lake Stake, came down from the north yesterday evening. He is in excellent health, and reports everything prosperous in Bear Lake Valley. He will be in town a few days.

The Mastodons.—On the evenings of Thursday, Friday and Saturday, and an afternoon matinee on the day last named, the Consolidated Mastodon Minstrels will perform at the Walker Opera House. This company is highly spoken of by the press.

Poor Shooting.—A week ago yesterday, at Frisco, Utah, Bud Davidson and C. X. X. X. had an angry dispute. They rushed at one another and each emptied a 44 calibre pistol. They did some execrable shooting, firing nine shots in all without either being hurt. The lives of several bystanders were jeopardized by the whizzing bullets. Both men were arrested.

Fire at Frisco.—Last Wednesday morning at 1 o'clock, the fire alarm sounded and in a few minutes a fire in the whole camp was rushing pell-mell down Main street, to the James & Angel slaughter corral, the house and outbuildings being ablaze. Fortunately the establishment was separated by several hundred feet from other property and the flames confined themselves to the corral. The cause of the conflagration is unknown, though there can be no doubt that it was the work of some careless boy, with which Frisco is now burdened. The entire loss is quite heavy and falls entirely upon Messrs. James & Angel. Since writing the above it is learned that the Indians saw two men, who had previously been seen in camp, ride up to the slaughter house, set fire to it and then ride off. This is believed to be correct and that it was spite-work. —Southern Utah Times.

A Singular Circumstance.—An Emmetville, Idaho, correspondent of the Democrat relates a singular and perhaps unparalleled incident that occurred near that place lately. He says:

"Great excitement has existed here for several days past over an unusual occurrence. Mr. A. H. Holey, while hunting on Squaw Creek Butte, encountered a cloud-burst. He was in a gulch, heard the warning, saw a mighty wave of water rolling down five feet in depth, and attempted to escape. But before he could get out of the gulch the wave of water struck and took him down about a mile, and finally threw him on some brush in an unconscious condition. When he came to himself it was dark, and he was completely alone. He was so completely alone that he remained out all night. He got home next day in a very demoralized condition. A heavy charged cloud had come in contact with the Butte, and bursting poured down a deluge of water. Mr. Holey is the only man who has ever had such an adventure and lived to tell it. That he escaped as he did is miraculous."

SMALLPOX.

THE DREAD DISEASE BROKEN OUT AT ECHO.

To-morrow has broken out at Echo. We understand that the first to be attacked by the dreadful malady was the clerk of Mr. Louden's store, and subsequently Mr. Louden and a member of his family were stricken down with it, making three patients in one building. People having occasion to visit that part of the Territory should be careful about exposing themselves to infection or contagion.

Sam'l of Posen.—The Walker Opera House was crowded on Saturday evening and a large number of our Hebrew fellow citizens were present. The play is not very deep or complicated in plot but is full of interest and has some striking situations. The dialogue is sharp, natural and witty and contains nothing offensive. The acting was exceedingly good. Mr. Curtis, of course is the central figure and his impersonation of the Jew peddler and modern Drummer was true to the life. Every character was well sustained and the performers have acted together so long that the conversation is conducted with perfect naturalness but perhaps a little too much volubility. We must not omit to mention specially the part of Madame Celeste. It was uncommonly good and elicited great applause. Sam'l of Posen is well worth seeing and will no doubt draw another big audience to the elegant building this evening. The Carleton orchestra supplied the music and this needs no comment.

Bad Effects of Poor Ice Cream.—It is a season, by way of caution, to mention the fact that several persons in Denver were lately seized with serious symptoms after eating ice cream. Retching, cramps and chills were the results of the indulgence. The Denver Tribune speaking of the matter says:

"Dr. Cole verified the theory that the ice cream was the cause of all this trouble. He says that poisoning from cream results from adulterations in the flavoring extracts—that of vanilla being the most dangerous and from the slovenly manner in which cheap cream is made with copper and galvanized vessels. The stuff is a good cholera breeder and a dangerous mixture."

The Old Folks.—The old folks are beginning to arrive. The first installment came in on the morning train. It is earnestly requested that all persons who are expecting friends will go to the depot on the arrival of the trains and take them home with them. Those unprovided for will be taken care of by the committee, who will be there to receive them. There are more homes wanted for about 50 or 60 and the names of all who will care for them are urgently requested immediately. The bulk of those coming will arrive by the train to-morrow. Teams that are volunteering should form in line on the street east of the depot grounds.

Drowning Accident.—A sixteen-year-old boy named Paul Hays, was drowned in Lake Minnehaha, near Chippewa, on Wednesday. It seems that he, in company with two other boys, and a man, were out in a boat, engaged as boys are frequently are when on the water, in robbing the boat, unmindful of the stiff breeze which was rushing across the lake at the time. In the midst of the sport the boat upset, and in the struggle in the icy water which ensued, the lad Hays floated out of reach of the capsized boat, to which his fellows clung, and sank beneath the surface and drowned. The other boys were got to shore, one of them more dead than alive from struggling so long in the cold water of the lake. —Boomerang.

A Native of Mexico.—This morning we were pleased to receive a visit from Fernando Lara, formerly of the City of Mexico, but now of Logan, Utah. He embraced the gospel in his native land, and accompanied Apostle Moses Thatcher to Utah when he returned from his mission to Mexico. Brother Lara is a gentleman of some literary ability and has corresponded, since his arrival in Utah with a Mexican Journal. He is in the city on a brief visit, during which he is collecting materials for another journalistic article. In his native country Brother Lara was, by profession, a school teacher.

Musical Composition.—Professor Beesley, Conductor of the Tabernacle Choir, is the author of the music to "The Lord God omnipotent reigneth," which is to be sung by a quartette of voices at the forthcoming musical exercises on Wednesday night, for the entertainment of the Old Folks. He composed the piece from the words written by Mrs. Emily Hill Woodmansee, which have already been published in the News.

Beneficial.—An old adage says, "there are no advantages without disadvantages." This certainly applies, vice versa, to the present season's growth of vegetation, including both garden and field crops, in this and adjacent valleys. Although the season is backward, the absence of the usual dry weather has enabled the vegetation to grow vigorously, if not rapidly, giving promise of an abundant harvest. The outlook is indeed very cheering.

Excursion to Cache.—Pioneer Company No. 1, of the Salt Lake Fire Brigade, have arranged for their annual excursion to Cache Valley, to come off on the 23rd of August next. The tickets will be available for three days, with the privilege of ten days on payment of half the single fare. The fare will be three dollars to Logan and three and a half to Franklin.

Added Demise.—On Saturday night the remains of Mrs. Catherine D. Morris were brought to this city, for interment, from Almy, Wyoming, where the lady died very suddenly, her illness only extending over a period of 24 hours. The burial took place yesterday.

Wants to Know.—Daniel Tyler, of Beaver City, Utah, desires to know the whereabouts of George Braffet. He was last heard from in Kane County, Utah.

Board of Trade.—The monthly meeting of the Salt Lake Board of Trade will be held in the Council House, Friday, June 30, at 7:30 p.m. JOHN C. CUTLER, Sec'y.

Home Mission.—The Home missionaries of the Salt Lake Stake are requested to meet in the Council House on Wednesday evening, the 23rd inst., at 7:30 p.m. W. W. TAYLOR, Clerk of the Stake.

Times of Arrival.—We are requested to state that telegrams have been received by Bishop Hunter, to the following effect: That the old folks from Sandy will reach here at 10 a.m. to-morrow; from Payson at the same time, just at 1 p.m. from Springfield, to-morrow evening, from Salem at 10 a.m.

Badly Hurt.—The Oxford (Idaho) Enterprise says that Charles Moore, one of the teamsters hauling lumber from Cottonwood Canyon to Swan Lake, met with an accident that nearly cut off his thread of life. He was riding on a box which was on the fore axle of his wagon, and was thrown off, by a jolt, in front of the fore wheel, which passed over the back part of his head, the hind wheel cutting loose a part of the scalp and otherwise mutilating his head. He was conveyed to Oxford and placed in care of a surgeon.

A \$500 REWARD.—They cure all diseases of the Stomach, Bowels, Blood, Liver, Nerves, Kidneys and Urinary Organs, and \$500 will be paid for a case they will not cure or help, or for anything impure or injurious found in them.—Hop Bitters. Test it. See "Truths" or "Proverbs" in another column.

HORSFORD'S ACID PHOSPHATE, In Seal-tin. S. S. Parker, Wellington, O., says: "While crossing Lake Erie, I gave it to some fellow-passengers who were seasick, and it gave immediate relief."

FROM "THE TIMES." Editor of the Times.—The state motto recently published in your valuable paper have created much excitement in this city among the class who own and use horses, and after reading your request that all should write you who had been benefited by the letter published from Dr. Bates in regard to the remarkable cure he always had with Kendall's Sperm Cure, I decided to write you my experience with it. My first knowledge of this remedy came through a visit to the office of the Massachusetts Society for the prevention of cruelty to animals. This society was that first to use Kendall's Sperm Cure in Boston, and I was informed by Charles A. Currier, a gentleman in whom I had the utmost confidence, that they had never used anything that worked so well for sprains or any lameness in horses, and he stated that he gave it to my team who had lame horses and would agree to use it, and in this way he was enabled to get along without prosecuting them. It was sure to cure when preserved and a very severe injury to the knee joint and the high recommendation which Mr. Currier gave Kendall's Sperm Cure, gave me so much confidence in it that I used it for my knee with the very best of results, and since that time my knee has been so strong in the use of it that I can now do anything I wish without it in the house. I have tried it since then for foot-sore, sore teats or warts on my cows, teats; also for a general ailment for my horses or in my garden. I have also been able to write you before that there never was a good ointment for both men and beast ever discovered before. Hoping you will continue to give us more light on this subject I am Very truly yours, ROBT. C. AYER, Boston, Mass., Oct. 1st, 1891. d&w

FREE OF COST. Dr. King's New Discovery for Consumption, Coughs and Colds, Asthma, Bronchitis, etc., is given away in trial bottles. Free of cost to the afflicted.
