

## SENATOR DEPEW GIVES EXPLANATION

Tells About Loan Made by the  
Equitable to the Depew Land  
Improvement Company.

### IT WAS NOT VERY PROSPEROUS

Society's Official Appraisers Reported  
After Examination that \$25,000  
Was Only 60 Per Cent of Value.

New York, July 12.—Senator Chauncey M. Depew has made a statement to the Paris correspondent of the New York Tribune regarding the loan of \$250,000 made by the Equitable society to the Depew Land Improvement company on property alleged to have been worth only \$150,000, in which he says that he had never advocated or recommended any such transaction, because he was a director of the Equitable.

Senator Depew further says: "That loan never could have been made unless the official appraisers of the Equitable had reported after examination that \$250,000 was only 60 per cent of the property's value, such being the rule of the society, and that on such a report the officers of the company had unanimously approved it."

"The Depew Land Improvement company was organized some five years before I was induced to become a stockholder. The town had then about 5,000 inhabitants and many thriving industries, including the New York Central, and connection with several trunk lines. The company appointed a general manager who built houses, a hotel, opened streets, extended the water and sewer systems and incurred great liabilities in improvements."

"A few of the larger stockholders formed a plan to pay off all liabilities and provide working capital, but the stockholders were so numerous, a large number living abroad, that co-operation could not be secured, and the company went into the hands of a receiver five years after the charter was given. The appraisal of the property has been made by officers and independent persons, the lowest valuation being \$200,000 over and above all liabilities."

"If the Equitable and other creditors will join and take the property out of the hands of the receiver and put it on a going basis, there is no possibility of loss. On the contrary, in the judgment of those best acquainted with the property, there is a certainty of profit. A few days before I sailed from New York I placed my resignation as counsel in the hands of Chauncey Morten, and I am very glad that he accepted it. I have passed my seventy-first birthday, and I had made up my mind before that I reached 72 to secure something of that rest and freedom from incessant work that has been denied me year after year."

### AMERICAN FLAG

Torn Down and Trampled on in  
London, Ontario.

London, Ontario, July 12.—An American flag was torn down in front of the city hall tonight and trampled under a hundred feet as the result of a remark made by an American visitor at the Orangemen's demonstration. About 600 Orangemen came over from Michigan and during the day carried the stars and stripes through the streets without unfavorable comment being excited. Tonight the Americans gathered in front of a hotel when some one cried "To hell with Canada, she never showed us hell." Instantly the American flag owned by the Port Huron, Mich., lodge was torn from where it waved in the breeze and was ripped into shreds and trampled under the feet of an angry mob. Port Huron Orangemen say they did not resent it, as they believed the insult to Canada was uncalled for.

### LAND FRAUD CASES.

Mass of Documentary Evidence  
Introduced.

Portland, Or., July 12.—A mass of documentary evidence was introduced during the Williamson-Biggs-Van Genser trial today, the effect of which is to show Genser's acts in furtherance of the conspiracy and Biggs' knowledge of the illegality of the procedure. Correspondence between Biggs, as United States commissioner at Painesville, and Jay P. Lucas, then register of the Dallas land office, showed that Biggs had sent in all the applications of the timber entrymen, that he asked to have the final receipts all sent to him, and that Van Genser had written inclosed checks in payment of final proof for various entrymen, aggregating \$4,000.

The trial of Williamson, Genser and Biggs will probably be concluded tomorrow, as far as the evidence is concerned.

cerned. The government has many  
more witnesses, but will probably not  
call more than three or four. Judge  
Bennett, chief counsel for the defense,  
said that the course of the defense had  
not been determined upon as yet, but  
that it would probably not have more  
than two or three witnesses.

Four witnesses appeared against the  
three defendants this forenoon.  
The introduction of a mass of documentary  
evidence and the identification  
of it by witnesses consumed the afternoon  
session of court. At the conclusion,  
Mr. Henry announced that the  
government rested its case.

The documents introduced consisted  
of entries of public land which the  
government contends were for the benefit  
of the firm of Williamson & Genser;  
refinements of claims which were  
filed prior to the time that the in-  
dicements against Williamson, Genser  
and Biggs were returned, and letters of  
Marion Biggs relative to entries or re-  
linquishment of public lands.

### COM'DR PEARY WILL SAIL FOR THE NORTH POLE.

New York, July 12.—With \$25,000 sub-  
scribers today toward his expedition to  
reach the north pole, Robert E. Peary  
announces that he will sail this week  
for the north. Commander Peary's new  
Arctic ship, the Thetis, has been  
waiting several days for supplies, which  
could not be bought on account of the  
lack of funds.

The polar expedition, which has been  
in preparation since Oct. 15, 1904, has  
cost \$150,000, including today's sub-  
scriptions. The entire amount has  
been given by American business men  
to the Peary Arctic club, whose mem-  
bers are anxious that none but Ameri-  
cans have a hand in this polar expedition.

Morris K. Jesup, president of the  
club, subscribed \$25,000 today, and  
Thomas H. Hubbard gave a check for  
\$10,000. Mr. Hubbard also offered to  
join with any other "believer" in the  
north pole expedition in putting \$25,000  
into a fund to be divided among the  
members of the Peary party in case  
they succeed in reaching the pole and  
returning to New York within 18  
months after their departure from here.

In announcing that his ship is at  
last ready to start, Commander Peary  
made public for the first time a dona-  
tion of \$5,000, given by George Crocker  
in January last.  
The \$5,000 received today will be ex-  
pended, Mr. Peary said, for hand picked  
coal and additional scientific instru-  
ments. His party is complete with the  
exception of a surgeon.

Mr. Peary will probably sail with  
the expedition. From here the Ross-  
veit will proceed to Sydney, Cape Res-  
olution, where the New York crew will  
give up the ship to a picked crew, which  
is already waiting on the Erik, a coal  
ship, which will accompany the Ross-  
veit to latitude 79. The Erik will then  
return south, bringing Mrs. Peary with  
her.

### G. D. COLLINS ARRESTED.

Effort Will be Made to Extradite  
Him from Canada for Perjury.

Victoria, B. C., July 12.—George D.  
Collins, of San Francisco, was arrested  
here tonight on a warrant secured un-  
der telegraphic instructions from  
Judge Lawler of San Francisco, charging  
him with perjury committed on  
June 30 in having sworn that he had  
not married Charlotte Newman on  
May 15, 1892 as she averred that state-  
ment being untrue. Collins fled from  
San Francisco accompanied by Mrs.  
Collins whom he married in Chicago  
recently and the local police were tele-  
graphed to and requested to arrest him  
on a charge of bigamy. This offense is  
not extraditable and Chief Dinan of  
San Francisco was informed to that  
effect. Instructions were then sent to  
arrest him on the charge of perjury.  
Chief Langley went before Judge  
Lampman at his residence and secured  
a warrant with which Collins was ar-  
rested when returning to his hotel to-  
night in company with his wife. He  
stated after arrest that the charge was  
evidently a trumped up one and he  
intended to fight extradition to the  
end. Collins and wife were registered  
at a hotel here as Mr. and Mrs. J.  
P. Bransburg of Southampton.  
Collins has engaged a local barrister  
to fight extradition and application for  
habeas corpus will be made tomorrow  
morning.

### CHINA'S ATTITUDE.

Won't Consider Herself Bound by  
Russo-Japanese Treaty.

St. Petersburg, July 12.—According to  
information obtained at the foreign of-  
fice, it seems that China did not ask  
for actual representation at the Wash-  
ington peace conference, but simply  
notified Russia and Japan that if she was  
not apprised of the conference and her  
consent secured to any stipulations  
to a treaty affecting Chinese territory  
she would not consider herself bound by  
it.

### Identifies Murdered Man.

Baiting, Kas., July 12.—C. J. Halde,  
president of the Iron Molders' union of  
St. Joseph, arrived here tonight and  
identified the body of the man murdered  
here Friday as that of N. Sexton of St.  
Joseph. It is thought by the officers  
here that Sexton was robbed and mur-  
dered by the same gang that held up  
six men at a Winfield hotel, two mem-  
bers of which fought the officers at  
Cedarvale this morning.

### "Jackrabbit" Charley Killed.

Red Lodge, Mont., July 12.—A well  
known character of Carbon county,  
Charles Benning, better known as  
"Jackrabbit Charley," has been killed  
by a horse falling on him while riding  
across country in the upper Clark Fork  
valley. Benning was riding "Jack-  
rabbit Charley" after being snow-  
bound in a cabin in the upper Clark  
Fork valley over winter and living on  
jackrabbits for months until able to get  
relief. Benning was a well known news-  
paper man.

### Beverly Letcher Takes Opium.

San Francisco, July 12.—Beverly  
Letcher, chief loan clerk of the San  
Francisco Savings union, director of the  
North Shore railway and well known  
clubman, was found unconscious to-  
night in his room in a hotel on O'Far-  
rell street from the effects of opium  
poisoning. Taken, it is believed, with  
suicidal intent.  
Letcher was taken to the emergency  
hospital where the physicians say he  
probably will die.

### To Improve Army Posts.

Washington, July 12.—The chief of  
staff has approved the recommenda-  
tions of Quartermaster-General Hum-  
phrey for the improvement of quar-  
ters

at the various army posts throughout  
the country. For this purpose Con-  
gress appropriated \$4,085,950.

### FOR THOUSAND ISLANDS.

Three Men in a Boat from Chicago  
Bound for Them.

Watertown, Conn., July 12.—James  
Wallace, E. R. Parsons and Charles  
Chapin of Chicago, are now between  
Chapin and Oswego, bound for the  
Thousand Islands in a 3-foot sailing  
yacht, in which they have traveled ap-  
proximately 5,000 miles. They left Chi-  
cago by way of the drainage canal on  
Oct. 18. The trip down the Mississippi  
river consumed two months. From  
New Orleans they went to Florida,  
where they spent the latter part of the  
winter. They then came up the Atlan-  
tic coast, and arriving at New York  
about a month ago, started up the Hud-  
son. A naphtha launch towed them  
from Troy by canal to Oswego. The  
trip has had many exciting adventures  
and hairbreadth escapes, and the men  
expect to arrive home between Aug. 1  
and 15.

### A PLOT DISCOVERED.

Was to Blow Up Castle of Hinko-  
koje, Near Moscow.

New York, July 12.—A World dis-  
patch from London contains the fol-  
lowing from the Vienna correspondent  
of the Daily Telegraph:

"Private letters from St. Petersburg  
state that the police have discovered  
elaborate preparations for blowing up  
the castle of Hinkojoje, near Moscow,  
where the czar with the imperial fam-  
ily intended to take up a brief resi-  
dence. Beneath the apartments des-  
tined for his majesty's use, a subter-  
ranean passage is said to have been  
found leading to a cellar where 250  
pounds of dynamite lay concealed.  
The police have made many arrests,  
apprehending, among others, two engi-  
neers who conducted the cleaning and  
decorating of the apartments of the  
castle."

"This intelligence, associated with  
the murder of Shavlovsk, has made a  
deep impression."

"The czar has now given up all idea  
of staying at Hinkojoje."

### Trolley Roads for Cuba.

New York, July 12.—The Havana  
Central Railway company has awarded  
a prominent electrical company con-  
tract for the construction and equip-  
ment of the trolley system in Cuba of  
the largest electrical railway system  
ever initiated by American  
interests outside of the United  
States.

The company is to build and operate

### CUTICURA CURED AT ONCE

"My child was a very delicate baby.  
A terrible sore and humor broke out  
on his body, looking like raw flesh,  
and causing the child untold agony.  
My physician prescribed various reme-  
dies, none of which helped at all. I  
became discouraged and took the  
matter into my own hands, and tried  
Cuticura Soap and Cuticura Ointment  
with almost immediate success. Be-  
fore the second week had passed the  
soreness was gone, not leaving a trace  
of anything. Mrs. Jeannette H. Block,

Established 1850

San Francisco

A network of interurban lines, radiating  
from the city of Havana and covering  
an extensive territory in the interior  
of the island, which has hitherto been  
without transportation facilities. About  
125 miles will be constructed at first,  
involving an expenditure of nearly \$5,  
000,000.

The road, besides its passenger traf-  
fic, will inaugurate a freight service.

The power house to be constructed  
in Havana will generate 7,500 horse-  
power of electric energy at 25,000 volts  
three phase current for the purpose of  
operating the new lines. Steam tur-  
bines will be used, this being the first  
instance of such equipment being called  
for in the West Indies. The entire  
system is expected to be in operation  
within fifteen months.

### Sash Factory Burned.

Everett, Wash., July 12.—The Wheel-
