Strikers Make a New Proposition, Receding from Many Demands -Cars Hunning Regularly.

St. Louis, Mo., June 15 .-- Cars on all the Transit company's lines are apparently running with as much regularity and as free from interference as before the strike.

Officers of the company state that during the past two weeks they have received applications for employment from several hundred strikers.

The only trouble of a serious nature experienced last night was the attempt to blow up a mail car on broadway and North Market street. An explosion caused by the car striking & bomb on the track aroused the entire neighborhood. George Schniesser, aged 21, was arersted by a special police officer who said he saw him place the explosive on the track.

This is the thirty-eighth day of the strike, which has cost the taxpayers of St. Louis more than a million dollars for protection alone, not taking into account the heavy loss sustained by the

merchants and citizens generally as well as that of the Transit company and its striking employes. J. J. Hohan, who came here from

Chicago to work for the Transit company, was today probably fatally shot in the abdomen by Sylvester Zuleff, a fellow employe, also from Chicago. Zuleff says he was showing Hohan how to work a 32 caliber revolver when it was accidentally discharged. Zuleff is being held pending an investigation. The striking employes of the Transit company assembled at the West End Coliseum today to act on a proposition looking to a termination of the strike

According to a member of the executive committee, which prepared the proposition, that committee and also the grievance committee of the local union unanimously approved it. The following agreement was adopted

Washington, June 15,-Nothing has ome to the state department from Thited States Minister Conger at Pe-ward today. That the crisis is by no means past, but on the contrary, is rather more acute, is evidenced by the cablegram received by the state depart. ment this morning from the United States consul at Tien Tsin. He says that States consult at the risk, he says that the mobs are in control of the pative city of Tien Tsin and that the author-ities do not seem to be able to do any-thing with them. The surprising feature of this telegram is the announcement that the Boxers are operating freely under the Boxers are operating freely inder the very guns of the men of war, for it is understood that several gunboats are lying off Tien Tsin, which is also the depot of the relief column. Fortunately the Nashville and the Monocacy are just about due at Tsku, and one or both of these vessels will soon be able to command the situation of Tien Tein ommand the situation at Tien Tsin.

The records of the war department show that there are now in the city of Manila and vicinity the 14th and 20th infantry and one battery of the 3rd, th, 5th and 6th artillery, less than 3,000 oldiers altogether. There are, however, to less than 57,000 soldiers distributed long the various commands outside Manila and some of them would cerainly be called upon to furnish garri-ons of rthe city in case the above menioned troops should be sent to China.

SITUATION NOT IMPROVED.

London, June 15 .- The news from thina is distinctly confused, but the ndications are that the gravity of the situation has in no way diminished. Shanghai provides the usual crop of alarmist rumors as to the conditions at Pekin and the preparations to oppose the international forces, but there is a disposition in London to regard the safety of the legations or the Europeans there as not seriously threatened at the present moment. It is realized, however, that the slightest sign of a check to the international forces will put an entirely different face on the matter and will probably lead to an out-break of the rabble which will not be It geems probable that after all, the United States troops in the Philippines will be called upon to furnish a con-tingent to assist in the rescue of the foreign missionaries in China, and in the protection of the foreign embassies the burning of the French and British missions at Yunnan Fu is regarded as extremely grave as it points to the ex-tension of the rebellion to remote por-tions of the semino
