

THREATS AGAINST MRS BELLE GUNNESS

That Many Were Made by Ray
Lamphere is Testified to
By Witnesses.

TALE OF THEIR LOVE AFFAIRS

As Told by William Slater the State
Claims It Strengthens Its
Position.

Laporte, Ind., Nov. 17.—That Ray Lamphere made numerous threats against Mrs. Belle Gunness was testified to by a number of the state's witnesses today and through them also Prosecutor Smith made an effort to bring out that a strong motive existed for the defendant to annoy Mrs. Gunness and that this annoyance terminated on the night of April 18 in Lamphere setting fire to the house.

The love affairs of Mrs. Gunness and Lamphere were also related by William Slater and in his testimony the state claims it has found much to strengthen its position that it was because of the falling out between the two that Lamphere sought to harm Mrs. Gunness. With Joseph Maxson, the man who escaped alive from the burning house, on the stand, the first part of his story of the fire was told today. It differs little from the story which he told following the fire.

Peter Colson testified that Mrs. Gunness was at times unkind to Jennie Olson. The way in which he related his conversations with Lamphere, his own experiences with Mrs. Gunness, his love for the woman and his suspicions, were unique and straightforward, his broken English adding to the effectiveness of the story.

Louis Ruehl, a saloonkeeper, testified that Lamphere while in his place of business one night made the remark that if the old woman did not leave him alone he would send her over the road.

Austin Cutler, a local undertaker, testified to the length of time the bodies of Mrs. Gunness and the children were at his morgue before being shipped to Chicago. He said about 200 persons viewed them. The supposition is that from this testimony Prosecutor Smith will lead up to doubt as to how the poison got into the stomachs.

Frank J. Pitner, cashier of the First National Bank, testified that Mrs. Gunness and Andrew Helgelein came to the bank Jan. 6, 1908, and that the man left three certificates of deposit, issued by the First National Bank of Aberdeen, S. D. The Laporte bank sent them in for collection and received in return a draft for \$2,892, which sum was turned over to Helgelein on Jan. 14, Mrs. Gunness accompanying him to the bank.

The money was paid in cash, and Mr. Pitner asked what they were going to do with so much money. Mrs. Gunness told him it was none of his business. It is the night Helgelein is supposed to have been murdered by Mrs. Gunness. When A. K. Helgelein wrote to him in regard to his brother's failure to return home he called Mrs. Gunness to the bank and she told him that Helgelein had gone away. He testified to having identified Helgelein's body when it was found. He described the gray fur-lined overcoat Helgelein wore when at the bank, the description fitting the coat later worn by Lamphere.

The troubles of Lamphere and Mrs. Gunness, as shown by the records of the court, were then offered in evidence. The court's records show that one trespass case, one surety of the peace action and proceedings to have Lamphere adjudged insane were instituted by Mrs. Gunness.

Joseph Maxson, the hired man, described the premises and the Gunness family circle. He told of seeing Lamphere skulking around the premises at night, and that he ran when discovered. Maxson told of Mrs. Gunness going to Laporte on the afternoon of April 27 and her return with a supply of groceries. Supper was eaten at 6:30 o'clock, the menu including bread and butter, dried beef, salmon, beefsteak and potatoes. All ate heartily. In the evening Mrs. Gunness and the children played several games which she had brought home and at 8:30 o'clock Maxson retired to his room. Maxson then told of being awakened in the morning by the smoke of the brick part being all aflame when he got up, of his efforts to break into the main part of the house and of the arrival of the first people on the ground.

EXPERIMENTS TO PREVENT EXPLOSIONS IN MINES

Paris, Nov. 17.—Minister of Public Works Barthou today witnessed a series of successful experiments to prevent explosions in mines. At their conclusion Mr. Barthou expressed the belief that the danger from coal dust explosions in mines following explosions of fire damp could henceforth be prevented.

The experiments demonstrated that certain "low temperature" or "safety explosives" will be substituted for dynamite or other high tension explosives don't set the coal dust on fire and furthermore 50 per cent or schist dust, with coal dust, renders the latter free from the danger of explosion. Consequently deposits of schist dust at intervals in a mine will make it possible to restrict fires to a limited action of a shaft or gallery.

Experiments were conducted also in chambers filled with sulphuric acid with a new respiratory apparatus and the ability of life-savers equipped therewith to work for three hours in the most noxious vapors was demonstrated.

VAN VLISSENGEN WILL HELP UNRAVEL AFFAIRS

Chicago, Nov. 17.—Peter Van Vlisssengen, whose arrest yesterday for forgeries which will reach \$700,000 caused a sensation, decided today to forego temporarily his desire to begin immediately service of his prison sentence. He will remain in Chicago long enough to aid in untangling his business affairs, which the Chicago Title & Trust company, the assignee, found in a very tangled condition.

So clever were his forgeries of notes and mortgages that the assignees were unable to tell the genuine from the spurious when they were presented by anxious holders, and they had to be referred to the prisoner.

One batch taken to the jail showed a face value of about \$35,000. Half of the papers, readily distinguished by the man who devised them, were forgeries. All day long Van Vlisssengen's former office, now tenanted by the clerks of the assignees, was besieged by a throng of paper purchasers from the confessed forger. The clerks were making no effort to ascertain who were Van Vlisssengen's victims, confining their efforts

TEA Schilling's Best is in packages; never comes out of a bin or canister.

Your grocer returns your money if you don't like it. We pay him.

to searching for assets. Such notes as were presented for verification, however, were taken to the prisoner for the purpose. It was pointed out to him that his presence here, for a few days at least, is essential, and he finally agreed to stay.

The spurious paper so far brought to light is said to constitute but a small portion of the total loss. Eighty thousand dollars is the amount unaccounted for today, most of which was in the hands of prominent local brewers. A large number of people in moderate circumstances were caught, however, for sum of the loss of which will be seriously felt.

The prisoner persisted in his refusal to see old friends, many of whom called to offer aid and moral support.

"I don't want them to see me in this humiliating position," he said. "I want them to remember me as I was about town. All I ask now is to get into prison to begin serving my sentence."

Judge Bethel, in the United States district court, today appointed a receiver in bankruptcy for Van Vlisssengen's property. The petition was filed by T. J. Lofene and William C. Sipp, who were the first to discover that the notes they had bought from the disgraced real estate dealer had been taken by him to set up in their petition that a receiver was necessary to prevent the dissipation of the assets.

"I suffered habitually from constipation. Doan's Regulets relieved and strengthened the bowels, so that they have been regular ever since."—A. E. Davis, grocer, Sulphur Springs, Tex.

ARGUMENTS IN GOMPERS CONTEMPT CASE

Washington, Nov. 17.—Arguments in the contempt case of the Beck Samuel Gompers, Frank Thompson and John Mitchell, of the American Federation of Labor, were concluded today. James M. Beck, of counsel for the stove company, made a strong plea for his clients, in which he closely dissected the injunction of the court against the defendants, and tried to show that they had put themselves in contempt by officially publishing the company on the "We Don't Patronize" list.

The name of President Roosevelt and his opinion of the boycott were injected into the argument by Mr. Beck, counsel for the defendants, intimating, but not charging, that it was an attempt to improperly influence the court.

Mr. Beck referred to the cruelty and indefensibility of the boycott, and said:

"I have very high authority for saying that in a very recent public statement the president of the United States said that of all forms of oppression which men had yet devised, the most cruel is the boycott."

Atty. Ralston, for the defense objected, saying: "I certainly object to the president of the United States being brought into this discussion. We have all possible respect for him, but he cannot be quoted as an authority on matters of this kind."

Judge Wright overruled the objection, saying: "I suppose counsel in argument has the right to adopt the words of another person to convey an idea, if they see fit to do so."

Mr. Beck thereupon continued his argument, and at its close Justice Wright took the case under advisement.

A decision is not expected for several days.

KAUFMAN AND BARRY MATCHED

Los Angeles, Cal., Nov. 18.—Al Kaufman and Jim Barry were matched last night to fight 45 rounds at the Jeffries club on the night of Dec. 31. The

result of the fight, it is said, will eliminate one aspirant for the heavyweight championship honors.

DENVER UNIVERSITY WANTS TO MEET INDIANS

Denver, Nov. 18.—President Roosevelt has been asked to use his influence in having a contract between representatives of Denver university and the Carlisle Indian school for a football game between the two schools.

The game is scheduled for Dec. 5 in this city. Yesterday's received word of Denver university manager Garthland from Carlisle that the game was off; that leave of absence could not be secured for so long a journey. Subsequently, the local college people learned that the Indians had not cancelled their date with the Nebraska university at Lincoln, a part of their western tour and they at once asked the president, through former United States Senator Patterson, to request that the Indians be given the leave necessary. A portion of Senator Patterson's message reads:

"Denver boys want a square deal and turn to you to get it for them." Gov. Bucher, who is chancellor of Denver university, also wired Congress man Bonnyne and Senator Teller to secure, if possible, the intervention of Secy. of Indian Affairs Leupp.

NEW THEORY AS TO ORIGIN OF CANCER

Buffalo, N. Y., Nov. 18.—The Buffalo academy of medicine last night heard a new theory as to the origin of cancer. Dr. Hiram D. Walcott, formerly of Newburgh, N. Y., but now living in Buffalo, in a paper on the subject, said that seven years' experiments had proved to his satisfaction that cancer is a parasitic disease, and that the common garden worm is the source of the parasite which produces cancer. The transmission of the parasite from the worm to the human being comes from the worm crawling over fresh vegetables which are afterward eaten. He said:

"If I am correct in my conclusions, all one suffering from cancer, whether it can be prevented by refraining from eating such vegetables as cabbage, celery, onions and radishes, which have been infested by these parasites. Dr. Walcott elaborated on a series of experiments on various animals, feeding or injecting the parasitic germs obtained from earthworms into guinea pigs, mice and dogs, and death followed in many cases by the development of tumors and cancers."

In almost every case infection was fatal to the animals. Dr. Walcott presented a series of microscopic slides showing cancer cells produced under these conditions. These cells were examined by the prominent specialists and pronounced cancer cells, though the specialists were not told from what animals the cells were taken nor how produced.

WOMAN HAS RIGHT TO SEARCH HUSBAND'S POCKETS

Washington, Nov. 18.—A woman has some rights, and they include the searching of her husband's pockets, according to a decision of Judge Millwain of the District of Columbia police court.

"It shows the interest a woman has in you," the court held. "It shows that she loves you. A woman who does not go through the pockets of her husband does not love him. You have been married long enough to know a woman's heart."

The defendant, George Ridgway, was arrested yesterday on his wife's complaint that he refused to knock her head off, and he objected to his wife's taking liberties with his pockets while he slept. The defendant said they "sometimes got along fine and sometimes scrapped."

"That is the way with all well-regulated families," declared the court. "Go buy your wife some chrysanthemums. Ridgway was put under bond to keep the peace."

BATTLESHIP NEBRASKA BREAKS TARGET RECORDS

Manila, Nov. 18.—It is unofficially stated that the battleship Nebraska, during the target practice now in progress, broke all records established by any navy in the world for marksmanship with her 12-inch guns. While the figures are not obtainable, it is believed that the Nebraska's crew will gain all records for both speed and accuracy.

Poor Tools And A Good Worker

That Is What Makes Indigestion
Dyspepsia, Sour Taste, Foul
Breath and Catarrh.

The stomach is a good strong vital organ, which is constantly protecting and feeding every other organ of the body.

It is the most abused, neglected and scorned member of man also. Most men abuse their stomach with undercooked food, high living, alcohol, tobacco, pastries and scores of other unhealthy practices.

When the stomach at last sickens of all this abuse and cannot do its full duty, most men are not warned but keep up their assaults on the stomach until at last it rebels and begins to strangle back and cry for help. Man by his own abuse has taken away from the stomach the tools to work with.

These tools are the gastric juices which go to make up the digestive agents. From 7 to 35 pounds of gastric juice are turned into the stomach every day.

When poor poisonous food consumes this juice, dilutes it, robs it of its strength and throws it, a fermented mass from the system, of course there is just that much of the gastric fluid which cannot be readily supplied by the blood.

When food comes into a stomach filled with depleted fluids lacking of power to do their part, the food strong stomach is using poor tools and, of course, cannot succeed in its work.

A condition which often prevails is that which produces the flat gastric juice contains too much alkali. If the juice were wholly alkaline it would not only devour and digest the food but would eat and destroy the stomach itself. Such gastric fluid does the digestion no good and attacks the walls of the stomach making them raw and sore and setting up inflammation and irritation.

Stuart's Dyspepsia Tablets will strengthen the stomach filled with poor gastric juice. They will remove any abnormal alkaline condition, allay irritation, sweeten the breath, remove catarrhal conditions and digest food no matter how the stomach has acted before.

These little tablets contain an ingredient, one grain of which will digest perfectly 3,000 grains of food. They will digest the entire meal placed in a jar without the aid of any other force except themselves. They have demonstrated this time after time.

Every drugstore carries them in stock; price 25c, and 40,000 physicians use them in their practice. Send us your name and address and we will mail you at once a trial package free. Address, F. A. Stuart Co., 150 Stuart Building, Marshall, Mich.

CRIMINAL LIBEL.

Trial of Manila Editors on Charge is Begun.

Manila, Nov. 18.—The trial of the managing and subordinate editors of El Renacimiento, the leading Filipino daily, on a charge of criminal libel preferred by Commissioner Dean C. Worcester of the Philippine commission, was commenced today. In his own behalf Mr. Worcester testified that he did not own any mineral, agricultural or other property in the islands in his own name or that of any other person. He denied having made any trips at the expense of the government for the purpose of inspecting any properties whatsoever, and flatly disputed all the other charges and insinuations made in the columns of the papers. The trial was continued.

TO FIGHT TUBERCULOSIS.

New York, Nov. 18.—According to an announcement made by Mr. Frederick Townsend Martin, plans have been completed for an entertainment to be held at the Plaza hotel on Feb. 11-12, at which funds will be raised to combat the spread of tuberculosis. Aside from the proceeds of the entertainment subscriptions will be taken, the

money to be added to a fund already started by Henry Plummer. Its distribution will be in charge of a committee of well-known physicians. Mrs. George Gould, who just year saved a private theatrical performance at the Plaza, will appear in the coming benefit entertainment. It is said. Two one-act plays and six tableaux are to be presented.

TARIFF ON LEAD ORES.

Coeur d'Alenes Sends Committee to Washington to Protest.

Wallace, Ida., Nov. 18.—At a meeting of operators of the Coeur d'Alenes in Wallace, a committee was selected to go to Washington to enter a protest against any action looking to reducing the present tariff on lead and zinc ores when that schedule comes up before the congressional committee for discussion Nov. 25. A committee will present a written argument accompanied by petitions signed by all the residents of this district. The delegation has been instructed to engage United States Senator Huxham of Idaho, to aid them in the right and secure, if possible, the services of Senator William E. Borah and at the same time, co-operate with delegations from all other lead and zinc producing districts which may be represented.

WHOLESALE POISONING.

Chicago, Nov. 18.—Chicken, fipcase and chicken hash served in the New York club and early in the morning, has resulted in 45 patients and the staff of 25 nurses, being attacked with pleuro pneumonia. The thirty patients and the physicians did not have chicken on the occasion and are recovering. None of the cases are serious.

Facts for Catarrhal Sufferers.

The mucous membrane lines all passages and cavities communicating with the exterior. Catarrh is an excessive secretion, accompanied by chronic inflammation, from the mucous membrane.

Wood's Sarsaparilla acts on the mucous membrane through the blood, reduces inflammation, establishes healthy action, and radically cures all cases of catarrh.

Feel languid, weak, run-down? Headache? Stomach "off"? Just a plain case of lazy liver. Burdock Blood Bitters, tones liver and stomach, promotes digestion, purifies the blood.

You Can Think SUCCESS

Think details. Slow and sure you will see the ideas line up, fit in, join together, and some day the complete creation shows forth and you have what you have patiently built—SUCCESS.

BUT—You absolutely must have a Healthy Machine, a strong, well-fed BRAIN to work with.

Feed It!

GRAPE-NUTS food is a genuine, trustworthy BRAIN FOOD.

WHY?—It contains in digestible form the natural food elements taken from Nature's storehouse, the field grains, which the life forces select to build the soft gray filling of the brain. Phosphate of Potash, Albumen, and water are the only things that make it, and these elements are in Grape-Nuts and will be absorbed by the system when the same things taken as drugs will not, for Nature is a more skillful compounder than man. The big Americans and Englishmen who do things have found out the sturdy value of

Grape-Nuts

Food, and use it. Ask the next brainy, successful man you meet if he eats Grape-Nuts.
