from him as to the project, except the simple statement that the project is genuine and will be pushed through. He smilled when asked about funds, and left the inference that no trouble in this regard need be anticipated. THE GOULD PLANS. With the possible exception of two projects, the New Orleans line to serve the river valley and the Gulf trade and the Western Pacific connection to make the Gould route a transcontinental, there uppears to be nothing doing in the Gould camp. Texas Pacific has no place in the future plans of the Goulds, except as it will become a feed-er to the Kunsas City. Mexico & Orient when the future plans of the

when the latter is completed. It is, perhaps, not generally known that when A. E. Stillweit is in New York his office is at 195 Headway, in the offices of the Rio Grande. Here again E, T. Jeffery and George Gould are directors. This construction also goes slowly, even very slowly. There are diffi-culties in the way, and not light ones. The project as a whole will not be completed in many years.

C & N. W. TO THE COAST.

Announcement Made by the Manager to. That Effect.

Omaha, Neb., Nov. 11.-Announce-ment was made today at the headquarters of the Chicago & Northwestern railroad, of that road's intention to build extensive additions to its lines in Wyoming. The lines which are to be built by the Wyoming & Northwestern Railway company, recently incorporat-ed in Wyoming by Chicago & Northwestern officials, will extend westward and north from Casper, the present western terminus of the Northwestern system.

The announcement states that the present plans of the company have not matured, but it is probable a line will be built from Casper to Lander, touching the Big Horn basin and Shoshone Indiah reservation, with a branch to Thermopois. From Lander, it was predicted in railway circles, the North-western will inter build to Ogden, which is not a great distance.

The above has been discussed so fre-

quently for years past that it has be-come to be regarded as a stock railroad story to fall back upon in dull times. However, at this season it bears the earmarks of probability. It will be recalled that some two months ago it was stated in these columns that a cerwhich stated in these columns that a cer-tain individual was in Boise working on a propesition for terminals for the Northwestern in the Idaho capital. Oth-er signs of the times would indicate that the Northwestern is contemplating going through to the coast. To the cas-ual observer it would seem that it is marken issue West would show another case of Western Facilie where in the big club is held over Hrariman's head—give us a share of the business or we will build to the coast and fight to a finish.

SPIKE AND RAIL.

Senator Clark's stopover in Salt Lake was decidedly brief yesterday.

Purchasing Agent I. O. Rhoades of the Oregon Short Line has returned from San Francisco. Work on the Southern Pacific's bay shore cut-off has begun in south San Francisco. Five double track tunnels are to be built. This was a pet project of the late O. P. Huntington.

The Kansas City, Mexico & Orient railroad will open for business tomorrow. Contracts have been let for the construction of 52 miles of road from Wichita toward Kansas City,

THE BEST MONTH TO BUILD IS NOVEMBER. EEST FIRM IS "REAVIS SYSTEM."

November is the best month to start building. There's no frost in the ground now, as in the spring, and there's plenty of time to get the home roofed and closed in before the heavy storms. By starting to build now, you'll be in your new home for NEW YEARS, and the cheer of that evolution day will be added to by the plensant environment of your own new home. Let your house be started at once and you'll not only save rent, taxes and in-terest, bul you'll also have the satisfac-tion of starting 196 as a home-owner, in-stead of a rent-payer. Don't heattate, you have waited long emough. Act on your own judgment and get YOUR OWN ROUF OVER YOUR HEAD.

The Utah Light & Railway company is installing a fourth big generator at the central station. It weighs 130,000 pounds, and when connected up the great battery of four generators will furnish all the power that may be need ed during the coming whiter. The com-rany has also installed a great electric traveling crane capable of carrying 20,000 pounds, and a series of improvements have been inaugurated at the station which will make it one of the most complete in the United States.

County Clerk James is in receipt of a letter from Prof. Apmadoc of Chicago, informing him of the presence in that city, en route to San Francisco, of Hon William Abraham, member of parlia ment for the Rhondda valley, South South Wales, who, with his son, expects to stop a few days in this city. Mr. Abraham is a distinguished Weishman and is well known under the nom de plume of "Nabon." He goes to the coast to attend the labor convention which convenes there in the near future Mr. James says he is a "jolly, plain Cymro" and anticipates that Weishmen generally will be delighted to most him on his arrival in this city.

A communication was received yesterday by County Clerk John James from Prof. William Ap Made of Chi-tago, stating that the Right Hon. FOR UTAH ROADS.

It is Believed on Wall Street that Moffat Line is D. & R. G. Cut-Off.

GOULD'S PLANS

It is to Become Part of the Western Pacific as Opposed to S. P. And San Pedro.

Special Correspondence.

New York, Nov 8 .-- It has been believed for many months in the financial district that when Mr. Moffatt's \$100,000 per mile railroad is completed and ready for trains to run over it, it will carry Gould traffic to Glenwood Springs. It would take a great many denials from Mr. Gould and Mr. Moffatt to persuade the Wall Street wise-acres that this is not so. No one has seen any Denver & Northwestern notes or bonds, so no one con say whether or not the Missouri Pacific has any interest in the road, but everyone knows that E. T. Jeffery, president of Rio Grande and vice president of Missouri Pacific and general confidential rail-road adviser of George Gould, has been over the new road about as often in the past two years as he has been over his own road, and he is credited with a quite remarkable interest in the way things are being carried on in the way struction. During the past week ML. Moffatt is said to have met Mr. Jef-fery in New York on matters connected with the relationship between the new road when completed and the old lines

WESTERN PACIFIC.

of the Rio Grande.

Towards Salt Lake there is going to a change, but it is not coming to-y. The Marysvale line of the Rio day. Rio day. The Marysvale line of the Rio Grande Western, always a dead loss to this system, will be sold to Western Pacific. It will become part of the new system to complete with Central Pacific and the San Pedro Route. It is not much of a line. It will need recon-struction at the rate of about \$2500 struction at the rate of about \$7,500 per mile before it will be an adequate division for a through line. In all, from Thistle Junction to Marysvale is 132 miles. The passenger service on it today consists of one train each way per day through, and two each way as for as Manti. The country needs set-tlement and development very badly. The line follows a river grade and the valleys are reputed to be rich in iron and coal, but the whole country has been barely prospected, and no one knows its future at this date.

GOULD'S DENIAL

Western Pacific itself has been fully escribed. The day before Mr. Jeffery described. was elected to its board, on the persus sion of big interests in the road, M Mb Gould said again that he had no interest in it. Of course this does not amount to much. The work is going very very slowly, so slowly in fact that some western railroad people are doubtfu that the road is intended in good faith No such doubt exists in railroad circles here. The profile and notes of the construction are to be found in at least wo prominent railroad offices in New York. These make out that the entire ine from Thistle to San Francisco will be the lowest grade line in that coun-try, and the shortest cross the country. Three years will see it built. A year will reveal in full the people who try. back it. Edwin Hawley, and E. T Jeffery are the only members of its board who are well known so far. one of the foremost Welsh poets of the Grocers and first class Restauranta. | Walter J. Bartnett, its president, was

It is facetiously suggested by a rallroad man that in view of the awards it received at the St. Louis exposition, the Baltimore & Ohio ought to change its name from Royal Blue Line to the Gold Medal Route.

The fact that an addition to the Rio Grande ice house in Ogden has been ordered is taken as an indication that the Gould line is going to receive its share of fruit shipments next season, and that the Stubbs' effort to close the Ogden gateway has been unavailing.

Maj. S. K. Hooper most emphatically denounces the story to the effect that he is going to take a long vacation, and that his place is to be filled during his absence by F. A. Wadleigh, recently appointed assistant general passenger agent for the Rlo Grande.

The amount of money that will go to the railroads for moving the principal crops of the country grown during 1904 is estimated at \$463,644,051. This esti-mate is the result of a careful compilation made by the traffic department of one of the largest railroad systems and submitted for the consideration of men who are induential in Wall street, and who own either a controlling or a substantial interest in many of the large raffroads east and west.
