MINING, BUSINESS AND STOCKS

LITTLE LIFE TO MINING STOCKS.

New York Bonanza Takes to the Toboggan and Lowers Again.

TETRO HELD FAIRLY STEADY.

Butler-Liberal Closed Some Weaker -The Closing Quotations of Today's Early Calls.

The market for mining stocks today was not as good as it was yesterday, and several traders recorded some rather bad reverses. New York Bonanza has gone tobogganing again and indications point that it has not yet struck bottom. Where it will go to no one can tell, but some of the talent is ready can tell, but some of the talent is ready to wager that it will see 40 cents before it does a half dollar. Daly-West, notwithstanding the declaration of a dividend yesterday, sold lower. Butler-Liberal opened in fairly good order, but the price paid for it at the beginning could not be maintained. Tetro was active at 20 cents and a fraction. Yankee Consolidated sold up on the open board, while Silver Shield turned backward.

NO POOR MAN'S PLACE.

Tonopah Bonanza Says Labor Market in Nevada Camp is Overdone.

e Tonopah Bonanza has sounded

The Tonopah Bonanza has sounded a note of warning to peeple who have in contemplation a trip to the Nevada gold camps. For people who have money to spend in prospecting or for the purchase and operation of mines the paper says, the country is as inviting a place as can be found anywhere in the world. In fact, the chances to make money by people who have it are exceedingly good. But for persons whose worldly belongings amount to only a few paltry dollars and who must depend on finding work after they reach their destination, the field is considerably overdone. is considerably overdone.

SEARCHLIGHT OPERATORS. Desire to Transact Their Business With Salt Lake Firms.

A. B. Greeson, business manager of the Salt Lake Mining Review, accom-panied by Corydon W. Higgins, return-ed this forencen from a trip into south-ern Nevada, having visited towns along the Salt Lake Route as far west as Las Vegas. They also took a side trip over to the Searchlight mining camp, where they found conditions very pros-perous.

perous.

To a "News" representative, Mr. Greeson stated that the coerators of that camp are very friendly towards Salt Lake, and that they show a great desire to divert the business, which has been going to Los Abgeles, and other Pacific coast points, this wey. This is particularly true in the matter of ore shipments. They have been promised a fair rate on ore for shipment to the Salt Lake smelters, which, heretofore, has been going to the Selby plant, near San Francisco: this has been rather an expensive proposition, as a long wagon haul to the railroad at Manvel. Cal., had to be endured on top of the rather high freight rate from that point.

that point.
Searchlight operators, Mr. Greeson
says, are anxiously awaiting the open-

ing of the Salt Lake Route to traffic ing of the Sait Lake Route to trainc; for some time they have been holding their ores for shipment this way. No effort has been made at extraction or shipping ore excepting what has been encountered in the course of develop-

The stamp mills in the camp are kept going, however, on gold ores. The Searchlight mine is turning out buillon to the amount of about \$45,000 monthly.

HOMEWARD BOUND.

Manager Catrow of Ohio Copper Company to Arrive Thursday Next.

word came today to the effect that Manager Henry Catrow of the Ohio Copper company, who was called east recently to meet with representatives of the syndicate holding the option on the company's property at Bingham, would reach home on Thursday next. No mention was made in the message received as to the fate of the transaction which would involve a million dollars, a price which some believe is little enough for a copper property having such promise as the Ohio,

UNCLE SAM CON. Directors Meet Tomorrow, but Not to

Post Dividend. The directors of the Uncle Sam Consolidated Mining company are scheduled to hold their regular monthly meeting tomorrow. While the treasurer of the company has sufficient funds on hand with which to pay a dividend, it is hardly likely that the directors will post one. There is little doubt but that a distribution will be made in April, however.

RICH BULLFROG ORE.

Shipment Goes Through Goldfield Accompanied by a Band.

A small sized sensation was created A small sized sensation was created among mining men of Columbia and Goldfield on Monday when the first shipment of ore from the Original Bullfrog mine arrived and passed through camp, says the Goldfield Review. In order that everybody might be made aware of that most important fact when the wagons containing the ore passed through the towns a string band was placed on the forward wagon to dispense music and attract the attention of the populace.

tion of the populace.

The ore was considered so valuable that it was deemed best to send two shotgun messengers with it, and their presence on the wagons added much to the interest manifested by the crowd.

The shapement was the first form the

The shipment was the first from the strict, and it required three teams to The assay value of the ore was \$35,408, and there was something like ten tons in the shipment, which was sent to the Reno reduction works. The ore was taken from a shaft which is now only 52 feet deep, and which has carried shipping values almost from the

COLUMBUS CONCENTRATES. Alta Mill Now Making About Twenty Tons Dally.

The Columbus Consolidated mill at The Columbus Consolidated mill at Alta is running with two shifts working. Manager Jecobson stated during the day that about 20 tons of concentrates are being turned out daily. The third shift will be put on soon, probably next week. With the two shifts working the mill ought to be making about \$500 per day, figuring the product at \$25 to the ton, net. at \$25 to the ton, net.

At this rate the company will soon have a neat surplus in the treasury.

ABE LINCOLN MILL.

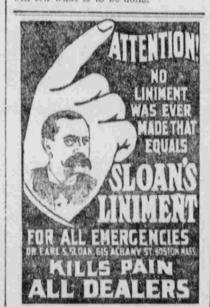

Plant at Ploche, Nevada, to be Remod-

Accompanied by a corps of mechanics and carpenters, A. W. Scott, manager and P. J. Donahue, chief engineer, of the Abe Lincoln property at Pioche, pulled out for camp last night and will commence the immediate remodeling of the cyanide mill on that property.

This property was recently acquired by a Boston syndicate, and is to be the scene of some very active development. scene of some very active development

New Mill for Park City.

There is a persistent rumor affoat to There is a persistent rumor afloat to the effect that in the not very distant future, one of the largest and most modernly equipped concentrating mills in the state will be erected by the Kearns-Keith company at a point a short distance below the Daly-Judge mill, says the Park Record. The new plant will handle an enormous output, the product of the Alliance and Kearns-Keith properties which are opening up the product of the Alliance and Kearns-Keith properties which are opening up on a gigantic scale. While no official information has been given out, nor probably will be there must at least be some foundation for such rumors, and where there is "much smoke there is always a little fire." It is a noticeable fact that the Alliance dump is being extended right along the side of the hill back of the Daly-Judge mill, much further it seems than necessary unless the company has some definite purpose in such action. Time alone will tell what is to be done. will tell what is to be done.

PECK ZINC MILL DOING GOOD WORY.

Information to that Effect Has Been Received from Beaver County.

PRESIDENT OF THE COMPANY

On the Ground to Witness Initial Run -Water Supply is Holding Out Alright.

Word comes from Frisco that the zinc mill built at the Horn Silver mine by the Centrifugal Separating company, of which W. H. Peck is manager, is doing splendid work and that it is fully coming up to expectations in every respect.

Of course, it will take some little time to complete all adjustments, but these are being made as rapidly as possible. J. E. Heller, the president of the company, who makes his home in New York, has been on the ground during the week watching the initial run.

Some have predicted that the mill would be handicapped to a considerwould be handicapped to a considerable extent by a shortage of water. There is no indication of this, said an arrival from camp today. Manager Peck has devised means of not only storing the water but has provided equipment for using it over again.

The plant will probably be running up to its capacity within the next 10 days or two weeks.

FIXING THE RATES.

Salt Lake Route Will Soon Announce New Schedule for Nevada Ores.

Some time ago the officials of the Salt Lake Route assured mining men interested in the camps of southern Nevada the road would establish a schedule of freight charges on ores destined for the Salt Lake smelters that would be satisfactory; it being the policy of the company to foster the mining industry and otherwise do all it can towards the development of the region through which the road passes. It was learned today that the new schedule would probably be announced within the next two weeks.

Several Pioche producers have been withholding shipments until the new rate goes into effect. At the present time \$5.50 per ton is the cheapest ore will be handled from Caliente to Salt Lake, that the new rate will be considerably under this figure there is no Some time ago the officials of the

siderably under this figure there is no

Wili Use Diamond Drills.

J. D. Cline of Salt Lake City, representing Frank J. Westcott, is making his headquarters at Iron Springs these days, where it is the intention to install a diamond drill for the purpose of exploring the lower levels of that country in search of copper and other precious metals, says the Iron County Record. A bond has been secured from the Cedar Sheep association, on a cer-tain piece of ground, upon which the company encountered copper while sinking an artesian well some few years ago. The company has since purchased the property from the state.

There are no end of encouraging indications of copper all over the iron resion, and particularly about Iron.

gion, and particularly about Iron re-gion, and particularly about Iron Springs and the prospects for the development of some rich copper mines in that locality by the crowd that is now exploring the region seem very encouraging.

CONCENTRATES.

Col. N. Treweek, manager of the Wabash Mining company, is still in New Harrison Clement, the mining engineer, went to Bingham on professional business today.

Boston dispatches say insiders profited by the recent attack on Utah Con. There is little doubt about it.

J. J. Burke, the contractor, departed for the east on a business trip. He expects to be absent for something.

The Honerine Mining company has added the bullion group of claims to its already extensive holdings at Stock-

The ore and bullion settlements re-ported late yesterday were as follows: Crude ore and concentrates, \$25,800; base bullion, \$25,900; gold bars, \$6,700.

The shipments of ore from the mines of Park City last week aggregated 4,-769,640 pounds; the shippers and amounts forwarded by each being; Date Hy-West, 1,250,000; Silver King, 2,766,640; Ontario, 170,000; Ontario (lease) 163,000; Kearns-Keith, 275,000.

The Butler, Nev., postoffice, has been changed in name to Tonopah. Heretofore with the postoffice bearing one title and the town another, it has been more or less confusing. The citizens of Tonopah petitioned the postoffice department of Washington to make the change some time ago.

The work of sacking on the Red Top continues, but, according to Captain Menardi, it will not be made a special feature for some time. The work of crosscutting from the new shaft is being hurried forward, and when the

That's what many women say when the day is done. Don't you know worry makes more women tired than work ever does.

SMITH'S FLOUR.

ledge from which the ore is being taken from the old shaft is encountered it will be holsted from the new double compartment shaft. There are now about 200 sacks of high grade shipping ore on the dump of the old shaft, but a shipment will not be made for some time. The value of the ore being sacked runs from \$100 to \$100 per ton. Goldfield Referent \$100 to \$100 per ton. from \$100 to \$400 per ton.-Goldfield Re-

Messrs. McLean & McSweeney, who have the contract for the grading work on the Tonopah and Goldfield rallroad, began moving dirt this week with a large force of men and teams. As announced in previous issues of the Review, the road will come by way of Goldfield junction, ten miles out from Tonopah, where the forces are now at work. The road will come into the district a little to the west of Columbia mountain, and the terminal, until bia mountain, and the terminal, until it is decided to continue the road, will be on the flat between the two towns. It is more than likely that from this point a branch road will be run to Diamondfield.—Goldfield Review.

PRODUCE XCHANGE.

This Afternoon's Maeting May be Productive of Disorganization.

Some of the members of the Salt Lake Produce exchange are expecting that this afternoon's meeting will be productive of some action which may further disorganize the exchange. It is claimed that this body will meet to agree on prices, and then as quickly proceed individually to nullify such agreement by resorting to prize gift-chromo presenting dodges in soliciting trade, which practically amounts to a cutting under of prices. One dealer advertises to give away a sack of bran with so many bags of flour purchased; another will give a canary bird with the sale of so much grain. Another will present you with a crayon portrait, enlarged from a daguerrectpye, while you wait, upon the purchase of so much of certain lines of grain. Yet another dealer offers a chromo of the "most beautiful woman in the world," hot from the lithographic presses; and another oftive of some action which may further lithographic presses; and another offers a box of tooth brushes guaranteed to remain sweet for a whole year, and a self cleaning comb. And so it goes.
The dealers who can advertise the
most new, novel and taking prizes and
presents, and attract the most public
attention is the one who will do the
business, and leave the others behind.

A prominent commission was said.

business, and leave the others behind.

A prominent commission man said this morning that he was tired of doing business at a loss, and was thinking of selling out. "What is the sense," he said, "in a man's working for nothing, and then presenting him with a cromo for the mere privilege of working for him? And that is just what the grain and flour dealers in this town are doing today. We are working for the public for nothing, and making it presents for the privilege of doing this thing."

PATENTS FOR IDAHOANS.

(Special to the "News.") Washington, D. C., March 7 .- Patents issued to residents of Idaho: Francis M. Quinn, Silver King, electrical fuse primër; Gustaf F. Walin, Pocatello, linotype machine.

Cured Consumption. Mrs. B. W. Evans, Charwater, Kan. writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c. 50c and \$1.00. Sold by Z. C. M. I. Drug Dept.

PROBATE AND GUARDIANSHIP Consult County Clerk or respective sign era for further information.

IN THE DISTRICT COURT. PRObate Division, in and for Salt Lake County, State of Utah. In the matter of the estate and Guardianship of Ir ne Harman et al., Minors. Notice.—The petition of Fannie A. Harman, praying for the Issuance to herself of Letters of Guardianship on the persons and estates of Irene, Isaa, Hazel, Ann and Melva Harman, minors has been set for hearing on Saturday, the 18th day of March. A. D. 1805, at 10 o'clock a. m., at the County Court House, in the Court Room of said Court, in Salt Lake City, Salt Lake County, Utah.
Witness the Clerk of said Court, with the seal thereof affixed this 7th day of March, A. D. 1905.
(Seai) J. U. ELDREDGE, JR., Clerk, By W. H. Farnsworth, Deputy Clerk, D. H. Wenger, Attorney for Petitioner.

DROOPING ONE.

It Opened Dull and Irregular With Nearly All Standard Stocks Lower.

THE METROPOLITANS CAINED.

Atchison Made Some Advance to Which There Was a Slow and Slight Response.

New York, March 7 .- The stock market opened dull and irregular today with nearly all the standard stocks lower. The Metropolitan stocks, however, showed large fractional gains and Reading was up nearly a point. Manhattan opened un-changed. Union Pacific fell a point and B. & O. a large fraction. Tennessee Coal sold off easily 2%. Pressure increased in all quarters, the Metropolitan stocks losing their gains and St. Paul, B. & O., C. C. C. & St. Louis, Southern Pacific, General Electric and Realty falling a point under yesterday's closing. Speculation became rather quiet when the selling diminished. A brisk demand for Atchison creat-

ished. A brisk demand for Atchison created a covering movement in other active stocks and the market rebounded a fraction. The Atchison gained 1 and Tennessee Coal rallied 1½.

The repsonse to the Atchison movement was languid and the duil droop of prices gave place to sharp selling, which carried Union Pacific to below 123. Atlantic Coast Line and Northwestern lost 2½, Metropolitan Securities 1½ and Pennsylvania, Erie, Ontario & Western, Louisville & Nashville, Southern Railway, Kansas City, Southern preferred, C. & A. preferred, United States Steel, Amaiganated Copper, Metropolitan Street Railway, Brooklyn Rapid Transit and Wesinghouse Electric a point or more, Rending lost its gain and prices generally went lower than before.

Bonds were irregular at noon.
Selling was discontinued shritly after 11 o'clock, but the market made little recovery aside from Atlantic Coast Line, which railied to 142.
