CENTENNIAL EUREKA DROP | NET PROFITS WERE \$95,661.

Ajax Stronger Today - May Day Firmer - Yankee a Little Lower -Con. Mercur Called.

······

TODAY'S METALS:

SILVER 62 3-4 LEAD, \$4.00 CASTING COPPER 15%

The week's business on the exchange closed today with the sale of 12,500 shares for \$3,210.62. The total sales for the week amounted to 104,782 shares, which brought \$38,398,39. Some notable advances were made during the week. This is especially true of Star Con., Northern Light, Mercur and Yankee Con. In every stock named above, excepting Mercur, some decrease is shown at the close of the week. Mercur hung around \$6.05 on Monday. Later in the week it was taken off the board and Con, Mercur was called, when a small lot went at \$3.80. The old stock was again called yesterday, when it went up rapidly to \$6.37½. Today \$6.55 was of. rapidly to \$8.371/2. Today \$6.55 was of-fered for it, with the Con. Mercur stock standing around \$4. Star Con, spurted to \$7 during the week, but fell off to 50 yesterday. Today it is a little higher, being held at 52½, with \$1½ bid. Northern has fallen off to 5½, after selling up to 8 earlier in the week. Yankee Con has been a very active trader at greatly improved prices. On Monday the stock was traded in at a little better than 18. Since then, however, better than 18. Since then, however, the new strike has improved and assurance has come to town that I cars of ore will be marketed next week. This sent the stock up to 25 on Thursday from which figure it has weakened to

about 23½ today, May Day shows some shrinkage during the week. In spite of good reports from parties who have inspected the mine, the stock, which sold at 46 early in the week, has declined to around 40. It is a little stronger today, however hanging around 44.

Mammoth has not been very active during the week, but it closes strong in spite of the fact that insiders say the law suit will be brought to an issue bext month. Grand Central is not puite as strong today us it was earlier

in the week, closing with \$5.10 bid.

Lower Mammoth has shrunk during
the week. The Swanseas continue about as usual, with little or no acsurprising decline is noticed in

Centennial Eureka, which sold today in Boston at \$19.50 per share. On the local exchange, \$17.87½ was bid. Rumors that the next dividend will be cut down or passed are responsible for the drop Sacramento opened the week at 28 but since then the stock has advanced to \$5, from which figure it has since weakened to around \$2.

Utah is stronger, owing to the probability that the company will pay a dividend next month. Alax was strong-

COLD BULLION FROM THE MERCUR

Mercur Stock Continues to Show The Consolidated Mines Turned Out \$182,446 During August.

Tonnage Handled was 30,485 Tons-Items from Bingham - Tintle Shipments-Nevada Camps.

The output of the Consolidated Mercur Mining Company for the month of August has now been shipped and the report, which is being issued to the stockholders, shows its gross value to be \$132,446,46. This amount of gold was obtained from 30,485 tons of ore, the amount treated by the mill during Augamount treated by the mili during August. The value of the ore treated is thus shown to be a fraction over \$5.98 per ton. The cost of mining the ore, including the dead work of prospecting, was \$1.46 per ton. The cost of milling the ore was \$1.36 per ton, making the total cost amount to \$2,82 per ton. The net profit in the treatment of the ore thus shown to be \$3.16 per ton. The net profit in the treatment of the ore is thus shown to be \$3.16 per ton. The expenses of mining and milling 39,485 tons of ore were \$85,887.70. Other ex-penses brings the total for the month to \$86,785.22, which, deducted from the value of the buillon, leaves a net profit for the month of \$95,661.24.

BOSTON PRICES On Centennial-Eureka are a Little

Higher Today. A wire from Boston today brought the information that Centennial Eureka sold on the exchange at \$19.50 per share, which seems to show a stiffening up in spite of rumors that originated there on Thursday to the effect that the expected dividend this month would be either reduced or passed. Some smelter talk is also being indulged in. It is hard for some people to see why the com-pany should exhibit a sudden desire to build a smelter after it has tied itself up on a contract with the American Smelling company that will need at least two years longer to complete. It is impossible to learn just what is the matter, but of one thing every one here is assured and that is that the mine is in excellent condition with immense ore reserves in sight.

THE NEVADA CAMPS.

W. S. Brown Says There is Quite a Boom at Ely.

W. S. Brown came in from Cherry Creek. Nev., today and reports little on no activity there outside of the Glas-gow and Westers company, which is busily engaged in opening up its prop-erty, while the mill has been closed erty, while the mill has been closed down temporarily. A good disclosure of ore is reported at a new level of the mine. The North Mountain is idle though a force of men will be put to work in November. At Ely Mr. Brown reports quite a little boom. Machinery and lumber is being hauled in daily and every house is occupied.

ARRIVES FROM NOME.

Steamer Cleveland Reaches Seattle With 164 Passengers and \$50,000. Seattle, Wash., Sept. 15.—Steamship Cleveland arrived last night, 14 days from Nome with 164 passengers and

Following vessels were in Nome har-bor September 1: Charles D. Lane, Alliance, Aloha, Dis-

covery, Thrasher, Valencia, Kimball, Elk, Seven Sisters, St. Paul and Louis Welch. The Valencia expected to leave for Seattle Sept. 2.

A PLEASANT SURPRISE.

Supt. Edwards of the Con. Mercur Co. Presented With a Gold Watch.

The Mercur Miner tells of a very pleasant gathering of Mercur people at the Opera house on Wednesday evening at which time Supt, George Y. Edwards of the Con. Mercur mines was presented with a handsome gold watch and charm and chain on behalf of the employes of the Consolidated mines. Mr. Edwards was taken completely by surprise and it was some time before he could reply. He thanked the doners very heartifor the valuable gift and said he would value it more on account of the kindly feelings it expressed than its intrinsic value. He assured the employes that he took a kindly interest in their welfare, that any fear that the big mines would play out in a few years was groundless, and that he would do all he could for the interest of those under him. His speech was received with three rousing cheers and a tiger.

ITEMS FROM BINGHAM.

York Ore Body - Gold Ore from Royal Group-The Bazouk Strike. In its weekly review of the Bingham

camp the Bulletin says:

A large new ore body is reported to have just been encountered in the York group. About 100 tons of ore are now on York dump and soon to be shipped. St. Joe Mining company is letting a 200-foot contract on the Fire King long tunnel, which has been driven 175 feet. fine piece of works dimensions

Shawmut mill began shipping on Wednesday and is sending out concen-trates at the rate of a carload a day. A slight accident to the Chilian mill will

be repaired this morning.

R. G. Legg, late of the Dexter mine at Tuscarora, Nev., accompanied by C. N. Strevell, was in camp Monday examining the Liberal, Ben Butler and ther Markham guich properties. Keystone ebranch of Dalton & Lark

ram is to be completed tomorrow, when Fortune mill will begin shipping via Leadmill station, saving 70 cents per ton as compared with wagon-haul-

ing to Sandy.

J. T. Hodgson, owner of the Alamo group near mouth of Cottonwood, is planning to soon begin extensive developments, and is reasonably assured of good results as the Alamo is in an excellent locality, has a strong vein and dean un high grade cophas heretofore given up high grade cop-

At the Eagle Bird (Butterfield M. company,) drifting is progressing right and left at 200-level and a large area of stoping ground will be blocked out.
Both drifts are all in ore—a first-class
milling proposition that will probably
be treated at Rogers or Dewey mill.
During the past six months the Royal

results of a most promising nature. Recently the leasers made a shipment of That Saltair Beach is still open and several tons that returned something that the fare is 25 cents for everyone, over 4 ozs. gold, 60 ozs. silver per ton,

contents including also a small per cent of lead. We understand the Royal is to of lead. We understand the Royal is to be actively operated during the winter. This week Joe Qauffman, manager for the Mt. Aetna Gold and Copper company, has ordered lumber for boarding house and blacksmithshop, and will lay in supplies for active work this fall and winter. The company's property consists of a group of twelve claims lying at head of Spring gulch, boundary lines next to Last Chance on the north and United States on the west. Work done thus far is considerable, but good mineral carrying as high as 65 per cent lead is showing in several places, in quantity

eral carrying as high as 65 per cent lead is showing in several places, in quantity to warrant development.

Messrs. Smith. Free and Van Patten, having a bond and lease on the Bazouk mine, recently incorporated the Bazouk Mining company, and had bright prospects, as they sank on the vein about 40 feet and uncovered three feet of ore said to be very fine. A question of trespass now intervenes, however, as the Bazouk laps on to Eagle Bird and it appears the shaft is on Eagle Bird ground—vein running diag-Eagle Bird ground-vein running diag Eagle Bird ground—vein running diag-onally into Bazouk. The shaft is within a few feet of side line, and had it been started a few yards farther north would have been all right. Probably an ad-justment will be made and work contin-ued from present point by north drift. Manager George W. Keel of the But-terfield company, being disposed to set-tle the matter without bardship to the tle the matter without hardship to the

An Ogden Incorporation.

new company.

Last night a meeting was held in the office of Judge Maginnis to complete the organization of the Ogden Copper company, says the Ogden Stardard. A company, says the Ogden Stardard. A majority of the interested parties were present and the following were elected officers: M. T. Coats, president; S. H. Hobson, vice president, and these with C. A. Smurthwaite, W. F. Calkins and T. T. Rowlands, form the directorate. The company is capitalized at \$375,000, in 750,000 shares of 50 cents par value, 250,000 shares being treasury stock. A few owners were absent, and the artifew owners were absent, and the arti-cles of incorporation will not be filed

until their signatures are obtained.

A. Van Patten, who has recently inspecied the properties, was present and corroborated the report of L. S. Deane, the engineer employed by the owners to report on the claims. The property is situated in Humboldt county, Nevada, bout ten miles from the station on the lentral Pacific, and about the same distance from the Adelaide mine at the end of the Glasgow & Western rail-road. The vein are contact fissure, the beds of the veins being very true, and copper cropping from the larger vein for 2,000 feet or more. The principal yein is about 25 feet thick, the formation consisting of lime iron, silica and porphyry, with iron and lime con-glomerates. The group of claims ownd by the company are seven in num-

An incline shaft has been sunk on An incline shaft has been sunk on the large vein and a cross-cut has been run for a distance of 20 feet, the vein being broken into in several places. The assays show an average of 15 per cent copper, although some returns have been received as high as 40 per cent copper, \$12 in gold and 18 ounces sil-

Tintic Shipments.

Special Correspondence. Eureka, Sept. 15 .- The ore shipments from the Tintic district for the past week amounted to eighty-four carloads, this being somewhat less than the ship-ments from the mines the two weeks previous. This falling off is due to the fact that Grand Central, Star Cons. and Carissa failed to get their weekly consignments on the market, but all are loading and will probably market their product today (Saturday.) Of the eighty-four cars of ore, fifty-one carloads were shipped from the Eureka end of the district the Centennial-Euf the district, the Centennial-Euend of the district, the Centennial-Eureka heading the list with thirty-four
cars. It is now a certainty that the
Yankee Con. will take its place among
the producers of Tintic. Three carloads
of ore is now practically loaded and will
arrive on the market not later than the
first of next week. As soon as this lot
of ore is marketed, the stock which is
gardually climbing upward, should take
a substantial jump. Local shareholda substantial jump. Local sharehold-ers in this property are sanguine of the mine's future and many will doubtless hang on to their stock with the view of receiving a dividend in the near future. The cost of mining the ore at the Yan-kee is somewhat less than at any of its neighbors, because of the fact that the developments is carried on through tunnel, thus saving the cost of putting in and maintaining hoisting equipment. Shipments from Mammoth this week were confined principally to the Mam-Salpments from Mammoth this week were confined principally to the Mam-moth and Star Cons. While the Swan-sea and South Swansea were the only shippers from "the South end." The shipment in detail is as follows: Carloada

The Mammoth mill was on the mar-ket with three carloads of concentrates.

MINING NOTES.

The Horn Silver of Frisco had two cars of ore on the market today. Col. E. A. Wall was looking after his interests in Bingham today.

The Riue Bird assessment of 1/2 a cent per share became delinquent today. The Mining Review is out with an illustrated write up of Marysvale dis-

The 1/2 cent assessment of the Nevada Mining company will become delinquent on Monday,

The delinquent sale of the Little Chief Mining company was to take place today.

The Taylor-Brunton sampler reported two cars of ore from Frisco and one from Tintic today.

The 4-cent assessment of the West Mountain Placer company becomes de-linquent next Tuesday. The rich gold ore from the Star Con. has been resampled and assays were expected this afternoon.

Henry Altman has returned from the San Rafael country, where he went to look over some copper claims.

Milan Packard of the Star Con. was in town today for the purpose of pay-ing of \$4.800 on the company's debt. A carload of ore was marketed this week from the Eagle and Blue Bell of Tintie which showed one ounce in gold and twenty ounces silver per ton.

Mercur Miner: All of the material for the Sacramento reaster is on the ground and Mesers. Bothwell and Menaughy are here looking after its in-

John T. White is down from Park Valey, and reports the new Merralis 1-tamp mill deing good work. In spite of trawbacks the company is reported to be making expenses.

It was said today that a meeting of he directors of the Homestake of Tin-ic would convene this afternoon for he purpose of levying an assessment pay for the patenting of some of the mpany's territory.

A Good Time. If you want to have a good time go to Saltair Beach today.

MARKET STEADIED A WAILE

Then Renewed Offerings Turned the List Sharply Downward.

Bank Statement Depresses the Market, and Losses Heavy - Live Stock Unsteady-Produce Higher.

New York, Sept, 15.-The stock market was broader and more active in the opening dealings than for a long time past, Fractional declines were general. The market stendled somewhat after the opening. Renewed offerings of coalers and steel stocks turned the list sharply downward again. The large decrease in surplus teserves shown by the bank statement brought a renewed drive by the bears and large selling orders were uncovered on the decline, Losses reached between two and three points in a number of the industrials, Metropolitan, General Electric, Northwestern, B. & O. preferred and Erie first preferred. In the grangers, a few of the trunk lines and a number other railroads the declines reached 11/2. The list of losses reaching I point was a long one. Bears covered in some stocks but the pressure was continued in other places, making the closing active and weak generally at

LONDON SHEEPSKIN SALE.

London, Sept. 14.—At the sale of sheepskins here today, 156,340 bales of Cape of Good Hope and Natal skins were offered, of which 116,188 bales were sold. The quality was not improved. The demand was mostly of the home trade. Longwooled skins declined 45d to 3 farthings and short-wooled 44d. Shorn goods declined a farthing.

COMMERCIAL STOCKS.

As the end of the month approaches, when dividends are payable on several ocal stocks, the demand increases, and a number have made new records since last quoted. The Ogden sugar factory has its product now in the market, and is reaping the advantage of the present stiff prices for sugar, which are higher stiff prices for sugar, which are higher than at any time since that company began operations. The Lehi company will be in the market the latter part of this week, or early next week, and they, too, will share the advantage of the prevailing high prices. Both stocks are in strong demand, brokers offering \$152 per share for Ogden, and \$15.35 for Lehi without finding any sellers. Home Lehi, without finding any sellers. Home Fire was offered this morning at \$116. The largest deal of the week has prob-ably been in State Bank stock, a considerable number of shares of which changed hands at \$131. The semi-an-nual dividend of Z. C. M. I., amounting to 4 per cent, is due next month, and that stock also shows signs of advanc-The following are the latest quo ing. T

C.; Memphis, Peorla, Grand Rapids, Nashville and Des Moines.

UTAH GRAIN.

During the week ending today there have been large wagon load deliveries of wheat and oats from Salt Lake and Tooele counties which has resulted in temporary over-stocking of the mar-cet by those products, wherefore the ket by those products, wherefore the demand for carload lots is not as good as last week. The same prices—51 to 52 cents for old wheat and 47 to 50 cents for new wheat—still obtain. There is a good demand on the Pacific const for Utah and southern Idaho wheat at the present time. Delivered there it brings \$1.05 per hundred. \$1.05 per hundred.

WOOL.

The local wool market is, in the language of a well known Utah woo this afternoon, "dead." Said he: absolutely no movement of the production uct here at all; and in the East all is unsatisfactory. Everything tending to further depression."

SCHOOL

Our night school is designed to aid young men and young women, who are unable to attend school during the day, and who desire to better fit themselves for a business life.

SUBJECTS TAUGHT.

We teach Bookkeeping, Shorthand, Typewriting, Penmanship, Arithmetic, Grammar, Correspondence, Spelling, etc.

DICTATION.

We have a dictation class for ad-vanced stenographers. Members of this class are given one hour's dictation each evening.

GENERAL INFORMATION.

Students may enter at any time, and may take any subjects they wish.

We have no classes, each student being given individual instruction. Students are thus advanced as rapidly as is consistent with good work, neither be-ing held back or hurried by others. School sessions are from 7 to 9. Tui-tion, single month, \$5.00; to June next, \$25.00. This entities students to in-struction in all branches.

For full information call or address, SALT LAKE BUSINESS COLLEGE TEMPLETON.

FASTER than any other mute "THE OVERLAND LIMITED," equipped with Palace Sleeping Cars. equipped with Falace sleeping cars, Buffet Smoking and Library Cars (with barber) and Dining Cars, meals "a la carte," LEAVES SALT LAKE CITY AT 12:30 p. m. DAILY. The Chicago Special leaves Salt Lake every even. ing at 6:40. First class equipment, including Free Reclining Chair Cars. The Atlantic Express leaves at 7:00 a.m. For tickets and reservations apply to ticket agents, or address C. A. Walker, Gen'l Agent Chicago & North-Western Ry., 206 S. Main St., Salt Lake City.

Why! Of course you have heard of the Burlington, Everybody has, never. the burning will be surprised when you see the train, it's a wonder, and that see the train, it's a wonder, and that dinner is immense, the meals cannot be excelled, the neathess of the napery, courteous waiters, cleanliness and service in general are appetizers. The improvements in track have made the Burlington almost noiseless. You can sleep in a sleeper, dine in a diner, smoke in a smoker, read in a library car and recline in a reclining chair car all under one roof. And to make this whole train go the Burlington have the largest engines in the West. They are as high as a house, as fast as a whiriwind, and weigh 114 tons each. You should go over this road to see and ride behind one of those monsters. one of those monaters. Two trains a day from Denver to the

East. The Chicago Special leaving bea. ver at 4:00 p. m. The Vestibuled Fiyer at 10:00 p. m. for all points East.
