## OLD TIMERS VS. MODERN PITCHERS

Those of Quarter of Century Ago Pitched Every Day if Necessary.

STEADY WORK IS NEEDED.

It Takes the Rinks Out of Salary Wings and Limbers Them Up In Good Shape.

in point of endurance with the old-timers of a quarter century ago. It is now the custom to carry a staff of several pitching stars. In the old days two twirlers ere considered sufficient and oftentimes one bore the brunt of the work.

It is all ret to talk about Joe McGinnity as "The Iron Man," as applied
to his staying qualities. The Gant box
artist is a seiling plater compared with
the old, reliable Jim Galvin, who was
physically able to go into the box every
day if necessary, and who pitched ninetenths of the games played by the BufJulo and Pittsburg teams when he was on
the staff of those organizations. Jim Galvin loved the game and was always ready
and willing to Jump in and work like
a Trojan for his team's success. McGinnity is a man of pretty soft metal when
compared with the real man of iron.
Jim Galvin pitched more games in one
year than Joe ever pitched in three,
and was none the worse for it.

The old Frovidence National league
club won the pennant with a staff consisting of only two twirlers, John Ward
and Charlie Radbourne, the latter alding
his team to win the flag by officiating in
the box in twenty-one successive contests during the closing of the season,
when the struggle down every stretch
was of fierce order and every victory
counted.
For years Tim Keefe and Mickey talk about Joe Mc-

counted.

For years Tim Keefe and Mickey Welch were the standbys of the New York team, alternating in the box week after week. Clarkson and McCormick siled a similar role for Chicago, and Getzein and Baldwin for Detroit. Charles ferguson was Philadelphia's main stay, working day after day without a let-up.

let-up.
The youngsters of today, and even the seasoned veterans like Cy Young, Rube Waddell, Dineen, Fowell, Fatten and others in the same class have a snap as compared with the duties of the old-

cthers in the same class have a snapas compared with the duties of the oldtimers.

The modern pitcher easily earns a
princely salary. Many of the twirlers
in the major organizations average \$300
per game, working only once a week.
They receive it whether they earn it or
not, and many fail to earn it. There was
reidem a shirk in the olden days, but the
woods are now full of them. Time was
when hall players displayed more ardor
in their work, when they played the
game with spirit and energy because
they enjoyed its excitement and varying
surprises. Nowadays it is different. The
maneial question cuts the only figure,
to find a pretext which will allow him
freedom from duty. Owing to the lentency of managers some pitchers grow
hog fat and unit for work, whereas if
they were compelled to go into the box
more frequently the team and themselves
would be much better off. Steady work
takes the kinks out of salary wings.
Imbers them up, and removes all
streaks of laziness or indifference.

Even with the long schedules of the
present time, four pitchers worked in
tarn are sufficient for any club. Much
good coin of the realm is wasted on dead
wood, or useless timber. There are too
many bench iders now. The year Billy
Murray won the pennat for Jersey City
he worked four pitchers alternately, and
the result was that all kept in first class
condition and in fine fettle throughout
the race.

The title of "The Iron Man" was be-

condition and in fine fettle throughout the race.

The title of "The Iron Man" was be stowed upon Joe McGinnity on account of pitching two games in one afternoon, so some one contended. Others say he received the title through being owner of an iron foundry in South Dakota. The first reason is correct, but he has nothing on a raft of other pitchers who have duplicated the feat. Young Liebhardt, purchased by Cleveland from the Southern lengue, gave the same performance several times last season and several others pitched double headers.

The real iron men were those of a quarter century ago, who worked nearly every day and thought nothing of it. The twirlers of today are infants when compared with the old-timers.

#### WILL FIGHT AT OGDEN. Sholes and Green to Meet in Twenty Round Bout on April 26.

At Ogden on the 26th there is to be a twenty-round bout between Sholes and twenty-round bout between Sholes and Green. Forrest Geiger, the promoter, was in Sait Lake last evening working up interest in the match. He says that a special train will be run from Sait Lake to Ogden and return after the contest. Quite a number of local fight fans have decided to take in the contest. They are hungry for the game and when they see anything that looks good they will not be backward in patronizing it.

Sholes is working at Ogden and is said to be in good shape. Green has been doing his training stunts at Bingham, but will finish his work in Sait Lake to give the sports a chance to get a line on him. He was for a time under Willard Bean and the latter predicted that Green would make good.

## Health and Beauty

Beauty is the external proof of health; with failing health comes failing beauty. Woman's delicate organism is frequently over-taxed by arduous household duties, and the de-mands of society. The con-stant drain upon her vitality weakens her nervous system. The penalty is a tired, wornout, exhausted condition which destroys her appetite, robs her of rest, and at intervals causes much suffering and distress. When these conditions exist, the weakened nerves must be strengthened, Dr.Miles'Nervine will do this. It stimulates the action of all the organs, brings refreshing sleep, and drives away that look of care.

"T have taken Dr. Miles' Restorative Nervine for years, as did my mother before me. Whenever I feel tired, worn-out, or have headache, I always take the Nervine and it strengthens me. I consider it a great remedy for nervousness or debility."

MRS. C. L. FREDERICK, Canton, Ohio.

Dr. Miles' Nervine is sold by your ruggist, who will guarantee that the inst bottle will benefit. If it falls, he will refund your money. Miles Medical Co., Elkhart, Ind which takes place on Saturday. These in last night's heat were Wilkinson, state champion, Colson, Lamont and LeRoy. The distance was one mile and the race was one of the prettiest yet seen here. It was nip and tuck most of the way, but little Wilkinson proved to be too speedy for Colson and finished first by a good margin. The time for the mile was 3:28. Colson was second, La Mont third and Le Roy fourth. The second heat will be run this evening.

HOW DAD CLARK WAS ONCE "STUNG."

Dad Clark, ence a pitcher of the New York club, and who was perhaps the most unconscious humorist the game has ever known, could be made to believe the tallest story ever told, provided the teller kept a serious face, and this sublime faith of Clark's caused him to be "stung" on many occasions.

One of the most notable cases wherein Dad got "stung" happened one morning when that gental sout and prince of good fellows, Parke Wilson, the New York catcher at that time, came hunriedly into the clubbouse just when the feitows were preparing to don their basebatiothes for morning practise, and excitedly exclaimed:
"Say, men, what do you think? As i came to the park this morning I walked by a big department store, and saw n large crowd gathered about the largest show window. Getting curious myself, I went up to see what the trouble was, and what do you imagine caused the street to be blocked? Why, nothing more than this. They had the entire window filled with canned goods, and on each can is the picture of Dad Clark? Shouted Parke.

"Who?" shrieked Dad, as he began pulling on his street clothes. "Me picter on cans in a store window! Now, you fatheads, see who's de popular guy in dis punk outfit! I'm de little boy who's fillin' up dis park every day, an I'm goin' ter strike for a tousand dollar raise in a store window! If de folks at home could only see me now!"

WILL RACE IN BALLOON.

New York, April 16.—James C. McCoy who has been planning to make the first trial for the Lahm cup, stated that he had practically completed arrangements to go to St. Louis next week, where he will make an ascent with A. N. Chandler, president of the Aero club of Philadelphia for the trophy. The conditions are that the winner of the trophy must make a flight exceeding the distance traveled last year by Lieut. Frank P. Lahm when he won the Gordon-Bennett international balloon cup. Lieut. Lahm covered 40 miles, starting from Paris and landing in the northeast part of England. Allan R. Hawley has also entered for the Lahm trophy, and he will make a flight from St. Louis later in the season.

STRIKES WERE EXPENSIVE. St. Louis Player Lost \$700, or \$233.33 Per Wallop.

St. Louis, April 17.—Three strikes at \$22.83 a strike. Pretty expensive ball playing for the man who made the wild twings, but it happened all right and not in the old ways, either, but last fuesday afternoon when the Browns were curplayed by the Cardinals who were helped considerably by the cold weather in the third game of the spring—save the mark—series. Charley Hemphill was the man who got a dent in his salary value to the extent of 700 bones and this is the way

extent of 700 bones and this is the way it happened.

All spring Hemphill has refrained from signing a contract to play with the Browns this summer. President Hughest, at the suggestion of Manager McAleer, who wateres out for the interests of the players and every turn you may be sure, gave Hemphill a raise in salary of \$400.

Hemphill didn't know the raise was coming, but when it did come he kicked. He thought he ought to get even more, and down south said he was going to hold out for not only the \$400 but an additional \$700.

Hemphill is a spiendid ballplayer, but McAleer knows the value of a man's services on the diamond and figured that Hemphill's new contract was all right.

There has never been a question of the fielder not playing this year, and the arrangement of the salary question was to be an amicable one with Hemphill trying, in a friendly way, to get as much as he could. ing, in a friendly way, to get as much as he could.

The matter was still open Tuesday afternoon when the Browns met the Cardinals for the third time. The game meant much to both teams, and every player was anxious to win for his side, it was said all along that in cold weather the youngsters of McCloskey's team are likely to beat the cid-timers on the Browns, and it will always be that when veteran ball players go up against young men.

But to get back to yesterday's game. Glade, for the Browns, had a had first inning in the box, and the Cardinals got a running start of four runs and a little later added two more, the Browns in the meantime having acquired two.

Beebe, the Cardinals pitcher, did great work throughout and held the Browns safe, but in the very last laning, with two men out, the Browns managed to get the bases full and Hemphili was at the bat.

Understand the situation?
Four runs were needed to the up the game, and perhaps save the local championship for the Browns-though they are far from being beaten yet—Hemphili had the chance of his life to show that he was worth more money to the team than he had been given credit.

It was a great chance for Hemp. He has put out many a home run and that was the time for another.

He didn't even put it out as far as Mr. Beebe in the center of the diamond.
He struck out, and each strike, as said before, meant just \$233.33 to him. inderstand the situation?

DR. G. W. SHORES

We treat MEN only and our experience in the past assures our patients straightforward and satisfactory treatment for the future. Many a MAN has lost his grip through brooding over his condition because he imagines he cannot be cured. To such we say investigate our methods of treatment and place yourself under our care and your weakness will disappear and confidence will be restored for the future. Our treatment has proved to be the best yet devised for restoring LOST VIGOR and that physical and mental incapacity which has made a wreck of so many. Our treatment for NER-VGUS DEBILITY does not stimulate temporarily but permanently. It stops every drain of VIGOR and builds up the muscular and aervous system—revives the spirits—brightens the intellect and above all restores the WASTED POWERS. Sometimes organic weakness and LOSS OF VIRILITY arises from VARICOCELE and STRICTURE in such case we have to get rid of the cause before we can obtain good effects. Too often these causes are overlooked and so in spite of any and every treatment the case does not progress and the patient often goes into physical and mental decline through want of success in caring his LOST VIGOR.

We take no case we cannot benefit or cure so you run no risks.
