FOREIGN.

Kassassin, 11.—Prisoners report the object of Saturday's operation was the capture of Kassassin in which it was believed would be weakly defended. The Egyptians lost over 1000 killed, and the number of wounded is unknown. There is little doubt that the first attack came upon us in the nature of a surprise. About 5 o'clock in the morning the 80th Bengal Lancers who were out setting videttes, to their astonishment, found themselves suddenly in the presence of three squadrons of the enemy's cavalry, and a number of infantry advancing in regular attack formation. Col. Pennington then asserts that a regiment at Mandari is prepared to desert at the earliest opportunity. The firing heard last week, behind the enemy's position, which caused the supposition that dissensions had broken out in camp, arose from the active drilling and firing practice of the new levies. Arabi Pasha has been at Tel-el-Kebir ever since the 25th of August.

Rome, 11.—A conflict of jurisdiction in Tunis, between Italy and France is considered an incident of the gravest character, tending to aggravate the strained relations between the two countries.

Limerick, 11.—Francis Hynes was hanged at 8 o'clock this morning. Hynes endured the pinning and recited his prayers calmly. Only a slight tremor was perceptible immediately before the bolt was drawn. Death was instantaneous. A large crowd was outside the jail waiting the hoisting of the black flag. Many were praying for the convict's soul. It is not known whether Hynes made a statement previous to death, but it is certain that up to Sunday, he denied any complicity in the murder. A military guard was held in readiness and 700 extra police from the northern counties were drafted to Limerick in view of the possibility of a disturbance. During Sunday prayers for Hynes were offered in many Catholic Churches in the counties of Limerick and Clare.

MILLARD STAKE CONFERENCE.

The Quarterly Conference of the Millard Stake of Zion convened in Fillmore, August 26, 1882, at 10 a.m.

Present on the stand, President Ira N. Hinckley and his Counselors Daniel Thompson and Joseph V. Robison, also representatives from all the Wards.

After the usual opening exercises,

President Hinckley addressed the conference for a short time, regretted that we had not all the statistical reports in, but was willing to make allowance for other peoples' shortcomings, as he wanted allowance made for his own. Gave some general advice and then called on the Bishops to report their wards.

Scipio Ward was reported by Bishop Thos. Yates, Holden Ward by Bishop David R. Stevens, Deseret Ward by Counselor Mahonri M. Bish p. Fillmore Ward by Bishop Joseph D. Smith, and Oak Creek Ward by Bishop Peter Anderson.

In the afternoon the clerk read the statistical report which had come in, after which verbal reports were given by Bishop Hiram B. Bennett, of Meadow Creek Ward, and by Bishop Abraham A. Kimball of Kanosh Ward.

Prest, Daniel Thompson then addressed the meeting in an encouraging manner. Said our enemies are trying to crowd in now, but the Lord is able to overrule it all for good. It was predicted by the Prophet Joseph that the Saints would have to go to the mountains, and if we remained faithful forty years all hell would not be able to drive us out.

Elder William Stevens, who had recently returned from a mission to the Southern States, spoke of the prejudice which is high among the people of the States against the Saints, but the Lord will be with us if we live our religion and rely on Him. The clouds gathering around us now will again disappear and we will again come out triumphant.

Sunday, 10 a.m. After opening exercises, Prest. J. V. Robinson read several passages from the Book of Mormon concerning the promises made to the seed of Lehi, also concerning the Gentiles and the gathering of Israel, and preached an interesting discourse on those subjects.

Bishop A. A. Kimball followed and spoke on the principle of fitting and the necessity of our complying faithfully with every Gospel requirement. Related that three of the Indians at Kanosh had commenced to turn white, and that they believed it was in fulfillment of the promise made in the Book of Mormon.

2 p. m. After opening exercises the sacrament was administered, and the Clerk presented the general authorities of the Church and the local authorities of Millard Stake, all of whom were unanimously sustained.

Elder C. Anderson addressed the conference and spoke of the opposition and warfare which had existed between the Lord and His Priesthood on the one side, and Lucifer and his host on the other side, ever since the rebellion in heaven. In this dispensation the Kingdom of God will triumph, not by violence and bloodshed, but by bringing truth for error, and light for darkness.

President Ira N. Hinckley occupied the rest of the time, and admonished the Saints to be hospitable, kind, faithful and patient.

Conference adjourned for three months. Singing by the choir. Benediction by President Daniel Thompson.

C. ANDERSON, Clerk.

Correspondence.

ST. DAVID,
Cochise Co., Arizona,
August 28, 1882.

Editor Deseret News:

The Saints here with several exceptions are in good health and at work freighting, hauling wood, attending to their cattle and crops and a general good feeling prevails, though like all communities there may be exceptions to the general rule.

That which we most need is more settlers to assist in reclaiming the acres above and below on the river bottoms. There are many opportunities for people to locate to advantage and in a few years accumulate wealth, also enjoy the spirit of "Mormonism" while doing it.

The first Monday in September our public school will commence. We have 92 scholars between the ages of 6 and 21 years, and will soon have to add a wing to our new school house which is near its completion. For 40 families the above showing is not bad.

Politics is beginning to stir the minds of the people of this Territory and counties. There being two parties there is no doubt but the democrats will fill most of the offices and return Hon. Granville H. Oary to the House of Representatives.

We have succeeded in getting a postoffice—Joseph McRae postmaster for St. David; his bonds are signed and returned to the P. O. Department. In a few days we expect service put on, and then people of St. David will enjoy a blessing which they have been deprived of since the location of the settlement.

We also have a precinct set off and officers appointed, also a committee to enter our townsite, and not least of all Elder Edgar Sessions our branch clerk and civil engineer has availed himself of a first class transit and instruments that our land can be surveyed, canals leveled etc. Altogether we are in a fair way to accomplish a great deal and can encourage immigration. There have been very few cases of chills and fever and the rumor against the San Pedro country is really the worst enemy.

By the 2d of September we anticipate the arrival of President A. F. McDonald and company consisting of Elders E. F. Johnson, Henry Standage, F. M. Dornery, C. I. Robson and others to hold conference and transact such business as is necessary for our future good, when the above brethren will probably visit over the line.

We have had several heavy rains and grass is coming in abundance, and inside of four weeks our haying season will commence.

As I stated in my last that there were no depredations by cowboys and Indians, so peace continues and we trust will in the future. We also hope that the registrars in Utah

will are long give way to a more honorable class of men, who are willing to live and let live and not drive a civil people to overt acts.

Our hearts and labors are with our brethren, and that which we accomplish on the frontier will be for the good of all in extending the borders of Zion.

Your Brother and Friend,
D. P. KIMBALL.

SANPETE Co., Aug. 31, 1882.

Editor Deseret News:

It has been gratifying to see with what alacrity and tenacity you have fought the "Main question" till it has become a *sine qua non*. A sort of dependence has been created upon your columns. But notwithstanding the pressures the hundreds of busy husbandmen are at work in the field, the improved machinery levels down the standing grain, and beneficent nature smiles her sweet approval.

The industries outside of agriculture are few in this county, yet there are chances of good investment lying temptingly open, notably some good grist mills. One town, our near neighbor, born a city in 1870, yet travels many miles to have ground the staff of life. Other places are like this. Speaking of grist mills I was pleased to be shown, by Mr. Ole Sorenson, over the Phoenix Mills at Fountain Green. On a beautiful never freezing stream above all headgates and irrigating ditches, this superb mill sits a very queen. Unsurpassed in excellency, her flour meets the competitor, 80 sacks of flour in 24 hours, storing capacity 5,000 bushels; the S. P. V. R. comes up to her platform and over all of this mill enterprise presides Hugh McDougall, of Springville, Utah County, as he does also over some lumber mills near Spring City.

Some of us are but mere "lookers on at Venice." But from this cheery pitiful picture there heaves a heavy sigh at death's cold march in the domestic circle of nine families since last Christmas, in one town of this county. I hope some school of obstetrics may grow out from the Deseret Hospital and our towns be supplied with the much needed help. It has occurred to yours truly that if some of the funds of our local Relief Societies could be diverted and devoted to sending desirable women to some hospital or college to learn the art divine, relief, that it would be a God's blessing to do so.

I was amused the other day in my researches on some probate business intent, to find in one town of say 300 inhabitants, not a solitary polygamist, the whole town over 21 years of age can vote next November, what a field to select officers from if there is one office to fill. They speak the "pure language" as my old friend Dan Jones used to say, and boast it would become universal. But if it is hard to get the pronunciation of the v's and w's of the Russian language it is equally difficult to get the whir's of this.

On the line of the R. R. Moroni, Notary Public hangs out his shingle in the midst of sage brush and jack rabbits. I suppose if the railroad would not come to him he would go to it, by this move he has less of Moroni and more of freedom. Right at his door the junction will be of the extension of the S. P. V. R. R., all hopes are centred in this most desirable job.

Resolutions of the Utah Commission.

ADOPTED SEPT. 6TH, 1882.

The following was adopted by the Commission at its session on Wednesday:

C. C. Goodwin, registration officer for Cache County, having submitted the following question:

Will you please instruct me as to the voting qualifications of females who came to this country after they had arrived at the age of twenty-one years; and who have failed to comply with the naturalization laws, and who remain unmarried?

After due consideration ordered: That females who at the time of the naturalization of their parents are over the age of twenty-one years, and who have failed to comply with the naturalization laws, and who remain unmarried, cannot register or vote.

In answer to queries from registration officers, in substance as follows:

Can any person, male or female, who, at any time, lived in polygamous relations after July 1st, 1862 register or vote?

After due consideration the Commission answer, NO.

On motion of Mr. Pettigrew.

Ordered: That the secretary of this Commission is hereby instructed to notify the various county registration officers to return to the secretary of this Commission, after the registration lists have been prepared, the affidavits subscribed to by persons whose names are on said lists, and the provision of rule 8, requiring the affidavits to be filed in the office of the clerk of the county court is hereby rescinded.

Registration officers will take due notice of the above resolutions.

ARTHUR L. THOMAS,
Secretary of Utah Territory and ex-Officio Secretary of the Commission.

A GOOD THRESHER AND ENGINE.

In this issue the Sweepstakes Threshing Machine and Canton Monitor Engine are advertised. There is no mistake about both being most excellent pieces of machinery, being noted for effectiveness of work and ease of management. Mr. Geo. A. Lowe of this City and Ogden is Agent.

AN ENTIRE CAR LOAD.

Shipment of American Cider Mills and Buffalo and Victor Cane Mills just received by H. B. Clawson—A large percentage in the cost of these goods is saved by shipping in car lots and Mr. Clawson proposes giving his customers the full benefit of this—Bear this in mind when you get ready for a Cider or Cane Mill. Barrels for cider or vinegar supplied in any quantity.

FOR SALE AT A BARGAIN.

A ten-horse power Eagle Engine, on trucks, suitable for threshing purposes or any work for which a ten-horse engine is required. It is first class in every particular, being manufactured by the celebrated Eagle Machine Works of Indianapolis. Write for prices and returns to H. B. Clawson, Salt Lake.

AGITATOR THRESHERS.

John W. Lowell has already booked orders for 20 of these World-renowned Threshers, manufactured by the J. I. Case Th. M. Co. These machines proved themselves last year to be the Best Threshers on earth, and parties who think of buying a thresher this season will find it to their interest to send their orders in at once. ds&wlf.

FROM "THE TIMES."

Editors Times:—The veterinary department in your valuable paper is always read by me with great interest and I value the information received from it a hundred fold more than the small amount paid for the paper. One year ago you published a letter from Dr. John Bates, relating the wonderful success he had had in curing spavins and splints with Kendall's Spavin Cure, and his allusion to using it now in his practice for several human ailments on account of the success he has always had with it. The above statements from so prominent a Physician gave me great faith in its efficacy, and as I had been afflicted for years with rheumatism and hip-joint lameness, so bad that I could hardly walk at times, I procured a bottle and as it has completely cured me I wish to proclaim it to all the world as the most wonderful discovery ever made for the benefit of afflicted men as well as for the poor horse, for which it was first used. As this remedy must be of incalculable value to the world, I write this letter to express my thankfulness to you for ever mentioning it in your columns and to ask another favor in behalf of my fellow men who are afflicted in body, that you continue to make known to the world, the great value of Kendall's Spavin Cure for both man as well as beast.

Respectfully yours,

ARNOLD PARKER,
Rochester, N. Y., Sept. 1st, 1881.
