

LOCAL AND OTHER MATTERS.

FROM FRIDAY'S DAILY, AUGUST 31.

Recovering.—Little Jesse Cannon, a five-year-old son of President A. M. Cannon's, has been quite ill for some time with typhoid fever. It is thought that he has passed the worst, however, and is on the road to recovery.

At Last.—Last evening the clouds accumulated for another sprinkling effort, the result being a respectable shower. There were some lively cracks of thunder and the electric fluid flashed sportively about. Nature looks less parched to-day.

A Missionary Trip.—Elder Abraham Cannon, of the First Presidency of the Seventies, and Elder Edward Stevenson, left this morning for a missionary trip through Sanpete and Sevier Counties, expecting to be gone between one and two weeks.

Badly Beaten.—The Athletic Club of Ogden hold the championship of Utah in the matter of base ball. They discounted the Salt Lake Olympics so badly in the final match game on Washington Square yesterday, that the boys of the capital were nowhere, so to speak. The score was 20 to 3 in favor of the Junction City boys. Somebody should organize a team at Granger or Mountain Dell and challenge the defeated club forthwith.

United in Marriage.—Yesterday, August 30th, in this city, Mr. David Williams and Miss Mattie John, were united in marriage. The groom is the son of Brother David Williams, Superintendent of the Pleasant Valley coal mines, and the bride the daughter of Brother David John, of Provo. They are an estimable couple, and we join our good wishes with those of their many friends for their happiness and prosperity.

Killed by Lightning.—On the 25th inst., during a sharp lightning storm, the residence of J. S. Harrington, of Holmes Gulch, three miles east of Helena, was struck by lightning, and Mr. Harrington, who was engaged in cooking his dinner by the stove, was instantly killed. It is supposed the bolt followed the stove pipe down to the stove, which rested upon dry blocks of wood, which acted as insulators, and Mr. Harrington, at the instant, placing his hand upon some cooking utensil offered an escape for the fluid to the ground.

Back From Wisconsin.—This morning Elder Andrew Hendrickson, of Levan, Juab Co., arrived from Wisconsin, where he had been laboring as a missionary since last May. In consequence of being severely afflicted with acute rheumatism he was released to return home. He is still suffering from that complaint. He baptized three persons into the church and found a number of others who were greatly interested in the Gospel message. While his health was good he enjoyed his labors, and regrets much his inability to continue them longer.

Joined.—Yesterday, August 30th, the marriage of Brother Louis O. Shaw, of the Seventeenth Ward, and Miss Sarah Ann Lambert, was consummated. Last night there was a gathering of the friends of both parties at the residence of the bride's parents, Brother and Sister Charles Lambert, of the Seventh Ward, when the usual warm and hearty congratulations were tendered, and a few happy, sociable hours spent in honor of the occasion. The groom and bride are highly esteemed and intelligent, and we join with their numerous friends in best wishes for their welfare.

The Grand Organ.—We learn from Brother M. Johnson that he has already begun the work of overhauling, and making the proposed additions to the grand organ of the Tabernacle. The tracheal action which has heretofore governed it is to be removed and its place supplied with a pneumatic action. The windchest and appurtenances are in readiness to be put in, and there will be additions of nearly 1,200 pipes (wood and metal). Brother Johnson is quite sanguine that the majestic instrument will be in good shape by Conference, and he says when it is fully finished it will not be excelled by any organ in the country.

Fine Prospect.—Yesterday we had some conversation with Brother Richard S. Robertson, who has returned from a visit to the mines of the Iron Manufacturing Company

of Utah. He says he never saw such iron deposits in his life. There is in one place an entire mountain of ore, nearly eighty per cent. of pure iron. The other facilities are also of the same extraordinarily favorable character. Brother Robertson, who understands the whole process, from the making of the brick, building and arranging of the furnaces to the making of the pig-iron, considers the prospects of the company excellent. All that is requisite is the means to set it agoing. In his view, which is a correct one, it is bound to be an industry of remarkable profit.

What Alice Burt Says About Her Father.—Alice Burt is a pretty and intelligent daughter of the late Bishop Andrew Burt, about eleven years old. She had been up at Ogden for two weeks and had not seen her father, who was exceedingly fond of her, during that time. She came to the city on the evening of the day of the tragedy, and about half past eight o'clock she states that she saw her father in the yard of the City Hall. She immediately entered the house and told her mother she had seen papa. After retiring to rest she refused to be comforted, and wept for several hours, when she states that she suddenly observed her father standing near. He looked at her and uttered a few kindly words, in his characteristic way when in life, and told her to go to sleep. She immediately became quiet and went to sleep. She states that her father was dressed in white, and had no covering upon his head, that his face was as clearly visible as she had ever seen it, and that his voice seemed perfectly natural. She also says she is perfectly sure she was not asleep on the second appearance of her father. We have talked with the girl on the subject, and she tells the details with remarkable clearness.

A REMARKABLE CASE.

A LIVING CREATURE IN THE STOMACH OF A LADY FOR 15 YEARS.

One of the rarest cases ever brought to the notice of the medical faculty, has transpired in this city. About fifteen years ago, Mrs. Jane Carrington Young, wife of Apostle Brigham Young, was suddenly awakened from sleep by a feeling caused by some living creature running into her mouth and down her throat. She was naturally alarmed at the incident and swallowed different things to cause vomiting.

No great subsequent inconvenience ensued until four years ago, when the lady was greatly alarmed by a sensation of a living thing moving about in her stomach. The feeling increased accompanied by a pain of something gnawing or biting at the left side, especially at times when there was not much food in the stomach. In addition to this sensation was the fact that she could plainly hear the sound caused by the creature when it was in the act of drinking.

Leading physicians in this city were consulted, but all, or nearly all, attributed the symptoms described by Sister Young to imagination, some going so far as to claim that no living creature could exist in the human stomach. The patient read medical works for satisfactory information and swallowed any amount of nostrums, but all to no avail until recently she took some preparations given by a couple of gentlemen of this city. The desired result was attained, as the creature ceased to live and was vomited by Mrs. Young on Monday last. Although somewhat disfigured and broken up by the action of the medicine its form is still traceable, being evidently of the lizard species. It was emitted in fragments, the main portion being several inches long. It is preserved in two bottles of alcohol, and a large number of people have called and examined it. The many friends of the esteemed lady will congratulate her on getting rid of such an unwelcome intruder. We are pleased to state that she feels remarkably well considering her terrible experience.

FROM SATURDAY'S DAILY SEPT. 1.

The Coming Company.—A dispatch has been received to the effect that the company of emigrants that left Liverpool for Utah on Wednesday, August 29th, numbers 628 souls.

Draper School.—On Monday, Sept. 10th, the Draper school will open with Mr. W. M. Stewart, as Principal, assisted by Miss Sarah Vincent. It is intended to introduce a graded system and make the school an excellent one in every particular.

Gone East to Study.—Brother Milton H. Hardy, for a long time a member of the faculty of the Brigham Young Academy, of Provo, left for the East this morning. His object is to enter upon the study of medicine and surgery. We wish him success.

Suicide in the South.—The following special was received this afternoon from Washington, Washington County:

This morning about five o'clock, Christian Iversen, was found shot through the breast in his house at Washington. It was a case of suicide. Domestic troubles induced him to commit the act. He left letters stating his reasons for so doing. He has, before, been held as an honorable member of society. He came to Washington from Brigham City, several years ago.

Destructive Insects.—To-day we received a call from Mr. Lawrence Bruner, an employee of the Department of Agriculture, at Washington, D. C. The gentleman is on a tour through the West obtaining information in relation to locusts and other destructive insects for the purpose of formulating a report. Mr. Bruner informs us that one of the most radical cures for the codling moth is to destroy the windfall apples with the worms in them, or destroy the worms when the fruit is pared, or at any time so as to prevent their development into moths in the spring.

Severely Injured.—The Enquirer states that on Monday last Mr. Richard Johnson, of Goshen, Utah County, left home to procure a load of clay for adobe-making. While working at the bank he was caught by a cave and completely covered by several tons of dirt. By dint of hard work he managed to free his head, but was unable to release his body. Towards evening his family became uneasy by reason of his long absence and a messenger started in search, who found him as above stated and almost dead from thirst and exhaustion. Dr. Greer was at once sent for and found him suffering from a broken thigh, an injured spine and a badly bruised arm.

"The Mormon Panorama."—Brother C. O. B. Christensen, of Ephraim, Sanpete County, artist and proprietor of the celebrated "Mormon Panorama," expects to visit this city shortly to exhibit his excellent scenes of Church History. Since his last visit here, a few years ago, he has greatly improved his exhibition, by adding several new scenes to the collection. He is thus able to present to the students of Church history illustrations of the following interesting subjects:

The first vision of Joseph the Prophet; The Hill Cumorah; Joseph being tarred and feathered; Scenes of cruelty in Jackson County, Mo.; Zion's Camp traveling; Fate of a Party of Mobbers; The Kirtland Temple; The Haun's Mill Massacre; Betrayal of the Prophet and others at Far West; Joseph preaching to the Indians; Muster of the Nauvoo Legion; Martyrdom of Hyrum the Patriarch; Martyrdom of Joseph the Prophet; The Nauvoo Temple; Destruction of the Temple; The Saints crossing the Mississippi on the ice; Winter Quarters; The Pioneers; Entering Salt Lake Valley.

Charge of Manslaughter.—On Monday last, a warrant was served on Mr. Silas Alfred, drawn at the instance of a complaint made by Mr. Orrin A. Lewis, charging the former as follows: "With unlawfully shooting and killing a human being, to wit: Ellen Gillespie Lewis, with a deadly weapon, to wit: a revolver loaded with gunpowder and leaden bullets."

The case came up for hearing this morning before U. S. Commissioner A. O. Smoot, junior. On complaint being read to defendant, a plea of not guilty was entered, and on motion of Judge W. N. Dusenberry, counsel for defendant, the defendant waived examination, and was bound over to await the action of the grand jury in the sum of \$1,000.

The circumstances of the terrible tragedy by which Mrs. Lewis lost her life through the accidental shooting of Policeman Alfred, are too well known to need repetition. The

husband of the deceased lady is not satisfied with the result of the investigation before the coroner, and has decided to bring, if possible, the matter into the District Court. We shall abstain from making any further comments on this sad affair until at least it has had a hearing before the grand jury.—*Provo Enquirer.*

Death of a Pioneer Woman.—Elmira Pinkham Tuttle, a pioneer woman of Utah, expired at her residence at 6:20 o'clock a. m. to-day, from paralysis, after an illness of between three and four weeks. Deceased was born in Farmington, Maine, Sept. 25th, 1812. She joined the Church in the first years of its existence in this dispensation, and soon afterwards removed to Kirtland, and was with the Saints all through the persecutions. She was only a short distance ahead of the party of Saints massacred at Haun's Mill. She came to Utah, with her husband and family in 1848, and resided in this city from that time until her death, and, with the exception of a few months, the whole of that period in the Eighth Ward. She leaves four children—three sons and one daughter to mourn her loss. Her husband died November 27th, 1860, in the same room where she breathed her last, and she was thus left to struggle through all the hardships incidental to a new country to sustain herself and family, and showed a degree of energy and industry not often found in her sex. She was well known for her uniform hospitality and her never-failing kindness to the poor, the infirm and sick, many of whom have been the recipients of her bounty. One special instance of her generosity exhibited in the hard times was so striking as showing marked self denial, that it was made a subject of remark by President Young from the public stand.

BELLE HARRIS RELEASED.

THE COURAGEOUS LADY IS DISCHARGED.

The following special appeared in the *Herald*:

Beaver, U. T., 31.—The Grand Jury came into court this afternoon and announced to Judge Twiss that they had communications to make. They then asked what disposition was to be made of the witness Belle Harris in the event of their discharge, or what notice would be taken of a petition in her behalf, saying, through their spokesman, that they desired to withdraw the question for not answering which she was imprisoned. Judge Twiss decided that the jury had no power in the matter. It was now part of the records of the court, and had been affirmed by the Supreme Court and had transcended the jurisdiction or power of the Grand Jury. A juror then arose and desired to state that the jury had been misled by Zera Snow, prosecuting attorney, in relation to the case, and wanted to repudiate his action. The Court said to take notice of that charge it must be presented in writing and subscribed by the Jurors. Whether this will be done or not, of course, remains to be seen.

Later—Judge Twiss, at 5 o'clock, received the Grand Jury, who made their final report. He then discharged them and announced that Belle Harris would now be released from custody. He announced the proposition of law to be that she could not be detained, although there were some conflicting authorities.

Shortly after the intelligence reached here an order was issued for the lady's release; she was brought from the Penitentiary to this city and stayed with her friends last night. She will probably return to the south in a few days.

The news of the release of Belle Harris will be received with pleasure by the community generally. The case has ended just as we predicted it should. In fact it could rightfully have no other termination. We congratulate the valiant lady on her unswerving adherence, to her convictions, and her release after so severe and disagreeable an ordeal through which she has been compelled to pass.

FROM MONDAY'S DAILY, SEPT. 3.

The Last Company.—The last company of this season's emigration of the Saints from Europe, will sail from Liverpool on Oct. 27th, on the S. S. Wisconsin.

Left for the South.—This after-

noon Hon. L. John Nuttall left the city for a trip through Southern Utah, in his capacity of Territorial Superintendent of District schools. He will go as far as St. George and thence around through the Kanab County. We wish him a prosperous and successful tour.

In Logan.—We observe by Saturday's *Utah Journal* that Bishop C. F. Whitney delivered an elaborate and interesting address to the congregation in the Logan Tabernacle a week ago yesterday. We are indebted to him for information concerning various incidents which recently occurred in that city, the relation of which appears in our columns to-day.

Fatal Accident at Sanpete.—At Mant, on Saturday afternoon at Mrs. N. P. Madsen was near the tithing office with her little girl, aged about 6 years, a wagon belonging to O. P. Peterson loaded with grain came along and the driver, seeing the little girl, the horse knocked her down and both of the wagon passed over the back of her head. She was taken into the drug store, but died about an hour and a half afterward.

A Fatal Kick.—On Friday evening one of the oxen used for hauling materials on the Temple Block was somewhat drowsy and Brother Frederick Vier, of the 9th Ward, spurred him with a stick to make him go. The brute made a furious kick at him, striking him on the side of the stomach. The unfortunate man suffered intense agony from the injury until yesterday morning, when death came to his relief. The deceased was 59 years old, and was a native of Karlsruhe, Germany. The funeral services were to be conducted at the 9th Ward Meeting-house at 4 p. m. to-day.

An Appropriate Gift.—The Deacons of the 15th Ward purchased a handsome set of Church works, consisting of Book of Mormon, Doctrine and Covenants, Key to Theology, Spencer's Letters, Voice of Warning and Hymn Book, all in uniform binding; also a fine, large and elegant Bible, which they quietly placed on the stand of the ward meeting house. Last evening Counselor W. L. Binder, in behalf of the Bishopric and ward, gratefully thanked the donors for their appropriate gift. Bishop Pollard could not refrain from adding a few words of thanks in his original and characteristic style, which to be appreciated should be here reported in full, and we regret the News had no short-hand reporter present.

Releases and Appointments.—President Joseph A. West, of the London Conference, is released to return to his home, the delicate condition of his health rendering it unsafe for him to spend another autumn in this land.

Elder Ephraim H. Nye is appointed to succeed Elder West in the Presidency of the London Conference.

Elder Hyrum Dewsnap, of the Sheffield Conference, John Jenkins of the Welch Conference, and John Bluks, of the Manchester Conference, are released, on account of failing health, to return to their homes with the August 29th company.

Elder W. R. Kingsford is also released from his labors in this land, at his own request, to return with the August 29th company.—*Millennial Star*, Aug. 13th.

Logan Lines.—J. H. McIntosh Esq., a highly respected citizen of Logan, arrived home from several months' absence in Arizona, Saturday. He intends returning south making our neighbor Territory his permanent home.

Apostle Moses Thatcher and Apostle Wm. B. Prentiss are expected home on Tuesday next. Their party returned from the Yellowstone several days since, but they themselves halted at the Temple Mills, Logan Canon, for a short season of rest from their journey. Members of their families went to meet them and share in the rustication.

Ben. E. Rich, Esq., of Ogden, is in Logan, en route for Wood River and the region north. He represents the flourishing firm of L. Farr & Sons, proprietors of the Weber County Woolen Mills. "Ben." is a general favorite and ought to do well in the north country.

The Snake River fever is spreading in Cache Valley. Numbers have gone and others are going with the intention of settling in that (from all reports) delightful region.
