At least it is true that since the South African war began Great Britain has never, either verbally or in writing, confidentially or verbally or in writing, conheditarly or officially, broached such an idea. It is quite possible that the Boer side has now formally asked The Hague arbitra-tion court to lend its aid to end the war somehow and that the court has held a session regarding the matter, but that, of course, is entirely different

They say that behind the dispute between Peru and Bollvia, on one hand, and Chill on the other, over the arbitration of the Tacna and Arica dispute, are the machinations of European diplomats and European business interests. Europe does not want the Pan-American congress to be a suc-COSS.

touch with the purpose and scope of the Pan-American congress says that European influences have been busy in Santiago, Chill, encouraging the Chilian government to take the stand that threatens to disrupt the congress. He also says that the same influences have been at work in Lima, urging the Peru-vians to combat the position taken by Chill, Similar diplomatic efforts has been in progress in Evenos Ayres wriging the Argentine government to refusing to enter the congress unless The idea put forth by foreign agents.
