THE GRAND GULCH MINE.

the 200-Foot Level.

Thomas W. Jennings returned today from a visit to the Grand Guleb copper mine in northern Arizona, and is very much pleased with the oppearance of the property, which, he says, looks more like a mine than ever. In addi-tion to the ore body which has been proved to be continuous on the 100-foot level for a distance of 300 feet, Mr. Jennings reports good ore in the north Jennings reports good ore in the north drift from the 200 level, where a 7-foot yein carrying 36 to 60 per ceut copper has been tapped. Drifting is now pro-ceeding both ways on the vein. The ore is not solid for all of the above width, but a great deal of the vein is filled with high grade ore which, how-

Weak Lungs The wind knows your wesk spot, even if you don't. It strikes you a little in the chest, and then that tight feeling comes on. You begin to cough, and down you come with one of your regular hard colds. Didn't you know that Ayer's Cherry Pectoral strengthens weak lungs and prevents pneumonia?

Three sizes: Se., enough for an ordinary cold Sec. just right for asthma, brownhilds, hearsenies, whonying cough, hard colds; g1.00, most economical for chronic cases.

their Black Dog (Red Wing) lease a body of fine carbonate (said to be over our feet wide) is being broken for

At the St. Joe a vertical shaft has At the St. Joe a vertical shuft has been sunk 200 feet, and at that depth a cross-cut shows the vein to be 300 feet wide; also a drift has been run 50 feet and some stoping done. There are about 4,000 tons of ere on the dump and indications look to a "whale" be-ing opened up. It is an ensy concen-trating proposition-a sample, about average and 8 in 1, showing 52 per cent lead, 20 ounces sliver and \$1.60 gold. The St. Joe people have been busy the past season, and their property seems arrivings at a stage where with little arriving at a stage where with little more development and a mill in con-nection they will come to a very agree.

ITEMS FROM PARK CITY.

The Comstock Shaft Going Down -Valco Smelter-Shipments.

In its weekly resume of affairs among the mines of Park City, the Record says: The men who have been at work the

past few months fixing up the tunnel, etc., at the Apex have been withdrawn, and only a watchman is now left at this property. With the record of this mine, the present state of in-

At the Steamboat, over in Snake creek men are now at work taking out a ditch for the tunnel water. Work with the burjeighs has been suspend-ed for a short time. The tunnel is now in a distance of 625 feet, with no maerial change in the character of the

Foreman Frank Robb of the California concentrator was down today and reports the mill having started up yeserday and everything running smooth-y. The night shift will be put in

The Comstock shaft is going down at a good rate, the 150-foot point having been reached, and it will be no surprise been reached, and it will be no surprise to hear Superintendent Hickey an-nounce any day that he has struck what he is after. Everybody knows what a good strike in this property would mean to Park City. According to the Record the new 50-ton smelter at the Valeo was to be put he commented the intervent of last

in commission the initer part of last week. A good road has been constructed, a good ore road from the upper tun-nel around the hill.

ORE SHIPMENTS. Following are the shipments of ore from the Mackintosh sampler for the

The Pleasant Valley Coal company the other day received orders for two thousand tons of coal per day additional from their Winter Quarters and Clear Creek mines, says the Price Advocate. Miners are in demand at all the company's properties in this country. This last order of coal goes to the Paclfic coast and the Orient.

Price Advocate: Charley Hyde come over from Emery county last Monday. He says himself and brother will come into possession of the coal mine near Mt. Pleasant and now in dispute, when the courts shall have passed upon the matter. He and fifteen others have lately located as many quarter sections of coal lands in Ferron canyon, with of coal lands in Ferron canyon, with plenty of wood and water. The Ferron vein is hard coal of excellent quality, and there is a nine-foot vein of it. They have it opened up in several places and expect to develop the property of heavy 4 mixed 4.70 large scale.

ever, shows a certain percentage of Iron not found heretofore. On the 100 level first class ore is being extracted from 3 or 4 stopes. Beautiful samples of

P. J. Donohue Returns to the City

Today After Examining It. P. J. Donohue returned to the city today from Reaverhead county, Mont. where he went last week to examine the Polaris mine for Willard Snyder and others of this city, to whom the property has been presented. It is, of course, too early to say what out to inspect the improved conditions.

the result of the examination will be, but Mr. Donobue says that a good showing is made in spite of the fact that mine has not been worked for a

number of years. About fifty pounds of samples were brought to town, the assays on which will decide the fate of the deal. An upraise is now being run from the lowest tunnel to a point where ore is expected.

in its path, wrecking a couple of cars of concentrates which were on the sid-Mesers. John Dern and John Hein-rich, of the Mercur Consolidated, reing of the Rio Grande, overturning two or three more empty cars, destroying portion of foundry houses, scales turned yesterday from a trip to Florbuilding and some of the railway proplo,, where they examined what is reputed to be a rich gold velu. Ac-cording to a report on the property a saving of \$5 has been made on the plates, but Mr. Dern is inclined to doubt whether this will be found a fair criterion of what the property is capa-ble. A big sack of semples has heap eriy. The two cars of concentrates are valued at \$10,000, but this loss will no doubt be reduced, while the total dam-age to the Euveka Hill Mining company was estimated by Superintendent Wu-son at \$33,500. Both the railroad and ing companies have men engaged

yesterday afternoon and was arranged by Captain E. Stoover Tice of Victor, James Jensen, Richfield, 160 acres see-tion 34, township 22 south, range 3 west. Thankegiving turkey this year. In

reactionary tendency in Northern Pacific and New York Central. Profit taking sales overbore the outside demand for stocks, and prices re-acted 1/32

points. There were no special points Foreman Barnett of the R. G. W. group at Tintic reports that he has found the fissure again which is three feet between walls. The formation has of weakness, the declines being distrib. uted throughout all these groups. Large gains were made by a few stocks in face of the general selling, notably straightened up greatly and the fissure contains blue lime, talc and black quartz stained with iron. This is conthe steel stocks, except Tennessee Coal their advantage was not fully main tained. The market rallied strongly before 11 o'clock, the local traction stocks heaviest shareholders look for news shortly, that the coveted ore body has leading, Receivers ran from 1 points in a number of stocks. The mar-ket became quieter on the rally and im-provements in the rallroads were not well maintained. Rio Grande Western rose 12 over the previous sale. A jump in Sugar to 124% did not create any marked effect on other stocks. Sugar While the heavy rainstorm which put

then reacted a point and some of the railroads fell to the lowest. Bonds were moderately active and firm at noon. Enormous dealings in Chicago & Alton $3i_{25}$ occurred within a range of i_{25} .

The market took an upward turn during the final hour and there were gen-eral recoveries of most of the earlier iosses, shorts covering heavily. North-ern Pacific led with a rise to 68%, 2% above the low point, and Union Pacific got above 71. Great Northern pre-ferred rose eight points in all and Colorado Southern first preferred 3. The bears thereupon raided some of the specialties and brought the advance to a pause; prices yielded again all around, Buffalo, Rochester and Pittsburg and Great Northern preferred broke 3 points each. The closing was active and easy, but above the low point with gains and losses mixed.
