Laws should be Repealed .-Reason Why. The annual report of the Commisstoner of the General Land Office is in the hands of the printer and will be

given to the jublic in a few days. Like several of his predecessors in office, Mr. Stockslager recommends legislation for the prevention of frauds in relation to the acquirement of title to public lands, and expresses, in no indictment filed; case continued for uncertain language, the opinion that the pre-emption, timber culture, desert land, and homestead laws so far as relates to the commutation clause, should be repealed or greatly modified, and

that the public domain should be de-voted exclusively to the use and benefit

same for actual homes. An enormous array of testimony is introduced tending to show that the laws above mentioned admit of the perpetration of frauds, are detrimental to the seltlement of the country, and operate to defeat the best interests of the government, which demand that the lands shall be actually occupied by bona fide citizens and settlers owning their homes.

The repeal of the pre-emption, des-ert land and commutation clause of the homestead laws is advocated because they afford opportunities by which unscrupulous speculators, with the aid of conscienceless confederates used as dummy settlers, are enabled Campbell, Jos. C. Rich and others; to acquire title to vast areas of land, to be held for sale at advanced prices or to be leased to families who by reason of their greed are prevented from securing homes of their own. They tend to the crection in this country of a landlord and tenant system similar to those of some European-countries, inconsistent with the prin-ciples of our government, and to build

up a landed aristocracy. The timber-culture law is denounced, not because title to land is frequently fraudulently secured under the same, but because it operates to reserve the lands from settlement for a period of years without any equival-Robbed of \$15. The next he must plant the second five acres to timber. Thus, at a trifling expense, the party may for four years exercise complete

control of a quarter section of land without violating or evading the law, and sell a 'relinquishment of his entry for a good round sum, the increase in value rendering the privilege of enter-ing the land very valuable.
