Chicago, Aug. 10 .- Frank Kowalski, paying teller of the Milwaukee Avenue State bank, which failed last Monday, and for some time assistant receiving teller in addition to his other duties, shot and killed himself tonight at his house, 340 North Carpenter street. Criticism by neighbors and life-long triends, who accused him of a share in the downfall of the bank, is believed to have driven Kowalski to his death, COMPLAINED BITTERLY.

Kowalski had complained bitterly of the suspicions of his friends and declared that unless his character was speedily cleared he would take his own

Kowalski's relatives assert their firm bellef that he was innocent of any knowledge of the mismanagement of the bank by President Stensland. When the bank falled, Kowalski had \$700 of his own money on deposit in the in-stitution, and his immediate relatives \$50,000. Had the teller known of Stensland's dafalcations, they sert he would at least have notified his relatives and would have taken his ewn money out of the institution

The dead teller, who was 20 years old, had been with the bank for 13 years. SEARCH FOR STENSLAND.

Since it is better to have a high selling price market than a cheap buying market, the Re-publican principle is best and protec-tion should be enforced. There has never been a time when disaster did not follow Democratic rule, the sec-retary said. This has not been the intention of the Democrats, but has resulted from their incorrect econômic

theories A tariff for revenue only cannot include any protection, and is merely a

synonym for free trade. The Democrats who insist that protection for revenue only can be made to include incidental protection are really clamoring for a protective tariff. The differential tariff was especially praised by Mr. Shaw, as it gave opportunity for the development of home industries. The pearl button and slik manufactur-ing industries were cited by the secretary as specific illustrations.

A Thorough Test is to be Made By the Isthmian Commission.

ADVERTISEMENTS PREFARED.

Ask Proposals From Labor Agents-Unions Have Offered Much Opposition to Scheme.

Washington, Aug. 10 .-- Chinese labor will be given a thorough test on the Panama canal. Contracts calling for 2,500 Chinese for canal work have been prepared and advertisements will be issued by the isthmian canal commission in a few days, asking for proposals from labor agents.

If the initial 2,000 Chinamen prove a success, it is likely that many more will be taken to the isthmus to do the work, which is too hard for the Jamalcans now employed there in large numbers.

Organized labor has offered much opposition to the use of contract Chinese labor, but the Jamalcan workmen have proven inadequate, sufficient Spaniards cannot be had immediately to rush the work, and the Chinese are the last hope of the commission.

President Rooseveli, Secy. Taft, Chairman Shonts of the canal commis-sion and other men prominently identified with the canal work, are known to have delayed employing Chinese un-til it became evident that the other help available was not equal to the demands. The administration has taken the position that the canal must be dug at any cost and although the president urged that there be no haste in employing Chinese, he did not stand permanently in the way of the plan to try the coolles.

It is the intention of the commission to ask for bids from labor agents, who will arrange with the Chinese govern-ment for the exportation of labor, transport the Chinese to the isthmus, under contract to work for a fixed wage and ship them back to China, thus relieving the commission of all detail work and all responsibility. A bond will be required of all contractors for a satisfactory fulfilment of any contract they may enter into with the

hired if the Chinese prove a success.

The blank forms contained signatures ich had been traced from the regular depositors' signature book. According to Mr. Olsen, these were ready to be filled in for any amount, which would be charged to the account of the terson whose name was signed. The ther envelope contained notes runting up to thousands of dollars, with the names of many prominent business men attached. The authorities will endeavor to discover whether or not these names were forged. The notes were found hidden in President Stens-
