MINING, BUSINESS AND STOCKS

BROKERS HAD A QUIET DAY OF IT.

Several Members of Exchange Helped Entertain the Los Augeles Visitors at Bingham.

PRICES RULED LOWER IN PIT

Uncle Sam Con. and May Day on The Toboggan -- The Closing Quotations and Sales.

Quiet reigned on the floor of the mining exchange this forenoon, A good many brokers were absent, having gone to the copper camp of Bingham with the Los Angeles visitors, which probably had something to do with the duliness that prevailed. Some of the stocks called were passed without even a quotation. Little Bell was the first to report a sale, 100 shares going at 55 cents. Lower Mammoth was inclined to stiffen at the start-off, but again weakened. Uncle Sam Consolidated dropped a few points, while May Day tumbled to 1142 cents. New York Boganza opened strong, but in sympathy with the others went towards the toboggan. Star Consolidated, Yankee Con., Nalldriver and Carisa were The closing quotations and sales

GROWTH OF COPPER MINING. Immense Demand for Metal in China lias Stimulated Market.

The growth of the copper mining in fustry in the United States winthin the last few years has been enormous, says an eastern financial journal. Its distribution over a territory that includes everal states, and that is constantly being added to warrants the prediction that the United States will ultimately be the great copper-producing country of the world, and it will be ages before

be the great copper-producing country of the world, and it will be ages before the supply is consumed.

This year, the activity in mining and in the distribution of the product has been marvelous. Beginning with last year, the revival of copper mining is climbing to a high level. The great demand from abroad, together with prices so much higher than prevailed in 1903 and the greater part of 1904, has called for the best efforts of the groducers. The cost of producing copper has remained practically the same; hence the gain of every fraction of a cent per pound is so much additional revenue to the producers. It is already being reflected in the dividends.

A remarkable feature of the copper industry this year, and perhaps a fortunate one, is the immense demand from China. In April and May the exports to that country were over 22,000 tons, an increase from the same months of last year of approximately 6,000 tons, However, several months of last year, and a great excess over all of 1965.

The consumption of copper at home this year is light, but the good foreign demand and a likelihood of its continuance of the consumption of copper at home this year is light, but the good foreign demand and a likelihood of its continuance of the remainder of the year at least is going to act as a continued stimulus to the copper producers.

Arizona shows the greatest increase in production for last year, according to the government's figures, although each of the other two greatest increase in production for last year, according to the government's figures, although each of the other two greatest increase in production for last year, according to the government's figures, although each of the other two greatest increase in production for last year, according to the government's figures to largely into manufacture and the development of the industries of all nations ever to cause the mining of it to take backward steps as an industry.

WILL RATIFY SALE.

WILL RATIFY SALE.

Special Meeting of Latham M. & S. Stockholders This Afternoon.

a special meeting of the shareholders of the Latham Mining & Smelting company, which owns proper-ty in the Spruce Mountain, Nev., dis-trict, this afternoon a new board of directors will be chosen, and, in all probability, the action taken by the present board of directors in negotiating a sale of the company's property to an Ohio syndicate, headed by Banker Walter A. Black of Dayton, will be ratified.

BREAKS THE RECORD.

Boston Con. Producing Ore at a Gross

Cost of \$1.31 Per Ton. management of the Boston Con The management of the Boston Consolidated Mining company, in a statement released to shareholders gives some interesting information regarding the cost of production during the month of April, when 5,900 tons of ore was sent to the sinelters at a gross cost of \$1.31 per ton. The actual cost of breaking the ore and delivering it to the bins where it is loaded onto the cars of the Copper Belt railroad is figured out at \$3 cepts a ton. This is believed to show as low a cost as has been accomplished in the Bingham camp, except in the handling of the porphyry deposits by the Utah Copper company.

For Infants and Children. The Kind You Have Always Bought Bears the Signature Use For Over Thirty Years

FOR ALTA CAMP.

The Albion Mine Will Commence Moving Ore to Smelters Regularly Early Next Month.

MANAGER HATFIELD CONFIRMS

Rumors of a Strike -- A 14-Foot Vein Cut Into at 2,600 Foot Point la Tunnel.

Soon after July 1, the growing camp of Alta will come forth with another regular shipper and one that will undoubtedly prove to be among the largest in the Little Cottonwood district This mine is the Albion, in which late development has revealed the presence of a vein of ore no less than 14 feet wide and in which assays show the presence of values of fromes to 15 per cent in copper, 8 ounces in silver and \$2.60 in gold to the ton.

Although rumors have been current for several days that the Albion tunnel had encountered the ore body, nothing authentic could be obtained until this morning, when Manager William Hats field confirmed the report that had been going the rounds and stated that a junction with the vein had been made at a point 2,500 feet in from the mouth of the tunnel.

Manager Hatfield says the vein will be followed and the ore blocked out in shape for economic extraction. Owing to the condition of roads above the town of Alia the movement of ore will not be undertaken until next month. or several days that the Albion tunnel

MAY PROVE IMPORTANT. Late Strike in Utah Mine at Fish Springs

Shows Up Well.

Just before Supt. Charles Crismon of the Utah mine at Fish Springs left camp for the city a new strike was made on the third level of the mine and in virgin territory. A letter re-ceived yesterday from the foreman of the mine brought the information that the find is likely to develop into something quite important

WILL VISIT UTAH MINES. Chicago Capitalists Will Go to Beaver County This Evening.

T. F. Kelley and Col. Hennessy, well known Chicago capitalists, are in the city and will leave this evening over the Salt Lake Route for Frisco, Beaver county, as the guest of D. P. Rohlfing, manager of the Lulu and Frisco Contact mines. The gentlemen are making the trip particularly to visit the Lulu and, incidentally, will make an aspection of the Contact: which is apidly developing into a producer.

HEADQUARTERS AT PIOCHE. Nevada-Utah Corporation Will Maintain Offices Hore.

The Sait Lake offices of the Nevada-Utah Mines & Smelters corporation have been closed, it being the purpose of President John Weir to maintain, for the present at least, the western offices at Ploche, Nevada, which will be in charge of George F. Miliken, chief engineer.

Senator A. B. Lewis, who is a member of the executive committee of the Neyada-Utah company, it is learned, will retain his offices in the Dooly

WITHDRAWN FROM ENTRY. The General Land Office Sent Out Im portant Instructions Yesterday.

Special Correspondence. Washington, D. C., June 12—The act-ing commissioner of the general land office yesterday instructed registers and receivers at Santa Fe and Las Cruces, to withdraw temporarily from all forms entry, except under mineral laws, 2,560 acres in the Santa Fe land dis-let and 729,600 acres in the Las Cruces district, to be held bending investiga-tion as to advisability of attaching these broad acres of public domain to Gila River forest reserve.

AUTOS FOR BULLFROG. Trip Can be Made from Vegas in Fifteen Hours.

special Correspondence. Las Vegas, Nev., June 12.—Fred W. Gregory, manager for the Nevada Trading and Transportation company of San Francisco, have arrived here with three white steamer autos. They left Vegas for the Builfrog mining disleft vegas for the Bullfrog mining dis-trict at 4:30 p. m. arriving there the following morning at 9 a. m. making the trip in 15 hours. Gus Seyfreyed piloted the machine and J. A. Oden-heimer, Robert Baer and Charles Moore were passengers. The same auto left Bullfrog at 4 a. m. Esturday arrivleft Bullfrog at 4 a. m. Baturday, arriving at Vegas at 8 p. m. same day, willbemadebetwee wkweeMoorynxxfifff It is said now that regular trips can and will be made between these points.

CONCENTRATES.

John A Kirby has gone to Ely, Nev., to examine mining property Contractor Joseph Dedrich expects to leave for Les Angeles tonight. Manager Jacobson of the Columbus Con., departed for Alta again this

Secretary E. W. Kelly of the Litahna-Reldfield Mining company has returned from Chicago on company business. The ore and builion settlements re-

ported late yesterday were as follows: Crude ore and concentrates, \$18,100; base bullion, \$36,700. Col. John Weir and A. B. Lewis of the Nevada-Utah Mines and Smeiters Corporation, will arrive from New York the last of this week.

Walter A. Black, of the banking firm of Walter A. Black & Company of Day-ton. Ohio, is in the city, having come to look over mining interests.

Broker E. G. Woolley of the firm of James A. Pollock & Co. has commenc-ed a round-up of the mining camps, and will be absent from the pit for about two weeks.

It's easy to ask for Husler's

Flour.

Don't stop there-insist on having it. If they send up another brand-send it back once sent back is usually sufficient.

Develand, O., is one of the principal

The American Flag mine of Park Cit; has a shipment of high grade ore at the samplers today, which will be sold on controls showing 98 ounces silver, \$8.80 in gold and 9.4 per cent lead to the ton.

David Evans and Jesse Knight, accompanied by a corps of surveyors, departed for the Great Western mine at the shead of Big Cottonwood canyon this morning to determine on future development.

Milton D. Grosh, local manager of the General Electric company, has re-turned from a trip to Denver, where he went to attend the meeting of the National Lighting association. He re-ports having had a very delightful trip.

President S. L. Butler of the Pioneer Ore Sampling company, will leave for Mexico tomorrow on mining business. Will C. Higgins is a Bingham vis-itor today. He went out with the Los Angeles party.

Amessage to J. D. Wood yesterday afternoon conveyed the information that a new oil well on the property owned by himself. J. E. and Simon Bamberger and other Sait Lakers, is likely to be one of the most important in the Los Angeles field. It is capable of producing 5,000 barrels of oil daily.

From Uncle Jesse Knight, manager of From Uncle Jesse Knight, manager of the Beck tunnel properties in the Tin-tic district, it is learned that cross-cut-ting for the vein on the 300-foot level, which is headed towards a vein out of which he expects to get some big re-turns. According to estimates of the surveyor the face of the cross-cut is now about 40 feet away.

Samuel Newhouse returned from a trip to New York yesterday and will devots personal attention to his vast mining interests in this state. During his absence he entered into a three years' contract with the United Metals Selling company, whereby the entire product of the Cactus mine in Beaver county will be marketed by the

Manager Tony Jacobson of the Co-lumbus Consolidated mine of Alts, will leave for Los Angeles the last of the week with his family, the latter going to Long Beach for the summer. Mr. Jacobson has rented a cottage there and after seeing all comfortably locat-ed will return to give attention to his mining affairs, but will spend several weeks on the beach later in the year.

The Buckeye mine at Pearl is the scene of great activity now. The heavy rain last week flooded the shaft and covered up the pump with about 35 feet of water, which had to be baled out before the pump could be operated. Everything is now running in good shape, however. A full crew of prac-tical miners is now at work, and operations are kept up night and day. Supt, Harris informs us he expects to start crosscutting for the yein inside of ten days. Indications of a large mineral vein are growing stronger as greater depth is reached.—Emmett, Ida., Index.

E. W. Clark, superintendent of Sena-Utah, departed yesterday, after spending several days making a thor-ough examination of the Builfrog dis-trict for the noted multi-millionaire. Mr. Clark was accompanied on the trip by Francis Hall of Salt Lake City. Of by Francis Han of Sait Lanave visited all the mining men who have visited the district, none are more conservathe district, none are more expressing a tive nor reticent about expressing a tive nor reticent. The decided opinion than is Mr. Clark. The result of his visit was so satisfactory result of his visit was so satisfactory, however, that he expressed himself freely, speaking in the most optimistic and assuring manner of the properties of the camp. It is quite possible that senator Clark will soon be identified with the Bullfrog district. It is understood that he has under consideration the purchase of a certain piece of groud not far from Rhyolite.—Rhyolite, Nev., erald.

PRAISES BEAR RIVER.

John Cox Says it is One of the Finest Valleys in the State.

John E. Cox, a member of the state poard of horticulture, has just return. ed from a tour of the Bear River valley which he says is the largest and most highly cultivated valley in Utah. This state of cultivation is maintained by a rotation of crops, a condition that is absolutely necessary in the production of sugar beets. Besides a magnificent soil, the valley has one of the grandest water supplies in the state. At the central farm, conducted by the Utah Sugar company, Mr. Cox beheld one of the finest beet crops it has ever been his privest beet crops it has ever been his privilege to gaze upon. The crop covered 3s acres and the rows were as straight as an arrow and absolutely free from weeds. The valley throughout, he says, is one of large farms, one man owning as much as 900 acres, all under irrigation and fonce. on and fence. Six hundred acres is lucern and the remarkable thing is that by this system of rotation weeds and foul grasses are kept down, a con-dition that obtains all through the valley. The soil is of a light, sandy nature, with clay subsoil, and by maintaining the dust mulch they are enabled to hold the moisture a long time. Grains, lucern and beets, says Mr. Cox, are in a healthy condition, and nearly every farm has an orchard averaging in size about five acres, mostly in apples. The pear blight is somewhat in evidence in the vailey, but the apples are in good shape and the trees come into bearing at four years, producing at this age more fruit than trees in the Salt Lake valley at seven years. Mr. Cox was greatly delighted with what he saw there, and regards the Bear River valley as one of the very finest sections the state.

Bert Fuller will loop the saucer in an automobile tonight. -

Miner Kills a Woman.

Glon Carbon, Ill., June 13.—A sheriff's posse is searching for August Marget, a Russian miner, who is charged with having shot and killed Mrs. Josle Heller, and slightly wounded Frank Heller, the parents of Mary Heller, who had refused to permit Marget paying his attentions to their daughter.

PESOS FOR PANAMA.

One Million Silver Ones Are to Be Coined.

W. Mont Ferry departed for Nevada yesterday on mining business accompanied by George Gunn, field representative of the American Smelting
& Reining company.

Contracts are to be let in a few days
for work on the Bog mine in American
Fork canyon. Dr. W. J. Holden of

MARKET WENT DOWN AND DOWN.

London Failed to Sustain the Prices for Americans Recent. ly Established.

EFFECT VERY DISCOURACING.

Desultery Offerings Carried Prices Downwards, Causing Lesses Everywhere.

New York, June 13 .- The London stock market in resuming operations after a three days' holiday failed to sustain the prices for Americans, which had been established here in the interval. The disouraging effect was shown in the drooping tendency of opening prices. Union Pa-cific. St. Paul, Canadian Pacific, Missouri Pacific and United States Steel proferred were down large fractions and politan Street Rallway a point. Early support was not maintained and after the opening losses had been largely recoved the market was allowed to sink back again to the low point. Later on the market picked up slightly again in ympathy with a brisk demand for Atchi-

sympathy with a brisk demand for Atemson.

Deskitory offerings carried prices slowly downwards causing losses of a point or more in a dosen prominent stocks [Talon Pacific, St. Paul, Canadian Pacific, Louisville & Nashville, Atlantic Coast Line, New York Central, Ontario & Western, Rending, United States Steel preferred, Amalgamated Copper, Pressed Steel Car and the Pittsburg Ceal stocks lost 1 to 1%. Northwestern, Corn Products preferred and Steel Foundries preferred 1% and Nashville, Chattaneoga and St. Louis 2. Gains were made by a few dormant stocks.

Bonds were irregular at noon.

Bear operators continued to have matters their own way and made a more vigorous attack against the market after midday, Hardly any of the better known stocks escaped losses of a point, and the declines reached about 2 in St. Paul, Canadian Pacific, Louisville & Nashville and Amalgamated Copper.

Constantly lower prices were established with the course of the day. The selling converged at intervals on St. Paul, Union Pacific, Reading, United States Steel 1% under less night, Very little support was extended at any time. Northwestern yielded 3%, while Paliman jumped 7, Prices were slightly above the lowest at 2 o'clock.

PRODUCE. CHICAGO.

CHICAGO,

Chicago, June 13.—Reports from Nebraska of damage by Hassian fly counteracted the effect of excellent weather conditions, causing a firm undertone in wheat market here today. The volume of trading was rather small. July opened \$22\text{state} to \$52\text{state} to \$52\

Pork July, 12.524(212.55; Sept., 12.856)
12.875,
Lard-July, 7.325; Sept., 7.425(27.45;
Oct. 7.45.
Ribs-July, 7.375; Sept., 7.60; Oct., 7.70.
Rye-July 66.
Flax-Cash, northwest, 1.42.
Timothy-June, 11.75(2.06)
Rarley-Cash, 42636.
Offerings were compartively light the catire session and the market maintained a firm undertone, strength of the Minneapolis market had a builtsh effect on the market here. For July the highest point of the day was reached at 87% At the close July was up 54 at 86% 287.
Copin-The market continued firm throughout the remainder of the day After advancing to 52% July closed at 52% a gain of 52 cent.

MUNICIPAL OWNERSHIP. City Committee of N. Y. Citizens' Union Advocates It.

New York, June 13.—Absolute municipal ownership of all future subways, provided most favorable terms cannot be obtained from private bidders, together with municipal operation of lighting facilities, are advocated in a resolution which has been adopted by the city committee of the Citizens' union. The resolution will be handed to the city convention of the party with the recommendation that it be incorporated in the platform this fall.
