AMONG NOTABLES OF TRACK AND TURF

New York, Oct. 14.—The most notable band of thoroughbred horses that ever left the United States will depart Saturday on board the Atlantic transport line steamship Minnehaha. The shipment will comprise about 60 head, representing the leading breeders of America.

Among the most conspicuous being James R. Keene, Harry Payne Whitney, George W. Heald, John E. Madden, Thomas Hitchcock, Jr., and August Belmont.

Madden horses, the most notable of which are the two great colts, Sir Martin and Fayette, both engaged in the same or similar races, are shipped independently of the Whitney horses at present arranged but there is still no prospect that the colts will be sold to Mr. Whitney before the departure of the Minnehaha and will race in England under the Whitney colors.

The Thomas Hitchcock, Jr. shipment is made up of steeplechase that already have been schooled and tried over the jumps and consist of five head that will be useful hunters if they are not good enough to win races.

The James R. Keene shipment will consist of 10 young horses, most of them yearlings. Keene is not sure whether they are intended to be sold or whether he will retain them, but it is probable that he will race them.

Keene about a settled fact though that the unbent colt Colin will not race again, as in the present condition of the horse it is probable that he will be sold as a prospect to train him next season, after his long rest will be over and he will be in good condition of a bowed tendon seemingly exists, no longer probably will enter the stud next season. Hugh's horse will be determined whether his new career will be in America or in England.

PRACTISE BEGINS. Auto Drivers Quartered on Course Selected for Vanderbilt Race.

New York, Oct. 14.—Practice for the Vanderbilt cup race, on Oct. 24 around the 2.5-mile course began this morning when a number of the drivers, who will compete in the classic automobile race of this year, sent their cars whirling around the track.

Practically all of the drivers are making preparations for the trials. Tracy, Chevrolet, Ryal, Baun and Bourne have taken their quarters along the course. Leon Pouget will drive the entry of Harry Payne Whitney and Herbert Lytle will guide the big car belonging to C. V. Brockway.

Starter Wagner has notified the drivers that they will be allowed to run their cars over the entire course at top speed in the hours intervening between daylight and seven o'clock. After that time they can run over the parkway section of the course at a reasonable speed throughout the day. On the other sections of the course the speed limit will be 15 miles an hour.

Positions will be drawn for a meeting at 10 o'clock on Saturday night. With cars belonging to William K. Vanderbilt, Jr., Fokall Keene, Robert G. Harrington and Herbert Lytle, the American association champions, says Spalding's baseball book.

It is safe to say that in all these 21 years excitement has never reached the fever heat as it did this season. The struggle for the pennants in both National and American leagues was so close and thrilling that the whole nation became interested. When the Chicago and Detroit teams finally won out in the National and American leagues respectively, the question throughout sportdom was, "Now of these two splendid clubs, which is the greater?"

The feature event of the regular afternoon program was the Walnut Hall cup race, which was a great disappointment. Uhlman won in straight heats, Spanish Queen the only one who was not inside the money and was never a contender. Summary: Walnut Hall cup, 2.15 class (racing) \$3,000. Cubs Put Crimp in Hopes of Tigers by Winning Three.

Detroit, Oct. 13.—Chicago crept one game closer to the world's baseball championship today by defeating Detroit, 3 to 0. Chicago has now won three games of the series, as compared with the one annexed by Detroit at Chicago yesterday.

Eddie Summers, Detroit, and Mordcael Brown, the premier pitcher of the Cubs, later had all the better of the argument, although Summers' throw was excellent, but he was unable to get the ball in all but one inning. In the third Summers passed two on balls, some of which seemed to crowd to the batter, but he was unable to get the ball in all but one inning. In the third Summers passed two on balls, some of which seemed to crowd to the batter, but he was unable to get the ball in all but one inning.

Chicago got two men on bases in the first and one in the second, but about the situation, however, growing precarious. Crawford retired the batter, who was crestfallen, for where there had been men on bases with an excellent chance of scoring, now two out with only Cobb at first. Cobb started to steal second at the same time that Rossmann, presumably Kling did not hear what the umpire said for he tried to Evers and then called Cobb out. The play, however, did not count, as Rossmann had already retired the batter.

BROWN IN GOOD FORM. In the fourth inning Coughlin was hit by a pitched ball, but got no further than first. In the sixth O'Leary got his second out for he tried to Evers and then called Cobb out. The play, however, did not count, as Rossmann had already retired the batter.

World's Series, Past Present

The fiber of the flax plant, thus making it possible to produce from cotton stalks a paper superior in strength and texture to that of ordinary wood pulp paper, and nearly as strong as high-grade lignum vitae.

The stalks would cost little, the removal of the stalks from the plantation being of great advantage to the cotton grower. The stalks can be utilized in the making of paper, as it would help to destroy the pest while wasting none of the reclaimable material, carried on the plants but not burned to destroy the weevil, but by this method the whole plant is used, the leaves and unopened bolls passing through the mill so that there is no necessity for picking over the stalks.

Comparing the cost of production of cotton stalk paper over that of straw paper there is a difference of \$1.10 in favor of the cotton stalks. It is estimated that cotton stalk paper costs \$14 a ton, straw paper \$15.50, while ground wood as stock, paper made from bleached sulphite costs from \$50 to \$60 for the domestic and considerably more for foreign stock.

It has been estimated by experts that the supply of wood fiber for the making of paper will last but a few years more, and experiments have been and are being carried on every day for a substitute for wood pulp. With the cotton stalks at hand the paper manufacturer should investigate this matter thoroughly, for when the supply of wood fiber becomes exhausted he can turn to a substitute which is at hand.
