SCIENTIFIC AMERICAN.

The Best Mechanical Paper in the World.

EIGHTEENTH YEAR.

VOLUME VIII.—NEW SERIES.

A NEW volume of this popular Journal commences on the first of January. It is published WEEKLY, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

TO THE INVENTOR.

The SCIENTIFIC AMERICAN is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific Journal of Great Britain, France and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. Munn & Co. have acted as Patent Solicitors for more than seventeen years, in connection with the publication of the SCIENTIFIC AMERICAN, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

CHEMISTS, ARCHITECTS, MILLWRIGHTS AND FARMERS.

The SCIENTIFIC AMERICAN will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill-owners will be found in the SCIENTIFIC AMERICAN, which information they can not possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the SCIENTIFIC AMERICAN; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers: Three Dollars a year, or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country.

Western and Canadian money or Post-office stamps taken at par for subscriptions. Canadian subscribers will please to remit twenty-five cents extra on each year's subscription to prepay postage.

CHEMICAL WORKS.

THE undersigned beg respectfully to announce to the citizens of Deseret that we have now commenced operations in the large and commodious

CHEMICAL LABORATORY

newly erected near the Paper Mill, where we intend manufacturing all of the most useful articles in Commercial Chemistry, such as the wants of the people demand; and if the public will give us but a share of their patronage, we are assured that our humble efforts will be successful.

We therefore call attention to the following articles, which are now on hand and for Sale:

BRIMSTONE AND FLOUR OF SULPHUR,

ALSO
REFINED SALERATUS,

AND THE
Crystallized Carbonate of Soda,

which is now used to great advantage in the manufacture of Hard Soap, instead of crude Saleratus, and may be used in all cases like the

SAL-SODA,

by which name it will be known hereafter.

INK, INK, INK, INK, INK.

We are also manufacturing an article of Black and Blue Writing Ink, which is warranted durable on paper, and will answer the taste of the handy penman.

We would also call the attention of Dyers, Hatters and Tanners to our

SABLE DYE STUFF.

It forms a deep Black, and is superior to Logwood, if used rightly with copperas and mordants.

We are also prepared to furnish LEAD PIPING of any size and length without solder; also, HATFIELD'S KETTLES, or any other vessel made of lead.

The above articles can be had

WHOLESALE AND RETAIL,

At the Residence of A. C. PYPER, 8th Ward.

We will exchange our manufactures for Cash, Store Pay, Butter, Eggs, Meat, Wheat, Oats, Barley, Corn and Potatoes; Old Cast and Wrought Iron; Old Copper, Brass and Lead; Crude Copperas, Alum and Saleratus; Pelts, Leather and Dry Hides; Wood, Hay and Carrots; Tobacco, Cotton and Wool.
