AN INTERESTING EXHIBITION. Among the many attractions of this city during the present Confe:ence of Latter-day Saints, nothing of more solid merit is to be seen than the grand display of Mowers, Reap-ers and Self-Binders by D. M. Osborne & Co., at their extensive branch house No. 101 and 103 East Temple Street, where they have a complete line of their celebrated machines in motion during all hours of the day.

A small water motor is attached to a line shaft and pulleys, which connect by belt with the different machines, thus enabling persons to observe and understand the mechanism and utility of every part that enters into the construction of these machines. The busy whirl of Mowers, Reap-

ers and Self-Binders affords a very interesting and instructive sight, as is fully attested by the constant. crowd of visitors pouring into that establishment.

DAY & CO. The advertisement of this old and reliable firm, will appear in our columns to-morrow, announcing their choice stock of new goods which are constantly arriving.
