

## WORK OF THE CITY COUNCIL.

Seventh East Street Citizens Ask For Street Car Service.

FAVOR THE SALT LAKE CO.

For Thompson's Water Mains Veto Sustained—Eighth Ward Property to Purchase Goes Over.

The city fathers convened in regular session last night and transacted considerable business. All the councilmen were present excepting R. B. Whittemore.

### ASK FOR STREET CARS.

Royal B. Young and about one hundred other residents living on Seventh and East street south of Ninth street, petitioned the council to grant a franchise for the extension of its line to the southern boundary of the city. Referred to committee on municipal laws.

### HAS A COAL MINE.

Charles Elvies sent in a communication stating that he had located in the city limits, section 30, near Ensign Park a coal prospect, and asked for the purpose of working the same without interference. Referred to committee on public grounds.

### DESIRE CITY PROPERTY.

Joseph Smith sent in a petition protesting against the sale of the strip of land adjoining the eighth ward meeting house to the Relief Society of that ward for \$1500, and offered \$3000 for the property. In his communication Mr. Smith said: "In the deal with the school board this property cost the city about \$800, and I can't see why the city should give this property away for one-fourth its value to a religious organization that would pay no taxes and would make no improvements." He recommended that the lot be advertised for sale to the highest bidder. Referred to committee on public grounds.

### MAYOR VETOES.

Mayor Thompson sent in a communication disapproving the resolution of the council, passed some time ago, authorizing the laying of water mains from Third North street to Dakota avenue, costing approximately \$17,000. The veto was sustained by a unanimous vote. It transpired that the report of the committee covering the matter was wrong, as the people owning the property to be benefited offered to pay all expenses of the improvements and also non-regulable water pipe, holding it for two years. The waterworks committee will further consider the matter and report later.

### CONTRACT APPROVED.

The action of the board of public works in awarding to P. J. Moran the contract for furnishing the municipality with, approximately, 5000 feet of six-inch cast iron water pipe, for 65 cents per foot, was approved.

### STONE CROSSING.

C. H. McCoy and other residents near the intersection of Third South and Fifth East streets, petitioned the council to lay a stone crossing at that point. Referred to committee on streets.

### TRESPASSING ON CITY'S PROPERTY.

Land and Water Commissioner Westcott reported that one Mr. Hill is trespassing upon some of the city's land in a canyon in that he had sent a shaft fifty feet deep in quest of oil claimed to be developing in the canyon. The claimant has been instructed to make a survey of the land in question, that the trespasser might be surer. Referred to committee on public grounds.

### ADVERTISE FOR BIDS.

The board of public works asked authority to advertise in Lehi and Provo papers for bids with which to construct a stone crossing at outlet of Utah Lake. Communication filed and passed.

### OLD CLAIM.

City Auditor Reiser submitted claims of Robert C. Gammeil, civil mining engineer, for services rendered in suit of the city against the Live Stock convention hall. When the resolution was passed authorizing the employment of these men their salary was not fixed, and the auditor sought the services were worth \$12 per day. Adopted.

### WATER MAIN EXTENSION.

City Engineer Kelsey reported that the extension of a 6-inch water pipe line on Ninth and Eleventh East streets, south from Spruce to Eleventh South street would cost \$2,722.82, instead of \$2,000, formerly estimated, and that the length of the extension was 1,992.7 feet. Referred to committee on waterworks.

### NEW PLATS.

Committee on police and prison asked that the city engineer be instructed to survey the chief of police precincts and that the chief of police then make a map, and number all unnumbered houses. Adopted.

### ADDITIONAL PAY.

Committee on public grounds recommended an appropriation of \$30 be made to pay ten extra policemen employed while the Live Stock convention hall. When the resolution was passed authorizing the employment of these men their salary was not fixed, and the auditor sought the services were worth \$12 per day. Adopted.

### EIGHTH WARD PROPERTY.

Committee on public grounds reported that they recommended the granting of a franchise to purchase a strip of land adjoining the eighth ward meeting house, for \$1500. The report of the committee went on to say that they favored selling the property in question to the Relief Society of the eighth ward, because it was a religious institution organized for relief and charitable purposes. It was stated that the ground the society desired to purchase was donated to the eighth ward by a private citizen in 1848 by William P. Free, and in 1873 D. H. Wadsworth Mayor of Salt Lake, awarded it to the trustees of the eighth ward district, and in 1891 it was given to the board of education for a consideration of \$1, who, last year, traded the real estate to the city for some property on the corner of State and Eleventh streets. The statement was made that the city should not give the property over to the school district without any consideration whatever, and that the committee favored selling the land to the Relief Society to the exclusion of others who

DOWAGER EMPRESS FREDERICK OF GERMANY, WHOSE DEATH HAS LONG BEEN EXPECTED.

have offered more, because, under the circumstances, they believe this charitable organization should have the preference.

With the report of the committee was an opinion from City Attorney Stevens, who held that the city could legally sell municipal property not otherwise needed for city purposes, at private sale, and, if the amount offered for this strip of land was reasonable, the sale would be valid. But, continues the attorney, "The Council has no right to discriminate in regard to purchasers except as the interests of the city may be affected by the sale to one customer or another. The object in view should be the best interests of the city, all circumstances, price included, being taken into consideration."

Councilman Hewlett took the floor and moved the adoption of the report, and that the city attorney be instructed to draw up a deed conveying the property to the Relief Society, the same to be executed by Mayor Thompson. Robertson asked that the report go over for one week, which was agreed to.

### DESIRE RENT REDUCTION.

The lessee of the Warm Springs property, Henry Barnes, asked that the rent of the springs be reduced to \$100 per month, for the next ensuing five years, commencing on April 1st. The rental provided in the lease under which Mr. Barnes now holds the property, calls for \$150 per month. The petitioner said his profits at the resort had diminished considerably on account of competition. That he had rented the property for a long time, and had recently suffered two paralytic strokes, all of which placed him in rather straitened circumstances. The communication was referred to the finance committee.

### TO CLEAN CITY CANAL.

The committee on irrigation reported that \$2,000 be appropriated for cleaning and repairing the city's Jordan canal, which was adopted.

### TO EXCHANGE PROPERTY.

The public grounds committee reported favorably on exchanging 40 by 250 feet of the city's property situated on the corner of South Temple and Thirtieth East streets for 33 by 165 near the Thirtieth East street reservoir, belonging to Ellsworth Daggett. The report was unanimously adopted. A photographer was present and asked for the privilege of taking a flash light picture of the Council, which was granted.

### SUFFRAGE OF WOMEN.

State Council of Women Want a Constitutional Amendment.

The Utah State Council of Women which is the local contingent of the National Suffrage association, is preparing to memorialize the Legislature.

## If a Woman

wants to put out a fire she doesn't heap on oil and wood. She throws on water. Knowing that water quenches fire. When a woman wants to get well from diseases peculiar to her sex, she should not add fuel to the fire already burning her life away. She should not take worthless drugs and poisons composed of harmful narcotics and opiates. They do not check the disease—they do not cure it—they simply add fuel to the fire.

Bradfield's Female Regulator should be taken by every woman or girl who has the slightest suspicion of any of the ailments which afflict women. They will simply be wasting time until they take it. The Regulator is a purifying, strengthening tonic, which gets at the roots of the disease and cures the cause. It does not drug the pain, it eradicates it. It stops falling of the womb, leucorrhoea, inflammation and periodical suffering, irregular, scanty or painful menstruation, and by doing all this drives away the hundred and one aches and pains which drain health and beauty, happiness and good temper from many a woman's life. It is the one remedy above all others which every woman should know about and use.

\$1.00 per bottle at any drug store.

agable, he preferred to have him sent to the industrial school. Mrs. Binder and William Spicer both substantiated the former witness. Willie was not accused of being malicious or vicious, but was disobedient. Miss Hull said she had heard him use profane language.

County Attorney Christensen said that after he had recently visited the State industrial school at Ogden, and found it to be a pleasant and agreeable place of education. That it is not a "reform school," in the sense the public view the institution, which impression he wished the press would help correct.

Judge Stewart hesitated in committing Willie to the industrial school, but as Mr. Binder had not adopted him, it was the duty of the State to relieve him. Mr. Christensen said inasmuch as there was no proper place to send the lad, he would take him, care for him and endeavor to rear him alright. He said the boy was bright, and he had formed an attachment for him. The court allowed the county attorney to take the lad into his custody.

### MARCH WEATHER.

What It Has Been in Utah for a Quarter of a Century.

The following data, covering a period of 26 years, have been compiled from the Weather Bureau records at Salt Lake City, Utah, month, March, for 26 years.

#### TEMPERATURE.

Mean or normal temperature, 42 degrees.

The warmest month was that of 1879, with an average of 50 degrees.

The coldest month was that of 1897, with an average of 34 degrees.

The highest temperature was 77 degrees on March 30, 1879.

The lowest temperature was zero on March 1, 1890.

Average date on which first "killing" frost occurred in autumn, October 18.

Average date on which last "killing" frost occurred in spring, April 23.

#### PRECIPITATION.

Average for the month, 2.03 inches.

Average number of days with .01 of an inch or more, 10.

The greatest monthly precipitation was 9.23 inches in 1900.

The greatest amount of precipitation recorded in any 24 consecutive hours was 1.17 inches on March 20, 1874.

The greatest amount of snowfall recorded in any 24 consecutive hours (record extending to winter of 1884-85 only) was 8 inches on March 20, 1884.

#### CLOUDS AND WEATHER.

Average number of clear days, 10; partly cloudy days, 10; cloudy days, 11.

#### WIND.

The prevailing winds have been from the northwest.

The highest velocity of the wind was 48 miles from the west on March 7, 1877.

Station: Salt Lake City, Utah.

Date of issue: February 26, 1901.

L. H. MURDOCK, Section Director, Weather Bureau.

### VARIOUS COURT CASES.

An action to recover \$420 damages from the Rio Grande Western Railroad company was commenced in the district court yesterday afternoon by Ward & Company, butchers. For cause of action the plaintiff alleges that defendant ran into thirteen head of their cattle with one of its trains, on Nov. 25, 1900, near Mill Creek, this county, killing four and badly injuring nine others, reducing the value of the injured from \$40 to \$10 per head. Plaintiff demands damages resulting wholly through the negligence of the railroad company.

A petition was filed yesterday afternoon in the estate of John Flower, deceased, by Mary Flower, his wife, asking that she be appointed administratrix of the estate, which it is stated, consists of a house and lot, valued at \$1,400. The widow is the only heir. Hearing on the petition was set for March 9th.

A copy of the will of Susan Tibbets, of Kirkland, New York, was yesterday afternoon filed in the county clerk's office by A. B. Tibbets, who asks to be designated as administrator of the estate, which is located in the county of Perkins addition. Hearing was set for March 13th.

Judge Hall yesterday granted Minnie Bothwell a divorce from her husband, David E. Bothwell. Testimony in the case was taken before a referee about two months ago. The grounds were desertion and failure to support.

The divorce suit of Emil Roeder vs. Emil Roeder was yesterday afternoon referred by Judge Hall to Deputy County Clerk Eldridge to take testimony and report to the court.

In Judge Stewart's court yesterday the following business was done: State vs. Joseph Walker; defendant pleaded guilty to an amended information charging burglary. He waived time and was sentenced to six months in the county jail by the court.

State vs. George Simons charged with burglary, trial set for today, continued till March 20, 1901.

The cases of the State vs. E. W. Hamilton; set for the 27th and 28th of this month, continued till March 25th and 26th.

All criminal jurors were excused until next Friday morning at 10 o'clock.

The trial of Fred Rigby, an account of which was given in last night's "News," was finished late yesterday afternoon, and after a few minutes deliberation the jury returned a verdict of not guilty, whereupon the defendant was discharged.

It was brought out in the evidence that the accused entered G. H. Walton's store at Murray and was frightened away, leaving the door partly open. Walton secreted himself in the building, leaving the door just as it was, and a little later the defendant returned, entered the store and was captured. Defendant's counsel claimed the plaintiff, by leaving the store door open, and so purposely and this, in effect invited the defendant to commit the crime, and by so arranging matter no breaking in was necessary. This was

MRS. CUMMINGS ROBBED.

Thief Takes Greenbacks but Leaves Gold Untouched.

It was reported to the police yesterday afternoon that on Monday night the room occupied by Mrs. Cummings, wife of Ralph E. Cummings, at the Knutsford, had been entered during her absence and that \$200 was stolen. Mrs. Cummings said that when she went to the Theater Monday night she left her purse in one of the dresser drawers, and she was sure that she securely locked the door and left the key at the desk. When she returned about midnight she discovered that the money was gone. The strange part of the affair is that the thief left \$25 or \$30 in gold, and took only greenbacks.

A young man, who is associated with the company, was suspected of the theft because it was known that he had been to the room to get some parcels. Last evening the young man was taken to police headquarters, where he was questioned closely. He convinced the officers that he had nothing to do with the robbery and was released. Officers are working diligently on the case and hope to recover the money and catch the thief, though the prospects for such an accomplishment are decidedly meager.

## WONDERFUL CURES BY PAINE'S CELERY COMPOUND.

This Greatest of All Remedies Endorsed by the Bishop of Burlington.

No remedy in the world means so much to the sick and suffering as Paine's Celery Compound.

No remedy in the world has been indorsed and recommended by men and women whose only motive is their love for their fellowmen, and the hope that what Paine's Celery Compound has done for them, it may do for the readers of their testimonials.

Paine's Celery Compound is not a patent medicine, and must be distinguished from patent medicines. It is a prescription which is put within the reach of every man and woman in the civilized world—the prescription of the greatest of American physicians—the crowning result of his years of study and experience. It is the wonderful prescription of Prof. Edward E. Phelps, M. D., L. L. D., of Dartmouth College.

The following letter from Bishop Michaud, one of the ablest priests in the Roman Catholic Church in this country,

tells us of his kind-hearted desire to be of service to the people, and breathes a sincerity that can leave no doubt in any one's mind of the great superiority of Paine's Celery Compound over all the so-called remedies that have recently been clamoring for attention by adroit and showy advertisements.

Wells & Richardson Co.,

Gentlemen:—I have been asked why I recommended Paine's Celery Compound, and I desire to put on record frankly my reasons for this endorsement, hoping that my words may inspire those readers who need health and strength with faith to try Paine's Celery Compound and prove to themselves its worth.

At the Fanny Allen Hospital, an institution in which I am deeply interested, Paine's Celery Compound has been used successfully.

The Sisters of Mercy at Mount St. Mary's Academy, on Mansfield Ave.,

rely upon Paine's Celery Compound as a tonic and strength-giver.

In my own household, one of the domestic has taken Paine's Celery Compound for liver trouble of long standing, and says: "It has done more good than any other medicine."

Several priests have, spoken to me in praise of this remedy, and I believe it has the confidence of my associates.

Even did I not know from personal observation of the worth of Paine's Celery Compound, I should feel like praising it for the simple reason that it is prepared by the Wells & Richardson Co., a firm whose members I have known for nearly a quarter of a century, and in whom I have perfect confidence. Very truly,

JOHN S. MICHAUD,

Coadjutor Bishop of Burlington.

There is no household in the land that can honestly afford to be without this remedy. It is a simple matter to test its astonishing efficacy.

the main point at issue and had considerable weight with the jury.

In the case of John Peterson Johnson vs. Emma Hansen, the defendant has filed his answer to amended complaint, with amendments, denying all of the material allegations of the same. The plaintiff alleges in his complaint that he is infirm both of body and mind; that he is unable to understand the English language, and is incapacitated to attend to business; that defendant took advantage of these conditions and persuaded him to sign a deed conveying his property to defendant.

SMALLPOX CASES.

There were reported to the city health board yesterday afternoon four new cases of smallpox, which are as follows:

Alfred Sorensen, aged 22, rear 137 north, Seventh West street; Alfred Bowman, aged 26; Bertha Bowman, aged 29; Bowman, aged 3, 935 east, Third South street.

Dr. Beatty, secretary of the State board of health, reported last night that Parowan, Iron county, had been placed under quarantine because of disease was on the increase. In that town, and it appeared the local health officers were not able to check the spread of the contagion.

The following reports were sent in to the State health board yesterday afternoon: From Wellsville, nine cases; Bountiful, two; Millville, four; Greenville, four; Newton, six; Logan, seven.

MRS. CUMMINGS ROBBED.

Thief Takes Greenbacks but Leaves Gold Untouched.

It was reported to the police yesterday afternoon that on Monday night the room occupied by Mrs. Cummings, wife of Ralph E. Cummings, at the Knutsford, had been entered during her absence and that \$200 was stolen. Mrs. Cummings said that when she went to the Theater Monday night she left her purse in one of the dresser drawers, and she was sure that she securely locked the door and left the key at the desk.
