—"Gentlemen," said an auctioneer, who was selling a piece of land, "this is the most delightful land. It is the easiest land to cultivate, it is so light, so very light. Parker will corroborate my statement; he owns the next patch, and he will tell you how easy it is to work. "Yes, gentlemen," said Parker, "it is very easy to work, but it is a plaguey sight easier to gather the crops."

MERCHANTS' Address Tags printed and for sale at the NEWS Office.

—A papyrus manuscript found in an Egyptian tomb is said to have been translated by a German scholar, who pronounces it to be an address of Rameses III to all the nations of the earth, detailing minutely all the causes which led to the exodus of the Jews from the land of the Pharoahs.

LOCAL AND OTHER MATTERS.

THERMOMETER 60 degrees F. in the shade, at 1 p.m. to-day. Fine day.

The Members of the High Council are requested to meet at the City Hall, next Wednesday morning at ten o'clock.

Messages at the Western Union Telegraph office for M. R. Williams and Jas. Marriott.

Mean Thieves.—There are thieves around this city mean enough to steal common pigeons, belonging to children.

Gone to Provo. — President B. Young left this morning for Provo, accompanied by Superintendent F. Little and A. M. Musser, Esq.

Expected.—It is expected that the Utah Southern Railroad will be completed to Provo by Saturday, or, at latest, by Monday.

Convalescent.—Mr. Joseph Schofield, who has had a very severe attack of inflammation of the lungs, is now convalescent and able to be around again.

Too Often Too True. — A letter in the New York *Times* says, "The United States Marshals are not good men." Unfortunately in too many instances no proof is required of the truth of that remark.

Organ Grinder.—A man with a card in front of him, which announces that he has been blind for twenty-seven years, sits in front of business places on the streets, and grinds out music from a hand organ.

Thanksgiving Eve Soiree Dansante.—Before us lies an invitation to attend a *Soiree Dansante*, to come off on Thanksgiving Eve, Nov. 27th, at the Fourteenth Ward Assembly Rooms. The young gentlemen having the management of the affair are well able to render it a success.

Portland and Salt Lake. — An Oregon paper says.—"Col. Chapman, of Portland, is preparing a prospectus on the advantage of a line of railroad from that city to Salt Lake, and how essential it is for the prosperity of Oregon to have such a road constructed as early as possible."

Transferred. — To-day the two men, named Deady and Leahy, charged with stealing fifty bars of bullion from the "Mountain Chief" smelting works, Sandy, last Friday, were transferred from the city to the county jail. Yesterday they were held in $2,000 each, to the Probate Court, in default of which they were committed.

Recovered.—Joseph W., son of Captain Andrew Burt, has entirely recovered from the effects of the wound in his foot, received a short time since by the accidental discharge of a pistol, being able to walk around as well as ever, notwithstanding that the bullet still remains in the foot. His recovery has been most surprisingly rapid.

Personal.—We were called upon this morning by Mr. C. H. Daly, recently connected with the *Trade Review*, of Chicago. He purposes [illegible] residence here.

Mr. Elias Jewell, traveling agent for D. M. Osborne and Co., Auburn, N. Y., manufacturers of "The Kirby" reapers and mowers, is in this City, in the business interests of the firm with which he is connected.

Little Emma.—The London correspondent of the Manchester *Guardian* writes: "A few days ago I referred to Gen. Schenck's explanation of the part which he had taken in disposing of the notorious Emma Silver Mine. That explanation has provoked an amount of criticism which it would be wise not to repeat; but this, however, is no secret, that strong pressure is being brought to bear upon the General in order to induce him to join a body of shareholders who contemplate taking legal proceedings against some of the most culpable persons concerned."

Favorable.—The friends of Mr. Hampton will be pleased to learn that his symptoms thus far are favorable, and that if he progress for a few days longer as satisfactorily as he has been doing since the occurrence of the accident the danger of inflammation will be measurably past, or at least will have greatly decreased. It is probable, however, that the sight of the injured eye is destroyed. When the eye is unbandaged by the surgeon, for the purpose of dressing the wound, the patient cannot perceive any object with it, not even being sensible of the presence of light.

The Farming and Smelting Interests.—Here are a few suggestions and ideas from Prof. Barfoot on this subject:

"SALT LAKE CITY, Nov. 17th.

"*Editor Deseret News:*

"It is true that some of the elements that, as compounds, are constituents of our ores, are volatile at high temperatures; but that they condense, or form sublimates on, or are absorbed into, vegetation, so as to poison cattle is, if true, worthy of careful and correct observation. If so, the raising of a "stack" to a sufficient height, with proper receptacles for containing the condensed materials, will remedy the evils complained of. But it will be well to prove the facts alleged by collecting some of the poisoned vegetation for analysis, or to skim off some of the films of matter floating on the waters for the same purpose. I remember when some alarm was felt about gas-works and other manufactories, which proved to be groundless, as I believe this will be upon proper investigation.

"Yours respectfully,
"JOSEPH BARFOOT."

Singular Conduct.—A stylishly dressed fellow went to the front door of Mr. B. H. Young's residence, last night, and endeavored to break in. When the door was opened by one of the inmates he spoke not a word but made quite a desperate struggle to gain an entrance. He was told that if he did not leave the police would be brought to him. This announcement had the effect of loosening his tongue, for he then commenced to talk. He was marched to the City Hall by several men, and on the way he kicked and struggled and splurged and squirmed so desperately that the limbs of one of the parties who arrested him were bruised, and discolored this morning.

This morning the prisoner was minus his coat and cap, it being thought that some of his fellow prisoners had put them on under their own clothing and gone out to work in the chain gang this morning. The case was set for three o'clock this afternoon. The fellow gave his name as Srabert, which, of course is an *alias*.

Acknowledgment.—The Chief of Police of this city has received a communication from P. R. Athy, Chief of Police of Memphis, Tenn., in which he acknowledges the receipt of $50 sent by the police of this city for the relief of the Memphis force. Mr. Athy expresses gratitude for the assistance rendered and states that no further assistance is needed, the wants of the force being now supplied.

Sickness.—There is much sickness among children in this city at present, in the form of fevers, accompanied by swellings in the throat and distress in the chest. It is probable that the main cause of these diseases is the sudden changes in the atmosphere just now, being warm in the day time and cold after sundown. Children should not be permitted to be in the open air at nights, unless they are more warmly clad than they are in the day time.

MISSIONARY APPOINTMENTS.

SUNDAY, NOVEMBER 23rd.

KAYSVILLE.—Elders R. F. Neslen and H. W. Naisbitt.

NEFF DISTRICT.—Elders Isaac Groo and D. McKenzie.

TAYLORSVILLE.—Elders C. R. Savage and D. A. Swan.

SUGAR HOUSE.—Elders G. Teasdale and J. H. Smith.

SUNDAY, NOV. 30th.

MILL CREEK.—Elders L. D. Young, R. F. Neslen, and H. W. Naisbitt.

BOUNTIFUL.—Elders G. Teasdale and J. Nicholson.

DRAPERVILLE.—Elders T. Taylor and G. Swan.

WEST JORDAN.—Elders J. Van Cott and S. A. Woolley.

Reprehensible.—A gentleman informs us that he attended a funeral a short time since, and that while the sacred duty of consigning the remains of the departed to their last resting place, in the cemetery, was being attended to, shots were fired from some quarter and the balls whizzed through the air in close proximity to the party of people who stood around the grave.

It was afterwards discovered that the firing was done by some boys, who were practising shooting near an adjoining house. On being discovered they should at once have been arrested for such disgraceful conduct. It is the duty of every good citizen to make complaint against parties thus endangering the lives of others.

From Iron County.—We had a call to-day from Mr. Daniel S. MacFarlane, of Cedar City, Iron Co., just arrived from that place. He says business is rather dull there at present, but the prospects for the future business prosperity of that locality are of the brightest character. There are three coal discoveries near Cedar, each of which has a twenty feet square face, and these are but three of numbers of others, as mountains of coal extend southwards a distance of over thirty miles.

Theatre.—The drama of "Good as Gold" was presented last night at the Theatre. The scenery was creditable, and in the show-room scenes calculated to delight the [illegible] at the Residence here.

not a great deal in the play, but it was nicely presented, and Mr. Crosbie had scope again for showing a taking bit of character acting. Miss Howard also enjoyed the opportunity in the line of costumery. The ladies are ever at home in a milliner's show room.

This evening "Good as Gold" will be repeated.

To-morrow Miss Howard will appear as "Camille," in the powerful play of that name, supported by Mr. J. A Sawtelle as "Armand Duval."

A Bad Case.—To-day, a woman of the town made a very serious charge against a colored man. She avers that she was taken to his room and drugged and abused by him and then thrown out of the window.

The colored man's version of the affair has a different coloring. He states that when he returned to his room last night he found the woman and a partner of his there, and that the woman was so abusive as to induce him to leave, which he did, and that when he returned to the room again she was gone and the window of the apartment smashed. The colored man was arrested on complaint of the woman, and placed in jail.

A "Scrimmage." — There was somewhat of a "scrimmage" last night. A member of the medical fraternity had been doctoring a restaurant keeper, while the M. D. had been running up a board bill with the restaurant man. The latter paid a visit to the surgeon, who told him if he did not suddenly disappear from his learned presence he would soon make him a fit subject for the dissecting room. Feeling a reluctance to being "cut up," he departed, but was soon followed to his place by the animated doctor. There a hot discussion ensued, in which the last named person hurled disrespectful invectives at the other. The spouse of the latter then declared she would summarily eject the medicine man from the house, but she was saved the labor, her husband essayed to do this himself, in return for which effort he received a sudden dig in the face from the surgical fist, which brought him to the floor. Following up the advantage, the doctor applied several well aimed kicks at the prostrate form of his former patient, thinking perhaps that he was encouraging trade by making a patient for the operations of a brother professional.

At this juncture the reserve force of the beaten party came up, full charge. This was the enraged spouse, who attacked the doctor with great ferocity, and the man of medicine, having sufficient gallantry not to strike a female, merely held her at bay, and it was in this position that matters stood when officer Phillips appeared upon the scene and arrested all three of the belligerents. The case was to be tried and settled before Justice Clinton, this afternoon.

This is the way the gifted editor of the Lexington Consolidator unburdens his mind: "The South is at last learning wisdom. Any ragamuffin will do for Congress, but fill our State Legislatures with our ablest, purest, noblest men. The blackest and dirtiest, gizzard-hoofed-est and stinkiest Guinea nigger is good enough for a Federal Senator; but let statesmen and patriots, the true sons of the Southland, go our house law-grinding."

LATEST BY TELEGRAPH.

EASTERN.

Suspended.

PITTSBURG, 18.—The National Trust Co. suspended temporarily this morning, owing, the directors state, to the unexplained absence of the cashier and the consequent difficulty of ascertaining the exact condition of affairs; they promise a speedy statement, however, and assert that all liabilities will be fully paid.

Bound for Cuba.

FORTRESS MONROE, 18.—The U. S. steamer *Worcester*, the flagship of the North Atlantic squadron, passed out this morning for Santiago de Cuba.

Tweed Case—Arrested.

NEW YORK.—The testimony in the Tweed case concluded yesterday, and John Graham began the argument for the defense.

To-day the Associated Banks hold $27,775,000 in legal tenders, being a decrease of $435,000 since yesterday.

Robert Porter, a juror in the Stokes case, was arrested this morning for bribery on an indictment found by the grand jury.

Cuban Sympathy.

WASHINGTON, 18.—The colored citizens of the District of Columbia will hold a meeting on Thanksgiving evening, to sympathize with Cuba. Frederick Douglass will be one of the speakers.

FOREIGN.

GREAT BRITAIN.

LONDON, 18.—A cotton mill near Manchester was burned this morning, loss half a million.

The *Daily Telegraph* says, this morning, considerations of policy and humanity would lead England to view, favorably, the annexation of Cuba to the United States; that the American government will await the reassembling of Congress before taking action is evidence that its policy will not be governed by the popular clamor. We do not despair of a peaceful solution of the question. In view of the difficulty the U. S. would experience in retaining possession of Cuba if annexed, it suggests that the U. S. government acknowledge the belligerency of the insurgents, and ultimately guarantee the independence of the island, asking in return the abolition of slavery.

SPAIN.

Will be Honorable.

MADRID, 18.—The Spanish cabinet is unanimously in favor of a satisfactory and honorable settlement of the *Virginius* difficulty, but regards the maintenance of the integrity of Spanish territory as essential.

MONTANA NOTES.

A rich discovery is reported at Emigrant Gulch, by Alex. Campbell and Samuel N. Myers, yielding $1.30 to the pan.

Miners are realizing from $6 to $7 per day in Bear Gulch.

There is not an untenanted dwelling house in Deer Lodge to-day, (Nov. 7) and more would be tenanted if they could be had.

They are having a revival, "a genuine old-fashioned shaking up of sinners" in Jefferson county, and over half a hundred persons have humbly confessed their sins, renounced the world, the flesh and the devil, and professed to turn to Christ.

Dr. H. C. Sill has two fine young ibex, or mountain sheep or goats, a buck and a doe, which he designs to take to Portersville, Tulare Co., Cal., to endeavor to cross them with the Angora goat.

One of A. C. Garrison's ox trains made the distance from Corinne to Helena, the "fastest time ever made" by an ox train between those two points.

[illegible] at Roseberg, Oregon, a few days ago. He had $150 in coin with him, which impeded his saltatory movements, so he went out and cached the money under the seat of his buggy. When the ball was over, Walter went to the buggy for his money, but found that somebody else had cached it somewhere else. Walter thinks the dancing was good, but he paid dearly for the music.

ZION'S CO-OPERATIVE MERCANTILE INSTITUTION

IS DOING THE LARGEST BUSINESS ever carried on in the Territory of Utah, arising from a uniform system of dealing principally with manufacturers of standard goods, buying in immense quantities and selling on the closest margins.

The largest part of their purchases for the

Wholesale and the Retail Dry Goods Department

Are made through their New York office, from whence all fluctuations in the Foreign and Home Markets are closely watched.

The Institution is complete in all its various departments, and fresh novelties are added to the stock as fast as they are offered in the market. Visitors are shown through the buildings without the slightest importunity to purchase.

The gentlemen in charge of the several departments are among the most widely and favorably known in the Rocky Mountains, and we commend them to the confidence of the public, promising that no effort on their part shall be wanting to ensure a continuance of its patronage.

They are enabled not only to suit the tastes of an intelligent trade, but also to compete successfully with Eastern dealers. In fact, no country merchant can afford to pass by this city under the impression that Eastern markets will give him lower prices, better stock or more favorable terms. Their

Grocery, Hardware and Drug Departments

of any office in the Western Territories.

For completeness and variety of stock have never been equalled west of New York, and merchants in the neighboring settlements and Territories cannot do better than replenish their stock from this source. Their

Clothing Department

Is now opening its magnificent fall and winter purchases, among which is the most varied assortment of Gentlemen's Furnishing Goods ever brought to Utah. Since merchant-tailoring has been added to and made a specialty in this department, that branch of the Institution's trade has attained a perfection never arrived at by any similar house in the Territory Foreign and domestic fabrics of every style and price are made to order or sold in piece.

The Shoe Factory Departm't

Keeps thirty hands constantly employed on all classes of work, and has never failed to secure the Prize Medals at our Territorial fairs. Their facilities for turning our first class work have never been equalled by any similar establishment in the Territories. Gentlemen and Ladies visiting the city would do well to leave their measures with that Department, thus enabling them to order by mail at any time they desire a perfect fit.

Among the *Specialties* of this Department are those of Horse Collars, and supplying the trade with Leather and Findings, a large and complete stock of which will always be found in their establishment.

The Institution deals in every class of merchandise, and all persons, however remote from business or manufacturing centres, can have their orders promptly filled by mailing them to
