REPORT OF JOHN D. CAMPBELL,

Nevada's Foremost Mining Engineer, on the

Eagle's Nest Fairview Mining Company.

To the President and Directors
The Eagle's Nest Fairview Mining Company.
Goldfield, Nevada.

Goldfield, Nev., Sept. 15, 1906.

GENTLEMEN:—

I beg to submit a brief report on the surface showings of the property owned by you in the Fairview District, consisting of the Tison, Eagle's Nest No. 1, Lookout, and Lookout No. 1 claims.

This property is bounded on the north by the Dromedary Hump Mining Company, on the southeast by the Fairview Eagle Mining Company and the Nevada Hills Mining Company, and on the southwest by the Fairview Mining Company—in fact, it is in the center and surrounded by the best properties in Fairview.

My examination of this ground was made for the purpose of deciding where we should do our permanent work and required quite a lot of consideration on account of the many good ledges which traverse our ground. I finally decided on a tunnel to be driven on a ledge which crosses the Tison, where we found an excellent showing. The tunnel starts at the base of the hill on which the ledge crops and will continue on its strike a distance of 150 feet to our objective point—the apex of the hill and directly under the location post of the Tison. The ledge crops the entire distance and shows ore at the grass roots running \$60 to \$85 a ton. A second ledge running northeast and southwest and cropping for 200 feet, showing \$30 to \$40 a ton, will be intersected by this tunnel at a depth of over 100 feet.

On the Lookouts are several good-looking quartz ledges, which assay from a few dollars up, and which will be thoroughly prospected at once.

On the Eagle's Nest No. 2, there is a fine showing of manganese ore, and within a few feet of our line high-grade shipping ore is being sacked on Wingfield's property.

In conclusion, I would state that in my opinion this is a first-class mining proposition and one of the very best showings in Fairview.

Respectfully submitted,

JOHN D. CAMPBELL,
Consulting Engineer, Vice-President and General Manager.

STRAY DOG Promoted in March at 55c per share, now 65c
INDIAN CAMP Promoted in April at 30c per share, now 60c
(Par, \$1 per share, is predicted for these two stocks by December 1.)

REPORT OF JOHN D. CAMPBELL,

Nevada's Foremost Mining Engineers on the

As-You-Like-It Manhattan Mining Company

To the President and Directors
As-You-Like-It Manhattan Mining Company.
Goldfield, Nevada.

Goldfield, Nev., Sept. 22, 1906.

GENTLEMEN:—

In accordance with your instructions I beg to submit to you a brief report on the "As-You-Like-It" group of claims, owned by the As-You-Like-It Manhattan Mining Company, and situated in the Manhattan Mining district. This group consists of four claims, namely: The "As-You-Like-It," "Lizard Fraction," "Keystone" and "Juniper" lode mining claims, lying within a short distance of the Union No. 2 mine of the Dexter group and in the immediate locality of the Little Grey, Indian Camp, Stray Dog, and other well known mining properties of the camp. The area of the property comprises approximately 60 acres of valuable mineral ground.

During the past month exhaustive surface exploration has been in progress, with the result that three veins of ore have been disclosed that prospect well at grass roots. With a view to exploring these veins at depth three shafts have been put down—the deepest one having attained a depth of 33 feet. The bottom of this shaft shows values across its entire width and is all vein matter. This is known as the "As-You-Like-It" shaft, and will be continued as permanent workings to systematically explore the ore bodies at depth.

The "Juniper" shaft is down 37 feet and also prospects in gold for the entire width of the shaft. A depth of 17 feet has been reached on the shaft on the "Keystone" claim of the group, exploring a vein that traverses the Indian Camp mine and crops on the northwest corner of the "Keystone." This vein also shows gold in several different places along its strike.

The location of the property in the immediate vicinity of such well known and thoroughly proved mines as the Stray Dog, Indian Camp, Jumping Jack, Union No. 2, and Little Grey gives to it very great prospective value and warrants the prosecution of exhaustive development work so as to make a permanent dividend-paying proposition.

Respectfully submitted,

JOHN D. CAMPBELL,
Consulting Engineer, Vice-President and General Manager.

Both of these stocks will be listed on the important exchanges of San Francisco, Salt Lake, Goldfield and New York immediately after subscriptions are closed, and will, beyond a doubt, at once command a premium.
We recommend both stocks as high-class speculative investments and probable big future dividend-payers.
Reservations should be made by telegraph, to insure consideration, and remittances in full, by bank draft or certified check, must be forwarded immediately after allotment is made. Otherwise allotment will be rendered void. The right is reserved to reduce or refuse any subscription tendered.

L. M. SULLIVAN TRUST CO., GOLDFIELD, NEVADA.
