Oil company will shortly begin erecting works on its claim above here for the purpose of treating some of its oil-bearing sandstone. The material is almost inexhaustible, and that the cost of refining and extracting the same is about \$1.82 per ton, which leaves the net profit of \$0.50. It is estimated that a \$5,000 plant will produce 1,000 gallons per day of oil, besides producing enough paraffine to pay for two-thirds the expense of running the plant.

"It Seems as Though my Back Would Break."

Is it not true? Women suffer, feel the very life crushed out of them, grow old before their time. Each morning wake up determined to do so much before the day ends, and yet—

Before the morning is very old the dreadful BACKACHE attacks them, the brave spirit sinks back in affright; no matter how hard they struggle, the "clutch" is upon them and they fall upon the couch crying:

"Why should I suffer so? What can I do?"

The answer is ready, your cry has been heard, and a woman is able to restore you to health and happiness.

Backache is only a symptom of more fatal trouble—heed its warning in time.

Lydia E. Pinkham's Vegetable Compound will stop your torture and restore your courage. Your pains come from unnatural menstruation or some derangement of the womb. Let those who are suffering read Mrs. Morton's letter and be guided by her experience.
