A Cotton Belt Express and Mail Car Looted.

THE CLERK NEARLY KILLED

Illinois Central Fast Mail Held Up Near New Orleans—A Lone Highwayman Did It.

Texarkana, Ark., Dec. 13.—A bold robbery on the Cotton Belt railroad occurred today at Bassett, Tex., thirty miles south of Texarkana on the train coming north, in which Postal Clerk John N. Dennis was almost killed and the mail pouches of his car rifled of their contents. The amount stolen is not known.

As the train left the Bassett water tank at 6 a. m., the express and mail cars were separated from the train but the train crew soon had them coupled again. In the run from there to Texarkana the coaches were uncoupled twice in a very mysterious manner.

Another contingent of Canadian troops started on their way home to-day on board the Rosslyn Castle. They received an enthusiastic send-off.

EXPLORATIONS IN SIBERIA.

Siberian Plain Becomes Rugged Towards the North.

RUSSIAN RAILWAY PROJECTS

Many Lines are Under Construction and Franchises for Others in Great Demand.

St. Petersburg, Dec. 13.—[Correspondence of the Associated Press.]—Prof. Markgraf reported the results of his exploration of the Yenesei and Ob valleys at the last meeting of the Geographical society. He used gondolas the greater part of the time and traveled an average of 30 kilometers a day. The population of the adjacent country retired into the interior upon his approach.

Prof. Markgraf declared the most important fact established by the exploration was the discovery of the navigable streams of Siberia. The utter desolation of the commonly accepted notion that the Siberian plain grows more and more flat as one approaches the northern ocean. He found the exact contrary to be true, the coast country being quite rugged and in places almost mountainous. There are forests of leafy trees to the edge of the north, and the country is water every summer. There is an abundance of fish and excellent grazing for cattle. There are no roads of any kind. The greatest need of this territory is a railway from Archangel to Berceoff. It would have a length of something over 800 miles.

There is considerable gossip in university circles over a recent occurrence there. M. Tugan-Baronoff, a teacher, professor of political economy, who was forbidden to lecture at the university at the time of the student strike two years ago, was discussing in a private residence upon the Bernstein movement in German socialism, when police officers appeared and took the names of everybody present and then dispersed the assembly.

The ministry of marine has allotted \$60,000 rubles for work upon the cruise of the Borodino during the coming year. This cruise will have a displacement of 13,514 tons.

RUSSIAN RAILWAY PROJECTS.
St. Petersburg, Nov. 25.—[Correspondence of the Associated Press.]—The Khalkid, the minister of railroads, today gave the correspondent of the Associated Press a complete outline of the railway projects which are now under way or seriously considered. A new line nearly 300 kilometers, or about 200 miles in length, has just received the approval of the council of state. It will be a government line and will connect the station of the Don and the Danube, paralleling the line to Yekaterinof and running some distance south of this line. The Yekaterinof line is crowded with grain traffic. The cost will be fifteen or twenty million rubles. Work will be begun next spring.

The road from Orenburg to Tashkik which will be 1,500 kilometers or being 1,200 to 1,300 miles long will be begun at both ends at the same time. The total cost will be about \$60,000,000 rubles.

The line from Sesterok to the Finnish border will be given a line from Yalta to Sebastopol, but it is hardly thought this will be granted as the road will have to pass through the emperor's property. It was proposed that electricity should be used for motive power but the emperor still objected and the line will probably ultimately be built more to the eastward running from Yalta to Simmeropol.

The Siberian railway will probably be completed from Strelnak to the Chinese frontier within a few months. The government also hopes to complete enough of the line across the lake Balkal to enable the boat to make its crossing twenty miles shorter before the end of the year. The entire loop with a length of 250 kilometers, or nearly 200 miles, will cost about \$40,000,000 rubles.

TWO HUNDRED DROWNED.
Four Hundred Passengers Rush to a Vessel's Side, Sinking It.

ORDER OF CHOSEN FRIENDS.
Petition Filed Asking for the Appointment of a Receiver.
Indianapolis, Ind., Dec. 14.—The Sentinel this morning says: Attorney General Taylor, on behalf of the State of Indiana, will file in the superior court of Marion county this (Friday) morning a petition asking the appointment of a receiver for the Order of Chosen Friends, one of the largest fraternal insurance associations in the United States. The filing of the suit will affect thirty States of the Union, as the association has been authorized to do business in that number.

"In the application for a receiver, which is a voluminous document, the fact is set out that the association is insolvent and unable to meet the death claims now outstanding.

These claims aggregate about \$200,000, and came to light through an examination made by George U. Birmingham, expert of the Indiana Insurance department, last Wednesday.

"According to the statement of the relief fund published in December, the balance on hand October 1, 1900, was \$1,185.72. There has been since received \$1,329.52, making a total on hand of \$2,515.24. Out of this there has been paid on old age disabilities \$4,471; on twenty death claims \$28,250; and held for delayed claims \$10,000, leaving on hand a balance of \$2,235.41.

"The total benefits paid up to October 31, 1900, as shown in the statement are as follows: On 2,077 deaths, \$12,638,182.50; on 815 deaths, \$28,430,320.75; total to October 31, 1900, \$41,068,503.25.

"In his report for the twenty years ending June 30, 1899, on the receipts and disbursements of the relief funds made before the national convention of the supreme council, held in this city

September 18-23, 1899, the supreme council gave the following figures: California, \$3,565,457; Arizona, \$527; British Columbia, \$1,732; Idaho, \$189; Nevada, \$169,616; Oregon, \$447; Washington, \$23,054; Colorado, \$421,715.

Of the above amounts the following sums were paid in in excess to that drawn out, by the following States: California, \$4,249; Pacific Coast, including California, \$30,659; Colorado, \$1,215.

"The report that 1,500 remains were brought over is without foundation and it is requested that this statement be given the widest circulation by the press."

BEHEADING MADE CHEAP.
So Many Executions in China that Only 25c a Head is Paid.

Vancouver, B. C., Dec. 13.—Mail advices by the steamship Empress of India state that the Canton jails are overcrowded. The China Mail says that the number of prisoners is periodically decreased by executions of nineteen. The prisoners are beheaded on a vacant common, in the presence of vast concourses of people, who applaud the spectacles, after the custom prevailing in Paris during the days of the French revolution. The executioners have been so busy of late that the usual remuneration of half a dollar a head has been reduced to 25 cents, and there are many candidates for the job.

An early return of the emperor to power, indemnity to the amount of \$40,000,000, the right of each legation to maintain a guard of 2,000 troops; and the appointment of a foreign adviser to each province of the empire."

"Director General Sheng has received a telegram from Sian Fu, asserting that the empress dowager is about to start for Cheng Ti Fu, in the province of Szechuan. Li Hung Chang, and Prince Ching have received the empress dowager's permission to take the imperial seal from the forbidden palace and to use it in the negotiations."

GEN. BOTHA'S PROCLAMATION.
Says His Government Exists in the Same Way as Before.

New York, Dec. 13.—A dispatch to the Journal and Advertiser from Amsterdam says:
"Whereas, I have been informed that the enemy circulates all sorts of wrong and lying reports among the burghers about the government and myself, and whereas, they have before them, in order to communicate the following information to the general public:

"The executive council after consulting the state president of the Orange Free State, has decided in the interests of our cause, to give leave of absence to our state president, with orders to go immediately to Europe in order to assist our delegation there in the peace negotiations, and to inform the President Schalkberg has been sworn in, according to law, and is now acting as state president. He is now assisted by the state president, Lucas Meyer and myself, and other officials; in short, our government exists in the same way as before, and is now in my immediate neighborhood and in direct communication with me."

"Let the blood of our brave dead always be a strong voice, inducing every burgher to fight for real liberty. We have nothing left to lose but everything to win. The government is most firmly decided to continue the struggle. I am convinced the burghers will applaud this decision and act accordingly until the end."

"Burghers are warned against the fine words used by the enemy to deceive them and to make them put down their arms, because, according to the proclamation of Roberts, they will all be transported to St. Helena or Ceylon as prisoners of war. Our cause, however precarious, is not hopeless if every burgher only does his duty. The Lord is sure to give a blessed end to His own time and in His own way."

HAZING AT N. U. ACADEMY.
A Student Treated to Indignities and Cruelly Handled.

Chicago, Dec. 14.—Frank Lust, a student in the Northwestern University academy, was hazed last night by twelve students. He was taken from the university gymnasium where he was practicing, to a secluded spot on the lake shore. Here he was blindfolded and his clothes removed. A coat of black ink and soft soap was then drenched over his entire body. After the treatment of ink and soap, the student was hauled up and compelled him to run the gauntlet.

He was passed from one to another in the crowd and each one took occasion to slap him about the body. After fifteen minutes of this kind of treatment, he was wrapped up in blankets and then taken to his home on Sheridan Road. The young man was nearly overcome from exposure and from the treatment he had received, and fainted while being taken to his home. The students, however, managed to revive him before he was taken to his room.

Last week Lust received a threatening letter signed by several fictitious names, in which he was asked to watch out for fire treatment.

All the hazing band wore handkerchiefs over the lower parts of their faces.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition, beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is almost uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar bottles. You may have a sample bottle by mail free, also pamphlet telling Home of Swamp-Root, all about it, including many of the thousands of testimonial letters received from sufferers cured, in writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

This is the second student at the academy that has been hazed within the past week. Last Friday night F. H. Sandmeyer was visited in his room by half a dozen students and treated to a coat of black ink.

Dr. Herbert Fleke, principal of the Northwestern University academy, returned to Evanston yesterday and will commence at once an investigation of the recent hazing of F. H. Sandmeyer, a student in the academy.

Dr. Fleke will be assisted by the Northwestern University faculty and states that the affair will be sifted to the bottom. Some of the faculty so far as could be learned late last night had heard of the hazing of Lust.

The Russians refuse to do anything to replace material thus lacking.

EXPLORING NORTHERN CANADA.
Supposed Barren Deserts Covered With Immense Forests.

Vancouver, B. C., Dec. 14.—Prof. J. W. Tyrrell, the celebrated explorer of Canadian wilds, has returned from an expedition through the barren lands of northern Canada. He traveled over 5,000 miles on the tour. His expedition, which was sent out by the Canadian government, met with many perils in the long journey to the northwest of Hudson bay.

Prof. Tyrrell made the important discovery that the barren lands generally supposed to be treeless prairie, were covered in many places with rich northern forests. There were stretches of timber land 200 miles in extent.

In August Prof. J. W. Tyrrell, of the geological survey, who was second in command of the expedition, went on a side tour of 500 miles up one of the branches of the Thelon. There he rescued an Englishman named Charles Bunn, who had been held in captivity by the Esquimaux for five years. Prof. Tyrrell was in the lead of the party when they entered a village just before midnight, and was amazed to see a tall, well built man, dressed like an Esquimaux, come running up and address him in English. Bunn told a marvelous story. He said that he had gone out from Edmonton in 1896 and wandered far into the interior, shooting and trapping. He ran short of provisions and appealed to an Esquimaux family. They took him to their

village, where he was compelled to remain, living as one of them. He had several thousand dollars' worth of furs. He joined Bell's party and came out to Edmonton with the explorers.

ELIZABETH FLAGLER ENGAGED.
Is the Young Woman Who Shot a Negro Boy Some Years Ago.

New York, Dec. 14.—A Washington dispatch to the World says that the engagement of Miss Elizabeth Moore Flagler to Dr. W. G. McKee of Haddock, Cape Breton, was announced by her mother. The marriage will take place in June. Miss Flagler is a daughter of Brig. Gen. James V. Flagler, at one time chief of ordnance of the army.

In August, 1893, Miss Flagler was the victim of a most unhappy occurrence. She shot a negro boy, Ernest Green, employed in one of the departments, killing him almost instantly. Green had been making the branches of pear trees in the grounds surrounding the Flagler residence in Washington. Miss Flagler warned the lad to desist, but he did not heed her, whereupon she fired a revolver, simply with the intention, her friends say, of frightening him away. Miss Flagler surrendered herself immediately to the chief of police, and was exonerated by the coroner's jury. She was subsequently indicted and tried the following February. She was convicted of involuntary manslaughter and sentenced to three hours' imprisonment, and \$500 fine.

Pneumonia Prevented.
Among the tens of thousands who have used Chamberlain's Cough Remedy for colds and la grippe during the past few years, to our knowledge, not a single case has resulted in pneumonia. Thos.
