New York, Aug. 28.-In the large Syrian colony of this city the news of the assassination of Magelssen, vice consul at Beirut, Syria, caused much comment. It was believed that he had either failen a victim to the fanatical hatred of a Mussulman for a Christian, or because of his efficient and earnest labors in behalf of his countrymen. Chancellor MacCracken, of New York university, who has just returned from Beirht, where he visited his sick son, started home about July 15. He says: "The murdered vice consul was prompt, intelligent and able in the transaction of business. The American consulate under his chief and himself easily held the first place in reputation easily held the first place in reputation among the foreign consulates in Bei-rut. The Syrian Protestant college which exists under a board of trustees chartered by the state of New York, found the vice consul a helpful friend. He promoted zealously a field day held the state of the state this year and helped to secure the at-tendance of the governor of Lebanon, who came with full staff and a military band playing American national airs. eishman states that Macedonian conditions are growing constantly more acute and that the situation in that sec-

tion is extremely grave. In his cablegram to Minister Leish-man last night regarding the report of the American board of missions than an attempt had been made to burn the Euphrates college buildings at Harpoot, Acting Secy. Loomis instructed him to demand of the Turkish government that it take immediate steps for the protection of the lives of all Americans there. The Brooklyn will proceed with all

speed to Belvut and will not wait for the Maching which is a much slower vessel. Acting Secy. Darling this morning telegraphed the commanding officer of the Machias at Genoa, instructing him to follow the Brooklyn to Port Said, where

he is to coal and await orders. It is believed the dispatch of American warships to the scene of the murder in such haste will convince the su-blime porte that the United States means to make all its demands effective. The American squadron will be useful in protecting Americans and will furnish a refuge for those who are near the seaccast.

THE TYPHOID SITUATION

Only Two New Cases Reported Today -Total of 64 for the Month.

Only two cases of typhold fever were reported to the board of health up to this afternoon, making a total of 64 cases reported so far this month. Those reported today are Ivy Mitchell, aged six years, residing at 163 north Seventh West street; Orma Banks, aged 15

years, 5% south East Temple street. The Mitchell family has been using water from a flowing well, and it is very probable that that is the cause of the disease breaking out in the family. The waters of three wells are being tested today by City Chemist Harms and in all probability the wells will be condemned as they are in the same dis-tricts where the other wells were condemned. One of the wells being tested is on Aberdeen avenue, one in the Sixth ward and the third in Morton row, on Seventh South, between Sec-
