LOCAL AND OTHER MATTERS.

THEATRICAL.—Remember the Theatre to-night, the bill is a splendid one, consisting of the play of "Ireland as it Was," "The Mocking Bird," piano solo by Signor Farini, and the Farce of "Dandelion's Dodges."

DIXIE.—Our correspondent "G. C. L." writes from St. George, Southern Utah, on the 1st. instant: "There appears to be a great deal of sickness here now, and there is scarcely a person to be found who is not afflicted either with the measles or a bad cold."

ESCAPE OF PRISONERS.—Four of the inmates of the city prison, named respectively McKay, Foley, Rose and Walker, the latter colored, made their escape last night from the quarters so kindly provided for them by the public. They sprang the floors of their cells and the main entrance door; when they proceeded up stairs, jumped out of the window and made their escape. A sharp lookout is being kept up for the gentlemen, and their recapture is very probable.

THAT PIANO SOLO.—We have heard, from parties who have been at some of Signor Farini's rehearsals and have heard him play on the piano-forte, that he is immense, his execution being wonderfully brilliant, surpassing anything that has been heard in Utah. Remember that the Signor plays a solo, "The Mocking Bird," to-night, at the Theatre, between the play and the farce, which, added to the other attractions, should draw a full house. The Signor intends to give a concert on Friday evening, and all attending to night will be enabled to form some idea of his ability, and the nature of the entertainment on that occasion.

ENTERTAINMENT.—Last evening the regular weekly Concert came off in the 6th Ward School House, and was the crowning one of the season, a splendid programme was presented, consisting of twenty-four pieces. It is gratifying to state that since the commencement of these entertainments, an entire new programme has been gotten up each week, which reflects great credit on those concerned in the management of them. A marked improvement is noticeable in the performers, both old and young. These concerts are accomplishing a great amount of good in that Ward; they have a humanizing and elevating effect upon those who take an active part in them and also upon the se who attend them. They have our heartiest sympathy and good wishes for their continuance and prosperity. They should be fostered, and we hope to hear of the young men of that vicinity participating in them; and instead of spending their time on the streets or in idleness as some appear to be inclined to do, devote their spare moments and hours to self-culture. Such a course will enhance their own happiness, and make them more useful members of society.

IN TOWN.—Chase, Hanford & Co., Manufacturers and Refiners' Wholesale Agents for the sale of Illuminating and Lubricating Oils, white lead, varnishes, glass, axle grease, etc., of 51 South Water St., Chicago, years ago secured an important share of the trade of the Territory in their line, which they have maintained up to the present time. Until yesterday they have had no representative of their house here. But now that there is a prospect of business expanding they have thought it time to look after their interests, and Mr. S. R. Moore of their firm has come to the city. Mr. Moore is urbane and genial and well calculated to cement the already existing relations between the merchants here and to form new business connections. He remains here several days.

Mr. C. C. Blakeslee, who represents the house of Reed, Carnrick & Andrus, Manufacturing Chemists and Pharmaceutists, of 182 Liberty and 125 Cedar Sts., New York, is also in town attending to the interests of his house. Since leaving here last September he has traveled extensively on the Pacific coast, from Washington Territory to the extreme southern limit of the State of California by stage, and by steamer down the coast of Mexico; touching and doing business at all the ports.

THE NEW STREET LIGHTS.—The city authorities, we are pleased to learn, are testing the Patent Portable Gas Light of Messrs. Taylor & Co. The Portable Gas street lamps were put up on the lamp posts in front of the City Hall and at the Post office corner last night. Every body could see it; and it was remarked, "that is the finest light yet seen in our streets."

We freely confess ourselves pleased with the light. We are reliably informed that it has already been extensively introduced in Chicago, Cincinnati, San Francisco, Sacramento, and other cities East and West, where, of course, the coal gas has been in use for years; and we think it quite likely to prove the best light that we are able to procure. That some improvement is urgently needed in our street lights is apparent to us all.

RETURNED.—We had a call this morning from Elder Robert L. Campbell, Superintendent of Common Schools, who returned last evening from a visit to his relatives in Canada. He has traveled, since Jan. 6th, upwards of 5,700 miles. Visited the public schools adjacent to the domiciles of his friends in the Dominion, and made hasty visits to the Normal Schools in the cities of Toronto, New York and St. Louis. At the written request of leading citizens of Clarksburg, Ont., he spent an evening, answering questions in a public hall; by invitation, he preached three discourses in the province of Ontario. Spent most of his time visiting his numerous kindred. He has gathered up several sheets of the names of his progenitors and relatives, living and dead. He has heard Elders who have visited the Eastern States remark upon the scarcity of children, and the aversion of ladies to take upon them the duties of maternity; but in his visit he did not find this the case in Canada. Wives there do not think children a nuisance or a burden. The clan Campbell, as represented by his immediate relatives, are greatly on the increase, their families, wife for wife, comparing well with those of the Latter-day Saints in Utah.

MESSAGES for —— Doolittle, Wm. H. Rockfeller and John Fagan at the Deseret Telegraph office; they are requested to call and get them.

A FATAL SNOW SLIDE.—The following telegram was received by Deseret Telegraph Line, at about 2 o'clock this afternoon:

LOGAN, UTAH, March 8, '71.

Ed. Deseret News.—In Black Fork Kanyon, about one o'clock yesterday morning, Bros. Jesse Bradley, Alva Benson, Jr., and Lewis Halverson, of Hyrum, were buried fifteen feet deep under a snow slide; eighteen hours after the accident they were dug out, Bradley and Benson were dead, but Halverson is not much hurt. He thinks that Bradley was killed instantly, and that he heard Benson talking for half an hour or more after they were buried up.

PETER MADSEN.

SEVENTH WARD SUNDAY SCHOOL ENTERTAINMENTS.—The teachers and scholars of the Seventh Ward Sunday school, gave the first of a series of free, weekly dramatic and vocal entertainments, in the Ward School House, last night. A small stage is already erected, and appropriate scenery, painted by a member of the school, will be finished shortly, and much innocent pleasure and recreation is expected to result from the movement. Last night the entertainment was principally vocal, consisting of glees, rounds and songs, interspersed with recitations and dialogues. The house was crowded, all present appearing highly pleased with the proceedings. All members of the Sunday school or Ward, adult or juvenile, who are capable of participating in, or contributing to, the general enjoyment are expected and invited to do so.

FAIR WARNING!
The residents of Utah are cautioned against braggart impecunious Life Insurance Companies (vide Insurance Monitor). The Mutual Life of New York has been established Twenty-Eight years, has nearly Forty-Five Million Dollars Assets, and stands first in the world for capital and stability. Rates lower than any other paying corporation; Dividends nearly double any other Company. d75 tf

Enterprising! Economical! Liberal! Safe!
ORGANIZED IN MAY, 1866.
12,537 POLICIES ISSUED AND REVIVED IN 1870.
ISSUING 1,074 POLICIES MORE THAN ANY OTHER COMP'Y IN THE WORLD!
Insuring $25,440,000.00, a gain of 50 per cent. over 1869.
32,400 Policies Issued up to December 31st, 1870.
Income for the Year 1870, - $2,128,201.16.

This is a progress as remarkable as it is encouraging. It is an axiom laid down by the oldest and most experienced actuaries, that the more NEW POLICIES that are issued to replace death claims, the more stability is insured, and the larger the NEW BUSINESS of a company, the more favorable is its relative position with that of others.

Paid in Death Claims and Annuities in the year 1870, $316,000.00, Which is a large sum, and yet a very low average of losses.
Paid to our Policy-holders in Dividends and for purchased policies, in the year 1870, the large sum of - - - - - - $402,094.00.
And have in hand for next dividend more than half a million of earned surplus, after deducting re-insurance fund, capital stock, and all other liabilities.
No other Company surpasses the CONTINENTAL in ability to pay large Dividends to its members.
NET ASSETS, Dec. 31, 1870, - $4,505,235.29.
This company is **Purely Mutual** in its operations, dividing its entire surplus among its policy-holders; on the Contribution Plan; and claims a larger business, and a lower ratio of expense to income than has ever been attained by any other company at a corresponding period in its history; only one other New York Company showing as low a rate of expense to income. **No Extra Premiums** for travel or foreign residence. No Extra Premium on women. Thirty days grace on the payment of premiums. All Policies non-forfeitable, according to the expressed terms contained in each policy. Policy-holders have a voice in the elections and management of the company. Policies Incontestible for the customary causes.
