BY EASTERN MAIL.

The Eastern mail arrived yesterday about 4 p.m. The latest New York dates that we have seen are to Oct. 29.

There has nothing of special interest transpired in the States of late. The most important or exciting occurrence that has been recorded is the abolition insurrection at Harper's Ferry on Sunday, October 16, headed by the notorious Capt. Brown, of Kansas memory, who went to Harper's Ferry over one year ago accompanied by his two sons, all assuming the name of Smith.

He had prepared arms sufficient for fifteen hundred men - 200 Revolvers, 200 Sharps' Rifles and 1,000 spears. The rifles, it is said, Central Italy, now concentrated around Rimwere furnished by the Massachusetts Emigrant Aid Society; had been sent to Kansas. and from thence re-shipped to Chambersburgh, thence hauled, together with ammunition, to the head quarters of the insurrectionists at Harper's Ferry.

The United States Arsenal was taken by the insurgents, who held possession of it till dispossessed by the military, which turned out in force to quell the insurrection.

The first active movement was made at 10 o'clock p.m., by seizing the watchman at the bridge and conveying him to the armory, which he found in their possession. They then proceeded to several farm houses in the vicinity, arresting the proprietors with their slaves and conveying them also to the armory. They fired into an express train going east, killing one of the railroad hands and a negro, while they were endeavoring to get the train through the town.

All these movements were made without exciting any alarm, as the inhabitants were asleep, and it was not till they awoke in the morning and found the bridge guarded by armed men and a guard stationed at all the avenues that the people found they were imprisoned. A panic appears to have immediately ensued, and the number of insurrectionists at once increased from fifty (which was probably their greatest number, including the slaves who were forced to join) to from five to six hundred.

As the workmen entered the Armory they were successively taking prisoners till there were about sixty thus taken and confined.

The insurrectionists were not subdued and the arsenal retaken till Tuesday morning, when the doors were battered in and the building entered by a company of Marines from Washington city, commanded by Col. Harris and Lieut. Green.

The insurgents in the first instance numbered only twenty two men, of whom sixteen were killed, two escaped and the others were wounded. Brown received nine wounds; none of which are fatal and both of his sons were killed.

The exact number of the killed and wounded on the part of the citizens and the military did not appear in the account which we saw, and we were unable to ascertain the fact as we did not get but a few exchanges before going to press. Further particulars may be expected next week.

The October elections in Iowa and Minnesota resulted in favor of the Republicans. FOREIGN.

15th of October. The Great Eastern was expected to sail

from Holyhead for America on or about the 24th. She left Portland on a trial trip on the 8th and arrived at Holyhead on the 11th.

The London Times says that the agents of French, Austrian, and Sardinian governments are soliciting tenders from English iron founders, for large quantities of rifled cannon.

The London Herald's Paris correspondent in speaking of the preparation for war in France, says, that not a single man in the army has yet been sent home on renewal furlough, and only those entitled to discharge in December next have obtained it. Not a single ship has been dismantled and active measures of defence are progressing at the ports.

The Zurich Conference, says the Paris Patrie, have agreed upon the treaty of peace, which will be signed in a few days. It will confirm the cession of Lombardy, and contain a settlement of the Lombard debt, which is reduced one half. The affairs of Central Italy will be settled by the European Congress.

It was reported that Austria and Sardinia are making warlike preparations, and that the French army of occupation is to be reinforced. 10, 24 - By order of the Council. It is asserted that the Pope has ordered the

delivery of his passports to the Sardinian Minister.

Gen Garibaldi has been enthusiastically received at Bologna. In the order of the day issued by Gen. Fanti, he promises that the tri-color of Italy, preceded by the old cross of ch. Savoy, will precede the troops of Central Italy in fresh battles, and for ever free Italy from the stranger.

Gen. Garibaldi has issued a proclamation summoning the Italians of the Legations to arms, and a collision is shortly expected.

The Herald's Paris correspondent, says-"The Duke of Modena is at the head of 10,-000 troops, backed by 5,000 more under the Grand Duke of Tuscany. Kulbermalton has collected some 10,000, of whom about onethird are Croats, and the remainder Swiss, and he has gone to Vienna, it is said, to organize a plan of attack against Fantis' army of ini, whilst the Arch Dukes would operate from the North. Piedmont is also eagerly preparing for the fray."

Rumor says that the Pope contemplates abandoning Rome, and again taking refuge at Gaeta.

Naples letters of the 27th, state that 15,000. soldiers had been sent to the frontiers, and that 10,000 more would follow.

It is stated that the whole Neapolitan frontier was lined with troops, and the Montecassini fortified with cannon.

The banking house of Noseda & Borocco, at Milan, had subscribed 100,000 francs towards Garibaldi's fund for purchasing muskets.

The French troops, to the number of 22,000. were to advance against Morocco on the 15th of October.

DEPOPULATION OF VENEZUELA .- A file of the St. Thomas Tidende of Sept. 1st, received at Boston, contains an important document showing the condition of affairs in Venezuela, where a war of races, fanned by political and military aspirants, is rapidly depopulating that country.

The document in question is an appeal for protection of foreign Consuls at Cindad, Bilivar, to the Governor of the French, English and Danish West India Islands. In the appeal, the Consuls say—the contest now going on is not one of ordinary revolution, having for its object a political end, but on the contrary, the motto now is violence, death and pillage. The acts of atrocity committed by these vandals are, they say, so numerous that it would be difficult to enumerate them. In the provinces of the interior whole communities, with their inhabitants, have disappeared .-Nothing but foreign intervention will save the country from entire destruction.

-The small pox is raging among the Indians in the vicinity of the city of Nevada.
