St. Petersburg, June 2 .- The comment here on the settlement of the Russe-Canadian fishery dispute is very significant. The agreement is welcomed by the Russian press as evidence of the increasing probability of an Anglo-Russian alliance, the papers gointing out that public opinion in Grat Britain, France and Russia is becoming more favorable, the war ingread of proving an obstacle to an al-Hance, serving as one of the arguments

It is true that Russia is further tom Great Britain than France, but she is nearer india, whose railroads could be joined with Russia's." The paper makes the further point that without such a commercial treaty asy political agreement would be very trail.

Although it is impossible to ascer-tain at this time whether the ques-tion of such a commercial treaty has actually been taken up, the possibility of its being the next step in the pro-gram towards a political agreement rouses the keenest interest in diplo-matic circles, where it is considered matched by the most far reaching im-perate.
