

CHAMPION WADE WAS KNOCKED OUT

Jack Clifford Surprised the Montana Idol and His Friends.

BOUT OF THIRTEEN ROUNDS

The Californian Won the Contest Clearly on His Merits and There Was No Chance Blow.

At the Salt Lake Athletic club last night, before a crowded house, in which were scores of prominent local business men, including members of the city council, Jack Wade, the lightweight champion of Montana, idol of the Butte ring followers, and very clever fighter, was knocked out in the thirteenth round of what was to have been a 20-round contest with Jack Clifford of California.

It was no "fluke" or chance blow that did the business, but a short right upper cut to the point of the chin preceded by a left hook to the jaw. Although more scientific than his opponent, Wade met his master in Clifford last night. He met a boxer who fought him with a determination to win, from the sound of the gong in the first round until the knockout blow. Wade was sent to the canvass on his face and was clearly a beaten man.

In the first three, and in the ninth round Wade had decided the better of the contest, and several times shot his powerful right to Clifford's body without a return. In this the Montana had displayed wonderful cleverness, and in the ninth round he nearly got Clifford with a right swing on the jaw. With the exception of the rounds mentioned, Clifford was the aggressor, and he fought his opponent in fact, had the bout gone to a decision Wade would have lost without doubt.

The men boxed for a side bet of \$100 and \$5 per cent of the gate receipts, winner taking all, and the terms were dictated by Wade. It is a strange coincidence that in three contests this winter, the favorite has been defeated in the thirteenth round, and in each instance the defeated man has been in the southeast corner.

The crowd was greatly pleased over the contest and unanimously voted it the best and cleanest they had seen for many a long day.

Following is the contest by rounds: Round 1.—The men sparred cautiously for half a round and Clifford was first to land, landing a light left to face which Wade countered with a right to head which did not land fairly. Each tried to draw the other out and Clifford put a hard left to the face that staggered Wade for a second. Just before the bell rang Wade shot a hard left to Clifford's kidneys. The round ended with Wade having a shade the better of it.

Round 2.—The men came together at once and each missed a clinch. Wade landed left to head and right to face, Wade sent two lefts to jaw which Clifford countered with a stiff right to jaw. Wade then sent right and left to body. Clifford countered with right to jaw.

Round 3.—The men came together in a clinch. Wade put right to neck and Clifford got left to body in exchange. Each missed hard blows for the body and Clifford missed a right to head which Wade countered with a right to head. Wade sent right to head and Clifford missed a powerful left swing for the jaw. Clifford got right to jaw and the men clinched.

Round 4.—This round opened with an exchange of lefts and rights. Wade landed left on Clifford's nose and got a hard right punch in the body in exchange. Wade landed again on the body with his right and Clifford landed a right to face. Wade got right to head and Clifford missed a powerful left swing for the jaw. Clifford got right to jaw and the men clinched.

Round 5.—The Californian rushed matters but missed right and left hooks for the face. Wade returning with a right to the body and cleverly getting Wade's head down, Clifford landed left on head but missed right swing and fell into a clinch. Wade then quickly shot right to jaw and left to nose. Clifford concluded to play safe and body and succeeded in getting his right to Wade's ribs. They exchanged hard rights and lefts, and as the gong sounded Wade shot his right to the body and Clifford got right to jaw.

Round 6.—Wade missed a left swing for the jaw, and there was a hot exchange of blows at close range. Clifford sent right to body and Wade returned the compliment with two left jabs to nose and right to body, getting away with lightning speed. Both missed right swings, and for a few seconds Clifford swung wildly but recovered when he got another of those hard right punches in the kidneys. Clifford landed hard right on Wade's head sending him down for five seconds. This was clearly Clifford's round, and Wade showed unmistakable signs of tiring.

Round 7.—They exchanged rights and lefts for a while. Clifford landed left on body and was punched on the head in return. Clifford landed right on jaw and they clinched. Clifford landed short left and right to head and right again to jaw. Wade countering with a crushing right to body and left to jaw. Round 8.—A hot exchange at close range opened this round. Clifford got in right on body and Wade missed left for jaw, falling into a hard left to jaw and had it handed right back to him. Each left left for face as the bell rang.

Round 9.—In this round the Montana boy came nearly putting Clifford down. Clifford missed a right for jaw and got a hard left on the nose. A moment later he shook up Wade with a right to jaw. A hot rally sent Clifford to the corner and he received a hard right squarely on the jaw that had him almost going. He recovered quickly and clinched. Wade shot his right to kidney again but a second later was sent to the floor from a hard right to jaw. Wade had the better of this round.

Round 10.—Wade tried to force matters having gained confidence. He succeeded in planting right to body and right to jaw, receiving in return a blow

"Figprune Cereal"

consists of 64 per cent fruit and 46 per cent grain. It is a highly nutritious and pleasant table beverage for both big and little folks.

ALL GROCERS SELL IT.

on the jaw from Clifford's right. These blows were repeated, and there was some sparring until the round ended. Round 11.—Clifford sent a smashing left to nose and right to body, getting a left and right in the return. Wade appeared strong. Wade got right to body and right to face, but Clifford straightened him up with a stiff left to face.

Round 12.—In this round the Montana champion was beaten to the floor, going down five times from Clifford's powerful blows. Wade rushed Clifford to get in a left to face and right to body but Clifford hammered him all over the ring, sending rights and lefts to head and right to body. Wade managed to get up but took the full count and tried gamely to recuperate. The sound of the gong was a welcome one to him, saving him from a knockout. Wade was sent to the canvass on his face and was clearly a beaten man.

The crowd patted Wade with delight and carried the victor down stairs on their shoulders.

The preliminaries were furnished by Kid Rogers and Kid Brandy, colored; Phil Green and Kid Ford and Terry Davis and Abe Breslin. The main event did not begin until after 10 o'clock, but the crowd waited patiently.

BUCK WEAVER LOCATED.

He Will in All Probability Accept Mr. Bergerman's Offer.

"Kid" Buck Weaver has been heard from. He is working on a ranch near Lakeland, and word was received from him yesterday afternoon. He has not yet accepted the offer made to him by Mr. Bergerman, but it is quite likely that his services can be secured for the coming season. He has written to the Salt Lake Athletic club, and it is understood that he is at liberty to sign with the Lagoon club. A definite answer is expected from him within a day or two.

JOSEPH COMES BACK.

But Says Nothing About His Former Trip.

Yesterday afternoon Harry J. the magnate, returned from his former trip and set all the fans agog by his strange demeanor. He refused to say anything about the trip. He said: "Now, don't be impatient. We know what we are about and when the proper time comes we will say all about it. I will say this much: Salt Lake is going to have the winning ball team this year and there are going to be some surprises unfolded."

A meeting of the Salt Lake club has been called for the 25th of this month when a new board of directors will be elected.

AFTER THE CONTEST.

Wade Had No Excuse to Offer but Wants Another Go.

Both Wade and Clifford were around as usual and neither one exhibiting any signs of distress as a result of their hard work last night. Wade said he was surprised at Clifford's improvement and complimented him on the same. He said that the padded floor was new to him and he could not do good foot work for that reason. The loss of the fight, he says, will not injure him and he intends to return to Butte soon.

Clifford said: "I knew I could whip him, and I will give him another go if he wants it. I gave him the best I had, but I want to tell you he was a tough proposition from start to finish. The punch that did the business was a right uppercut started six inches from his jaw."

OUTSIDE EVENTS.

THE GRAND AMERICAN.

Live Bird Tournament at Kansas City—Entry Numbers 215.

Kansas City, Mo., March 18.—The Grand American live bird tournament, which will be held in Kansas City from March 18 to April 5, inclusive, was attended by a number of wing-shooters that ever participated in any shooting tournament according to Elmer E. Shaner, manager of the tournament association, under whose auspices the big event will be held. Mr. Shaner arrived here today. He came to arrange the details for the Grand American handicap.

The entry list already numbers 215 and the entry books will be open until next Saturday. Post entries will be received until the first man has shot at his last bird.

Mr. Shaner stated that there would be 15,000 birds trapped during the shoot, 7,500 of which will be used in the handicap. Most of the birds are now in the city.

The handicap committee will meet at the Midland hotel in this city March 27.

NATIONAL LEAGUE MEETING.

Baseball Magnates Will Come Together Soon at New York.

New York, March 18.—It is reported that a meeting of the National League baseball magnates will be held within ten days. Such is, in effect, the announcement of President A. H. Soden of the Boston club, who speaks, at least, for the anti-Spalding side of the National League controversy, and it coincides with Col. John I. Rogers' statement.

Every indication points to the fact that the warring factions are anxious for a meeting.

The Boston magnate has signed the Jack Munn, former Brooklyn pitcher and Baltimore third baseman, to play third for New York. Manager Fogel also has signed Lauder, the old Philadelphia third base man.

Gussie Lawson Lost.

Atlanta, Ga., March 17.—In the cycle races at the Coliseum here tonight, Gussie Lawson of Salt Lake was defeated by W. A. Rutz of Philadelphia in an unopposed race of three-mile heats.

Jeff Getting Anxious.

San Francisco, March 17.—Champion Jeffries' manager, Billy Delaney, received a dispatch this afternoon from Manager McCarthy of the Century club at Los Angeles, stating that unless the club's offer for the Jeffries-Pittsman fight was accepted by the hour of noon tomorrow the bid would then be withdrawn.

WAS STRIPPED OF SIDE RODS.

Passenger Engine on Western Meets With an Accident.

FIREMAN'S LUCKY ESCAPE.

Had Just Left His Seat When the Side Rod Flew Up Through Bottom of Cab.

An accident, an account of which has been kept out of the newspapers, occurred on the Rio Grande Western near Kayville last Saturday. An locomotive No. 39 was bowling along at a lively rate of speed, pulling passenger train No. 6, the crank pin of the main driver on the left side broke and the driving rod and side rod flew out of their accustomed courses. Like a flash a great hole was thrashed through the floor of the cab on the fireman's side and the engine driver at once stepped back behind the boiler head, apprehending that what immediately afterwards happened would come about. Being deprived of her balance on the drivers the rods on the right side flew wide of their usual mark and a similar gap yawned where just a moment before the engine driver had been sitting. But two or three seconds before the first break occurred the fireman stepped down from his seat in order to look in session, and he was being cut to pieces. The move of the engine driver upon seeing what had occurred to the one side rod, and concluding its natural result in jumping from his seat, also saved his life. The journal box of the main driver on the right side was broken up and the pieces dropped out, leaving the big axle without a bearing, and in view of this fact coupled with the others, it is wonderful that the locomotive kept the rails. The troubles of No. 39 were not over yet, however, for in being brought into the yard here she smashed all the ribs out of her pilot and landed at the roundhouse a very badly used machine.

TROUBLE SETTLED.

Northern Pacific Again at Peace With Its Employees.

St. Paul, March 18.—The committee representing the disaffected trainmen on the Northern Pacific railroad, that has been in session here practically for five or six days, has completed its work. The committee stated that the trouble in Montana originated while the committee was on its way to St. Paul, and did not have the sanction of any of the trainmen's brotherhoods. The committee's conference with Gen. Mgr. Pearce resulted in the company's granting many concessions to the men. The committee represented all divisions of the system, and all branches of train operation.

The strike on the Rocky mountain division of the road, it is reported, has been settled, and the usual traffic will be resumed at once.

ABOUT COMPLETED.

San Pedro-O. S. L. Joint Survey is Practically Finished.

Engineer H. M. McCartney has returned from the south and says that the joint survey is practically completed. It runs 113 miles south from California to the Meadow Valley wash, where the lay of the land is such that boys could build their own grade road, and the company would not be able to suit themselves. It would cost much less for the two roads to build a common road through the narrow country, and so on in the same way. But then the millenium is some distance off yet, and it is questionable if the two companies will agree on this score. The progress on the west end is much delayed by the new plan of the iron bridges promised last fall, and which are not yet delivered. The steel truss is doing just as it pleases in the fulfillment of contracts, and the bridges may show up in a week and they may not before next Christmas.

Mr. McCartney says that it is very nasty weather south of the rim of the Grand Canyon, and it will continue so until the middle of April. But during the months of December, January and February the weather in that country is lovely.

ANOTHER WESTERN LINE.

Los Angeles Sends Report of One From Savannah to Coast.

Los Angeles, Cal., March 18.—President B. F. Youkum of the St. Louis and San Francisco Railroad company, who is at present in Los Angeles, has strongly intimated that his company will build to the Pacific coast, and that the ultimate terminus, President Youkum recently completed a tour of Southern Arizona where, it is stated, he looked over the field with a view of selecting the most fitting route for his road. He acknowledged that the St. Louis and San Francisco now has surveys at work east of Albuquerque, N. M., with a view of extending the Oklahoma and Western Road, a recently acquired property. It is said to be the intention of the St. Louis and San Francisco to connect the continental line reaching from Savannah, Ga., to San Francisco. President Youkum declined to enter into particulars but gave the impression that the company had ample financial backing to carry out its plans without seeking connection with any of the already established transcontinental lines.

SPIKE AND RAIL.

Land Agent Wantland of the Union Pacific has recently been through Wyoming.

Beginning yesterday Richard Rivett is acting as general car inspector for the Union Pacific railway.

Traffic on the big transcontinental roads is so heavy that they ought to be double tracked.

J. H. Thacker, purchasing agent for the Oregon Short Line, has been out on another supply-purchasing trip.

Preparatory to taking up his duties as superintendent of the dining car service of the Oregon Short Line, P. E. Lewis is out on a trip over the line to the northward.

Try a dose of the Bitters when you don't feel well or have no appetite. It will strengthen your weak stomach and make you feel better. It cures Belching, Flatulency, Heartburn, Indigestion and Constipation.

PERSONALS.

John K. Hardy is able to be out after a two weeks' sickness.

Victor J. Youngberg has gone to Idaho, where he will continue his managing work.

Chas. Rippe started for St. Louis this morning. He went over the Rio Grande Western.

Full Value.

You receive the worth of your money when you pay a quarter of a dollar for a thirteen ounce can of THREE CROWN baking powder. The high price baking powders have heavy dividends to office force, and immense dividends to pay, which the consumer pays for. We manufacture economically and reliably, and let the users of baking powder share in the advantage our careful business methods make possible.

HEWLETT BROS. CO.

BIG RANCH DEAL BY R. C. CHAMBERS ESTATE

Special Correspondence.

Evansville, Wyo., March 18.—The largest ranch deal ever made in the western part of Wyoming was closed here a few days ago when the estate of the late R. C. Chambers secured 15,000 acres of fine farming and grazing lands, ranches, cattle, horses and implements on Bear River, below Evansville. The amount of the transaction has not been made public, but it is known that the price paid runs away up into the tens of thousands.

Eighteen years ago R. C. Chambers and J. N. Chittrey, both of Salt Lake, began to acquire lands and other property in this vicinity and when Mr. Chambers died two years ago their holdings were estimated to be worth \$150,000. A few days ago Mr. Whitney arrived here and made a deal whereby he transfers to the Chambers estate his one-half interest.

A large portion of the land—8,500 acres—is under cultivation, being watered by numerous canals and laterals. The balance is stocked with about 3,500 head of blooded cattle and a large bunch of horses.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it does not cure. E. W. Groves' signature on each box, 25c.

PEOPLE WHO ARE PASSING

R. H. Keyes has returned from San Francisco, where he went to attend the annual meeting of the Pacific Retail Hardware Dealers' association. He says the people of California are not taking care of a whole row of furnaces, and the premises were kept scrupulously clean. Mr. Keyes left Mrs. Keyes in San Francisco, as she is not well enough to return to Salt Lake at present.

Treasurer S. B. Raymond of Cook county, Ill., was at the Knutsford last evening, enroute home from a trip to the Pacific coast.

CITY IS ADAMANT.

The efforts of the representatives of the various canal companies to induce the city to take part in the construction of a pumping plant in Utah Lake to increase the supply of water flowing down the Jordan river during the dry season, were of no avail. The city of Jordan county, president of the Southern Jordan company, J. C. Jensen, representing the East Jordan company; George C. Lambert, Peter Larson and S. M. T. Seddon, representing the Utah and Salt Lake Canal company, and Engineer Ingalls of the Lehi sugar works, were present this morning at the meeting in the mayor's office and presented arguments in favor of the proposed plant. The city was represented by Mayor Thompson, City Attorney Nye and City Engineer Kellogg.

After hearing the arguments it was decided by the city's representation that the plan would not be a feasible one, and that the city would not join the canal company in the proposition.

LATE LOCALS.

M. G. S. Leshar has been appointed pension examiner surgeon at Murray, Idaho.

The "News" is in receipt of a communication from S. L. Gardner of Farmington, who states in answer to the inquiry as to the whereabouts of Mrs. Elizabeth Stoker Ramsey, that that lady is now living in Richmond, Sever county.

The case of W. W. Beckstead against the Mountain Ice company, has been set for trial at the court house in Salt Lake on Jan. 1 there were about 20,000,000 pounds of wool in Boston, of which 27,282,600 pounds have since been sold.

At a meeting of the stockholders of the North Jordan Canal company today it was decided that the company would not join the others in putting in a pump to supply water to the Jordan river from Utah lake.

LOSING FLESH.

Are you losing flesh? If so, better consult your doctor at once. He will tell you the cause. We can provide the remedy, which is Scott's Emulsion of cod-liver oil.

A young woman in Batavia writes us she had lost twenty-five pounds in three months, and her lungs were seriously affected. She took three bottles of Scott's Emulsion and gained fifteen pounds, and was able to resume her work.

SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y.

AFTERNOON MINING CALL.

Trading Was Active in Ajax, Daly, West and May Day.

This afternoon, Daly-West was decidedly the feature, selling up to \$22.44. Notwithstanding the fact that in Boston considerably lower figures ruled, it is said that the stock is being manipulated here with a view of keeping prices up in Boston until some heavy selling orders may be put, it being a general opinion that in the face of litigation that may extend over months and perhaps years and be carried to the highest tribunal in the nation before settlement, that the stock can not be held up.

At presstime the following sales had been recorded:

Ajax	30.50	24 1/2	25 1/2
Daly-West	22.00	22.00	22.25
Grand Central	1.10	27.00	3.00
May Day	2.25	25 1/2	26 1/2

BUSINESS NOTES.

Today's bank clearings amounted to \$14,148.74, as against \$14,488.61 for the corresponding day of last year.

A. H. Woolley, manager of the grocery department of Z. C. M. L., has returned from a business trip to New York.

The regular monthly meeting of the board of directors of the Utah Sugar company will be held tomorrow morning at 10 o'clock at President Smith's office.

The grocery department of the Z. C. M. L. is being equipped with new shelving and counters.

A local flour man tells a hard tale on a milling concern (this state which is alleged to have placed a large quantity of straight grade flour on the Salt Lake market in high patent sacks at the rate of \$1.00 per sack, which in this instance was purely hypothetical. Of course there was a profit, a very satisfactory profit, to the originator of the idea, but it is his denunciation of the market, and opposition handlers have been busy explaining how it all came about to citizens who bought the flour and it would not work for the purpose to which high patent flour is put.

Major Bird has returned from a Denver business trip. He is R. A. Kierker at Denver en route for New York where the chances are very good for raising \$15,000 with which to develop the valuable asphaltum property of the Hydrocarbon company of this city whose mines are seven miles above Sunnyside station. It is understood that a very profitable line of by-products have been discovered in this asphaltum, and that the development of the property means a great thing for the state, also the owners of the property.

The Callister and E. H. Jenkins have bought 10,000 acres in Summit county from the Union Pacific road for \$10,000. The land will be used as a sheep range, and will accommodate nearly 30,000 sheep.

Mary N. Gray has sold to Hugh Kilgore 53x156 feet on Twelfth East street near Twelfth South for \$4,000.

Martha M. Woodbury has sold to C. T. Knight, 24x100 rods on Brigham street near Second East street for \$3,700.

Karl D. Hardy, of the Home Investment and Savings company of this city, has gone to Parna and Roswell, Ida., in the interest of the colonization plans of his company. A telegram was received this morning from C. H. Hurd of Boise, at Chicago by the Investment company stating that a large excursion was starting from Chicago today for Idaho under the auspices of Mr. Hurd. The company has sold four quarter sections of land near Bellevue to Joseph Nichols of Riverton in this county, who will remove thither with his two sons and son-in-law and their families. They take with them four carloads of household effects and 200 imported merino sheep. Two of the sections of land are improved and have houses and fences.

The Salt Lake Stockyards did a lively business yesterday. The management handled five cars of British horses for Moncreff Bros., bound for the Grand Junction corral, also four cars of stocker steers from the north for J. H. White who will put them to grass upon Antelope Island for grazing. The yards also handled 250 fat wethers from Hiram Stewart of Kayville for Knight & Co.

The board of governors of the Commercial club met tonight in the Main street headquarters of the club, and will add a number of names to the roster of membership. A telephone was not in use this morning, and the number in 222 Stationery has been secured and Secy. Harris is ready for any amount of business.

Secy. Axton of the Y. M. C. A., is the daily recipient of letters from all parts of the east inquiring about chances for securing positions with mercantile houses in this city. Most of the anxious inquirers are stenographers or bookkeepers. There seems to be a great desire among eastern people to locate in Salt Lake. Mr. Axton will turn such correspondence over to Secy. Harris of the Commercial club.

A Salt Lake wool and hide man replies to the claims recently made in the "News" that the wool market at the Boston market was practically free of wool, and calls attention to a recent statement in the American Wool and Cotton Reporter to the effect that on Jan. 1 there were about 20,000,000 pounds of wool in Boston, of which 27,282,600 pounds have since been sold.

At a meeting of the stockholders of the North Jordan Canal company today it was decided that the company would not join the others in putting in a pump to supply water to the Jordan river from Utah lake.

LOSING FLESH.

Are you losing flesh? If so, better consult your doctor at once. He will tell you the cause. We can provide the remedy, which is Scott's Emulsion of cod-liver oil.

Springtime

Its Enjoyment Depends Upon Your Condition of Health.

PAINE'S CELERY COMPOUND

Will Remove Your Burden of Disease and Suffering and Make Life Worth Living.

In springtime thousands resort to some remedy to purify the blood and to arouse its circulation with the view of banishing diseases common at this season.

Those whose intelligence directs them to make use of Paine's Celery Compound, know just what to expect in results when the great medicine is used. They are aware of the fact that their relatives, friends, and neighbors have used Paine's Celery Compound in the past, and that it has, in every case, proved the ideal invigorator for the run down, weak, and suffering; it has cleansed the blood and caused the life stream to course with vigor and health to every part of the body; it has banished the nerves; it has banished the agonies of rheumatism, neuralgia, and dyspepsia, and has triumphed over deadly kidney disease and liver troubles.

In the past, Paine's Celery Compound as a spring medicine has saved thousands of precious lives; today, its work is greater, more widespread, and more commanding than ever before, because people know it better and use it more freely. Headaches, sleeplessness, back-aches, heart troubles, sleeplessness, cold chills, night sweats, and fevers are quickly banished when Paine's Celery Compound is faithfully used. No other spring medicine keeps the confidence of so many earnest men and women. Paine's Celery Compound has compelled the admiration of the medical world, and will hold its high position as the surest, best, and most effective health giver. One or two bottles used at this time will work wonders for all who are weak, run down, nervous, and out-of-sorts.

Diamond Paints for all decorative work. Equal to 50c Gold Paint.
