DENVER FAKE STORIES.

Alleged Indian Outbreak on the Uintah Reservation.

Exciting Reports for Which There Was No Foundation-A Long

Story About Nothing.

The Denver papers have been publishing some exciting stories about an alleged outbreak of the Indians on the Uintah reservation in this State. The "News" last evening published a denial in toto of the stories, based on information elicited from the reservation. The following is a sample of the Denver stories, it having appeared in the Post of that city:

Salt Lake City, Utah, April 24.-News of another threatened outbreak of Uintah Indians reached here this morning. Two years ago these Indians killed several herds of sheep owned by leasers under the government. The indications are that more serious trouble is to occur over the same difficulty. The Indians are ugly and will fight in defense of what they consider their

The military authorities stationed in Denver are advised of the friction between the Uintah Indians of the Uncompangre reservation in Utah, along the Colorado line, and the white men who have been allowed to occupy and use lands within the boundaries of the reservation for grazing and mining

The Indians claim that they should be consulted before reservation are so used, and their complaint is the subject of correspondence between the military authorities and the interior department.

When the complaints of the Indians reached General Merriam, he reported the facts to Washington with the result that Inspector McLaughlin of the interior department was sent to the Um-compangre reservation to investigate General Merriam referred to the Indian troubles in the reservation in 1899. He detailed the cause of an outbreck which resulted in considerable bloodshed and would have caused more had he not promptly dered out troops who interposed bereservation with their herds of sheep, which polluted the waters and de stroyed the grass, and the indignant Indians who had not been allowed voice in the disposition of the grazing lands

It was reported in 1899 that the portions of the reservation rented were such as the Indians never used, and it was held by the agent that the interior department authorized the rental of such seceions as were so used. Before the matter was adjusted at Washington the friction led to troubles. Un the friction led to troubles. Uintahs protested against the pollution of the springs in the vicinity of their the springs in the vicinity of their tepee towns, by herds of sheep, where-upon the herders opened fire upon the Indians and great bloodshed was avert-ed only by the timely act of General Merriam, who ordered out a troop of cavalry under Colonel McGregor, who put an end to the affair, but not before two sheepmen and an Indian had been

In his recent report to Washington, General Merriam called attention to the fact that the same condition of affairs as that which caused the friction and the outbreak of Uintahs in 1899, now exists in the Uncompangre reservation and he believes that the only way to avoid trouble of a similar character is to accord to the Indians some rights in the disposition of property in which the government at least

guarantees them a certain equity.

The report of Inspector McLaughlin is to the effect that, while the Indians display a peaceable disposition, they are in the wrong, as the government does authorize the disposition of re-servation lands by rent for purposes of grazing and agriculture, but not for mining.

General Merriam is endeavoring to meet complaints with explanations and adjustment which will be satisfactory to all concerned, thus avoiding friction which, if long continued, would be like-ty to end in serious trouble.

General Merriam says he believes that an ounce of prevention may be as effectual in Indian affairs as in other

SITUATION DOWN ON UVADA CRADE

Short Line Forces Closing in on the Clark Camp

SAN PEDRO HOLDS TUNNEL.

Up ton Late Hour No Word Received from Los Angeles Officials to Withdraw from the Scene.

The Oregon Short Line forces are expected to come up to the first Clark camp by tomorrow noon. When they arrive on the scene and attempt to pass the San Pedro people it is on the cards that there will be a great amount of eloquence wasted on the desert air nine miles south of Uvada unless C. O. Whittemore wires instructions to vacate the grade in favor of the Short Line tracklayers in accordance with the decision of the secretary of the interior yesterday. Up to a late hour this afternoon Mr. Whittemore had not communicated with anyone in this city, in fact since he reached Washington he has not sent a wire to Salt Lake in regard to the situation or anything else.

The Short Line tracklayers yester-day put down a little over a mile of steel. If this record is kept up today by will be within half a mile of each other In the face of any impending trouble that may come up Sheriff Johnson, of Lincoln county, Nev., yesterday per-sonally notified the Clark and the Harriman forces that no infringement of the law would be tolerated for a minute, and that he would see that the law was enforced at any cost.

A letter received from Dutch Flat railroad camp, thirteen miles from Pa-Nev., by the "News" this morning throws some interesting light on the railroad situation down on the grade.

It is as follows: "All is quiet along the line. But it may be the quiet preceding a storm. Adam Paul was here last night and has just gone back up the grade. He says there may be trouble in a very few days. The Short Line crowd are pushing along this side of the summit will soon be up with the chief Clark force at tunnel No. 1. When they get there, trouble will be the air. The Short Liners have or-

in the air. ders to put the Clark men off the grade, while the others have been told to hold the grade. There is a large force on both sides and it is hard to say what will be the outcome. There will pos-sibly be a skirmish and then arrests will "The Oregon Short Line has been lay-

ing track in tunnel No. 1, while the Clark people have laid some in tunnels Nos. 2 and 3, below Clover Valley. "In a few days there will probably be a focus, and work can be begun in earnest. For whatever the issue may be regarding this disputed grade. Mr. Clark's road is going on. This is not the only way to get over the rim of the

"The proposed trip of the Oregon Short Line officials, through the south-ern part of Nevada, across to Los Angeles, for the purpose of looking for the best route, has fallen through, Teams from Panaca were hired and some of them waited here two days, for the outfit to come from Uvada, and then received word that the trip had been abandoned. So they returned, their faith not particularly strength-

ened "Some men have gone up in themountains south of here today to hunt for tie-timber, and if possible ties will soon be here ready for the laying of track "Teams and men are coming from all directions, and there seems to be no doubt but a very busy summer lies be-fore this section of country."

SHORT LINE GETS GRADE. Secretary of Interior Decides In Its Favor Yesterday.

Washington, April 25 .- The railroad right of way contest between the Utah. Nevada & California Railroad ocmpany, an auxiliary of the Oregon Short Line, and the Utah & California company. which belongs to the San Pedro, Los Angeles & Salt Lake company in which several St. Louis people are interested, was decided by Secretary of the interior Hitchcock today in favor of the firstnamed company, the Utah, Nevada & California road. The right of way in contest is about seventy miles long and extends southwesterly from the Utah-Nevada state line. About eleven years ago the Oregon Short Line & Utah Northern obtained a right of way over this ground, and at a cost of half a mil-lion dollars constructed a grade for a distance of seventy miles, which included six tunnels. The conditions at that time did not justify prosecuting the project further and it is only recently that interest has been resumed in the undertaking.

AMERICAN LOCOMOTIVES. Calcutta Port Commissioners Turn Down European Bids.

New York, April 26 .- The World says: An American concern has secured the contract for locomotives recently ordered by the Calcutta Port commissioners, despite active European com-

The Indian authorities invited bids in the open market for nine locomotives. The lowest British bid was that of Neilson, Reid & Company of Glasgow, Their price was 1,549 pounds against the Pittsburg Loocmotive company's bid of 1,378 pounds for each engine. The Pittsburg company also offered quicker delivery, undertaking to fulfill its contract inside of six months, while the shortest time given by British builders was nine months.

The Calcutta officials accepted the

tender of the American company. is the first contract for locomotives Americans have secured abroad through lower prices. Previous contracts have ome to this country because of prompt delivery.

locomotives ordered are of the eight wheel tank type, weighing about 97 tons each. They will be used for hauling heavy freight from the Calcutta docks.

ROUTE NOT DETERMINED

Vice President Bancroft Says That Engineers Are Not in the Field.

Naturally at this time there is considerable interest regarding the route which will be taken by the Oregon Short Line after the track has been laid on the old grade which is in dispute. The Oregon Short Line officials one and all state that the road is gopute. ing to be rushed through to the coast, but whether it will be extended to Beaumont on the Southern Pacific, or built to connect with the Utah & Arizona, as outlined by Hon. A. W. Mc-Cune in a morning paper, they profesa not to know.

When seen this morning and asked regarding the rumor to the effect that the Short Line would head right through to Chloride, a distance of about

miles from the end of the grade Vice President Bancrott said.
say nothing in regard to the route for
the reason that we have not yet got
the reason that we have not yet got Vice President Bancroft said: yond the fact that there were several routes under contemplation to be de-cided upon by the surveyors, Mr. Ban-

croft had nothing to say regarding the matter. It is stated that as soon as the Short Line secures the grade now in dispute and lays track on the same that it will take its time in further building toward California connections, and the present rush and record work is simply developed in the effort to hold This is denied by the Short Line officials as far as ceasing work when the end of the grade is reached is concerned. They say that they are going right through to the coast.

held in New York. The Oregon Short Line engineer's office is drawing up plans for the new big shops at Pocatello which will cost in the neighborhood of \$500,000 along the lines outlined in the "News" some months ago.

Sanpete Free Press: The Sanpete Valley seems to be strictly in the swim. On last Friday they had a train of cattle for Iowa: Saturday another of 21 cars and today will take out another train for Green River, Wyoming.

Now that Gould and Harriman control the Rio Grande Western and Winslow S. Pierce the Union Pacific general counsel, has been appointed one of th board of directors of the Denver & Rio Grande blg railroad changes may be looked for in Salt Lake during the coming summer,

Eight big steam shovels are expected to arrive in Ogden during the next few days. They are the property of Kli-patrick Bros. &Collins, who have been working on the Union Pacific cut-offs for the past two years. It is thought that they will be utilized on the work which is being outlined on the Southern Pacific improvements.

OLD NEWSPAPER MAN HERE John E. Luther of Indiana Gives the "News" a Call

The "News" received a pleasant call today from John E. Luther, an old resident of the State of Indiana. Mr. Luther is the proprietor of the Lake County Star, one of the most enterprising country weeklies in the state, and is a newspaper man of many years' experience. He visited Salt Lake in 1869 and again in 1882. He met President Brigham Young, for whom, he he always had a great admiration. Mr. Luther has been in southern California since last November. The people of Los Angeles are very enthusiastic over the new rallroad, and are pre-pared to stand by Salt Lake in the matter. After driving about the city and visiting some old friends Mr. Luther will continue on his way home.

Those famous little pills, DeWiit's Little Early Risers, will remove all impurities from your system, cleanse your bowels, make them regular. F. C. Schramm.

the use of Postum bring help? Experiments in artificial digestion show clearly to the scientific investigator that coffee arrests digestion, and according to one authority, allows only 61 per cent of the food to be digested. That strikes at the very key-stone to the arch of health. Failure in digestion means lack of good blood, and therefore a lack of food for the nerve centers. As the nerves control the organs of the entire body, one can readily understand that a disorganized nervous system may show effect in any part of the body

sues of the nerves.

Postum aids digestion without drug-

If the reader has ever failed to make Postum satisfactorily, it will be found that to allow it to boil 15 minutes after polling commences, will solve the problem, as it must be so boiled to extract taste, color and food value.
