WEST MOUNTAIN PLACER.

Directors Will Meet to Declare a Divi-

dend Soon.

It is expected that the directors of the West Mountain Placer Mining company will get together in a few days and post a dividend of \$5,00e. This is the only mining corporation, probably in all the world, that derives all its revenue from water and land rentals. The Copperton mill of the Utah Copper company is located on West Mountain placer ground as well as the source of the chief water supply to operate the plant.

ABOUT BALAKLALA.

A California Criticism About Copper

Propetry.

The Balaklala mine and plant are

shut down tight and only three or four

watchmen are employed, says Redding. California, advices.
"It is conceded by smelter authorities here that 95 per cent of construction work is finished and that

one month's work would prepare it for

ore production. It is a most excellent plant in every detail, and it should

have been producing long ago, but the trouble was that the New York end wanted a bigger plant so that it could

make a greater noise in the stock

The fact that people who were re

sponsible for the King Edward flota-tion are in the management of the Balaklala does not furnish much con-

solation for Balaklala stockholders. What the Balaklala company has need-

ed has been some good engineering talent "higher up." The practical operations on the ground have been all right. There has been too much stock market end to the proposition.

MINING, BUSINESS AND STOCKS

SUIT AGAINST KING COALITION

Park City Company Charged With Having Extracted Ore Without Authority.

TEN THOUSAND TONS.

Value of Which Alleged to be \$400, 000-From Conkling and Arthur Claims.

Nicholas Treweek and J. Leonard Burch are plaintiffs in a suit filed this morning in the United States district court against the Silver King Coalition Mines company. In the complaint in equity it is alleged the corporation has taken 10,000 tons of ore from ground owned by the plaintiffs and as the value of this ore is estimated at some. thing more than \$400,000, this sum is asked. The plaintiffs assert they own three-quarters interest in the Conkling and Arthur claims in the Uintah mining district, Summit county, Park City, King Coalition company drove underground tunnels into this ground and obtained 10,000 tops of silver-lead and other precious mineral ores.

The complaint also relates that on May 24, 1902, Mr. Treweek contracted a debt of \$5,000 with J. A. Creighton, the debt to carry 7 per cent and another debt of \$2,500 with Creighton, Oct. 13, 1903, the debt to carry 6 per cent per annum.

To bring about a cancelation of these

and subsequent transactions through payment Mr. Treweek made John Daugherty trustee, turning over onehalf of his (Treweek's) interest in the mining ground to him as a mortgage. Some time ago Mr. Treweek asked Mr. Daugherty to start some action against the company towards getting values from the interest but as Mr. Daugherty refused or failed to do this Mr. Tre-week and Mr. Burch have asked the courts, themselves, to make the com-pany pay for the ores said to have been extracted from the plaintiff's ground without remuneration to the

ON MINING EXCHANGE.

Stocks Quoted Some Lower Today-Closing Quotations and Sales,

Some of the mining stocks which re-corded gains yesterday suffered a slight reaction today. Silver was quoted off and that probably had an effect on market conditions. With the exception of Seven Troughs and New York Boof Seven Troughs and New York Bo-nanza, the sales of the regular fore-moon call were confined to the Tintic Issues. On the open board, Consolidat-ed Murcur went at 28 cents; Mountain Lake was bought by a buyer at the same price, while Seven Troughs closed on a sale at 33 cents.

There was little trading done in the unlisted stocks. Ohio was quoted low-er and one board lot was sold at \$2.50. The closing quotations and sales were:

It is asked that the petition be dis-missed.

NEVADA COPPER OUTPUT

Yerington District Has Furnished the

Bulk of It Lately.

The output of blister copper from Nevada in 1996 was 1,090,633 pounds, as

Nevada in 1905 was 1,090,633 pounds, as against a little more than 450,000 pounds in 1905. The mine production amounted to 1,625,985 pounds. Most of the ore produced in 1906, as in 1905, came from the mines of the Mason district in Lyon county. The ores shipped were of high grade, mostly oxydized, and went to California, Utah and Illinois for smelting. The output of this district in 1907 will probably beconsiderably larger.

considerably larger.

No production was reported in 1996 from the great disseminated chalcocite deposits in the Ely district in White Pine county. The Nevada Northern rallway was built, connecting the camp with the Southern Pacific, and construction was begun on mills and smelters. Development work was continued on a large scale and enormous reserves of low grade ore were blocked out. Production will probably be reported in 1997.

A report on the production of copper in 1906, prepared by L. C. Graton, geolo-

gist has just been published by the United States geological survey, as an advance chapter from "Mineral Re-sources of the United States, Calendar Year 1906."

A circular has been received by shareholders of the Silver King Coalishareholders of the Silver King Coalition Mines company explaining why it has been decided to suspend dividend payments for a time. The notice is signed by David Keith as president and Frank J. Westcott, as secretary, and reads as follows:

"At a meeting of the board of directors of the Silver King Coalition Mines company, held on the 28th day of December last, it was unanimously resolved that the payment of dividends be suspended until the further order of the board.

of the board.

of the board.
"This action was taken for the reason that, in the judgment of the board, the condition of the metal market is such that it is impossible for the company to realize a fair price for its ores. The unfavorable condition of the metal market and the low price of the metals has rendered it inadvisable to sacrifice the ores of the company in order to continue the payment of dividends.

"As soon, however, as the prices reach a normal stage, dividends will be resumed. The physical condition of your properties has never been better and it is not at all for lack of resources that dividends have been suscended. During the suscepted. sources that dividends have been sus-pended. During the suspension of divi-dends the mine will be shut down, so that no great expense will be incurred. The board is of the opinion that bet-ter prices will be obtained in the nea-future, when the operations will be resumed, resulting in the payment of dividends."

PIOCHE STARTING UP. Miners Going Back to Work in Ne. vada Utah Mine.

Late information received from Fioche has conveyed the information
that the Nevada Jiah Mines & Smelters corporation is getting ready to resume operations at the Day mine in
the Jack Rabbit section of the district. Members of the Miners' union
are applying for work again and seem
willing to accept the new schedule of
wages, which became effective on the
1st inst. Although the scale of wages
now in force is considerably lower than
the old one, it is no lower than the
one in force in the camp of Ely at
the present time. None of the Pioche
mines are shipping now on account of
the low metal prices; but just as soon the low metal prices; but just as soon as they come up again, there is no doubt but that the camp will do its share towards supplying the local market with lead, silver and copper

Bonds were firm.
The decision to place the Chicago Great Western in a receiver's hands had an unfavorable influence on other low priced stocks, especially Erie and Southern railway. The announcement of only the regular dividend on Northern Pacific also aggravated the general decline in prices. Northern Pacific yielded 3½, Southern railway preferred 2½, United Statese Rubber first preferred 2¼, Rock Island 1½, Southern railway 1¼, Amalgamated Copper 1½, and Union Pacific I.

son Pacific I.

Selling decreased materially but the market showed little inclination to rally outside of American Sugar, which recovered its previous decline. International paper preferred and Chicago Great Western preferred "A" rose land the common declined 18. Pacific 1.

cago Great Western preferred "A" rose I and the common declined 1%. The market closed irregular. Erle first preferred declined 1½, Toledo, St. Louis & Western preferred 1½ and Chicago Great Western preferred "B" 2½. A violent rebound in American Sugar to 3½ over last night conduced to a late rally in the market. Union Pacific preferred rose 2, United States Pipe preferred 1½ and International Pump I. Lackawanna advanced 15½ to 500.
