

THE EVENING NEWS.

Monday,

July 18, 1861.

LOCAL AND OTHER MATTERS.

TABERNACLE.—In the morning the congregation was addressed, in a plain and pointed manner, by Elder C. C. Rich, on the first principle of the gospel. He was followed by Elder G. Q. Cannon, who reasoned at considerable length on the same principles. President Geo. A. Smith followed in a few remarks, testifying to what had been said, and also to the truth of modern revelation.

In the afternoon President Brigham Young delivered an interesting discourse, which was reported verbatim, and will shortly appear in the news.

THEATRE.—On Saturday night, "Armada" and "Pocahontas" gave, seemingly, very great satisfaction to a good house.

To-night "Lotta" makes her first appearance as the "Marchioness" and "Little Nell" in the drama of that name. She will be supported by Messrs. Sayville, and Chapman, Mrs. Decker, and the full strength of the company.

The piece is very celebrated, and so is "Lotta," and all who want to see the most unique genius of which the stage in America, and probably the stage in any other country, can boast, should not fail to go and see "Lotta." Her stay here will be of very brief duration.

A MORMON MISSIONARY.—We clip the following from a Philadelphia exchange of a recent date:

"We held a pleasant chat yesterday with Mr. Warren N. Dusenberry, of Salt Lake City, who has now been out for two years on a proselytizing tour. He is an intelligent and pleasant American gentleman, and wouldn't frighten the most violent opponent of Mormonism. He gave us a pretty full exposition of the faith of the Latter-day Saints, and though he didn't make a convert of us, we certainly hope his church may do all the good he thinks it will."

By the way, Mr. D.'s mother was a Coeey, a resident of this county, and danced many a night in the old Slocum house. The Mormons, evidently, are not all foreigners."

Lotta, the great American Theatrical Star on Monday night.

FRANK LESLIE'S ILLUSTRATED.—In this journal there is now being issued a continued story entitled "Was She Married?" Yes. "When?" in which the lovers of sensational trash have dished up to them all the stale platitudes in vogue years ago, about "Mormon" murderers, "Danites," harlots, lust, cupidity, sanguinary instinct, cunning, ignorance, idioty, etc., etc., ad libitum. Dear me, it's really fearful! And yet this trashy journal finds purchasers and readers in Utah Territory. We shall have a very poor opinion after this of any of our people who either read it or vend such balderdash to the public!

FOURTH IN THE SETTLEMENTS.—We have received accounts of the celebration of the Fourth in Wellsville, Cache Co., and Meadow City, Millard Co., in both of which places the people had a splendid time. Processions were formed, parading the streets to the meeting houses, where the exercises consisted of reading of Declaration of Independence, orations, songs, toasts, etc.

Lotta, the inimitable, at the Theatre Monday night.

MEDOW CITY.—Brother John L. Smith, writing from this place on the 6th inst., says:

"Our crops look exceedingly well and bid fair to richly compensate the farmers for their toil. Much of our wheat is beginning to ripen, and the greater portion will soon be out of the way of the hoppers, which have done little or no injury, although there are millions of them in our fields who have called while passing, to rest their weary wings."

The citizens of this place have enclosed this season, from three to five hundred acres of excellent grass land, where the surplus high water has been running, to provide us with hay. Considerable improvement is going on and all hearst seem to be in unison to beautify and build up Zion.

General health prevails. Reapers and mowers are being fitted up ready for work in order to save the farmer from so much toil. A report says the hoppers are now moving down the late wheat."

Go and see Lotta the Cantatrice and Danseuse on Monday night.

BEAUTIFYING THE COMPLEXION.—Our Cheyenne exchanges tell of a young lady living at a boarding house on Eddy Street, in that city, who, recently, in trying to improve her complexion, took over dose of arsenic, the results being almost fatal.

It would have been no great loss if they had."

PROFESSOR ANDREWS.—The rules for adding, multiplying and reckoning integers taught by this gentleman, are extremely simple and worthy of the attention of accountants. What we have seen of them pleases us.

Remember that Lotta the Wonderfull, plays on Monday night at O'Farrell's.

INNKEEPER.—Several of our California exchanges this morning contain an account of an outrage committed by some young rowdies on an unfortunate Chinaman on the 7th inst. It appears that "John," who was heavily laden with a number of articles, was beaten by a group of these young scoundrels, one of whom threw a handful of cayenne pepper into his eyes, and tried to repeat the dose, but a powerful wind, blown by the wind, into his own nose and eyes, causing him to yell with pain. The rest of the young scoundrels commenced pelting the Chinaman and destroying his vegetables, he being unable to defend himself from those scoundrels. In consequence of being blinded with the pepper, he was only rescued from further ill-treatment by some ladies living close by.

BEXTER ITSMAN.—Bro. Wm. Rotheringham, under date of the 6th inst., writes, "We have been visited by several armies of locusts during the past week which came from the South. They covered our fields and gardens, and notwithstanding the shortness of their stay, they have done considerable damage in places. When they left they took a north and northeasterly course. The crops never looked better in this country than they do the present season. If we have no more visits from the locusts, nor any other agents to destroy our crops, we will have a tolerably fair harvest yet. Our new brick co-operative store is finished and in use. We are now getting the materials on the ground and the foundation made. The health of the people is generally good."

VALUABLE BRONZES.—On Saturday the 4th inst. a gold brazier weighing 100 ounces was cast at the assay office of Bohm & Co., Philadelphia, containing 100 fine days of copper, tin, zinc, lead, and silver, weighing 500 dollars. This brazier was the largest ever cast in Montana. The value of the same is \$30,000 in coin or \$4,000 in currency.

FIRE AT ST. GEORGE.—The Rio Virgin

Times of the 15th ult. says:

"Yesterday about 4 o'clock as the wind was blowing a gale, the shop of Joe On Wright, fireman, the blacksmith, dry wood, at the back, and all except the walls, including the contents of the two rooms, was totally consumed, together with outbuildings and a coop of two dozen fowls, a portion of the vegetation, trees and shrubs, and timber. The wind blew across the lot to the stock and sheep pens. Wells which were also consumed. Damage near \$1,000. Bro. Orion is an industrious man and deserves the sympathy of our citizens."

YOUNG DELIVERED AN INTERESTING DISCOURSE.—Young delivered an interesting discourse, which was reported verbatim, and will shortly appear in the news.

THEATRE.—On Saturday night, "Armada" and "Pocahontas" gave, seemingly, very great satisfaction to a good house.

To-night "Lotta" makes her first appearance as the "Marchioness" and "Little Nell" in the drama of that name. She will be supported by Messrs. Sayville, and Chapman, Mrs. Decker, and the full strength of the company.
