The returns are peculiarly encouraging because of the remarkably heavy increase that appears in the exchanges of the most important cities. It will be seen that New York, Boston, Philadelphia, Chicago and Bultimore report near twelve-thirteenth's of the entire transactions, so that the decrease which appears at other cities is relatively unimportant.

The Labor Commissee. labor committee spent the forenoon at the stoca yards, and in the afteruoon and evening heard the views of some of the prominent Socialists. Jas. Taylor, author of American Currency and other books, regarded contraction as the undoubted cause of hard times in this as in avery other nation. He suggested as every other nation. He suggested as a remedy for depression that we substitute national security for private credit. Sperry, an iron founder, considered convict labor one cause of the depression. He would have Congress pass a law requiring convict made articles to be stamped "convict." J. T.
